Hello Sir, following is what I have been upto till now:

I started my career as a consultant with Zensar Technologies in 2000. I got trained as an Oracle DBA to work for P&O Nedlloyd (world's 2nd biggest shipping company). I left the company when it was acquired by Maersk in 2007. Then I joined Synechron Technologies which was only 400 employees then and grew up in ranks alongwith the company. By the time I left Synechron as Director & Head of Database Centre of Excellence in 2013, it crossed 5000 employees mark & crossed revenue of \$500 million.

In 2013 I thought of starting something of my own, hence the idea of preschool Kidzee cropped up.

Currently alongwith the preschool , I am also working for an Institute as Director for Strategic Collaboration.

Alongside all this I am working on two startup products.

I play badminton everyday & learning guitar.

Hope this is ok. See you tomorrow.

Regards,

Pranav Bairagi
