To: <director@aitpune.edu.in>

Dear Brigadier Abhay A Bhat,

Greetings from TalentSprint!

Pleased to share that we have successfully conducted the digital launch and induction session at 27 of our TSCoE partner institutions. We have opened up new slots again for next week.

Please see the slots available for induction here. Please note that these slots are allocated on a first come first serve basis.

As mentioned in the previous email, we will provide LMS access for our platform to all your students as part of the CoE complementary offerings. This platform has 4000+ rich video content and practice tests for placement readiness. Every week we are releasing company based tests for which they will get personalized feedback reports.

We are introducing this opportunity to students through an induction program next week. We are conducting this induction in a cascaded mode to ensure a deeper level of engagement. We would like to invite some faculty members so that they can also understand the initiative and guide students accordingly. We request you to share a list of 100 participants including faculty and student coordinators (ideally 2-4 students from each class/ section) for the same.

Please find the email to be sent to students who will be attending the event: Email invitation to students.

Below is the agenda for the event.

AGENDA	Duration	Speaker
Keynote Address: TSCOE at Your Campus	0:05	Purvi / Vathsala
Extreme Automation: The New Normal	0:20	Rithwick
Building a Career in the New Normal	0:20	Rithwick / Vathsala
iPearl: LMS Platform Walkthrough	0:30	Shalmali
Q&A	0:10	All
Vote of Thanks	0:05	Ajeej

We request you to kindly share the following in the timelines suggested to ensure smooth and hassle free implementation.

1. Your preferred slot in the https://bit.ly/3jH54Y3 by 6 PM on Monday, August 3, 2020.

2. List of students in the attached format for creating LMS access by 6 PM on Tuesday, August 4, 2020
3. List of 100 participants (faculty and student coordinators) in the attached format for the induction by 6 PM on Tuesday, August 4, 2020

Please let me know if any support/clarification is required.

Looking forward to a great start with this event.

Regards,

Ajeej Shaik

ZS-AIT BE 2021 DATABASE.xlsx;

Hi Manoj Sir,

Thank you for sharing the database, the list is good to go. We can invite all of them for the virtual Pre-Placement Talk.

Reconfirming the updated date and time for PPT and recruiting below:

Phase	Event	Date	Time	Event location
Phase 1	Pre-Placement Talk	10-Jul-20	03:00 PM	Zoom (link shared below)
	Online Test (MCQ Round + PSDD + TBI)	11-Jul-20 to 12-Jul-20	07:00 PM on 11-Jul-20 to 07:00 AM on 12-Jul-20	To be taken remotely by students on personal laptop
Phase 2	Recruitment (Case Study + Behavioral interview)	23-Jul-20	08:00 AM onwards	Virtual Platforms (Details to be shared by ZS closer to the recruitment date)

Zoom link for Pre-Placement Talk:

Link: https://zs.zoom.us/j/93712464223?pwd=SDdHK3ViNEpUaTZHUTZHR29kVnJLUT09
Password: 087691

Other instructions for the Zoom PPT session (for students):

Do's:

- Remain on mute through-out the session
- The platform allows us to communicate one-way via oral communication and the same will be utilized via the ZS facilitators to impart the learnings and hence we would request you to patiently wait till the Q&A session to get your queries clarified
- Utilize the chat-box to ask all your queries, we will respond to them in the order received
- Have a piece of paper and pen handy with you to solve any questions that come your way

Don'ts:

- Engage in any kind of conversation with ZS team or your peers during the session to avoid any background disturbances

Please feel free to reach out to me in case of any queries.

Thank you.

Invite and Registration for Cloud computing session

Shilpa Singh <Shilpa.Singh@veritas.com>
Sat 27-Jun-20 10:16 AM

To: Training Placement Officer TPO <tpo@aitpune.edu.in>

Hello Mr. Manoj,

Veritas is excited to launch the webinar series and invite AIT College Students to be part of this journey.
The first topic is "Cloud Computing" and we will be starting it from 30th June. Hope you have got the invite.

Here are few things where we would like your help in better coordinating this activity...
    a. Kindly spread and socialize this event within the college to invite more attendees.
    b. Please allow the interested students to register with you and provide the following details.
        * Name
        * Year of Engineering
        * Branch
        * College Name

    This will help us understand the audience and also arrange for the logistics

Going forward , will send the joining link with invite.
Kindly make sure all interested students get a chance to join the webinar.
We will send the link to join tomorrow.

Regards,
Shilpa

📎 1 attachments (577 KB)
IMS PTP Proposal.pdf;

Dear Sir,

This is with reference to our discussion on imparting online
training to your students for Campus Recruitment.

To begin with, we would be glad to conduct a free session
on **"How to prepare for an Aptitude Test"** for all your
students, on Wednesday at 6pm (Date and time can be
changed if required).
The session flow will be as follows
How to prepare for an Aptitude test (Insights & QA LR DI) 5pm
-6.30pm
How to prepare for an Aptitude test (VA RC) 6.30pm -8pm

Since this session is online, we also intend to keep it open for
all the Engg colleges in Pune. This will help us in connecting
with many colleges and their students via this single session.
We will also be highly obliged if you can help us communicate
this message to other Engg colleges in Pune.

**Upon agreement, I will share a Zoom registration link for
the session. I have attached a CRT Program
proposal offered by IMS for your reference.** Hoping for a
long and fruitful association.

Regards
Abhas Mittal

Hello Professor,

Our Executive Board has advised us to refrain from conducting/attending any gathering that has more than 30 people. Due to that, they have advised us to put on hold, any further courses to AIT for this semester.

Therefore, we are suspending the classes, but encouraging the students to continue to work on the lab work and report back to the captains//leads accordingly.

Thanks

Hi,

My name is Sangar Jitendra, I have 12 years of industry experience in various roles ranging from a scientist in a government organization to Engineering Manager in an early-stage startup. Presently, I am based out of Amsterdam.
In my journey, I have worked with organizations like ISRO, Cisco, Microsoft, Flipkart, Booking.com, worked as developers, tech lead, and manager. Apart from my daily job, I have a passion for teaching, I maintain my own website called algorithmsandme.com.

I have gone through many interviews on both sides of the table. I will be talking about what an interviewer is looking for during those 45 mins.

Regards
Jitendra Sangar

Hello Sir

Greetings from GeeksforGeeks!

We hope that you are doing well and safe at your end.

Thanks for your valuable time. We are happy to connect with a professor like you who always stood for the betterment of the students.

For the further steps regarding the conduct of the DSA Test, we would like to request you to provide an available tentative date and a Two Hour time slot for the same as per the availability of the concerned students.

This DSA Self Paced Test primarily focuses on pre-final and final year CSE and IT students but at GeeksforGeeks we believe to provide a fair chance to every student so that they can get maximum benefits out of our initiatives regardless of their branch and graduation year that's why any student who has

studied data structure and wish to appear in the test, they should be allowed to participate in the test from
the institute ends.

Test Mode: Online
Test Duration: 2 Hours
Test Pattern: 10 MCQ Based questions and 2 Coding Problems.

Looking forward to hearing from you

Thanks & Regards
GeeksforGeeks

About the Speaker.pdf; Webinar for Army Institute of Technology.png;

Respected Sir,

Greetings from "Learning From Ant".

I am sharing the "Microsoft Teams Meeting Link" for the Webinar along with the Message, Invitation Flyer, Webinar Details, and the Speaker Profile which are to be shared with the students.

Message for the students:

"Learning from Ant" is planning to conduct a webinar for your institute as a part of a series of webinars that we are conducting for colleges across India. We have conducted sessions for many prestigious institutes including IIT Kanpur, IIT Indore, IIT Patna, IIT Mandi, IIT Bhubaneshwar, IIT Palakkad, NIT Warangal, NIT Durgapur, NIT Rourkela, MANIT Bhopal, NIT Surathkal, NIT Andhra Pradesh, IIITDM Jabalpur, IIIT Nagpur, IIIT Dharwad, IIIT Guwahati and BIT Mesra to name a few.

It would be an interactive session in which the students can ask any kind of doubts and queries related to their career, placements, resume, communication, grooming, interview preparation, aptitude preparation, etc. It is not only going to help them crack the toughest of interviews but also going to help them take informed calls for the next 5 years in their career.

Details for the Webinar:

Topic: "INTERVIEW TECHNIQUES AND RESUME BUILDING"

Speaker: ANURAG SHARMA

Date: 11TH NOVEMBER, 2020 (WEDNESDAY)

Timing: 11 AM to 1 PM

Duration: 2 hours

Session Structure: 1 hour 15 minutes for the Speaker and 45 minutes Open House session with the students where they can ask their queries and doubts

Mode: Microsoft Teams Meeting

Please join the meeting through the link -

https://teams.microsoft.com/l/meetup-join/19%3af57e966f5beb4acea58c81f55ef1e5ca%40thread.tacv2/1604669468688?context=%7b%22Tid%22%3a%2200e6d239-fb75-401c-84c7-fb6a4769053d%22%2c%22Oid%22%3a%22fda6405f-baea-4ec8-93ec-0e17f9ed3625%22%7d

Maximum Participants: 350

Entry: First come first serve basis

Recommended for PRE-FINAL & FINAL YEAR students of all departments

Session is OPEN for students of all courses and streams

Kindly join the meeting on 11TH NOVEMBER, 2020 (WEDNESDAY) from 10:40 AM onwards.

Please ensure that all the students join by 11 AM sharp.

Please install "Microsoft Teams" in your laptops/ smartphones before the session.

**NOTE - The session will only be conducted if the number of students is more than 150 at sharp 11 AM, else the session won't be conducted.

Thank you.

Looking forward to a long-term association with your institution.

Best Regards,

About the Speaker:

By education, he is a Mechanical Engineer, by profession a Mathematician and by choice; an enthusiastic Theatre Artist, Writer, Motivational Speaker, Mentor, Life Coach, Corporate Trainer, and Entrepreneur.

His first encounter with teaching happened when he was in the 11th standard and took some classes for 10th standard students. He comes with an experience of more than 16 years in the education sector and training more than 50,000 students and most of his students made it to the IIT's, IIM's, XLRI, Harvard, and various other prestigious institutes across India and the globe. He has a strong and rich alumni network of students from Ivy colleges.

In these 16 years, he was constantly involved in various domains be it teaching, mentoring, consulting, and grooming. He was actively involved in taking mathematics for IIT – JEE to numerous workshops on Quant, Logical Reasoning, and Data Interpretation for students preparing for management entrance exams. He was also involved in conducting numerous workshops on interview techniques, grooming, and the importance of dressing and body language across India.

He also conducts mentoring sessions for parents so that they can understand the importance of opportunities and should be able to make informed calls.

Thanks.

Workshop : "Mastering how to take rational decisions"

Different employers look for different things but decision-making skills are sought by virtually all companies. Decision-making is a cognitive process that helps solve problems by scrutinizing alternative options and determining the best alternative to take. In simple terms, it is an act of making a choice among available options. What is a Decision? A decision, in short, can be defined as a course of action purposely chosen from a set of alternatives to achieve personal, organizational or managerial objectives.

Using a step-by-step approach is an efficient way to make thoughtful, informed decisions that have a positive impact on organization's short and long-term goals. The business decision making is a step-by-step process allowing professionals to solve problems by weighing evidence, examining alternatives, and choosing a path from there. In order to examine the inputs in an analytical and critical manner, we may use tools and techniques viz- Root Cause Analysis, Pareto analysis, Histograms, Precedence Charts etc.

An important part of a good decision process is generating as many good alternatives as sensibly possible to consider. Alternatives should be capable of being implemented, whether on a personal or organisational level. In the final step, consider the results of your decision and evaluate whether or not it has resolved the problem. If the decision has not met the identified need, there may be a requirement to repeat certain steps of the process to make a new decision. Decision making, thus, comprises of six steps- 1. Context for success 2. The framing challenge 3. Generating alternatives 4. Evaluate alternatives 5. Making a decision 6. Review decision.

How all these tools, procedures and processes are put to use in real world ? You are aware of multinational fast food chain restaurant McDonalds. Established in 1955, it had a good performance in fast-food industry. It had a long standing reputation for strong marketing campaigns, however it was not always so and there were issues which threatened its brand image, revenues and leadership position. So how did it use Decision making process to successfully regain its lost ground and continue to grow. The market demand had changed over the recent years, McDonald's needed to adapt to the new environment in order to maintain its position. The adoption of rational decisions ensured McDonald's retained its position as a market leader.

Decision making is a skill. As you gain more experience in making decisions and more familiar with the tools needed for effective decision making, your quality of decisions will have a marked difference. Ultimately, improving your decision-making skills will benefit you and your organization.

Sub :- w/s - Personality dev.
(Pre final year students)

We are tapping some new training organizations to explore good courses for TE students.

It is planned to have one workshop on 18th Oct. Details are placed.

Charges - 2500/-

> Hello Prof Manoj Khaladkar sir,

Thanks for sparing your time on 07 Mar 2020 for an in person meeting on conduct of Skill Development Workshop/ lectures at your esteemed college.
Please find attached the brochure and list of courses under the four modules. As was discussed during the meeting, please find given below one of the suggested systematic approach to upskill the students :-

2nd Year

- Communication Skills
- Public Speaking
- Effective presentation

3rd Year

- Decision Making
- Negotiation Skill
- Group Discussion
- CV Writing

Final Year

- Facing an Interview
- Stress and Time management
- Leadership lessons from the Army (Lecture)

All above four Modules have both Workshop courses and Lecture courses. Different formats of conduct are as given below :-

- The workshop course will be for four hours (20-30 participants) and will cost INR 5,000.
- The short workshop course will be for two hours (50-60 participants) and will cost INR 2,500.
- Each lecture course will be of 1 hour and will cost INR 1,000.

Since you are planning to engage the Centerpoitn4skills in month of Jun 2020, it may be best to finalize the courses so as to allow time for customizing the modules as per your requirement. Please let me know if we need to have another in person meeting at AIT to discuss further.

KPMG's Career Accelerator Series- Volume 1 || 10th October 1pm to 2:30pm || 2 days to go

Bekal, Kaushik <kaushikbekal@kpmg.com>

Thu 08-Oct-20 3:27 PM

To: Training Placement Officer TPO <tpo@aitpune.edu.in>

Dear Sir or Madam,

Hope you and your loved ones are safe and doing well in the new normal!

The changing times have made it an imperative to look at Data & Analytics skill sets closely as the world moves swiftly towards newer ways of working. In a World Economic Forum survey, employers have rated Big Data, Artificial Intelligence, Internet of Things and Cloud Technology as the top technological drivers of change.

But what is the right career choice?
What does it really take to be a data engineer or a data scientist?
Help your students gain clarity on such pertinent questions & more, by attending the Career Accelerator webinar series being organized by KPMG. Please note that no registration fees are involved.

Also please visit the google drive link:
https://docs.google.com/file/d/1J0YjK0SzlrmiAcMYujYafxHPpUafB6QU/edit?usp=docslist_api&filetype=msword for draft message and poster to be shared on WhatsApp & other social media platforms.

Also, request you to share the draft below with the student members, alumni network, faculty body and other interested folks to guide & enlighten them on their career aspirations!

Dear students & alumni of Army Institute of Technology, Pune,

Trust you are safe and doing well!
Hope you have registered yourself for the KPMG webinar on "Addressing the career choice dilemma- data scientist vs data engineer" on 10th October between 1pm to 2:30pm.
If not, why wait???

Bootcamp on how to create and deploy a chatbot

Objective:

Create and deploy chatbot with Watson Assistant

Chatbot is an AI based software application that is used to simulate a conversation or chatting with a user in natural language, carried over messaging apps, websites or a mobile app. Chatbots use natural language recognition capabilities to discern the intent of what a user is saying, in order to respond to inquiries and requests. Chatbot market is growing exponentially, as per one of the reports on chatbot market global forecast 2024, the chatbot market size is expected to grow from USD 2.6 billion in 2019 to USD 9.4 billion by 2024, at a Compound Annual Growth Rate (CAGR) of 29.7% during the forecast period.
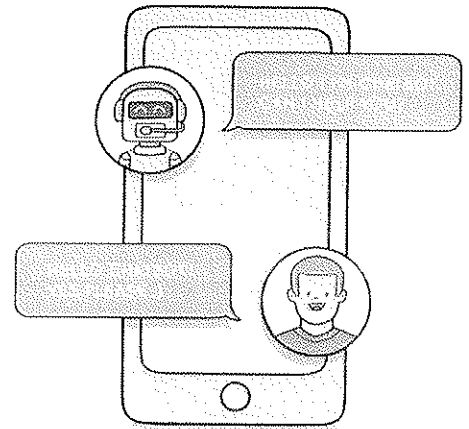

The key growth factors of market include significant development in technology, customer centric 24x7 support, focus on developing self-learning chatbots to deliver human like conversational experience and increasing use of Chatbots in various industries is creating many opportunities in the market.

This bootcamp gives you an opportunity to learn this rapidly emerging technology by building a text based chatbot, by deploying a chatbot on social media platforms like Facebook or to put a chatbot on your own website or make money by building chatbots for clients through experiential learning with Watson assistant, you'll learn how to plan, build, test, analyse, and deploy a chatbot.

Total Duration: 3 hours

Learning Outcomes:

After successfully participating in this bootcamp learners will have fair understanding of:
1. What is chatbot and chatbot applications
2. How to design a chatbot without the need to write any code
3. How to quickly deploy a chatbot

Pre-requisites
1. Basic understanding of IBM Watson: https://www.ibm.com/watson/about
2. Account on IBM cloud: https://cocl.us/CB0103EN_BM

Logistics/tools required
1. Laptop/computer with good internet connectivity

Agenda
1. Introduction to chatbots, its applications and getting familiar with IBM Watson Assistant
2. Working with intents, entities and dialogues
3. Deploy and test your chatbot

Cc: internationaleducation@byjus.com <internationaleducation@byjus.com>

Dear Sir,

As discussed over the phone, we request you to give us an opportunity to host an exclusive webinar for your college students on the topic "Profile Building for Placements and Higher education."
We shall be talking in-depth about how to crack interview in :
1) IOT & Data Science 2) Embedded systems & VLSI 3) Full stack development & UI- UX.

We also will be teaching students Patented techniques of Solving Math (Quant) and Reading Comprehension.

Speaker profile : Mr. PN Santhosh (founder member BYJUS, ISB HYD Alumni)

We request you to kindly give us a data this week Thursday or Friday. So that I can get the collaterals ready for the same. And also it will be our pleasure to sponsor for any of the fest / activities conducted by AIT.

Thanks & Regards,
Nitin kumar

Vodafone India Foundation

_VO**IS**

Connecting DReaMS
Foundation
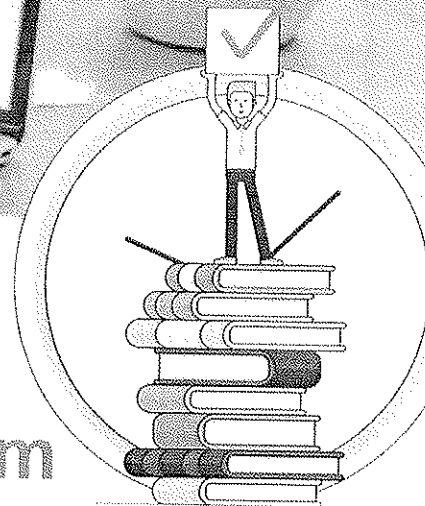

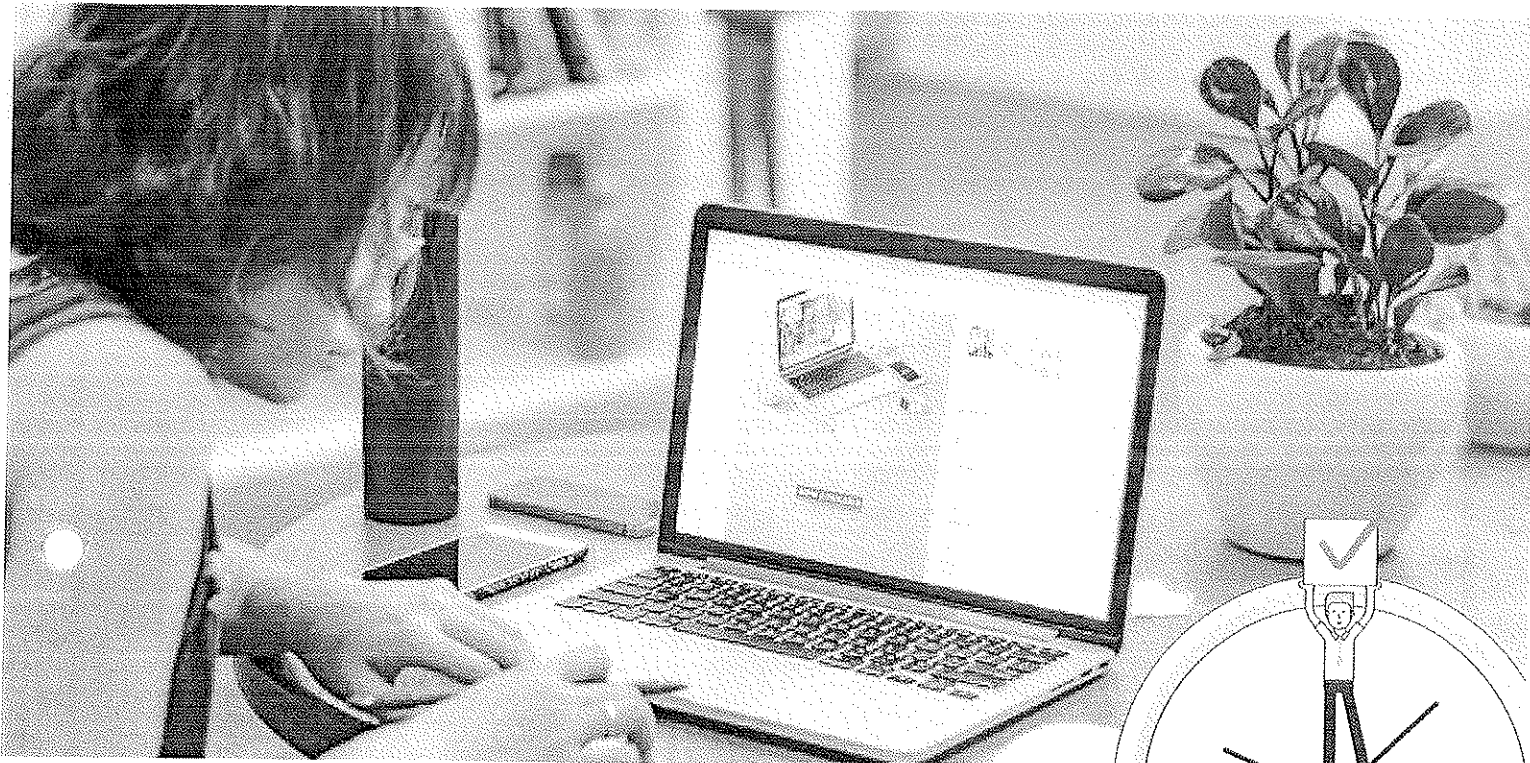

Learning With Vodafone
University Engagement Program

With new employment trends and skills emerging in an ever-evolving, dynamic world, we bring forth an opportunity to enable the faculty along with the students to learn experientially and understand the emerging technology areas as well as their applications. Through this engagement program, the Vodafone Foundation along with its implementing partner Connecting Dreams Foundation (CDF), aims to enhance the employability of students in the ITSS sector in future technology areas

- Data Analytics
- Design Thinking Principles
- Machine Learning
- Cloud Computing
- Artificial Intelligence

and many more....
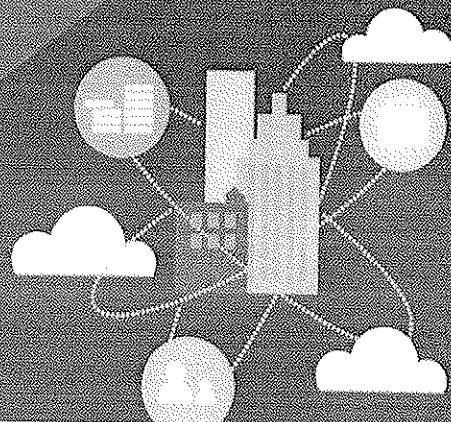

For students

- Gain hands-on experience in emerging technologies ensuring job-readiness
- Practice the new skills by creating meaningful solutions for real-world use cases
- Support and mentorship from Industry experts ensuring holistic learning

For faculty

- Collaborate with Industry experts to learn new skills
- Enhance technical capacity through hands-on learning experience
- Gain relevant technical skills required for teaching the course
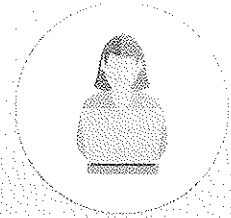

Opportunity to work on real-world projects

Certificates issued by Vodafone Foundation
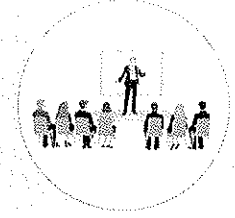

Technology Bootcamps of real-world use cases

About Vodafone Intelligent Solutions

Vodafone Intelligent Solutions (_VOIS), formerly known as Vodafone Shared Services (VSS) is a strategic arm of Vodafone Group Plc, for which it creates value by enhancing quality and efficiency of a number of processes in the IT/ ITeS domain. Established in 2006, _VOIS has evolved into a global, multi-functional organization that currently has centers across India, Egypt, Romania and Hungary. In 2009, _VOIS started operating in India and now has established global delivery centers in Pune, Bangalore and Ahmedabad. _VOIS India supports global markets and group functions of Vodafone, and delivers best-in-class customer experience through multi-functional services in the areas of Information Technology, Networks, Business Intelligence and Analytics, Digital Business Solutions (Robotics & AI), Commercial Operations (Consumer & Enterprise), Finance Operations, Supply Chain Operations and HR Shared Services

About Vodafone India Foundation

Vodafone India Foundation network has focused on combining Vodafone's expertise with the company's charitable giving to do social good in the world. As Vodafone's reach continues to expand - moving from mobile to connectivity - there are greater opportunities for Vodafone India Foundation to harness these advancements for the benefit of society. In India, Vodafone India Foundation focuses on addressing challenges relating to education, equality, and access. We are committed to enabling people and technology to drive innovation disseminate knowledge and create shared value to improve lives. We work in partnership with key charities, development agencies and the community to drive social change on a large scale in India.

About Connecting Dreams Foundation (CDF)

CDF is focused on bridging the academia-industry divide, enhancing student employability, promotir innovation and creating an entrepreneurial ecosystem for youth. CDF is a social enterprise th believes that lasting changes to society can only come from ubiquitous, high quality, market releva educational interventions to youth.

Dear Professor:

We wanted to quickly check with you if Monday 3:30 PM (7th September, 2020) is okay to suggest instead of 3:00 PM.

The other alternate day and time stands at Wednesday 2 PM (9th September, 2020)

Hope that is okay.

On Wed, Sep 2, 2020 at 1:02 PM Jennifer S Vincent <jennifer@fice.in> wrote:
  Dear Professor:

It was a pleasure to connect with you and all the faculties. Please find attached the brochure for the program.

The two dates and times for the Orientation would be as follows:

1. Monday 3 PM (7th September, 2020)
2. Wednesday 2 PM (9th September, 2020)

Look forward to hearing from you.

Warm Regards,
Jennifer S. Vincent

Online Workshop on

Goal Setting Roadmap for 10x Performance

16 February 2021

Context:

The fact is, goal setting is an important practice - particularly in the workplace. Research has found that setting strong goals boosts performance by motivating people to increase their effort, inducing stronger focus and helping them prioritize.

While this may seem surprising, it has been suggested that financial rewards like bonuses are not actually the best incentive for a wide variety of tasks. In fact, one study found that people who had goals were faster at completing tasks regardless of potential financial rewards.

Objectives

By the end of the Program, participants will be able to

1. Understand the difference between a dream and a goal
2. To know reasons why people are unable to achieve their goals
3. Enhance their workplace productivity
4. Scale up their performance
5. Able to achieve their targets

Content:

1. Importance of setting a Personal and professional goal
2. Design their short term, long term and medium term goals

3. Setting SMART Goals
4. A road map to set goals
5. SWOT Technique
6. Vision Board
7. Affirmation cards & Process

Methodology:

1. Ice breakers
2. Facilitation Tools & Process
3. Puzzles/Quizzes
4. Assessments
5. Action Worksheets and Templates

Faculty: She is a certified Trainer and Facilitator in Corporate training and Behavioural Skills, across various sectors. Have successfully trained more than 40,000 participants till date. She helps Corporates to develop skills of their workforce thus achieving their professional goals and enhancing their productivity.

When: 16 February 2021   What Time: 02:00 PM - 05:00 PM   Mode of delivery: Microsoft Teams

Participation Fees : INR 3000 + GST @ 18% Per Participant

Discount
5% on 2 nominations from an organization.
10% on 3 or more nominations from an organization.

Exclusive session by Director - CapGemini India for TE students

Training Placement Officer TPO <tpo@aitpune.edu.in>
Fri 05-Feb-21 11:30 AM

To: HOD <hodall@aitpune.edu.in>
Cc: Principal AIT <principal@aitpune.edu.in>; Director AIT <director@aitpune.edu.in>

Dear Team ,

I am already in touch with all TE students . Tomorrow - Saturday - 10.00 am to 11.00 am , we have organized an exclusive session for TE students , by **Sajjad Ahmed, Director, Capgemini India.**

Sajjad Ahmed has 20 years of experience in the IT/ITeS industry, he has worked in areas like Project/Program Management, Service Delivery and a year back moved into Human Resources function. He has worked in different cities in India and Europe. His keen interest in understanding human behavior led him to pursue Master's degree in Cognitive Psychology.. He is passionate about contributing to the society and is a part of few foundations in Hyderabad where he is based. In his free time, he likes to Travel and read on subjects related to Philosophy, Psychology & Sociology.

<u>About Webinar</u>: This webinar on **"Preparing for Placements - A vital phase"** will help in understand what companies look for in candidates and address the questions students have on interview process and resumes.

Please forward to all the faculty members of your dept and ask them not to plan any academic session in this slot .

Great Learning - Job Readiness Program_v2.pdf; GL Library Courses.xlsx;

Dear TE Students ,

Your final placement registration is depending on the performance in this initiative .

The Job ready program is focused at providing students with guidance in specialized areas and the skills required to help them with their placement process and achieve their career goals.
1. The next step in taking this forward is to gather data to collect email ID's of students who will be participating in the career ready program. Please share this form with students so that they can fill the information: https://forms.gle/QcJa544BdrcPJecQ7
2. Student Orientation - where we will be addressing students on the program and getting them started with the platform .

The Job Readiness Program is designed to ensure college graduates get learning and job outcomes. Over the past 7 years, *300,000+ students* across *80+ countries* have benefited from Great Learning's courses and are now working in job-roles such as Software Engineers, Full Stack Developers, Data Analysts, Business Analysts, Reporting Analysts, Data Scientists, Digital Marketing Specialists, etc.

The content is curated from Great Learning's flagships programs in partnership with world renowned universities such as University of Texas Austin, Purdue University, Stanford, MIT, IIT Madras, IIT Bombay, PES University, Great Lakes Institute of Management, etc. and created by the world's best faculties and industry practitioners.

The Job Readiness Program comprises the following components:

1. Access to Job Ready Courses

- Live Sessions of 40 hours duration in 4 tracks- Software Development, Data Analyst, Aptitude and Soft Skills.
- Self Paced Video Content
- Access to a Content Library of short courses certification courses

2. Assessments

- There will be regular assessments after each component. At the end there will be a comprehensive Job Ready Assessment conducted to determine the job readiness level of students.

3. Job Opportunities

All students who clear the Job Ready Assessment will get access to Job Opportunities via Great Learning's network of 400+ Hiring Partners.

All the Best !!

Dear Prof Khaladkar, Good afternoon,

Aruna will be conducting a lecture for student from AIT as detailed below, let me know if you need any details further.

Date: 16th Dec 2020
Time: 3pm-4pm
Mode of Lecture: Virtual (We will share the MS Teams Link shortly where 250participants can be accommodated, you can cascade it to students)
Topic: "Bringing Artificial Intelligence to Life"
Coverage: AI and the Application of AI to business so that the students understand
Brief Profile:

Aruna Mahesh is a Business leader with 21+ years of experience with deep domain expertise in insurance and is part of Capgemini's Insurance Global Services and Insurance Practice Leadership Team. Her expertise lies in using contemporary approach to build business solutions that are fit for purpose and is adapt at applying the right technology to the right business problem.

She is at thought leader with in-depth understanding of the impact of the latest technological advances on the Insurance business and is a strong proponent of Innovation, specifically cross-industry innovation. She has a good understanding of usage of latest and emerging technologies such as Artificial intelligence/Machine Learning, Augmented Reality/Virtual Reality, Facial Recognition, IoT, Blockchain and RPA .

She is an active blogger , speaker at various forums and also contributes to Capgemini's renowned World Insurance and InsureTech Reports . She has worked across various geographies including Continental Europe, APAC , US and UK markets in multi-facted roles such as Domain Subject Matter Expert , Business Solutions Architect , Pre-sales head and Sales head. She has managed Strategic Enterprise Accounts and has an inherent ability to build and nurture CXO level relationships. She comes with extensive experience in Business Solution Consulting in Insurance domain ,having led the Business Analysis Practice and built insurance capabilities

Image Recognition using TF_Vodafone_FDP.pdf;

Dear Team ,

Gentle reminder to remind your faculty members to register for the FDP on Image
Recognition .The FDP is on Saturday and till today , nobody from A I T has registered .

No fees . Good Topic . Pls ask maximum to register -Mainly for CS ,IT and Etc .

Regards ,

Dear Professor,

As a part of the long term roadmap, we have organised a faculty development workshop
on Saturday, 28 November 2020 from 2:00 pm to 5:00 pm. This is a hands-on workshop
and the abstract about the workshop is attached to this email.

Requesting you to enrol for the workshop and share the registration link with other
faculty members. The workshop session link will be shared closer to the date.

Topic: Image Recognition with TensorFlow
Date: Saturday, 28 November 2020
Time : 2:00 pm to 5:00 pm
Registration link: https://tinyurl.com/yy5ga3mv

Thanks a lot for all the support that you have extended to us.

Image Recognition with TensorFlow

Image recognition (or image classification) is the task of enabling machines for identifying images and categorizing them in one of several predefined distinct classes. Image recognition software and apps can define what's depicted in a picture and distinguish one object from another. The only problem is that significantly more time and effort is needed to teach computers how to "see" like us.

Enters TensorFlow - it is considered the "industrial lathe" of deep learning frameworks: a powerful tool which is easy to use and provides you both high-level and low-level customization. It is the fastest and the simplest way to do image recognition on your laptop or computer without any GPU.

Join the program to get started with TensorFlow 2.0 and explore how to apply its high-level APIs in a traditional image classification setting.

HANDS-ON EXPERIMENTS

Basic Classification using TensorFlow

Convolutional Neural Networks using TensorFlow

Image Classification using TensorFlow

Transfer Learning using TensorFlow

Prerequisites

Intermediate concepts of Python programming language.

Basic concepts of Neural Networks and Deep Learning.

Basic concepts of Image Recognition.

Dear Team ,

Please keep the slot free for this webinar . **Only TE students** .

Regards ,

Webinar on Building a strong career in Technology by Mr. Ankush Singla, Co-Founder Coding Ninjas, IIT-Delhi, Stanford University, ex-Amazon, ex-Facebook

Details of the webinar:

Speaker: Ankush Singla, Co-Founder Coding Ninjas, IIT-Delhi, Stanford University, ex-Amazon, ex-Facebook

Linkedin profile of Mr. Ankush Singla: https://www.linkedin.com/in/ankushsingla/

Date: Wednesday, 25th November 2020

Time: 2:30 – 4.00 PM

Agenda:
We want to discuss the following things during the webinar:
1. **Career landscape** - Kind of tech roles in the current market, what are the skillset required
2. **Cracking interviews** - How to prepare for tech interviews and tips to crack it
3. How does Coding Ninjas help you shape your future

Who can attend this webinar: Any Graduate like BE/BTech/MCA/MCS/ME/MTech/ BCA etc OR any students who are interested to build a career in Technology

How to Register for Webinar?

CLICK Here to Register FREE of COST: @ https://www.codingninjas.com/events/how-to-build-a-strong-career-in-technology

KINDLY FORWARD THIS INFORMATION WITH YOUR FRIENDS/BATCHMATES.

Profile of Anil Chahar - 200_ Batch Alumnus .

Training Placement Officer TPO <tpo@aitpune.edu.in>
Thu 18-Mar-2_ 10:32 AM
To: Dr Sanjiv M Sansgiri <hodmech@aitpune.edu.in>; Director AIT <director@aitpune.edu.in>; Principal AIT <principal@aitpune.edu.in>

A very good experience of Today speaker ......

I will introduce him .

Regards ,

Anil Kumar has around 12 years experience in Industrial Research, Engineering, Design & Development of mechanical static equipment having designed pressure vessels, industrial piping and valves.

Anil's expertise spans across the industrial gas, steam , water & cryogenic sectors. Commencing his career with a Steam Engineering & Control Instrumentation major, Anil has so far worked within the core Steam, Cryogenics, Industrial Gas, HVAC and Subsea oil and gas drilling industry sector.

He has earned a post graduate diploma in Operations Management from Welingkar Institute of Management Development and Research, Mumbai and a Bachelor of Engineering (Mechanical) degree from Army Institute of Technology University of Pune, India. He is also involved in research-based projects with the Mechanical, Materials, & Aerospace Engineering department in Illinois Institute of Technology, Chicago. He is an active corporate member of Institution of Engineers India Limited by virtue of which he is also a certified professional mechanical engineer.

His other projects envision to introduce high performance additive manufactured stainless steel in cryogenics and enhancing diffraction from silicon used in monochromators. His particular interest has been design and engineering optimization and solving industrial challenges for which he has published and presented 2 technical papers in conferences at national and international level besides having published 3 patents. His recent research with 2 papers on surface modification techniques is under peer review currently.

He is an active professional Member of the American Society of Mechanical Engineers, Life member of Indian cryogenics council and professional member of Institute of Scholars, Bangalore, India . He is currently associated with Ocean Engineering International as Principal Design engineer for Remote Operated vehicles launching and recovery systems. He is 43 years old, and during his spare time loves to read.

MECHANICAL ENGINEERING TRENDS & SKILLS

Anil Kumar
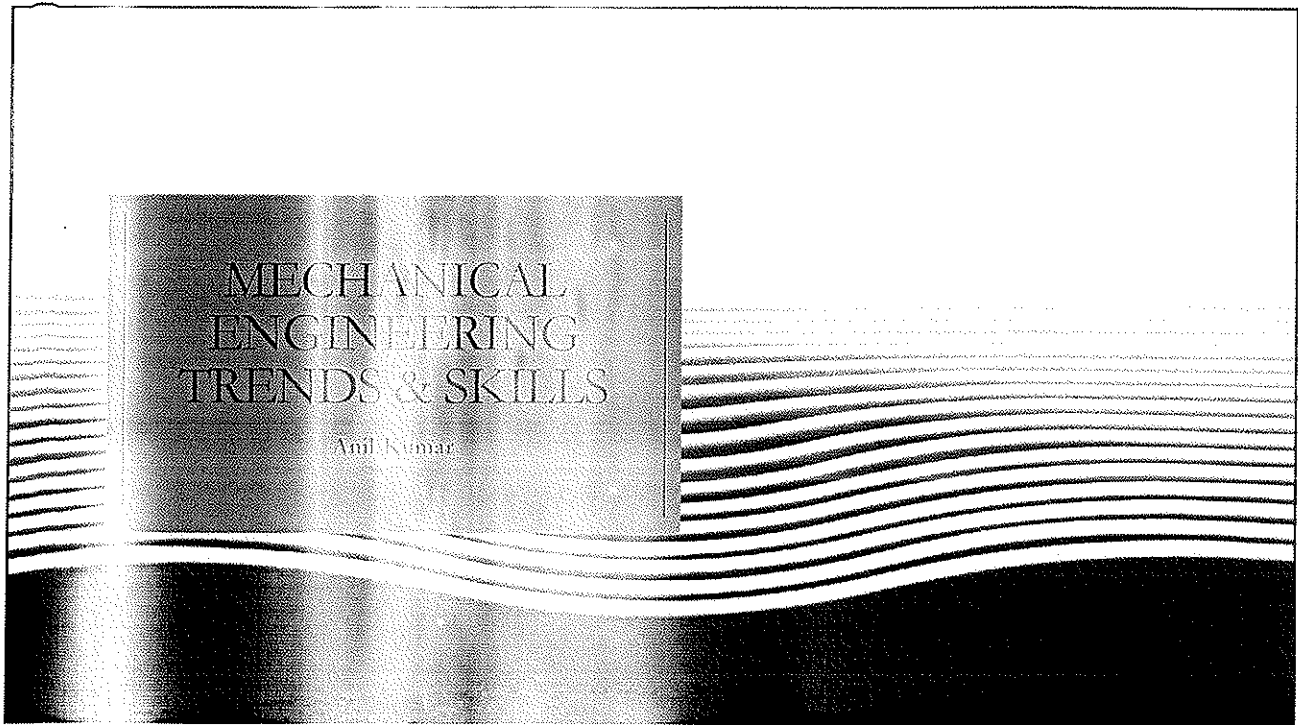

Likely questions in mind ?

○ Will my engineering learning help in the industry ?

○ Will my starting point be greater than a threshold to choose for CTC ?

○ Chances of success for a student ?

○ Success chances of Mechanical engineer in industry ?

○ Are mechanical engineering skill sets required, are they enough to succeed ?

Upcoming Mechanical Engineering Trends
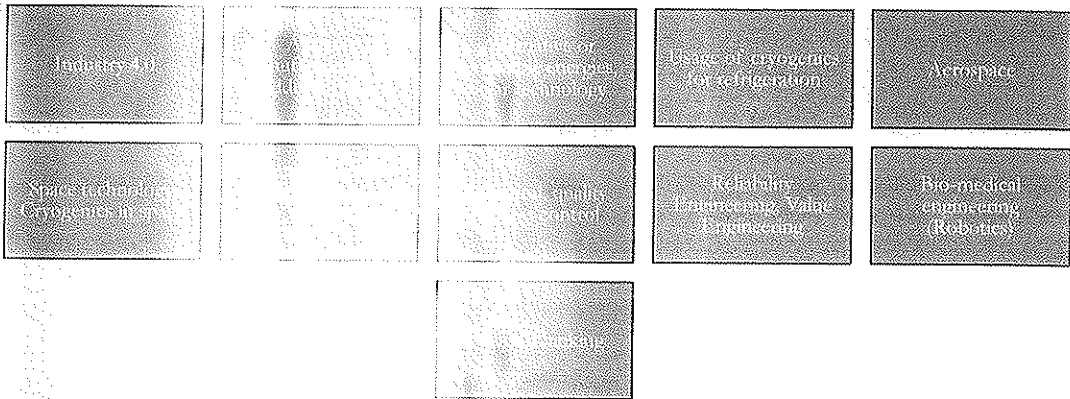

How ... build ... good profile

Dear Learner,

Welcome to **Army Institute of Technology and _VOIS's University Engagement Program.** The one day online workshop on Artificial Intelligence and Machine Learning is on **Friday, 12 March 2021.**

Online Student Workshop on Artificial Intelligence and Machine Learning	
Workshop	Friday, 12 March 2021
Time	10:00 am to 3:30 pm

Attending the session
Join the session => https://tinyurl.com/8mapk9we

Whatsapp Group Joining link
The below links for those of you who are not part of the whatsapp group.
Group 1 => https://chat.whatsapp.com/Ik6slaBDkXXFLObSIPvLAH

Certification

Certificates will be awarded to students upon successful completion of all workshop activities as follows:

1. Active participation in all the sessions
2. Timely submission of all the assignments and other activities
3. Scoring 50% or more in the final assessment

Prerequisite for the workshop

We need you to install Linux in your systems. Please refer to the following, you can use any of the three mentioned below.

1. Virtual Box - https://itsfoss.com/install-linux-in-virtualbox/
2. Windows subsystem for Linux - https://docs.microsoft.com/en-us/windows/wsl/install-win10
3. Installation guide - attached to this email

- Online sessions will be conducted from 10:00 am - 3:30 pm
- Students must have laptop/desktop to participate in the sessions
- A WhatsApp group will be created for quick communication during the workshop
- Do NOT participate using the mobile phone since the sessions would involve hands-on activity
- All the resources and learning materials required will be shared during the workshop
- Students will have to install the necessary software to conduct hands-on exercises. Details will be shared during the workshop.
- The hands-on exercises must be performed by all students to ensure comprehensive learning
- Students will be given assignments and they must be submitted to mark the completion of hands-on activities
- Students will have to participate in MCQ based assessment towards end of course
- Certifications will be awarded to students upon successful completion of workshop which is (1) daily participation in sessions (2) timely submission of assignments (3) scoring 50% or more in final assessment

More details about the program will be shared in the first session on Friday, 12 March 2021. We look forward to your participation and a great learning experience.

If you face any issues or have any queries you can send me an email or drop a message on the whatsapp group.

Learning with Vodafone Programme

Activity   Artificial Intelligence and Machine Workshop

Date   Friday, 12 March 2021

Venue   Online Channels – Microsoft teams

About the Course

Vodafone India Foundation is proposing to organize student workshops on Artificial Intelligence and Machine Learning for the students. This workshop will provide an opportunity to learn and build foundational skills in some of the widely used industry application areas. To ensure a comprehensive learning experience for students the online workshops are focused on providing a hands-on learning experience for designing applications for several real-world use-cases.

Target Audience

This program is suitable for all engineering students. The only requirement is an interest in the field of data and its paraphernalia. Students interested in pursuing a career in Data Science are encouraged to participate.

Course Pre-requisites

- Basic understanding of python
    - https://wiki.python.org/moin/BeginnersGuide
- Basic understanding of Anaconda and Jupyter notebook
    - https://docs.anaconda.com/anaconda/
    - https://jupyter.org/

Program Outcomes

At the end of the program participants will be able to
- Understand the Basics of Artificial Intelligence.
- Understand concepts of Machine learning and algorithms
- Understand uses of Python for Machine Learning and Deep Learning
- Understand Natural Language Processing and developing applications with NLP toolkits
- Open source OS concepts
- Execute various useful Linux shell commands
- Utilize different Linux text editors for shell scripting
- Develop and execute applications in the Linux environment
- Learn how to use Python to develop applications
- Use data analytics tools and technologies with ease
- Understand and experience in building real-world solutions for Data Analytics
- Translate data-driven insights into decisions and actions
- Equip themselves with knowledge in areas of Data Analytics

Course Agenda

The workshops will be conducted in through online sessions with a total of 4 session. Each session will be 1 hour in duration.

The workshop resources like learning materials, source code and other guides will be available to students during the workshop through online repository. The session plan for each module

Employability Quantified

Aspiring Minds' Campus Analysis Report

Army Institute of Technology

(B.Tech/B.E., 2022)

Aspiring Minds Assessment Pvt. Ltd.

Study of Students' Employability and their Performance in AMCAT

Purpose of this Report

The Aspiring Minds Campus Analysis Report provides a detailed analysis of the student quality and their employability in the industry. Our aim is to produce a report which is useful to the campus and includes a comprehensive comparison across different degrees, streams and batches. All such analysis will serve as an employability checkup for students and accordingly, the administration can prioritize its efforts to increase the overall student employability.

The various sections of this report give a broad view on numerous aspects related to the performance of students. These sections contain tables and charts which have been constructed after an in-depth analysis of AMCAT assessment data collected from your campus. We evaluate your students' performance in comparison to the nation-wide norms, which are calculated from a sample of entry-level job-aspirants over 22 states across India. This comparison reveals those areas in which your students fare better (or otherwise) than the average student assessed by us, and determines the employability of the students in diverse industries. This report will give a clear picture of the employability status of students eligible for the listed companies and also help the institute to improve on the weak areas figured by Aspiring Minds' analysis.

We also provide an intra-campus analysis to give an overview of the characteristics of top performing students in comparison to the rest, such that appropriate measures can be taken to help the low performers fare better.

On the basis of our analysis, we suggest certain recommendations for your campus. We are certain that these recommendations will help Army Institute of Technology march towards its goal of providing excellent education to the students, which will result in better employability. Our recommendations, if properly implemented, will also help increase the standing of the campus amongst prospective students.

Introduction

This report is based on the results of AMCAT assessment conducted at your campus on 6,7 March 2021 where a total of 320 students were tested. AMCAT is a two and half-hour adaptive test with multiple modules including aptitude, domain skills and personality assessment. It is India's largest employability test and is taken by more than 30,000 students every month. Being India's only adaptive employability test, it is used as a benchmark for hiring by several companies across India. The details of AMCAT assessment are as follows:

AMCAT Modules
I. English Comprehension
II. Quantitative Ability
III. Computer Programming
IV. Electronics and Semiconductor Engineering
V. Mechanical Engineering
VI. Electrical Engineering
VII. Civil Engineering
VIII. Logical Ability
IX. Aspiring Minds Personality Inventory (AMPI)

I. English Comprehension

Familiarity with the English Language in its various nuances is an essential skill, especially in the current climate of global networking. Ideally, any recruitment should involve a test of skills in handling the language in ways that promote the objectives of the company. Needless to state, an appropriate test is necessary.

Our English test uses a variety of internationally standardized resources for framing questions aimed at determining the candidate's ability to a) understand the written text (b) comprehend the spoken word and (c) communicate effectively through written documents. The test broadly covers the following areas:

a. A wide-ranging vocabulary to cope with general and specific terminology.
b. Syntax and sentence structure, the incorrect use of which distorts meaning and becomes a communication hurdle.
c. Comprehension exercises designed to test a candidate's ability to read fluently and understand correctly.
d. The ability to understand and use suitable phrases, which enrich the meaning of what is conveyed.

Time management and accuracy in conformity with the examiner's criteria.

II. Quantitative Ability

4. Opamp based circuits and analysis
b. Digital Electronics
1. Boolean Algebra, Minimization of Boolean Functions
2. Implementation and Analysis of logic gates
3. Sequential blocks - flip-flops and latches
4. Digital Circuits and Blocks
5. State Machines and design of Complex sequential circuits

V. Mechanical Engineering

In this module, a student is tested for his understanding of mechanical engineering - theoretical and practical knowledge. Questions from different areas in this subject are asked so as to assess a student on his complete knowledge of the subject. The test has the following sections:

a. Manufacturing Science
b. Thermodynamics & IC Engines
c. Fluid and Machine Mechanics

VI. Electrical Engineering

The Electrical Engineering module has been designed to assess a candidate's knowledge working in power sector. The module is meant for B Tech. students who may be freshers or the students who may be exposed to industry for one to two years. The module checks for the concepts which would be used by the engineers in everyday working. The module consists of both conceptual and practical aspects of the subject.

VII. Civil Engineering

Civil Engineering module assesses a student's skills, knowledge and understanding of the core ideas involved in the branch of civil engineering. The module focuses on testing a student on theoretical knowledge and practical concepts which will help him perform a good job as an engineer in the industry.

VIII. Logical Ability

The Logical Ability section assesses the capacity of an individual to interpret things objectively, to be able to perceive and interpret trends to make generalizations and be able to analyze assumptions behind an argument/statement. These abilities are primary for success of a candidate in the industry. Specifically, these are divided into following sections:

a. Deductive Reasoning: Assesses the ability to synthesize information and derive conclusions.
b. Inductive Reasoning: Assesses the ability to learn by example, imitation or hit-and-trial. This also provides an indication of how creative the individual is.

Score Interpretation

All scores lie between 100 and 900. The scores are normalized on a Gaussian curve using statistical techniques. The scores follow global standards of validity and reliability. They are valid for three years and remain consistent on repeat testing unless the candidate's ability improves because of sustained long term efforts.

Percentile Interpretation

The percentile of the candidate is calculated over a National average group based on the percentile of all students tested by Aspiring Minds. Several statistical studies conducted demonstrate clearly that the percentiles are stable for a year and will not vary more than two percentile points. The percentile is a very important metric and gives an idea of the candidate's rank in comparison with all graduates nationwide.

Campus Ability Table

Modules Attempted	Campus Average Percentile	Campus Average (Std. Dev.)	National Average (Std. Dev.)	Difference (Campus - National)	Confidence	Is Significant?[1]
English Comprehension	92%	618 (79)	475 (100)	143	100%	Yes
Quantitative Ability	95%	681 (78)	495 (115)	186	100%	Yes
Electronics and Semiconductor Engineering	99%	489 (111)	310 (80)	179	100%	Yes
Logical Ability	96%	643 (66)	465 (101)	178	100%	Yes
Mechanical Engineering	92%	556 (134)	450 (75)	106	100%	Yes
Electrical Engineering	99%	608 (143)	380 (103)	228	100%	Yes
Telecommunications Engineering	89%	489 (77)	330 (80)	159	100%	Yes
Automotive Engineering	93%	521 (95)	400 (80)	121	93%	Yes
Fundamentals of Chemistry	99%	534 (131)	335 (80)	199	100%	Yes
Food Science	59%	448 (65)	425 (100)	23	60%	No
Computer Science	93%	562 (124)	380 (125)	182	100%	Yes
Automata Fix	11%	40 (24)	NA	NA	NA	NA
Total Aptitude	95%	648 (54)	478 (105)	170	100%	Yes

[1] *If confidence level is less than 90%, it indicates that the difference between Campus Average and National Average is not significant and that both the scores are equivalent.*

Note: Metallurgical Engineering, Chemical Engineering, Civil Engineering, Aeronautical Engineering, Computer Programming, Production Engineering, Information Gathering and Synthesis and Basic Computer Literacy modules are not considered as they were attempted by less than 5 students in your campus.

I. Inferences

1. **English Comprehension**

   Communication is the key to building relationships and trust that leads to success in business. English is a corporate language and hence, the ability to read and comprehend this language effectively is essential to qualify for all types of job profiles, whether it is technical or non-technical. It is pleasing to say that the students of your institute have done **outstandingly well in English, on an average, scoring higher than the National Average with a significant** difference. The credit must go to the teaching at your campus. This level of excellence should be maintained throughout by consistent endeavors by both the campus and the students towards enhancing English language skills, for which consistent reading and regular grammar practice being a few methods.

2. **Quantitative Ability**

   Quantitative Ability measures a person's ability to deal with numbers and real-world problems quantitatively and mathematically. It is the ability to convert a real world problem into equations which can then be solved to find the result. This module is designed to measure a candidate's basic maths and algebraic skills, his/her understanding of basic quantitative concepts and his/her ability to reason quantitatively, solve quantitative problems and interpret graphical data. Your campus has shown **excellent performance in Quantitative Ability module, on an average, scoring significantly higher**

OFFICE OF PRINCIPAL

TEQIP – IV AND RESEARCH COMPONENTS – INTERACTION WITH DR SP KALLURKAR

1.   Dr SP Kallurkar, will have an interaction with all HODs and Dean R&D on Friday, 5th March from 11.30 am to 1.00 pm in New Conference Hall, in presence of Director and Principal. All HOD should present for this interaction session in New Conference Hall.

2.   **Brief Profile of Dr. SP Kallurkar**

Dr SP Kallurkar is an experienced Principal with strong education background, a Doctor of Philosophy (Ph.D.) focused in Technical Entrepreneurship from National Institute of Industrial Engineering. He is the Performance Auditor Mentor TEQIP World Bank supported project NPIU MHRD Govt of India. Associated with NIT Patna and NIT Agartala and four state Govt/ private institutes from Gujarat, AP and West Bengal.

Sub :- Honorarium to Dr. S.P. Kallurkar

On 5th March, we had organized a very unique session for HODs on TEQIP & Research components by Dr. S.P. Kallurkar - Eminent Principal & Mentor in Technical Entrepreneurship.

We can invite him at a suitable platform & seek the guidance in future.

Std. Honorarium of Rs. 3000/- was given ('it was from petty cash [Mr. Roy]), along with momento.

Put up for your approval pls.

Subject: RE: Connect with Capgemini College Sponsor #cgo#

Dear Prof Khaladkar,

One of our L&D Experts, Dhanashri Kulkarni will be conducting the session on "Resume Building"

Dhanashri's brief profile for your quick ref.
Overall experience: 15 yrs
Qualification: B.E in Mechanical Engg from Pune University, PG in Training & Development from Tata Institute of Social Sciences
Certification: Brain Based Coach, Certified Behavioural Analyst, DDI, Dale Carengie and Franklin Covey certified facilitator
Experience: Performance Consultant, Trained more than 3000 managers, team leaders, consultants and freshers, coached more than 15 people on career progression, mid-career crisis and career counselling

I will send you webinar link shortly which can be extended to students.
Also please confirm approx. #of participants. I am assuming same as last session.

Let me know if you have any queries.

Regards,
Rashmi

The Dale Carnegie- Training Excellence Outline (2).pdf;

Dear Manoj,

Thank you for reaching out.

We are delighted to share with you the **Dale Carnegie Training Excellence** program. I have attached the program outline for your perusal.
Here are the details of the program:

Duration: 12 hours, (4 sessions of 3 hours each)
Dates: 20th, 21st, 22nd, 23rd & 24th April 2021
Venue: Live Online
Investment: 22,500/- +18%GST ⟹ Rs. 26,550/-

Here is what the program schedule looks like:

The Dale Carnegie Course on Training Excellence - 3	Date	Time	Module Name
Day 1: 3 hours	20th Apr	2.30pm-5.30pm	**Module 1:** Creating Organizational Impact
			Module 2: Presenting with Impact
Day 2: 3 hours	21st Apr	2.30pm-5.30pm	**Module 3:** Design to build Business Relevance
			Module 4: Coaching & Feedback
Day 3: 3 hours	22nd Apr	2.30pm-5.30pm	**Module 5:** Facilitate for Group Results
			Module 6: Interpersonal Skills – Handling Disruptive Behavior
Coaching Connect: 12 hours	23rd Apr	2.30pm-5.30pm	Proof of Learning/Application of competencies internalized. Each participant group of 3 demonstrates for 15-18 minutes followed by feedback. This will be done so that the rest of the participants are not disengaged.

Do reach out to me for any clarifications.

Regards,
Sai Subramanian Viswanathan
Head Business Development – West
Dale Carnegie of India

The Dale Carnegie: Training Excellence

Duration: 4 Sessions, 12 hours

PROGRAM OBJECTIVES

- Plan and organize professional presentations
- Develop your own natural and relaxed communication style
- Learn to sell your ideas with clarity and force that inspires others
- Create an open, inclusive and stimulating learning environment
- Approach challenges in a way that leads to victories and success for participants
- Coach and develop participants to empower them and lead them to continuous improvement

MODULES:

Module One: Creating Organizational Impact
- Levels of evaluation
- Today's reality
- Balancing needs

Module Two: Presenting with Impact
- Establish trust, credibility, and respect with listeners
- Clarify the key points of a message
- Open and close sessions with impact
- Understand the variety of support tools that strengthen a message

Module Three: Design to build Business Relevance

- Design training interventions using a proven process in order to assure sustained organizational impact
- Create program and session learning objectives that focus the training on identifiable behavior change
- Design and develop program structure, content and delivery to assure critical outcomes
- Evaluate outcomes in five levels to obtain measurable results

Module Four: Coaching & Feedback

- Learn the difference between Coaching and Training
- Apply practical coaching tips as a trainer
- Reinforce the learning atmosphere by using four Step coaching process
- Learn the Art of giving Feedback
- Plan the structure beforehand
- Apply proven structures to keep the feedback insightful and time bound

Module Five: Facilitate for Group Results

- Create an environment that fosters open dialogue in groups
- Apply a variety of questioning techniques to create group engagement
- Use creativity and flexibility in facilitation methods

Module Six: Interpersonal Skills

- Apply effective human relations skills
- Deal with difficult attitudes and behaviors
- Demonstrate poise under pressure

Coaching Connect

- Application of Competencies/ Proof of learning

Upcoming Holiday: 2nd April

Dear Madam ,

We would like to share a very good update about the session on CV Building , conducted by Ms Dhanashri . Recently , we had some interns drive and students found the contents and tips of that session , very useful . In this regard , kindly check , if we can have a session on Presentation Skills for TE students , in the second week of April .

www.aitpune.com

Ronnie Screwvala is a first generation entrepreneur who pioneered Cable TV in India, built one of the largest toothbrush manufacturing operations and went on to create a Media & Entertainment conglomerate — **UTV** — spanning Television, Broadcasting, Digital, Mobile and Motion Pictures, which he divested to The Walt Disney Company in 2012

Demonstrating an innate ability to merge creativity with commerce, Newsweek termed him the Jack Warner of India, Esquire rated him one of the 75 most influential people of the 21st Century and Fortune as Asia's 25 most powerful.

Onto his second innings, Ronnie is driven by his interest in championing Entrepreneurship — authored a book on Entrepreneurship titled Dream With Your Eyes Open, and is also focused to build his next set of ground up businesses in high growth and impact sectors.
UpGrad zeroes in on the massive opportunity that exists in creating an Online Education Company, of scale — focusing on the post graduation, higher studies and specialization areas.
U Sports is committed to build a sports company spanning Kabaddi, Football, Moto Sport + E Sports — via league and team ownerships as well as grass root training programs.

Ronnie is also passionate about Social Welfare and is active along with his wife Zarina as Founder Trustees of **The Swades Foundation**, which operates with the single minded focus of empowering one million lives in Rural India every 5-6 years through a unique 360 degree model with verticals in Water, Sanitation, Health, Nutrition, Community Mobilization, Education, and most importantly Agriculture & Livelihood, to lift them out of poverty permanently.
