Magazine Board

Magazine Board (2017-18)

From the board that has presented with the beautiful piece of parchment 'Srijna 18-19', this year has again been a fantastic year for the AIT Magazine Board under the guidance of Dr Seema Tiwari and Prof R B Gurav.

The academic year 2017-18 began with Cultural Aakriti where the board conducted DICT, i.e., making our own magazine, article writing and Caricature drawing which confirmed the saying, "Your imagination has no limits". Soon after, the board had the setting up of the Magboard notice board which is one of the many traditions passed down in the Magboard since its inception, made on the idea of 'Sciamachy', the board was like a beautiful dish made with the craziest of the ingredients by cooks who would have made Remy proud of our take on Ratatouille.

July and August were very happening and to cover all the events and achievements, the board published the first edition of the newsletter LUMINARY which was the ideal summary of the lively first two months of the academic session.

The turn of the year brought one of the biggest events in the Magboard, REVERSE. In its third year, Reverse has become bigger than ever with tons of participations coming from all over Pune. The event was conducted with the help of the Pune Poetry Slam and judged by Priyanka Menon. The theme being "Of Freaks and Fantasies", the event saw very talented poets come and bear their souls with poetry that touched hearts and minds. During Amethyst, the cultural event of the college, we conducted Nerdicon- a quiz based on multitudes of fandoms, and a huge hit in the cultural fest.

February saw the magazine board and DDQ club conduct the first edition of TEDX AITP. With speakers such as Dr Snober Satarawala, Sukanta Bose and Harish Iyer, the event gained titanic appreciation and ended with the hope that there are many more editions to come.

With so many events and fests, someone needs to cover all the events, to capture the incredible joyous moments for us to look back at with a smile, to remind us of the great times we had. We, the Magboard, feel honoured to take on this esteemed responsibility. AIT Avenir has become the digital repository for each and every event that occurs in this college.
