2. Summary of Learning Resource

4.2.1 Library is automated with digital facilities using Integrated Library Management System (ILMS), adequate subscriptions to e-resources and journals are made. The library is optimally used by the faculty and students.

AIT library is an excellent knowledge resource centre. It is located on the ground floor of Aryabhata Centre and spread over a carpet area of 700m² in different sections (like Book Processing, Circulation, Stack Room, Digital Library, BMS/UPS Room, Reading Hall and Conference Room). Library building is protected with fire extinguishers and CCTV surveillance system.

Library was automated in the year 1998 with “SLIM21 system for library information and management” software that manages and integrates multiple core library functions and services. Modules presently implemented which are required for day-to-day library management are Cataloguing, Circulation, Acquisitions, Serial Control and Web OPAC. Different types of services such as reference service, email alert service and OPAC facility are provided by the library through the library management system. A variety of reports and statistics are generated through SLIM21 software to support the library system. The below mentioned latest upgraded versions of ILMS are implemented from time to time to meet the technological advances.

AY	ILMS	Version
2022-2023	SLIM 21	3.9.0
2021-2022	SLIM 21	3.8.0
2019-2021	SLIM 21	3.7.0
2018-2019	SLIM 21	3.6.0

AIT library has a comprehensive and rich hybrid resource collection consisting of 36370-print books, 28-Print journals, 980-e-journals, 1888-e-books, DELNET Database and 129-NPTTEL web-courses and 324-videos. Subscription of e-resources are renewed annually. The e-resources available with the library are IEEE (ASPP)+POP All, Springer Nature 3 Subject Collection, ASME Digital Collection, ELSEVIER–Science Direct (Engineering and Computer Science) and

4. Details of Library Automation AY 2022-2023

Name of the ILMS Software	SLIM21 System for Library and Information Management
Nature of Automation	Fully
Version	3.9.0
Year of Automation	1998

In the year 1998 AIT library has purchased the SLIM 21 Library Management System that manages and integrates multiple core library functions and services. The library has also received latest upgraded version time to time to meet the technological advances. Different kind services such as reference service, email alert service and OPAC facility are provided by library through the library management system.

Reports and Statistics: Variety of reports and statistics generated through SLIM21 library management system to support library system.

Modules presently implemented in the library which required for day to day library management are Acquisition, Cataloguing, Circulation, Serial Control and Web OPAC.

Acquisition: This module enables the library to maintain the bill details of purchased books and journals.

Cataloguing: It enables to create database of books, journals and other learning materials.

Serial Control: It allows to maintain the subscription records of journals and magazines.

Circulation: This module allows to perform circulation operation i.e. issue, reissue and return of books and also manage lending rules and fine policies.

Barcode System: Book issue return process is carried out with the help of Barcode system. All the library books and student cards are bar coded.

Web OPAC: This application provides facilities to search for books and journals from library collection. It allows borrowers to view their loans, reissue and reserve the books.

eBook Collections

1. Term and Access Rights

1.1 The Term shall begin on January 01, 2023 (the "Commencement Date") and shall end on December 31, 2024.

1.2 After expiration of the Term, Licensee shall have Continuing Access to the eBook Collections indicated in Section 3.1, subject to all terms and conditions of this License Agreement.

2. Estimated Titles

The License Fee is based on the inclusion of the Estimated Number of Titles (as referenced in the table in Section 3.1) in the licensed eBook Collections. If the total number of eBooks, excluding Open Access books, in the eBook Collections licensed under these Product Terms is less than 97% of the estimated number of titles for all licensed eBook Collections (an "under-delivery"). Licensor shall, at Licensee's request, offer Licensee a credit toward either (a) current access to an additional online product, or (b) future acquisition of an eBook Collection or any other online product, in an amount equal to 1% of the License Fee for each full percentage point that the actual number of titles is below 97% of the estimated number of titles for all licensed eBook Collections. Title lists may be accessed through <https://adminportal.springer.com/data/ebooks>. The parties agree that the reference date for the calculation of the actual total number of titles shall be on or about March 31st of the following year ("the Reference Date"). To obtain a remedy under this Section, Licensee must provide Licensor written notice of any under-delivery along with Licensor's requested remedy within 12 months of the Reference Date. Major new title list acquisitions during the Term are not included in the license grant under these Product Terms.

36. Method of computing per day usage of library

Computerized and manual method is using to calculate the per day usage of the library. In addition to IP base access, Knimbus e-library remote access system has been procured for library users to use library through e-access. In-out entry register and face recognition attendance system is using to calculate the per day user's footfall in library.

Average usage of the library = Total no of teachers and students in each day for all working days/Total no of working days.

McGraw Hill Express Engineering Library E-Books

The screenshot shows the McGraw Hill Express Engineering Library E-Books interface. The top navigation bar includes links for Admin Console, My Activity, Catalog, Bookshelf, and a Download PDF button. The main content area features a search bar and a section for Institutional Reports. Under the Institutional Reports section, there are four reports listed: Book Report 2 (R1) for 2022, Book Report 3 (R1) for 2023, Book Report 4 (R1) for 2023, and Book Report 5 (R1) for 2023. Each report has a 'View Report' link and an 'Export to Excel' button.

The screenshot shows the detailed institutional report for 2022. The report is titled 'Number of Successful Section Requests by Month and Title'. It includes a table with columns for Publisher, Platform, ISBN, and a monthly breakdown of requests from January to December, along with a Yearly Total (YTD). The data is as follows:

First and last page of monthly Daily Transaction Report of Faculty Members AY 2022-2023

[illegible]

The screenshot shows the SAP S/4HANA Fiori 'Main Report' interface. On the left, a vertical list of dates is visible, ranging from 11.11.2023 to 01.01.2024. The main content area displays a report for the date 15.12.2022. The report includes a table with columns: Transaction Date, Account, TransType, ItemDetails, and Item Amount. The data row shows a transaction on 15.12.2022, account 000000, type loan, with details 'Harvest Effect: The inside story of India's IT Revolution' by Martin, Sarah. Below this, a summary table shows 'Total Borrowers' as 161 and 'Total Transactions' as 767. The bottom status bar indicates 'Current Page No: 1', 'Total Page No: 8', and 'Zoom Factor: 100%'.

Transaction Date	Account	TransType	ItemDetails	Item Amount
15.12.2022	000000	loan	Harvest Effect: The inside story of India's IT Revolution Martin, Sarah

42. Details of Library Automation AY 2021-2022

Name of the ILMS Software	SLIM21 System for Library and Information Management
Nature of Automation	Fully
Version	3.8.0
Year of Automation	1998

In the year 1998 AIT library has purchased the SLIM 21 Library Management System that manages and integrates multiple core library functions and services. The library has also received latest upgraded version time to time to meet the technological advances. Different kind services such as reference service, email alert service and OPAC facility are provided by library through the library management system.

Reports and Statistics: Variety of reports and statistics generated through SLIM21 library management system to support library system.

Modules presently implemented in the library which required for day to day library management are Acquisition, Cataloguing, Circulation, Serial Control and Web OPAC.

Acquisition: This module enables the library to maintain the bill details of purchased books and journals.

Cataloguing: It enables to create database of books, journals and other learning materials.

Serial Control: It allows to maintain the subscription records of journals and magazines.

Circulation: This module allows to perform circulation operation i.e. issue, reissue and return of books and also manage lending rules and fine policies.

73. Method of computing per day usage of library

Computerized and manual method is using to calculate the per day usage of the library. IP base access has been provided for library users to use library through e-access. In addition to this Knimbus e-library remote access system has been procured for library users to use library through e-access. In-out entry register and face recognition attendance system is using to calculate the per day user's footfall in library.

Average usage of the library = Total no of teachers and students in each day for all working days/Total no of working days.

COUNTER Report data is updated with prior month's data by the 10th business day each month. Please note that while data may be visible in the date range drop down menus prior to the 10th business day of the month, files should not be considered complete until the 10th business day of the month.

Need Help?

This dashboard allows you to view your account and access information, and generate reports for your institution. If you are a consortium leader, you may also view the dashboard(s) for member institutions. Please see the Institutional Administrator User Guide (at the bottom of this page) for more information.

Jan 2021 - Dec 2021 (Current Year-to-Date)

COUNTER 5 Reports

The COUNTER 5 Reports display usage for a single institution. If a consortium leader pulls these reports, they will only see the usage of the leader institution.

IR Item Master Report

The screenshot shows the SAMS Sigma dashboard interface. At the top, there's a header with the SAMS logo, a user greeting 'Hello, armytaadmin administering', the institution name 'Army Institute of Technology', and a 'Log out' button. A search bar is also present. On the left, a sidebar menu lists 'Dashboard', 'Organization profile', 'Licenses', 'Agreements', 'Vouchers', and 'Reports'. The main content area is titled 'Dashboard for Army Institute of Technology' (highlighted with a red box) and includes a welcome message. Below this, there are five tiles for 'Organization profile', 'Licenses', 'Agreements', 'Vouchers', and 'Reports', each with an icon and a brief description of the management functions available.

79. Details of Library Automation AY 2020-2021

Name of the ILMS Software	SLIM21 System for Library and Information Management
Nature of Automation	Fully
Version	3.7.0
Year of Automation	1998

In the year 1998 AIT library has purchased the SLIM 21 Library Management System that manages and integrates multiple core library functions and services. The library has also received latest upgraded version time to time to meet the technological advances. Different kind services such as reference service, email alert service and OPAC facility are provided by library through the library management system.

Reports and Statistics: Variety of reports and statistics generated through SLIM21 library management system to support library system.

Modules presently implemented in the library which required for day to day library management are Acquisition, Cataloguing, Circulation, Serial Control and Web OPAC.

Acquisition: This module enables the library to maintain the bill details of purchased books and journals.

Cataloguing: It enables to create database of books, journals and other learning materials.

Serial Control: It allows to maintain the subscription records of journals and magazines.

Circulation: This module allows to perform circulation operation i.e. issue, reissue and return of books and also manage lending rules and fine policies.

105. Method of computing per day usage of library

Computerized and manual method is using to calculate the per day usage of the library. IP base access has been provided for library users to use library through e-access. In-out entry register and face recognition attendance system is using to calculate the per day user's footfall in library.

Average usage of the library = Total no of teachers and students in each day for all working days/Total no of working days.

111. Details of Library Automation AY 2019-2020

Name of the ILMS Software	SLIM21 System for Library and Information Management
Nature of Automation	Fully
Version	3.7.0
Year of Automation	1998

In the year 1998 AIT library has purchased the SLIM 21 Library Management System that manages and integrates multiple core library functions and services. The library has also received latest upgraded version time to time to meet the technological advances. Different kind services such as reference service, email alert service and OPAC facility are provided by library through the library management system.

Reports and Statistics: Variety of reports and statistics generated through SLIM21 library managementsystem to support library system.

Modules presently implemented in the library which required for day to day library management are Acquisition, Cataloguing, Circulation, Serial Control and Web OPAC.

Acquisition: This module enables the library to maintain the bill details of purchased books and journals.

Cataloguing: It enables to create database of books, journals and other learning materials.

Serial Control: It allows to maintain the subscription records of journals and magazines.

Circulation: This module allows to perform circulation operation i.e. issue, reissue and return of books and also manage lending rules and fine policies.

Criteria 4.2.1

133. Method of computing per day usage of library

Computerized and manual method is using to calculate the per day usage of the library. IP base access has been provided for library users to use library through e-access. In-out entry register and face recognition attendance system is using to calculate the per day user's footfall in library.

Average usage of the library = Total no of teachers and students in each day for all working days/Total no of working days.

Number of Faculty and Students using Library per day

All COUNTER R5 reports will include data from Jan 2021 onwards only. Data will be available 9 business days after the end of each month. However, while the IR_M1 report includes AccessScience multimedia usage starting with January 2021. AccessEngineering multimedia usage is only available starting with June 2021 data.

The pdf download report is only available for AccessEngineering. Please note that this is a custom report. It is not part of COUNTER.

COUNTER R5 reports should ONLY be used for years prior to 2021.

Integrated Library Management System (ILMS)

139. Details of Library Automation AY 2018-2019

Name of the ILMS Software	SLIM21 System for Library and Information Management
Nature of Automation	Fully
Version	3.6.0
Year of Automation	1998

In the year 1998 AIT library has purchased the SLIM 21 Library Management System that manages and integrates multiple core library functions and services. The library has also received latest upgraded version time to time to meet the technological advances. Different kind services such as reference service, email alert service and OPAC facility are provided by library through the library management system.

Reports and Statistics: Variety of reports and statistics generated through SLIM21 library management system to support library system.

Modules presently implemented in the library which required for day to day library management are Acquisition, Cataloguing, Circulation, Serial Control and Web OPAC.

Acquisition: This module enables the library to maintain the bill details of purchased books and journals.

Cataloguing: It enables to create database of books, journals and other learning materials.

Serial Control: It allows to maintain the subscription records of journals and magazines.

Circulation: This module allows to perform circulation operation i.e. issue, reissue and return of books and also manage lending rules and fine policies.
