CAMPUS TO CORPORATE WORKSHOP

ON 15 MAR 2018

1. Lakshya Professionals (a team of AIT alumni working with HSBC), have designed a very specific and efficient training program for third year students.
2. About the Workshop. This session is intended to give a good exposure to the student community to a professional corporate environment, the opportunities, challenges, and most importantly the major shift in expectations that the working environment will place upon them. The intent is to motivate the students standing at the threshold of industry to develop and enhance the attitudes and soft skills that will empower them to successfully navigate and excel in their professional careers. This session will also aim to capture questions and concerns about industry careers, experience and challenges, which will be answered in depth in the full workshop.
3. Course contents and other details are uploaded on aitplacements.com.
4. This workshop is for 40 students, 10 from each branch. All HODs are requested to share 10 names to T&P Cell.
5. All the 40 nominated students are required to be seated in Manekshaw Hall by 9.00 a.m on ~~15~~ Mar 2018. Workshop will be conducted in M Hall from 9 a.m to 1.30 p.m and in BC Joshi Hall from 2.30 p.m.

INAUGURAL PLENARY

India has one of the world's largest education systems, which includes 1.3 million schools, over 35,000 higher educational institutions including colleges and universities. Over the last decade, the education market, especially the higher education sector, has witnessed massive expansion in terms of growth and enrolment. With several layers of collaboration being built by the government to develop the Make in India program, there is a need to create avenues for a close academia and industry interaction through all the phases of technology development, starting from conceptualizing to commercialization.

BRIDGING THE GAP

Why & How of Industry-Institute-Interaction?

The largest pool of graduates in India is generalists with broad socio-economic knowledge but no specific technical skills. There is a "definite disconnect" between the skills and aptitude of the majority of graduates and the needs of industry. In other words, what can be done to bridge the gap between academia and industry and what steps can be taken for this to happen in this present day and age?

1155 – 1200 hrs	<i>Session Changeover</i>	

**Plenary II: 1200 – 1315 hrs:****REFORM AND CHANGE FOR PRACTICAL LEARNING*****Changing the dynamics with regards to quality education, innovation and research***

The higher education sector in India is currently at a critical inflection point as India seeks to transform into a global knowledge economy. India's 'demographic dividend' with a large section of the population in the age group of 15-25, poses a challenge for providing quality education opportunities. One of the ways is to create enabling policies to meet growing expectations. To ensure effective growth of higher education institutions globally, we need to develop strategies supported by policies which will infuse / accelerate the growth. This session will focus on the expected / aspired future directions for higher education in India.

Many types of university-industry links have different objectives, scopes, and institutional arrangements. It is useful to understand the different types of university-industry collaboration, motivations to form these agreements and barriers to cooperation, as well as the role of public policy in fostering such linkages. Let's explore through best practices, which can be used by researchers and practitioners to make informed decisions on how to structure their collaborations.

"Innovation as a Strategy"

The key to success in becoming an innovative organisation is to create a culture of innovation—an environment that encourages creative ideas and innovation on an ongoing basis. If organisations are serious about innovation, they have to establish innovation as a strategic imperative. They do this by making innovation one of the top items on their leadership agenda. This session will focus on how Industry Leaders are inculcating the Innovation Culture in the Organisations and thriving on the same
