## MINDTREE SESSION ON BRAIN STORMING ON SOFT SKILLS ON 17 JUNE 2022

Mindtree Campus Connect Session for 2023 batch - 17.06.2022

19:11

People Chat Reactions More

Participants

Presences (2)

Attendees (1000)

### Key Soft Skills

**Work ethic**

- manage your time wisely.
- Maintain balanced and consistent performance in performing your work
- Embrace change/ Adapt to new situations.
- Follow the guidelines

**Accept and learn from criticism**

- Learn to take you criticism constructively. Ask for clarification.
- Opportunity to notice things you missed before and motivate you to try a different approach to your work
- Ability to gain a new perspective on how can we improve.
- Turn negatives into positives

**ETHICS**

**Criticism is a gift**

On the last feedback, what a director

Placing on - feedback to how we learn to grow

Work some to your life

Quick observation noted during the interview for one to one verbal feedback.	<p>Greeted and thanked for the opportunity. Smiling face. Nuclear family. From AP- <b>these are irrelevant info.</b> Short term and long term goals mentioned. Hobbies- reading and music. <b>Intro needs to have more substantial content. especially skills.</b> What book have you read last- comics- anime-marvel comics. Which character in marvel comics do you like- ironman because innovative things. <b>Mention these proactively. Internet was poor. Any inspiration?- Ironman was the answer again. Give a different answer.</b> What kind of company are you looking for?- no certain idea as such. Any company is fine. So will you be fine with a company which pays you delayed salary?- not having a certain idea for this question. <b>Listening needs to be better. Not interested in those companies.</b> Angry - when I am determined but unable to do it. Generally cant get angry with others because I talk less and stay in my limits. <b>Good answer.</b> I am an introvert- <b>dont have to say this.</b> What is an introvert- they think a lot before they say anything. If people offend you and cross their limits , what will you do?- Be in the circle of friends or sort out even if anyone comes on to you and if that does not work, then I will avoid. ( you cant avoid anyone at work but otherwise ans is ok). Friction in college- No( use this answer as opportunity to show how you solved it). <b>Mouldable, reading, fast learner- but u read comics- i read about company needs. Good answer. Greeted at</b></p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Casual dark shirt not allowed in interview. Good afternoon- <b>greeted. Good.</b> Joint secretary of sports club of college. Watch anime for entertainment purpose. 2 internships and freelance work. Also read books for education. Graphic design. Interest lies in content development. Then why engineering? - because of lockdown, skill got diversified. Given a choice between graphic designing job and engineering job, which would you choose- graphic designing is about creativity. Engineering - is about mugging up. ( <b>Dont say this answer about engineering.</b> ) Internships - digital marketing and graphic designing. Can I happily assume that graphic designing is your alternative career to mech engineering?- not really alternate but it is a career. Not really, it is just a hobby. ( <b>Ok</b>), Education system- College is not so practical. <b>Can mention about the education system as practical than talk about college directly.</b> What kind of employer are you looking for ?- a person who is open minded and not one way. ( <b>we asked about employer and not one person. Question missed</b>). Kanhailal?- Actor in bhojpuri movies. <b>Wrong.</b> Achievement?- your friends- that you are proud of . <b>Not a substantial answer.</b> 6 months without pay but 7th month salary is higher than others- I will work- learning is more important. ( <b>can substantiate the answer better</b>)</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Final year Mech student from AIT. Honours course for IOT. Data analyst. Tech skills mentioned. <b>Don't think up and listen. Eye contact has to improve. It improved by the mid interview till end. Body language improved gradually.</b> Represented handball. What is the difference between basketball and football?- shoot it from hand and but not kick the ball. <b>Smiled in this answer, that is good. Imagination and story telling was missing.</b> Why mech engineering?- Relative asked to go for it. Now branch does not matter. Lot of things going on and you can go to the field that can make more money. I like making money. So which field makes more money?- IT and data field. <b>You have to answer this more sensibly.</b> Studying mech engineering has been a waste?- Nothing is a waste. Learnt things that has helped me in my home. India and Overseas- which one would you prefer?- India - I love it so much here. India has diversity and traditions. I love to be here. <b>Good answer.</b> Whats your take on religious fanatics?- generally you dont prefer the discrimination. Muslims- more united. <b>Good ans.</b> Regret- past 2 years was wasted. Now its more pressure but not really regretting. Internship explained role wise but nothing really related to benefits, purpose and team number. Something is better than nothing- so i will take the offer of 4 lacs-you will learn and get the experience and make you pay me more. <b>Good answer. But quoting 6 to 8 lacs is not preferable. Weakness- poor english may affect my career.</b> Friction - 1st year- project friction- bu that time you couldnt do lanything. <b>Mention an example where you did something.</b></p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Final year from AIT. SGPA score mentioned. ( mention intro in a way that is not already there in resume)Made a CAD model. Participated in events which gave me knowledge about automobiles. Know various software used. <b>Soft Skills were not mentioned.</b> Play chess- what have you learnt from it?-adapt quickly, if someone outsmarts you, purely based on your logic. <b>Started smiling more on answering chess questions.</b> Can no one fool you now because you can think in advance?- not exactly because I trust people easily. I will try to validate it. But I wDont give out your weakness easily. What are your 2 fears that you dread?- thinking and looking up, nervous in public speaking and dont want to get embarassed in public. Sensitive to opinions. How are you planning to overcome the oversensitvity in corporate world?-asking friends if there is any weakness. <b>Answer needs to be deeper.</b> When was the last time you got hurt?- <b>hair cut- not a good ans</b>-Question asked again. Not a good score in JEE. Then what would your future like your-IIT and parents would be proud of me. ( it means AIT parents are not proud of?. Be conscious of answer) Difference between AIT and IIT- reputation of IIT is high but AIT is also good and has good faculties. ( <b>Good ans</b>). <b>Pune city and maharashtrians are very helpful.</b> Who is the chief minister of UP I forgot- Yogi- He is good and nice for the development of Uttar Pradesh. Focussed on the religious thing. What is your take on Ayodhya issue- decision to make mandir is good. Muslims should also be offered a land. Because there was already a mandir before. Some emperor who destroyed it?- <b>It was Babar. Should know that.</b> What do you like about our country?- India is secular and democatic. You were looking for a paid internship so didnt do it. ( <b>cant speak or think like that.</b> ) Friction in team -doesnt do on time. What do we do then?- <b>we try to help him. Unexpected but good answer. Have you quit any activity before?- No.</b> How do you learn things?- Learn about components. learn about how assembly takes place, how they work together.( <b>learning strategy was not shared</b>). What compensation are you expecting?- thinking a lot, father earned a lot for family, I want to earn too and give comfort that they disturb. I expect 15 to 20 lacs. <b>Answer was invalid.</b></p>

Quick observation noted during the interview for one to one verbal feedback.	<p>What does name mean?- The king dynasty. Good morning? The speech needs to be clearer. Were you reading the intro? All tech skills mentioned. Team player with excellent communication skills. Hobbies-play and watch cricket, cards. Cricket player - Tendular...say why proactively. ANY international player- Adam Gilchrist-His captaincy Australia won 3 world cup. HE has good leadership qualities. Good leader- good sense of humour, in a tough situation he will crack a joke. He will bond with everyone, he can think of others, and not just his own. What makes a good communicator- design an answer according to the person listening, he can get what you want to say, right emotions through right words. Public speaker?-IAS interviews. What is missing in engineering in India?- Not upto mark Lot of engineers but unemployed. Because of more colleges of India. Accidentally I turned up in mech but now I liked it- like how machines move, degree of freedom, protection is efficient. Rajyog is pleasant and seems intelligent and is a team player. Team conflict- cricket- he thinks and says.He witnessed it. Mention proactively what they could have done to avoid or sort the conflict. What kind of people do you like- straight foward people, cheerful people. No internship- mention projects and tests in internships instead. 2 year bond with us- yes. Night shift- yes. Insecurities-If I dont get placed in any company below 3 to 5 lacs, then my family has hope and ambition from me.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Rinku greeted and asked me how I am back. Also thanked for the opportunity. Very sweet personality. Tech skills mentioned. Strong interest in datastructure and algorithm. Did internship in a small startup- developed a website and 2 projects. Don't mention small. explained the car project. Covid 19 website used to give graph on covid patients. Machine learning project- automatic cars. Published a paper. Good eye contact. Enthusiastic for learning new things, hard working, going to do it. Hobbies are cooking and travelling. Lot of patience and many types of things like event management and time management. How to manage my time well?- divide your work, dont do impossible targets, keep it small, do small and take 5 min break, dont take stress about your work, why you are doing it. What keeps you going?- interested in new things. Disappointment- JEE . Learning strategy- write down things, at the end of the day- what I have done today, quick RECAP of things. When I note down, I have the ability to remember it. U revise. International politics- Russia Ukraine war-need to know better but still explained averagely. Maharashtra govt- does not know clearly. Needs to explain more. Qualities that should be there in PM or CM- different strategies for different people. 2 year bond- no ok. Night shift is not ok.- what type of people and what type of culture - after 6 to 8 months.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Shubham greeted back. Problem solver, good in making strategy, everyday a better version of yourself. Hobbies mentioned. Looking forward to joining you as associate. What strategies have you made?- The volume of the speaker was not very clear. Pleasant personality. Strategy explained well clientwise. Responsible for product and ensure that the end product supplied should be bug free. Internship explained well. Good eye contact. He was in tech skills and strategy part. Good explanation of internship. Explained what part of strategy were you doing. Good team player in the company- growth of the other person and how the other person can learn from me. Team conflict - this experience was well. Lot of energy and smile in the interview. The way you say right? is triggerin interaction. If I have to ask what your weak points are - difficult to say no to people, not able. Why mechanical engineering?- if i cant see i cant believe it, we can feel things, machine is moving, it is evident. Thats interesting. Any upsetting event?- this is a very challenging question. Good way to interact with others. If you perform and fail it upsets you. JEE it happened. What about AIT would you like to change?- pressure on the students for the academics, if the number of study hours is 4 hours. Favourite subject is maths-like to do it. Hobbies is teaching. Good mechanic engineer - identify the problem. GOod teacher- the frequency should be good with the student, Shubham comes across a people person and someone who will figure out a way</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Rohit asked back how I am doing. Voice volume has to be good. More emotions needed in voice and face. Internship explained in intro. Recently last month, he joined in android team. Don't keep looking up while thinking. Joint secretary of clubs. Eye contact needs to be better. Made website also. Book reading and cycling. Latest book-How to win friends- Dale Carnegie. While answering this question, he smiled. Tips- do your research about the other person, appreciate. I spend more time on laptop and cycling was 53 kms. Why did you choose to co-ordinate for these interviews?- hunger to learn things, not good with communication with people...seniors told me that you have to improve communication by doing the communication. When 8 people did not come for the interview, does that irritate you?- it does not irritate me, explain it and shift the attention to someone else. Why doesn't people not coming lead you to failure?- I don't see that as a problem. Anything that you would like to change about my parents- father is conservative. I will tell you a story. Grow application invested- and Rohit smiled. International politics- NATO- Russia does not want NATO in its border. Ukraine is collaborating with USA. Explained well. When something upset you because of no appreciation- coordination, google had come to campus, mentioned the app he made proactively for new notification, how much money are you making for it. Salary expectation- good growth in the company and what is the minimum market wages? minimum? No specific inspiration - but follow google developers.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Good morning Ma'am. Honours course in datascience. Good experience there. Big Data work. Used to work in a team of 4 ( good info). Web dev, Good in ..mentioned tech skills. Internship and project explained. Good communication skills, good voice tone, good body language. Firm voice. Eye contact can be better. Can have more emotions while speaking instead of just narrating. scholarship mentioned, Intro needs to be shorter and more compact. Time yourself. Sing -Rahul sang well. What are the weakpoints that can harm your career?- not good at talking with new people- but not I have improved. To impress I try to learn new tech- I found out and just focus on one time. When do you get so upset that it gets difficult to encourage you again?-when I had organised a Times Event to teach my juniors. After 20 days of immense training, lockdown occurred and the training went to waste. Engineering experience. Now do you feel settled?- yes definitely- really enjoying college life. Did you explore Pune?- no public events and my friends are great. Not much different between people as such. Language here is unsettling. UP people are really good. Marathi language is harsh. Whats your tips be to settle down anywhere?- dont make good friends and it will hurt you. Experience different cultures. What salary are you expecting- just looking for good role and growth. Above 10 lacs is sufficient for me. Dont know the exact amount. Good work life balance. I cant commit work life balance- sometimes pressure is good. But pressure will be all the time. Is that ok with you?- he hesitated. I have to face that and if i love that job, i will be able to work. Night shift- I am not ok with night shift. I have made up my mind on what I want and it will take time to break them.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>How are you?- should have asked me back. He is from JK. The background light is dim. Scores are not important and school in intro. <b>Need more emotions and tone while speaking.</b> Technical skills mentioned and core software skills mentioned. Hobbies are trekking and volleyball. What is good about trekking?- likes the weather and forest (says is without energy). Volleyball- learnt team playing. Team player- listen what team captain says, work in rules, be supportive. If there is conflict in team, how will you solve it?- if no rule is followed, then explain the rule to people who don't follow rules. <b>Rahul needs to gear up energy and interest.</b> Recent achievement got 2nd prize. What irritates you?- if I am not working with timetable. Cannot be with timetable because I sleep a lot. Weather in Pune makes me sleepy. JK is not cold and around 40 degree. <b>His energy increased while he was speaking about JK.</b> - Maharaja and Vaishnudevi mandir. Article 360 and 35A was passed. I support the current government. <b>His energy increased during JK question and also the Article 360. He explained it better than other answers.</b> Why mechanical engineering?- JEE score is low and interested in physics and designing. No internship- didn't get many internship in core field. Rahul's feedback was given in detail and guidance was given on exactly what has to be done. <b>He seems like an introvert and scared. He needs to open his personality more and welcome uncertainty. He needs handholding in communication, outlook and more confidence boosting.</b></p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Asked Priya-how are you doing?- should have asked me back.</p> <p>Intro- datascience, curious about technologies, implementing knowledge, secretary-entrepreneurship dev. Internship mentioned. Eye contact is missing a few times. Skills - like to interact with people, conducted events successfully. Why are you a mechanical engineer?- according to merit score, she was ranked 80000 because of which she is in AIT. Did computer science fundamentals too. Implement knowledge in both fields. The question to mechanical engineer was not answered. Maharashtra govt question was not answered well. not aware of the chief minister of Maharashtra. Any idea about sports?- Nilesch Chopra had played and record.- Not clear. Which sports do you play?- Badminton. Any badminton player that you look upto - not a big keenness. Why should we hire you?- skills are aligned, you are looking for managmeent role, I have conducted several events. Right skills are missing. What makes you nervous?- Any situation and that thing is very important for me and if I lose this opportunity, it will be a loss then I get nervous. If you dont get rejected, what will you behave like- I will be sad and focus on why the company rejected me. I will improve myself. Feedback?</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Question that was asked by TCS was answered in repetition and it was not compact. Khadakpur, 10th n 12th school and scores are not important to mention in Intro. Hard skills mentioned. Games developed mentioned. The interview can be in the form of story telling. Qualities and skills are missing. Games and 4 projects explained well. Internship mentioned too. Sketching and video games. awards- 1st prize in coding. ( dont have to mention coming to every time). Intro has to be within 2 min. Any artist that you look upto?- No. Even if TCS is done, still appeared for mock interview- want feedback on other skills. I need to complete it and know more about how to interview better. Bengal vs Maharashtra culture difference-way people talk. havent visited people here yet. Culture answer was not answered. Not aware of Japanese dignitaries death and international borders. What kind of employer are you looking for? - didnt understand the question and asked back. What company are you looking for?- where I get better growth, smart mind interaction, work life balance. How will you know before joining the company?- people there who you know are working. Other applications- where we can interact with employees in advance Answers need to be more compact. Weakness-overthink a lot, dont interact with many people- have to avoid these answers. Trying to make more and more friends and trying to overcome the weakness. Why should we hire you?- I am having the skills that the company is looking for-mention the skills. Based on project experience that I am consistent and I submit work on time. No negative feedback on me in work experience. Current affairs knowledge is extremely weak. Wants to work overseas- what is your attraction?-smart minds there, can learn more there than here.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Asked me back how I am. That's good. Thanking for the opportunity. Location and schooling can be avoided. Strong analytical skills, can cultivate ideas and focussed on executing ideas. Business dev lead generation in companies like.....Eye contact can be better. Martial arts medals. How long have you been training- 6 years. How to be mentally strong?- trains you phy and mentally. I am short and my opponents were taller than me. Always prepared for opponent taller than me. trains you in injury. How to manage crisis?- be structured as much possible in regular life too, priorities set before going to sleep, plan your day in advance in previous day, 5 min after you wake up that tasks to be done for the day, meditation, you must do what you have planned at all costs. Nishant - name means-. Being an army officer is an aspiration. Why are you appearing for the corporate interview?- because the interview process in corporate and army world is similar. Try to avoid this answer. If you are an engineer, you get more opportunities in army too compared to non engineers. What depresses you?- Any unfinished work bothers you. In real life, there will be endless unfinished work- I will train my mind from the college world itself. <b>IMUN- webinars and courses for current hot topics.</b> Good confidence, good body language</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Background light was blurred. Thank you for inviting me for interview. Over past 3 years, I have built skills and qualities which built my personality- web dev- technologies and other hard skills. Course on graphic designing. Head of event. Team has grabbed 1st position in the events. good at working under pressure. good at building relations because they will help me in future( last part was not needed), been a part of debating society. Head of debating head in 3rd year. Mention the skills and qualities more. Can you help me understand how to work under pressure?- you answered about your experience. I asked the question again about pressure and then Puneet answered- structure your daily plan, ask batchmates how much time will they take to complete the task, taking feedback from the junior, without feedback you will never know. YOU are good at relations,-dont you take offense easily? - everyone has different perspective, if anyone criticises him but he knows it is only for the moment. Ready for work in night shift-comfortable because as a BE student, we have worked in night. Ok to sign for a 2 year bond. Overseas opportunity- immediately- new learnings- so he will go. Education system is more theoretical and not practical but it is improving day by day. It is boring but they must include practical stuff. Siachen war not aware. Maharashtra govt politics explained but mention the names of politician and party. Current chief minister mentioned. Enough scope of mechanical engineers in India- everyone wont apply for these jobs. ( didnt have to say this) But there are shortage of jobs. If they sharpen their skills, they will get jobs</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Sangli Maharashtra. Secretary, - you mentioned events. Internship mentioned. Reading, trekking, swimming, football- Thousand suns by Khalid Hussain. Pre and post taliban. Mention proactively-Football skills- when he was 3 years old. Made senior friends. Became so mature in life and experience. How to be a good team player-keeping up the morale of the team. It is not the last game we are playing. Team player - cooperation, patience, giving equal responsibility, honesty, integrity. Difference between honesty and integrity-Honesty can be brutal at times. Polite and general - integrity. Could have answered better. One achievement- 2nd year- project- epicycle- make a model of a car- made department head of power train-explained well. What can infuriate me?-talks to me on my own insecurities. Mother said its ok because we all change and our insecurities keep changing. If planned everything and last moment someone does not come and a chain of people dont come, disappointed. I dont lose faith in people but the respect should be there.Inspired by mother- cheerful person, never seen her breakdown,gem of a person, she addresses people first. YOur interview was very mature. Will you be able to cope up with badly behaved bosses and colleagues?- have been in the situations. I know how to handle the situation. Dont react immediately and be patient. He may be angry because of any other reason. How will you react if you dont get their due and someone else gets their due and its evident things are unfair?- if i have responsibility, i will stick around for sometime but if people are not respecting me, it will affect my mental health, just for appraisal, i wont be sitting there. Pravin's interview was clear, confident, mature no nonsense guy and can be relied on</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Casual clothes. 2 internships explained. Course on AI and Machine learning. Qualities and skills are missing. Writing poems, national gold medalist. Asked him to recite poetry. Engineering was not first experience but liking it now. Creativity in poet side helped me to be more focussed. Poetry is just a habit. Career will be mech engineering. How is poetry helping me to focus?- not exactly. whenever engineering becomes boring, poetry is a stress buster and then i return to engineering. Head of Dept- inspired by - Finite element and analysis-outstanding professor- taught in a beautiful way that he loved the subject- practical way. Literature- Dr APJ Kalam- Forge your future- explained the book of mass destruction and written in form of question and answers. What makes you nervous?- situation of uncertainty-pandemic-lockdown from 2 months to 2 years of online engineerings. Mention how you deal with that proactively. Engineering is a very practical field and always evolving. You have to upgrade yourself. ANswer to question- are you find engineering overwhelming considering your first choice was humanity. What can upset you easily?- I dont get upset easily. I am an introvert and i am not surrounded by people. My own failures can upset me but not someone else's views. Resolve group conflicts through a dialogue or even exchanging ideas. If it does not help, then you have to walk out of it, if dialogue does not work. But such things has not happened. Salary expectation-8 to 10 lacs as a fresher. 8 Lacs is acceptable. If I give your friend, 12 lacs and you 8 lacs, would you be upset?- No because after few years, I would do masters. Probably after gaining 2 to 3 years of experience. Higher studies.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Smile on the face. Ayodhya UP. Cricket and watching informatic videos on youtube. Discovery channel documentaries. C and C++, CAD modelling. Analytical software. UP is one of the largest state of India. Plain areas. Climate is very extreme-extreme hot. Question was on attractive features of UP and not to describe UP. Lucknow is famous for cuisine. Ayodhya is under development. Ayodhya issue isn't very complicated. Eye contact needs to be better. Ayodhya issue explained well. India match explained sports answer was given well. Test cricket. Can time your answer. It should be within 2 minutes. Take on IPLs and other formats- provided a lot of talent and many cricketers are getting exposure. But cricket has degraded-short and less enjoyable compared to test cricket. Continuous smile and pleasant personality. No internship as suffered from bipolar disorder and had to take a break of 1 year. But looking forward to it. Bipolar disorder explained in details. Throwing things around. Threw the laptop in the river. Scooty to a ride and accelerated in full throttle. Violent with family members as well. Please don't mention about bipolar in interviews. Otherwise the interview was very detailed, confident and good. After this, there was self introspection and all anger was controlled-friction- getting angry is not the solution for everything.</p>	<p>Self starter with strong interpersonal skills for individual contributor and group too. Self learnt 3 D Artist. Flexible, self learning. Cricket and watch, cooking and esports. Seek new challenges and out of the box. Problem solving. Don't mention weakness in intro- try to get to the root of the problem. Recently learnt 3 things- SQL, Blender, one by one. How do you learn something well? - Make a basic platform, where to start from, get in the roots of that day, learning techniques. Inspiration names- Virat Kohli for hardworking person, team management. work with the people not just for yourself. Why do you think interviews are important? - small gaps, interviews fill the gaps. Interviews are like a bridge. Communication skill can improve. Sri Lanka politics was explained ok. Internet connection was poor. No internship- should have mentioned projects-wanted to work in mechanical internships. Don't give monosyllable. Future of mechanical engineers- can be explained better with more details. Salary answer was good.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>From Khadakwasla in Pune. School and college not required. Fumbling in intro. Standard intro. Qualities and skills are missing. Same lines are repeated. Good position in the organisation. Football and badminton- mentioned after asked. Skills learnt are leadership skills are enhanced. Physical strength. Coach the other players too. Coach me on playing football well- Increase your stamina. Passing is also important not just dribbling. Ronaldo and Messi- Had lot of energy in Armed Defence. Presently not preparing. Attempt will be after graduation. Asked again-if I will get placed, I won't think about it. He has to do the job because he has responsibilities. He could have said that he can contribute through job. Corruption, politics and population. Sorry for Indian economy answer. Maharashtra govt politics could have been explained better but the answer was given nevertheless. Any challenge that has shaped your personality- father passed away. Became very responsible. managing the finance. Relocation is ok as my mother is strong. In school, headboy and what stopped you from achieving post school? - 1st year NDA attempts. 2nd year in AIT from Sinhgad college of engineering. Good eye contact</p>	<p>Background light should be better. Score can be avoided. It is in resume. Good with CAD modelling software., SQL etc. Internship of 2 months as data analytical software. Hobbies are cricket and TT- agility and focus. Watch the ball carefully- focus and agile, which portion of the racket you are hitting. But I don't play TT, what should I do? - watch meditation videos. That will help. Internship explained well-job was to help the smaller companies to collect the info about restaurants. Building a website for newdocto. What's exciting about mechanical engineer- you get to see the things- machines working. Gives examples while answering. Learning- learn basic and no mug up. First I build a base. My father is my hero-come from a humble background. Mentioned what are the benefits due to father's presence but forgot the qualities. Qualities should be more concise and crisp. Dad used to drink and then stop. Then after asked, he mentioned the story of his dad. Answers can be short and compact. How would you feel if you get rejected?- Father always said always believe in yourself. He also entered the army the 2nd time. He did not know where he fell short. Don't doubt the system. Practise hard. Friction- during sports-faced allegation of bias. He structures the answer and explains how he is not biased. Answers are longer than 2 min. What kind of boss you would not like to have?-</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Belong to AP. Self learnt 3D artist. Pleasant face and attitude. Always smiling. 2nd runner up designing 3D showroom. Loved to read books, listening to music and plays E Sports. Happy person and cheerful person. No major disappointment but a minor disappointment- last JEE. In 3 years, any friction and if yes, how did you manage- no conflicts. Always cheerful and creative person, good learning aptitude, - learning strategy- gets deep into the matter, where does it start, build a good platform step by step. Inspiration- Tata and Dhoni. Explain why. He is a good person and keeps his company motivated- good incentives and bonus, works for the society. What about Dhoni? - can overcome failures, he learnt a lot. If you had to imbibe something about Dhoni, it would be leadership, hardworking, dynamic. Uday is authentic. How are engineers perceived?- generally low quality colleges as low class professionals and have to work in bad environment and that they are paid less. No plans for higher studies but maybe after 3 years, pursue MBA. It will expose yourself to more opportunities. Also you will make new friends. Definitely no to bond- 2 years- CAT education, have to leave the company for sure. Relocation is not an issue. What kind of boss you dont want ?- rather have a good leader than a good boss. Boss is always demanding and not helping you. Value for our organisation- new ideas to the table. punctual and dedicated towards work. Anything you want to ask? - Typing speed was good. Team work - everystuff you do is team work- the answer should be more complete. I asked more then said you have to appreciate and help him.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Camera light should be better. Hail from Chapra Bihar not required. Intro is interested in coding. Came to know that he is not for mechanical and did coding. Reading books, TT and chess. He will do everything- so many clubs, joint secretary. Man called Ove-100 pages. An old person who lost his wife and is grumpy about your wife and wants discipline. Very energetic and very animated. Moves a lot while speaking. Started playing chess in 8th std. What did chess teach you- think for the future, be calm, don't think for the past moves. Vidith Gujrathi-Chess player. When you cough, say excuse me. What is interesting about coding that is not interesting in mechanical?- Couldn't get practical knowledge about mechanical. Whenever you make something, there is lot of joy of making. Green ticks- after solving every question. Disappointment-JEE score. Every step of life you have to be competitive. Then he spoke in hindi. Nothing wrong with the college. If you don't get treated well in office and getting sidelined, Krishna said focus on work. If really treated bad, then will switch. Bond- no issue. Other colleagues had issue, why no issue. Internship- no- regarding IT sector, learning. Projects of that scale done. Describe the projects</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Good knowledge of technical skills, cricket- team and focus, clubs-competitions, 2 months internship. - Good and compact intro. Internship described. Did someone broke your trust?-Not really but disappointment was there. Described the event with a smile about presentation without him. Good flow of language. Camera light has to be good. Lost contact with friends- but less with time. Common anymore. Special points- adaptable from army background. What quality I dont have because I am a civilian- He knows the culture of many places. Shillong and AP. Culture of India. They may know the culture but dont experience it. It is not always to be in army but there is diversity. Mayabk has loads of common sense. Explained what is happening in Srilanka well. India diversity is strength and not weakness. Good current affairs. Learning is step by step. What it is and thq sources need to be decided. Guidance from someone who already did it. Go through the entire process and then implement it</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Thank you for giving this opportunity. Strength - focussed towards work, honest, sports person. Achievements- Hackathon,...don't have to say 1st one is 2nd one is. Coming to my hobbies - don't have to start like that...skills of leadership, manager a team through sports. Music heals me through disturbance. Not particular music- any kind of music- Indian music. Sports- Volleyball.- players Evin is from France. China and France. Why did you choose to be an engineer?- honest so I will tell you the correct answer. But after college, lot of things that engineers can do that others cant do. Then I had to ask , then he said problem solving. Creative also how to build a thing. Challenge- first hackathon while making a prototype-after a lot of research. How would people who know you describe you- funny. Any weakpoint- I push people a lot. Any faculty you dont like?- no one. Parents learning- be honest towards work. If someone else who does not deserve it , I will ask for feedback. He wont feel bad about the other person. Any event of jealousy? - described well. Internship described well. Mayank can speak slower.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Merit based scholarship. Cooking and cycling are hobbies. Can cook many north indian dishes. Why engineering? - interested in physics so chose mech engineering. We need deeper answer. In pandemic lost intererst and tried new fields like coding. There wa no practical and mæch engineering is all about practical.Anyone in the field of engineering that you look upto? - ans was not there. Friend should not be there in your video. Scope of engineers in INdia- 40 to 50 lacs engineers in India and only 30% get jobs and only 30% get paid well. Indian education system focusses on theory only. No exposure to practical skills. Are you not scared that you might not get a job? - I am confident that I will. If i dont get the job, I will upgrade my skills. What kind of employer are you looking for? - looking for business consulting. Even if i am not into this, i will still join and hang around and improve professional skills. Maharashtra govt-new CM- dont know. Not ok with bond of 2 years because if I get a chance to pursue higher studies and improve skills, then I will do that. Then can join your company with higher skills. Expecting 20 lacs - but no reason given. Good observer, good listener- shy with opp gender, nervous of public speaking.- Discipline - follow the timetable</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Thank you for providing this chance. I am from Rajasthan. Scores are already there in resume. Despite the fact that his field is mechanical, he has still learnt coding. Volleyball music cycling. to work on own, strong leadership qualities, being adaptable to circumstances. weakness- assignment in allotted time. Eye contact is an issue. Long term objective is to respectful place in the organisation. What kind of music do you like ? - band or concern type. Confidence is low. Answer is prepared but scripted. Latest music? - punjabi songs. Speed of speech has to be slower. Dont mention weaknesses in intro. It is not divided group-diverse. Things that can make you nervous - communicating with strangers. Disappointed with yourself - event- could not get through JEE. Was not interested in mechanical so much and he loves to do coding. Cant say wasted in mech. Ok to work in night shifts. What about Rajasthan is missing in Pune?- Mandeep was smiling. If he get rejected in interview, I will get to learn something. He will do well to perform your skills. Feedback? Struggling event which was finally done well- cycling. Mandeep tries well. He is sincere. but his communication skills and confidence and body language has to improve. One reason why he should not come to AIT- scared of seniors. He has integrity.</p>	<p>Haryana. 10th and 12th details not required. Tech skills mentioned. Hobbies- cycling, cricket. Geopolitics. Not done any internship was in intro? Because companies do not bother too much about internship and internship does not prove anything. What skills have you developed because of those hobbies- strategic, discipline, team work. A good mechanical engineer as a whole engineer- communication, eagerness to learn- companies will train you, leadership qualities. Being a leader does not mean you have to lead always, you have to manage things. Debates - must know facts. How much money is required to survive in metropolitan city- 4 lacs. As a fresher, i incline yourself to growth. Money will come. Salary - my skills are aligned to company. dont have thought about it. You guys- avoid this lingo. I have chosen this company- advance technologies. Weaknesses mentioned safely.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Greetings. From JK. 10th and 12th not required. Secretary of college- skills? Business Associate in organisation- which one? Interest in Cad Modelling. Hobbies are cycling - skill? Why would you recommend AIT - all around development of an individual. 3 weakpoints of yours that can harm your career - overexcited, thinking of other 2- couldnt answer. being a mech engineer- vast knowledge of lot of things- how to design a vehicle, machinery works. Can answer better. If you dont like the work culture- then adapt, if not stable then he will quit. When was the last time you fell like giving up? - interview of a company, interview was not gone wll. He felt like given up. He was nervous. Strength- task on time, focus, adapt, punctual. He will go with good boss and not so well paid salary - honour of the company. learning? Salary expected - an average salary of 13 to 14 lac but I will go with lesser salary if I get a work of my interest. Confidence is there but can get better. Well dressed. Well attempted answer</p>	<p>Basketball and cycling- mentioned the skills. Qualities were missed. Good dress code. Good voice- firm and strong . Internship explained well. Don't get distracted by environmental disturbances. Friends can give you feedback. Making new friends is easier. Civilian kids are into one location and long term friends. Army kids friends keep changing. Any other difference? - no ans. Relocation wont be an issue unless it is a different country. GOt stuck with the ans of different country- far distant from family. Want to be closer to your family. We cant change anything of our parents and the ans got diverted initially. Change the behaviour towards corporate job- getting a govt job is better and that attitude needs to change. Challenges faced while studying in AIT.- upgrading skills. Quotes were misplaced. Skills upgraded should have been mentioned proactively. He recommends Guhawati as a city to live in. Tem playing skills - not described- people asked you to play sports- not enough answer. Weakness- shy, cant remember the rest 2. It can be removed in 2 to 3 days - how- with new people. Answers need to be more complete. Interpretation skills need to be improve. Salary expectation is 12 to 13 lacs- it is most preferable or go for the next job.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Thank you for giving this opportunity. Myself- wrong. Won the interbranch competition- Achievements of 1st rank in Olympiad. Hobbies are interior designing- Past experiences- Joint Secretary. Self motivated person and very neat and disciplined person. What should I do to be more disciplined?- parents are disciplined and strict. Genes are from my father. How should I be on track? - concentration is more important. ANYthing about your father that you would - father passed away- doesnt want to change anything. Are you ready for sudden changes in work life?- I dont like people who are not disciplined. Weakpoints - cant grab the things fast, time management- thats an issue. Salary expectation- 11 to 12. If I have the budget of 12, can I give you 11 lacs- It is also the salary but also the working environment. Any city is ok. Night shift is comfortable. In day, I feel bored and dull. Achieved more than expected- situation was totally reversed- was not explained well. What in Pune - it is rainy- doesnt like the climate but likes it is calm. I didnt like interact much wiht Pune. Hero - There is no inspiration. Communicaiton skill and interpretation skills need to improve</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>Good english. Good posture. Internship experience as operation intern helped me working within corporate environment. Database software. Content writing internship- analytical and research skills. Responsible position. Hobbies-invested in poetry, fictional,. Very good intro- Resilient person - management consultancy. Event where you displayed your resilience- Consultancy work, was calm while mentioning that payment was not given. Pocket money internship- not good with engineering- eng, vocab and research and analytical skills. Confidence derived from - impact to other people- when you have an impactful person- answer can be better. No of subjects in the entire tenure- unnecessarily explained the other subjects before asking. Fav subject?- Thermo dynamics. Any recent update which has upset you?- A case study in ZS...team was prepared but on the last day, the answers could not be uploaded. Prefer Pune but flexible in any city. Good. Suggestion - dont think of engineering as an escape option. Bengal politics was a massacre. Bengal is into literature. Hobbies are practised in Bengal. Unfriendly boss - Try to ways to sort things out between us and talk about it- if not an option- silent working. Role model in your field - senior - can mention other people - not confident about future and becoming efficient.</p>

Quick observation noted during the interview for one to one verbal feedback.	Intro- Latur, 10th and 12th not required. Hobbies- trekking, football, handball, motor sports. What have you learnt from it? - Curiosity to learn, new ways to do the same things. Mech engineering- proud to be one- fan and computer is running by mechanical mechanism. Role Model- APJ Kalam-teaching in convent school and ended his life by being President of India. Role model - Pratibha Patil- 1st lady President of India. Boss would you not like-Ultimately are team lead where he enforces his style only. If such a person exists, then he will do a hybrid style.If interview rejected- demotivating, not give up. Try for the next interview. Team conflict - captain of the team- only 5 people were dedicated. REst of the people had indiscipline. He teaches them the methods. But does not tell him the answer. Azaj was confident. Learning - source- books and internet. Prefers Pune for working as he has lived here for 5 years.

Quick observation noted during the interview for one to one verbal feedback.	<p>Good eve- 20 years old and belong to district. Scores mentioned. Voice was not clear. Marks mentioned again for joint exam. Coming on hobbies-read and run...more details and skills? Tech skills - AUTOCAD, analysis software. Positions held during AIT tenure- rotaract club. The camera angle has to be from head to chest. Look for in a good job - working hours-? have hobbies. Work hours must be flexible, 2nd thing is salary and the 3rd thing is growth of current employees- glassdoors and naukri.com. I am not an engineer - I missed out on unnecessary pressure and confusion. How to 4 units in one night. How to tolerate professors while doing submission. Kartik is confident. How do you describe an unfair person? - laughing- teachers- Army public school. Not looking at anyone with equality. Biased. Did you vent out your concern?- at that time, I didnt mind. But in office, i will tell and I will also say the concern but will mention that it is for the institute and you. When I am in the zone, I dont like people who are not serious. I am bold and I can be violent. This can be a challenge. I can get angry. 60% of the attitude is internal. Actual playing is formality. Who is your fav person?- I like many people- For eg Benjamin Franklin biography and his maturity and level of thinking was far above. Attitude needs to be mended. Lot of heroes biography- seniors and juniors. 3 reasons why we should hire you- bold and honest guy, not sugar coat anything, hard working guy, mision oriented. Juniors admire me. Good sense of humor and people respect me. Good confidence and good body language. Good communication style. But attitude can</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>From UP, Lucknow and from AIT. Backend developer intern. Joint secretary of AIT. Family. Parents info are not required. Long term goal is to join a reputed company and I could lead some international project and make positive changes in the company. Hobbies are cycling and swimming and physical activity. Mechanical engineering- cars they build. Participated in event where we built a vehicle. Answers need to be more specific. Got few certifications also. Answers need to be short and compact. Smiling. Pleasant attitude. Team work- Cycling club-answer was not specific- restrictions from govt- the question was about team conflict not environmental conflict. However team arrangement was explained well. Answers are too long and not structured. Casual clothes are not allowed. Anything about the college that you would like to change- not enough strictness. Earlier we used to feel proud. But the management currently changed. Prefer working from office- interaction is missing. Theory - peer to peer interaction is missing. A good engineer must have problem solving skills- This was the one explained. Logic or something. The same point was mentioned multiple ways. We need other points too. No excuse of working late and working hard. Pause in between while speaking. There is no breather at all. Internship answer was good- Program and role mentioned.</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>From Lucknow- location is not important. He explained AIT , Pune which is a defence college. Not required. Family details not required. Education system- we are paying from the degree- Everthing is provided for free. We are getting less from the college and cant suggest the answer. Achievement question- worked really hard but didnt get top of the college. AIT is a decent college with placements and exposure. Why did you choose mech engineering- he wouldnt choose computer engineering. he doesnt like coding. His weakness - timemanagement and focus issue. <b>The answers were not common sensical. Internship was missing.</b> All internship are coding based which he does not want to do. What irritates you- dont know the answer- if someone pressurises him, it can tick him off. Then he tries to compose himself. <b>Answers have to be prepared and better. The answers were given casually and not well thought of. Rejected.</b></p>	<p>Thanked for opportunity for introduction. Mentioned scholarships. Technical intro- 13th position All India Rank. Procrastination help sometime? Overthinking helps- helps in better preparation. Why should we hire you- can adapt to new technologies and things quickly. He did not say anything against his batchmates. Tough situation - mini project-Approving the project was difficult. Strenght and weakness answer - background detail research is a strong point. Can learn things properly. Answers need to be more compact. Weakness- stressed if have to deliver in short time- Meditate. West Bengal politics- employment is missing. If given a job there, he will take it. Maharashtra politics explained but the answer should be better. Dont know the CM. Night shift is ok. After you get the job, in the next 1 year- will do courses and skillmyself. Not really an internship - should explain things and not say that it was not really an internship</p>

Quick observation noted during the interview for one to one verbal feedback.	<p>I have shared my resume. Based on that you can interview me. I am good in 5 skills- CAD, 3 D Printing, Product design or design thinking, 85% in that and silver batch. Event management Explained the event of room and bot and design of that - drawings. you mentioned both the internships and explained that. it was too long. Try to mention skills soft and technical skills in introduction. Dont explain internship in details without being asked. Internship - unpaid- people run after money but i did my stuff. Answers can be shorter. Students have not developed skills. 2 weaknesses that can harm your career - kind of procrastinator. Trying to solve it by keeping away from social media. They are designed for that. Book of Karmic Design thinking- Prof Bala Rammadurai. Buddhwa way of solving problem- Identify and analyse. Generate ideas. Latest developments in mech engineering- IOT, AI. IOT is used to connect machines with each other. Night shift - yes I am if I am getting something to learn. Jetlags -foreign nation. Will not affect after 21 days.and till then there will be slight suffering.. What is so special about you? Why</p>	<p>Camera angle needs to be better. Face was too close. The intro was traditonal. Eye contact needs to be better. Mention skills with hobbies. Dress code was casual. Singing, dancing and acting ? Sports - dedication that came from there was good. Eye contact was better when you returned. Spent more time with grandparents. Current affairs- modern history, ethics of a man,emotional intelligence. Tried trading too. Emotional intelligence ans- Modiji- wears a local dress- to be relate to people. Ideological difference in the Maharashtra govt. We can get the job but we are not well read Whats the point of staying somewhere? He will be in rebellion category- This naming can be misleading. But ans is correct. what is in my power? THeory if employer is disappointing. Cryptocurrency pro in economy. Can explain the role in internship better</p>

Quick observation noted during the interview for one to one verbal feedback.	Can smile. 10th and 12th not required. Hobbies need to be told with skills- cricket. Suddenly stopped the introduction...under 150. Maths physics and elder brother asked for engineering. What research did you do? China is the greatest manufacturer and in cheap price. India can also beat china. Tough situation - 150th...from HR round, he was rejected - ZS campus- biggest failure-mention tough. Optimistic person and motivated myself. Strength of yours- as I told you about optimism, team work, pressure- cricket. Representing whole organisation. Pressure situation- take back something from the failure. Reevaluate yourself. Irritated - cricket - tease. Internship- Head staff of NTPC-stopped....lost opportunity. 2 projects explained. Got a job but not the right salary- opt the job and will try to negotiate. Eye contact needs to be better	Hobby is dancing. College club team. Light effect is bad. Weakness is overthinking in introduction. Mention skills. Intro was not relevant. What worries you- nothing worries me but I still overthink. Mother was unwell that he overthought. What do you like about being an engineer? they are the backbone of economy and they are the base of the changing economy. Which engineer you look up to- Elon Musk- Tesla. Elon Musk is a software engineering- he self read books. Outer space- has an effect on our current world- should focus on inner world. Wasting money on outerspace. India got on Mars on minimum cost and India is a developing nation. Looks upto Shivaji Maharaj- Good war strategist. Not faced any event of conflict in project but faced in other area- dance. Explain the dance issue. I had to ask what happened next. No internship yet and not yet developed skills to bag an internship. Study further - no plans. Overseas and India - where can you grow more? I will go there. How will you analyse? - Got stuck at all. Project - study of the airfoils. Didn't explain more. Do you have anything to ask me?

Quick observation noted during the interview for one to one verbal feedback.	<p>Why mech engineering? - not computer engineering. Mech is core engineering. AIT proud - army vibe. Good natural flow. Good eye contact. Considerate towards each other. Teaching of the faculty. Consistency is learning. Engineers generally study 3 days in advance. Future employer- understanding?. That I am for the company and company is for me. Internship not related to engineering but skills developed- exposure to all fields. It is better to be employed - extra work- she needs to be convinced. Good energy. Use intro that will help the selection</p>	<p>Army brat- introduction-language. Good smile. Good energy. Debates. Clubs-seniors learning. Internship in intro - aspired to be product manager. Explaining prod manager - absolutely, I would love to. Explained the role well bit by bit. Series of internships. Mention strength. Boring engineers- dont find anything new everyday. Not curious. Being a visionary and your thesis. If things dont fall your way- amazing question- still answered with a smile. If the employee is not heard then he would leave the organisation. Work life balance-explained well. Used stats well 2.5 hours of productivity</p>

AIT STUDENT MOCK INTERVIEW SHEET 2022 - Final.xlsx;

Dear Mr. Khaladkar,

Good Afternoon !

Please find attached the mock interview performance report for mechanical students from 11th to 15th July. Total students completed are 37. Ideally should have been 40.

Kindly ask the stream coordinators to ensure 8 students per day and keep back ups ready. I have guided them for the same as well.

Verbal one to one detailed feedback is being given to each student publicly post the interviews.

Thank you.

Warm Regards,

Paromita Das

They are designed for that. Book of Karmic Design thinking- Prof.Bala Rammadurai. Buddhwa way of solving problem- Identify and analyse. Generate ideas. Latest developments in mech engineering- IOT, AI. IOT is used to connect machines with each other. Night shift - yes I am if I am getting something to learn. Jetlags -foreign nation. Will not affect after 21 days and till then there will be slight suffering.. What is so special about you? Why</p>	<p>Camera angle needs to be better. Face was too close. The intro was traditional. Eye contact needs to be better. Mention skills with hobbies. Dress code was casual. Singing, dancing and acting? Sports - dedication that came from there was good. Eye contact was better when you returned. Spent more time with grandparents. Current affairs- modern history, ethics of a man, emotional intelligence. Tried trading too. Emotional Intelligence ans- Modiji- wears a local dress- to be relate to people. Ideological difference in the Maharashtra govt. We can get the job but we are not well read Whats the point of staying somewhere? He will be in rebellion category- This naming can be misleading. But ans is correct. what is in my power? Theory if employer is disappointing. Cryptocurrency pro in economy. Can explain the role in internship better</p>

AIT STUDENTS MOCK INTERVIEW SCORE - 2022		
	4	6
Roll No	19642	19518
Name	Alok Singh	Ankit Kathait
Date	11-07-2022	11-07-2022

Reliability	3	3.5
Learning Orientation	3	4
Disciplined/ Organising Ability	3.5	3
Total Student's Marks	47.3	43.4
Total Marks	60	60
Percentage scored	79%	72%
Rating for Decision	R	R
Quick observation noted during the interview for one to one verbal feedback.	Can smile. 10th and 12th not required. Hobbies need to be told with skills- cricket. Suddenly stopped the introduction...under 150. Maths physics and elder brother asked for engineering. What research did you do? China is the greatest manufacturer and in cheap price. India can also beat china. Tough situation - 150th...from HR round, he was rejected - ZS campus- biggest failure-mention tough . Optimistic person and motivated myself. Strength of yours- as I told you about optimism, team work , pressure- cricket. Representing whole organisation. Pressure situation- take back something from the failure. Reevaluate yourself. Irritated - cricket - tease . Internship- Head staff of NTPC-stopped...lost opportunity. 2 projects explained. Got a job but not the right salary- opt the job and will try to negotiate. Eye contact needs to be better	Hobby is dancing. College club team. Light effect is bad. Weakness is overthinking in introduction. Mention skills. Intro was not relevant. What worries you- nothing worries me but I still overthink. Mother was unwell that he overthought. What do you like about being an engineer? they are the backbone of economy and they are the base of the changing economy. Which engineer you look up to- Elon Musk Tesla. Elon Musk is a software engineering- he self read books. Outer space- has an effect on our current world- should focus on inner world. Wasting money on outerspace. India got on Mars on minimum cost and India is a developing nation. Looks upto Shivaji Maharaj- Good war strategist. Not faced any event of conflict in project but faced in other area- dance. Explain the dance issue. I had to ask what happened next. No internship yet and not yet developed skills to bag an internship. Study further - no plans. Overseas and India - where can you grow more? I will go there. How will you analyse? - Got stuck at all. Project - study of the airfoils. Didn't explain more. Do you have anything to ask me?

Rating for Decision	HR	HR	
Quick observation noted during the interview for one to one verbal feedback.	<p>Why mech engineering? - not computer engineering. Mech is core engineering. AIT proud - army vibe. Good natural flow. Good eye contact. Considerate towards each other. Teaching of the faculty. Consistency is learning. Engineers generally study 3 days in advance. Future employer- understanding?. That I am for the company and company is for me. Internship not related to engineering but skills developed- exposure to all fields. It is better to be employed - extra work- she needs to be convinced. Good energy. Use intro that will help the selection</p> <p>Army brat- introduction- language. Good smile. Good energy. Debates. Clubs-seniors learning. Internship in intro - aspired to be product manager. Explaining prod manager- absolutely, I would love to. Explained the role well bit by bit. Series of internships. Mention strength. Boring engineers- dont find anything new everyday. Not curious. Being a visionary and your thesis. If things dont fall your way- amazing question- still answered with a smile. If the employee is not heard then he would leave the organisation. Work life balance- explained well. Used stats well 2.5 hours of productivity</p>

AIT\_27\_07\_2022 Feedback.xlsx

Dear Professor Manoj,

Thank you for your support and collaboration for conducting the mock interview session for 12 students from your esteemed institution On **Thursday, 28<sup>TH</sup> July 2022**. These interviews are designed to help students identify their strengths and improvement areas and enable them to be ready for the upcoming campus season.

Attached are the interview assessments shared with us by the panels. This is in addition to the individual feedback shared with the mock interview session. We are also attaching an interview guideline document, which would aid the students to prepare better for the interviews.

Below are few snaps from the session.

22:17:14						
10/12/2022 22:23:27	Kollimalla S N S Ashish Vardhan	The complete session.	Complete session was excellent but I feel it could be a little more interactive, this feeling might be due to the online interaction.			Excellent
10/12/2022 22:24:27	Aditya Parasar	The insight about the skills in the industry	It was perfect			Excellent
10/12/2022 22:27:39	Vaishnavi	The whole session was awesome	An offline session would have been a better opportunity for more interaction			Outsta
10/12/2022 22:35:16	Vipin Kumar Yadav	The guidance to improve our resume and tips to prepare for our interviews were great				Outsta
10/12/2022 23:22:00	Yogendra	To the point and clear explanation.	Already good enough		Skills	Outsta
10/12/2022 23:24:25	Rahul Singh Nagarkoti	Advices	Its good		All good	Excellen
12/12/2022 07:06:45	Mohammad Ashraf	The basic roadmap...and resume enhancement	NA			Outsta
12/12/2022 16:24:15	vishal singh	Everything	got lot of knowlege about how to improve my resume		communiatation skills	Good

Subject: Re: Introductory session - Preparation for Placements - AIT , Pune .

Dear Nithin ,

It was a wonderful session .

I will definitely try to invite you physically for 3 days . As you expect air travel expenses , let me check on that . Can you then waive off the assessment charges . It will be then easy to justify that 15 k / 20 K amount .

Fell free to revert .

Big thanks on behalf of your alma mater ....

Dear Prof Manoj,

I am sharing below feedback received from the AIT students.

Could you pls remind the other students to enter the feedback as well.

Timestamp	Your Name	What Did you like about the training?	How could this training be improved for the future?	What Kind of Additional Training you would need to prepare well for Interviews?	Overall Rating
10/12/2022 21:14:38	Narendra Gamini	Interactive	<b>Offline would be impactful.</b>		Outsta
10/12/2022 21:14:45	HARSHDEEP	the way	nothing much		Outsta
10/12/2022 21:15:29	Arunima P	Excellent	Can explore about other domains too		Outsta
10/12/2022 21:15:38	Nitish	Almost everything	Can be made more interactive	Need to have demo interview	Outsta
10/12/2022 21:17:10	Abhishhek Shukla	We get to know about how to represent yourself and which type of qualities a candidate should look for.	Knowing about current n future industrial demand and how we should prepare ourself.	Communication skills and some technical skills	Good
10/12/2022 21:21:39	Divya Pratap Singh	The years of experience gave good insights	By Not emphasising on general things more	<b>Mock interviews</b>	Excellen
10/12/2022 21:22:01	Prateek Sikarwar	How to refine your resume	More Interaction	Mock interviews	Excellen
10/12/2022 21:25:34	Ishan Bhardwaj and	Interactiveness	Multiple alumnus could be included		Excellen
10/12/2022 21:27:30	Samik Choudhury	Comfortable talk	It could be improved by sharing the job description of the role mentioned kn the deck.	Product Management from B.E	Good
10/12/2022 21:45:56	Mustafa Shaikh	preparation for placement	Get good placement	Mock interviews	Excellen
10/12/2022 21:48:19	Reshul Rawat	Explanation and knowledge	Little bit more student friendly	Communication skills	Good
10/12/2022 21:57:35	Harsh Katiyar	Guidance	It is one of the best and detailed one but in long meetings people interest decline and people become less attentive. If the meet was a bit short in duration it would be more better.		Excellen
10/12/2022 22:15:10	Prateek Dwivedi	Thorough explanation of each aspect through a placement process.	Any sample interview in form of video, audio or may be script for some real visualization.		Excellen
10/12/2022	Priyanshu Priyam	Interview parameters.	The session should be preferably offline.		Excellen

**Guest Lecture**

Dear Prof. Manoj Khaladkar,

Greetings from LTIMindtree!

We are pleased to invite the students from your esteemed institution for a virtual guest lecture session with LTIMindtree Subject Matter Expert. This connect session is crafted to share insight on the kind of Non-Tech skills and latest learning trends a students should have to prepare for the Upcoming campus interviews.

We request your continued support in ensuring maximum participation from the students. Look forward to an engaging session.

Please find the following details for the said session:

Topic	How to Prepare for Interviews
Date	2 <sup>nd</sup> March 2023
Time	16:00-17:00 Hours
Venue	<a href="#">Click here to join the meeting</a>
Audience	2 <sup>nd</sup> year and 3 <sup>rd</sup> Year Students
Speaker Details	Puja Ingale

Regards,  
Harsh  
University Liaison & Early Career Engagement

Comments , if any	<p>Intro- Location, AIT premise, headphone string, hobbies- athletics. Body language was poor. He was not only not prepared but the behaviour was childish on camera and for the interview especially. What technical skills are you good at?-ML/ Any Tech dev ?- Chatgpt. Time was given to ans this question. Attitude is extremely casual and body language is fidgety. Internship- content writer- give the articles. Someone was also prompting from behind. After insisting on the internship, more detailed answer was given. Weak point?- not fluent in english, cant say no for help. Strength- help others, good learner, not much self confident and confident about things that I can do. Hobbies- running and basketball part, athletics part. Running - mental strength, removes anxiety. What kind of anxieties do you have?- It is generally personal and family. I am disturbed about academics part. Any regrets/ fears- no fears of anything. Regret about past.I could have been better in JEE and I could get into IIT. AIT is as good as IIT. Family aspiration. AIT - it has some broad culture, sports and cultural events, small institute, 360 students and compact college, teachers take care of us. IIT strength is very high. Why engineer?- to help the society in the technology part ...give complete answers ...How do we be fearless?- panic is in our minds. We have to tackle it by thinking it how much it can get worse. Girvar needs to hone his communication skills. He takes time to convey his ideas. Learning?- write 2 - 3 times to retain it. Answers need to be deep. Its too superficial. Interpretation skills are very poor. He needs training from scratch</p>

Comments , if any	<p>Introduction not in cv- starts up and rejected in army 4 times. Is it disappointing to enter the corporate world ? Not at all. It was something that you wanted to try. Any idea what could have gottten wrong?- first time lack of confidence, then not serious about it and the last time I was giving it a shot and got rejected the last day- psychological test. Strenght- problem solving skills, out of the box. Have you solved a real life problem?- provide tech assistance. Dont have to discriminate between problems. Just fix it, every task isimportant, work ethics, cant skip any part of the problem, Good answer. How can we create unity?- unified work effort?- diversity helps in many ways, cause conflicts but in team they start to understand. But what if the work needs to get done in 1 month and there are conflicts?- How can we get it done. Internship done . Give more details proactively. QUite a number of internships. Mention the takeways. Can have more energy but good to go. Good interview as such</p>	<p>Introduce yourself- Location, college, school, public speaking like debates, compettive programming. Shuld have mentioned the clubs and responsibility and all these things ( dont keep saying all these things)How to be good at debates?- aware of the topic, confidence, authority in your speech, general awareness ( got stuck). Hobbies- arts and all those stuff. How has it helped your personality?- calm. Any challenges that you see in this profession of engineering?- software engineering- new technologies daily. What challenges have you faced in your personal life?- As in what? dont ask that way. Currently internship issue. 2 to 3 tech rounds and then final round it is getting rejected. If the same thing happens with no job situation, what will you do?- work on my skills because we know ourselves better than others. We have to upskill. I will get in a month of two and I have to be prepared. Club tasks- maintain a coordination between tasks, build a trust. I get nervous when I get a new project and I have to finish in deadline. This is a weakness and I take a break and I think about it what would be my plan now. What kind of boss ?-not give much thinking to this. But if he gives any task to</p>

Comments , if any	<p>If you get the lowest pay, then I will take the offer and will be a bit disappointed at the start, parents are supportive, will upgrade yourself. Current weakpoints?- Procrastination, delay things a lot and leave them on tomorrow. Tryng to get things under my control. Pushing it to do some part today and some part tomorrow. What urged you to improve?- others who are like that will take a lot of time to succeed. How do you discipline yourself?- discipline is forever but motivation is temporary. If one day you are not feeling like. When you are down who would you go to?- 2 friends. best part. Team struggle?- first year ppt experience. WHere do you see yourself a few years from now?- explore IT sector and work for more 40 years of my life...be more specific. in the pursuit of result some people are unkind and pressurised, would that affect you?- consider that person's psychology and go a long way for us. Do you think you will be taken for granted?- not as a trend. Speak it up. Internships - favourable ans but duration was longer but that is not possible as I have college and salary is low. But I am lookign for a project to get my necessary skills</p>	<p>Introduce yourself- inclined to web dev but done coding more, club oriented roles, read and write. Not written anything since 6 months. Not in a mood. When I write something I express myself. Makes me feel happy. I like the imagination of something, I am a fictional reads. Fictonal books?- Ranjeet Singh Q &amp; A- Poor boy end up being a rich person. Why did you choose engineering?- In 11th there is a subject called C++ and coding interests me. If you dont get a job?- study for PG course and keep applying. It would be a nightmare for you. Family background?. Didnt miss a deadline due to laziness but lack of consistency - I had prepared everything for the interview and I wasnt consistent enough, they shifted the interview date and stopped studying at that time. I dont make friends easily. I have a small group though. What inspires you or what keeps you going?- I just have to pay for myself. Women reservation?- yes. Then wont it be fair for men?- Yes but women's reservation are important to avoid crime. Internship- explain the role proactively and dont say you didnt learn anything</p>

Comments , if any	<p>Where do you see yourself in a few years from now?- high position and google and amzon. But we are not google or amazon- I will see. I will start with something. First aim is to get a job. Last aim is to get a big firm. What do you think is a good employer?- we develop more skills and not just documentation and real technical skills. If reality is such that what would you do?- I will check my financial condition then I will do the job or I will switch the job. Are you happy about being an engineer?- Wanted to join ISRO and wanted to be a research engineer. Yes I am happy. Qualities of a good engineer?- problem solver, all poss solutions, get the best out of them- thinking about more qualities, team work. Any struggle in team work?. When there are bad team mates what do you do?- I do it myself or try to convince them or drop them. Not getting internship tomorrow is my first interview. Weakpoints?- Not confident in myself, self doubt, But I am better than before. Smiling and talking always. GK- not into politics</p>	<p>Why did you choose engineering?- not my choice initially but going with the flow But later it got exciting. If IT job would not pay well and mech would, would you still pursue it- I would continue unless it is a bad financial status. What difference do you think engineers make in the society?- most of the things and homes revolve around machines and technology and that is where we come into the picture. Any latest tech dev?- not much into. When was the last time you got emotional and why?- attached to my family. Cultural differences- food and dress. Cant compare them and I like both of them. I havent explored yet but looking forward. Why should we hire you?- No specific ans, I wil be an asset and will give my best in tech knowledge, I can assure you , i give my best in whatever I do. Any achievement that you are satisfied with ?- lot of achievements cited. Team struggle?- example given well but explain the exact situation and how did you manage. What scares you?- losing anyone closer to me. Weakpoints that are yet to overcome?- dont know, control over emotions, lash out on people. Internship is at hand- give more details proactively. How are you getting when others are not</p>

Comments , if any	<p>Why engineer?- Coding 11th and 12th, create and modify. So. How do you think engineers make a difference to society- solve small problems for different people, mama does business, applications for his shop. What is good about AIT?- Sports facility. Most of them. How has it developed your personality?- keeps me fit. Anything else?- team work. Mostly mono syllable answers or 1 line answer. Explain in details is missing in most answers. Failure?- JEE. I am ok with any other college. Engineer qualities- perseverance, problem solving skills, technical skills. How do you look at a problem differently?- examine the problem, poss ways to solve the problem and then optimise the situation. Real life issues?- random problems to solve. These are not real life issues. Quality then time and then cost - product creation - priority- because poor products does not help anyone. Have you wasted time?- today 10 hours. Video game?- only team work...you can choose your career in that. Do you want to?- first of all I will try engineering. Lazy and delay work - only if something interests me. If engineering jobs are boring- will explore for next 5 years...if no interest, then I will create applications. Cultural between</p>	<p>Yatin meaning- Koshish...Have you tried anything and that has failed?- in college, I visit gym regularly and not getting results and I am getting bored. Conscious of workout and reduces our stress. Now focus on studies. Who do you think is a good communicator- Which field? Qualities of a good communicator- can express his thoughts and feelings to the interviewer, should be a good listener. What are your hobbies- singing, visting new places. Impromptu singing- recalling and due to nervousness-...How has travelling and singing made a difference to your personality?- people speaking different languages, noticed people..What has grown in your personality?- become a calm person. I dont interact much and I am an introvert person. Already accepted the job offer and next job is higher pay- if the first job is not creating interest and 2nd company has my skills, then I will select 2nd. If it is the other way round, then also skills job only. Money is not an issue. Where do you see yourself a few years from now?- hOping taht I will be a good engineer</p>

Comments , if any	<p>Weakpoints?- Initially was good at communication in hindi. But not in english. Gave example and good story telling. Eye contact should be better but good firm voice tone. How did you start learning english well?- start watch anime-dubbed version. Also it comes to topics- We know that but general topics were difficult. When do you feel free?- Father didnt want to watch movies as it is waste of time. Now I am in college and no one to stop me to watch movies. Travelling to different places and can do different things. THrice in Dighi Hills and not regularly. These days focussed on coding. After exams, we go to Hills. Listen to music I dont like silence at all. Very energetic interview. Very excited. Failure that has impacted you- example given. School example. Since lot of examples were given, you have to time yourself in 2 to 2.5 min you have to finish. Learning?- setting up small targets and continue the next day, postive feedback and keep a checklist on seeing the performance. explained the ans again. It is an engaging interview. No boredom. Frustration?- normal for everyone. If you cant do it, you consult and then you understand and you are good to go. Internship in Microsoft-</p>	<p>If there were less jobs in IT, would you still be in IT- I will still do this as it is my passion. If no job, what circumstances are lying in front of me. Govt or Private. Are you prep for any govt now?- Thought of civil services. More productive in that job. Boons and Banes of corp private job?- Latest technology and social- odds-not interested in sitting in cubicles. Field job- developing the society. Internship - not done. To learn how a company works. Not interested in their payscale. Have you been confused?- something I tried but this is not productive. NOT reall a bad decision. Gave eg:- courses of ISRO and IRR has to offer. Time to learn new things. Is there anything that you shoudnt have done?- when you are in the problem, you feel you shouldnt have done it. But when you are out of the problem, it helped you being a different person, different perspective. Qualities of a good engineer?- creative, innovative, rather than being more professional you can be creative, you should be the jack of all trades. Being the Jill of all trades, what all are you into?- social work, NSS, women representative of Rotaract club, Debates. International debate participation-Green energy is it actually or is it just a hoax. Electrical vehicles-Lithium imported from</p>

Comments , if any	<p>Why is it important to earn?- to be dependent . Some want to leave the parents dependency. What is your expectation on salary?- I have no expectation. Experience above 50,000 for internship. Mention for the job-70 to 80000 per month. How did you decide this is what you deserve?- I have seen people. Strenght and weakness- start something and consistency, work towards it. Weakpoint - I start late. Do you remember what you started late?- fitness. What motivates you?- Motivation is not enough. I do half of my schedule in sleep mode only. This is interesting. Now I wake up before my alarm clock. I dont think about anythign after I wake up. When I change my clothes, I realise. Nothing to think to go for running. Just do the regular thing. Internship - didnt do 1 task with effort so didnt shortlist. Inspired ?- Jordan Peterson- Psychologist. David Loggins - Marine. Not inspired by businessman but mentioned fitness...that was smart. He has written a book- Cant Hurt Me. 12 rules of life - Jordan's book</p>	<p>Name meaning?- warrior. Overcome struggles?- feet in too many stuff. But finally was satisfied. Why engineering?- laptops, computers and so ....It is just that I am in web development. Good qualities of a good engineer- good problem solver, communication skills with client, time management as due to deadlines- answered well as you gave reasons. Missed deadline- assignment- mention why and how u overcome. this year- follow fitness and maintain proper routine. Problem solving?- I am the first one to reach there, setting an example myself, now they have to follow, they were not waking up early. Discipline?- sleep late and wake up early how does that happen?- I now convinced my room mate to wake up early. I have chosen my room mate. I turned on the fan and pulled the bed sheets. If you are doing SOPs only, what would your thoughts be?- Developed some skills and some freelancing and learn from failures. I have friends who are doing free lancing. Do you know any such website that is well made?- Brittany Chan- popular software engineer- good portfolio. Businessmen of India?- Satya Nadela and Sundar Pichai- But they are Indians yes but Indian Businessmen- Mahindra. Internship done- unpaid...dont have to say that....but</p>

Comments , if any	<p>If friends got jobs and you havent?- take guidance from friends. Engineer?- pillars where world becomes a better place. Technology. Hire you?- learn from my mistakes. Also want to learn things. Will get the work done. Don't want to give up easily. Table Tennis- we won against the same thing whom we had lost. Sports?- learn from them. Ans more in details. 5 big learnings- dont give up and but I cant remember , money is not everything. Feelings and emotions and treatment before money, always dont judge people by actions. Ujjwal smiles and talks. When do you get angry?- I understand the other person and I dont finish the work on time. It is because of myself. Miss college days- we can try different things and fail at it and do mistakes. Destroy your happiness?- Take it as a challenge. Hobbies- free time - TT and talk to friends and football. Single book - not completed a certain book- Alchemist. Who has made you who you are?- Father from angry to calm person. Internship ans was good- didnt get now but will get it and I am sure. I want to be an engineer and I will try to learn from every opportunity. Even if I dont get the job, I will try harder and learn and finally become a good engineer</p>	<p>Name meaning. WB and Maharashtra- In WB, we are proud of our culture and here I don't find that. Here people are friendly and people in WB are judgemental. Employment status in WB?- Education and employment both have degraded. Both my parents are employees of govt of WB. Why did you choose engineering?- guided by parents and no problem with that and liked maths. Do you like engineering now?- knew very less about technical things, coding. When was the last time you cried:- I cry very often. When can you cope up if you dont see parents for long?- hostel since 9th ...say that proactively. Why should we hiring you?- adapt, work with people, hard working. Gave examples on hostel life, new cultures, new people. Do you know how to deal with people or just adapt?- I can be upset but I know how to get through it. Toxic- I try to communicate that it is not the right way. If I cant deal , then I will get out. If boss is toxic, I will try hard. Where do you see yourself a few years from now?- cant think long term. I am focussing on present. I want to make my parents proud. Technical skills/- I dont have anything that stands out and all my classmates have that. My way of dealing is what stands out. Time ?- 2nd attempt of JEE</p>

Comments , if any	<p>Why engineer?- machines to sports , excited to do all the things, programming.</p> <p>Why IT engineering?- honest, brother - good at coding, placements are good.</p> <p>What are you expecting from your future employer?- payscale, not the only thing that matters, good environment, how he treats me, makes you work better. IF not good environment, then will work well there but eventually switch because I need to be happy. Learning?- repetition, we try to skip it and then forget it. Team?- Examples were ready. Football .</p> <p>Rejections- Internships, applied late. Internship answer explained well. Thats life. Failures are stepping stones.</p> <p>Internship pro points. Our job accepted or higher pay job?- Stay for a lower pay - experience will help me get a good job at the end. However everything else being the same, I will go for the higher pay. I would like to be honest. Good body language. Anything to change in your college?- the college- dont ans that.</p> <p>Parents?- none. Night shift?- will try.</p> <p>Hobbies?- sports- most. Try mentioning soft skills. What frustrates you ?- when things dont go my way. Try to avoid it.</p> <p>What do you do after 107- mention that.</p> <p>Good energy, body language and indepth</p>	<p>Why should we hire you?- hard working, ability to improve our company. Then stopped talking. Hard working or smart workng?- both. Sachin was not prepared.</p> <p>Confidence needs to increase. He has to think about ideas in deep and not just prepare for the interview. Smart workers are lazy. I am also lazy. What are your weakpoints?- get angry, overthink and lazy. Sometimes I sleep for 15 to 16 hours.</p> <p>Why engineering?- reputed career. Better than BSC and BA. High job opportunity.</p> <p>Mostly mono syllable answers. Should learn to answer in details. Internships - none. 98% in 8th class- and you are proud of that. Then my downfall started. I was nervous. Are you happy in AIT?- good placement and army background. But no internship?- it is recession time. What if you dont get a job?- then I will go for teaching profession. In lockdown, I was teaching 4 to 5 students. 11th Physics.</p> <p>What do you think should be the qualities of a good engineer?- strict, health?? not lazy. Qualities of a good teacher?- hard working, treat student like his son, not focus only on salary and started speaking in hindi. In hindi, the body language and voice tone improved.</p>

Comments , if any	<p>Why did you choose to be an engineer?- no interest in any other subject. Phase of my life what I could become further. It was my take.</p> <p>Why engineering-good at maths. Appealed to me. Don't look up while thinking. Nervous?- Some situations where I have been shattered. Cant share as it is confidential.</p> <p>Any normal stuff?- Good voice tone, good body language- wanted to be officer but was not prepared. Weakpoints- procrastination my greatest weakness, maintaining consistency of discipline- falling into pieces. Lot of energy in the voice. Ratan Tata and Ambani- great deeds like Tata. Good animation. Any grave mistake?- There is not something that I cant talk about it. Do you think campus placements makes a student lazy?- yes. What is great about student life?- excellent answer. Internship?- once i require skills. No....dont give monosyllable answer</p>	<p>payscale is good, no physical fitness required, many resources available on internet for being an engineer so I am an engineer. No physical activity since childhood. But playing sports is my hobby but not taken it seriously. These points are contradictory. How has it changed your personality?- team sports, hard working and accepting failure well and not being hyped on win. Why should we hire you?- hard working, salary acceptable and completing on time. Any delays?- not completing syllabus on time but managing it last. I dont go to play then. Team struggles?- Answers are not well thought of. They need to be deep. Rishabh needs to know himself. Current affairs he was very good at and he dressed for the interview. Beside that, he needs to prepare from scratch.</p>

Comments , if any	<p>Bihar- No private employment- don't get paid and want respect and security in Bihar- So all Biharis study competitive exams. Are you applying for private jobs? I am qualified for BSC Stats. Your father has suggested to come here. I want to become RBI manager. Do you want to be an engineer?- Its not torture as seniors , problem solving skills, technical skills, not would have developed if BSC Stats, here students are from different mind sets. I will get campus placements then I will go for it. I need a back up. If you get through RBI what will you do?- I will resign. How will you make a difference to the society if you become engineer?- negotiating, confidence and motivation. Question was about engineering and not about AIT, When were you nervous?- Tech Akriti. You can speak slower. RBI- no financial pressure even if I dont get through RBI or corp interviews. RBI age limit- till 30 years. For caste, it depends on economic condition. They belong to SCST. No internship not increasing my technical skill. Dont rock and talk. How do you learn and memorise?- Notes on the wall paper- key highlights. Not preparing so seriously for RBI - then why ment the start?- Its a detour.</p>	<p>Hard working, dedicated to work, disciplined, don't waste food and don't waste time- why should we hire you. How should we disciplined?- wake up early at 5 am, running every morning. How does running help you- physical and mental health. Boxer - practice in college. Physical director is National Boxer. Players vs Non player of sports- team spirit, will power to win and complete the task, ability to handle pressure. - Should add these things in why should we hire you. Pressure situations?- none. Internships?- None. Will do at the end of semester. Experience and strength of resume. What is lacking in India for engineers?- employment. Go with the performer vs friend for the job- go with the performer. Education system - lack of employment. GK -Mostly all. Respect comes from wealth in society. You can mention about your notion about respect which is personal to you. Example - IAS officer. Idea about your future ?- Army officer, tried for NDA twice and try again in CDS and if you dont get through the army then corp. If you get through the job and the army, - would like to serve my nation and I am from that background</p>

Comments , if any	<p>Intro -Kanpur UP, AIT, football, webseries, spiritual things excite me, watch videos like spiritual stuff. Technical and soft skills?- Football how has it developed personality- leadership quality, team spirit and handling the situation. Pressure handling- listen first, dont react immediately. How to be calm?- Points- 1. take some time 2. try to put yourself in his situation 3. Not respond that would hurt you 4. I believer in myself mostly 5. I dont make friends easily but I can take it as a funny situation when my friends irritate u. 6. When my friend doesnt pick the phone and explained the situation - if you just talk to the person, it will sort out. What are the other things about you that we should know to hire you?- I complete a task that I take, even if I dont complete 100% I will be satisfied with hard work. Example:- Kota...good at giving examples. SMiling and answering in interviews. I dont compare. I focus on the process and the rewards will come, Learning- be aware, what time it would take, consider your own abilities also, dont compare with others, the time I will require and I will get it in my time, take help from seniors. Pune is calmer and Kanpur has leather. Pune is ecofriendly and Kanpur is extreme weather. All GK answered. I love politics. Always smiling.</p>	<p>Why did you choose engineering?- No such reason. In 11th std, I liked maths. Dropped for JEE not so story as such. Are you happy now?- Yes very happy. There is not such thing. Don't have any placements or future plans. Banking sector I want to go only- Because there is stability and job drive and security. Make money. Scared of people losing jobs. Afraid of recession. Will you avoid giving corporate interviews?- i will go for it but you dont know about security. If I get a package of 14 lacs, then why will I leave. And also if you get banking sector what will you do?- banking sector. Whats the problem in India- Engineering jobs. Alternative career- BSC MSC and then do something Delhi University. What is good about this college?- College not too much crowded. Boss?- supportive, not too much dominating, time to time feedback, not too much load. Any challenge in any group activity?- not so social and not interested in such activities from 1st year. GK- Not in politics. Internships- content writing. YOU proactively searched?- Explain your answers more. It is unpaid internship</p>

Comments , if any	<p>Weakpoints ?- weak self esteem. In Indian terms, achievementwise I am good. I scored 94% and topper of 3rd sem but still have low self esteem. What is an imposter syndrome?- we know less than others. I don't know enough. I focus on perfection. How would you react if someone criticises in public?- I would first assess myself why others are saying and if they are valid. Hobbies?- music, games, travelling and programming. Recent travel- Jaipur, I travelled Jaipur. Why engineer?- Learning a lot and exploring. Dont like being free. Likes technology. Learning-time, easy to learn, focus on basics, then harder stuff. What kind of people dont you like?- hypocritically and sometimes you have done it yourself. Give examples proactively. Elon Musk and Mark- Fellow Tech Enthusiast. Teacher. Internship- Back end engineer-explain the role proactively and the work profile. Abroad or National job?- situational. If pay is equal, you will stay in India or go overseas if financial is bad</p>	<p>Vishakhapatnam and Pune- miss my home. Spices are difference. Any weakness that could harm your career?- emotional and could bring trouble. Any event where emotions bought trouble?- family points that I cant share. Give me a few strenght that I would be excited to hire you- good at people. Listen before I talk. What to talk and what not to talk. Say more about relevant strength that would help you career. Technically I have good knowledge. Team - I could manipulate people to get the work done. Dont use the word manipulate. So use the word convincing skills. Find the catch of their work. Owing to each other. Any event in your life which has provoked you to transform for the better?- Kuchipudi trainer. What kind of a boss- cool and agrees with the employees and gives good feedback . Friendly nature with employees. Helps me grow. If you get an opposite boss?- father always said learn from things you never get and manipulate things for myself. Why do you have to give mock interviews if you believe in fate?- Middle class family. I landed up in AIT after paying 7 lacs. Smiled a lot while answering. I am nervous - dont say it. No internship and thats my fate. What if you dont get a job?</p>

Comments , if any	<p>How do people see you?- friendly guy, bike rides, enjoys parties. Offroading-from Maharashtra. Qualities have developed inside you due to bike riding?- exploring, creative in selecting the place, feel the place where I can get peace. Outlook on woman riders- they can but little bit not interested in riding bikes. Aim in getting the job- survival but at the centre but get me interest. Weakness- laziness, prior to deadline and little bit of recklessness. Proud of yourself?- getting into AIT. Do you think ML is blessing?- at some point it is but it will hamper jobs. Mechanical engineers no scope?- need of skilled engineers but now engineers fields have developed and robots and automation have developed. Cartoon character-always joyous. What will provoke you to leave the company- commitment is not kept</p>	<p>Tell me something that will make you get the job- Hardwork, sincere. Relevant points are missing. Hobbies?- Reading books. Bhagwad Gita. My earlier aspects of life are changing. In school times I used to read romance novels. Also into self help books- Atomic Habits. Tips from Atomic Habits- when we are trying to build a habit, there is a 4 step pattern- it should be obvious, appealing, reward attached to it. We should make the bad habit invisible. How has reading changed your personality?- Need to proactively ans about hobbies and skills developed. Team member - rude- learn along the way- maybe can talk to the person and understand- gave example- give proactively. Lot of sports- volleyball, cricket, basketball and football. Do you do anything special to keep yourself fit?- play racket games. Didnt mention about fitness. Play squash. In Pune, they dont give milk with dinner in Pune. But in Haryana we have milk with jaggery with dinner. Time sensitivity- missed the deadlines for internship. No internships. Quality, time and cost?- What would your priority be?- Quality, Cost and Time. Regret?- Not believe in having regrets. If</p>

Comments , if any	<p>Earthquake?- Turkey. Kanchan is Gold. Meerut - developments in recent years- metro, crime city but not now. Eye contact can be better. What kind of extra curriculum activities- 900 kms helped me consistency and disciplined. Theory of will power but will power is a limited resource and it will deplete till evening. So you have to build discipline and routine and will power to have routine. Thats routine as an alternative to will power. Mistakes?- JEE results not good. Could have been better college than this and that was a regret. The will power to build that routine came from that. Nicola Tesla -140 hours of working- 2 hours of sleep. and running too. Follow preachers of grind mindset. New Book - Never finish and Cant hurt me. Dont want to do internships and want to develop the skills first and then do meaningful internship later. Whats your career path?- plan a - back end, plan b - type script and get good grades and cds, ssb- getting into defence and plan c- listen to rap. Why are you giving corp interview if u want defense?- we need plan B in these financial times. I need to broaden my mind and body both. I overthink. What frustrates me?- I can say what threatens me and I cant go to my past and explained the running. I fight it and moving on. Suggestion for AIT explained well.</p>	<p>Within your best friend and me- last place last job- I will be happy. Why IT ?- 12th class JEE attempt and in April and got Miranda House which is a good college - chemistry honours and parents forced me and scored and got into AIT. Did you ask them why chemistry would be a loss?- honours with maths. Her hair was combed well and casual dress. Before taking admission I didnt know much IT developments?- app , curiosity, make ease. English can be better. I get nervous during taking leadership so I am not good at all. I dont talk to men. I can talk professionally but not for fun. Why should we hire you?- self motivated, like to learn new things and positive mindset and stay calm under pressure. Example of pressure and calm?- in personal life, friends betrayed and I got out of the condition and go crazy</p>

Comments , if any	<p>Any other college?- Why not. Reason is - He is smiling casually and body language is casual. Biting nails. I got this college as per performance in JEE. What is AIT that gives the satisfaction?- support of the seniors and the batchmate and roommate are supportive. How will you sustain in the corporate world?-I will do whatever it takes and not focus on that. For a point of time, they will take my credit but there will be some time. Hire you?- provide my time and adaptable. Beside my tech skills, nothing else. What are the things in your - friendly, cooperative and quite humourous. Challenge in team building?- None. Regrets - None. Achievements- None really. Normal. Dipankar?- friendly supportive and he acknowledges you. Pressure situation?- Not really cant remember</p>	<p>Why IT engineering?- Choose IT - involved with computer and wanted to take a career related to IT. Could be more exciting and detailed. Developments like Google and software and like that? What difference will you make being an engineer?- coding and website some experience in it. 5 good qualities of a good engineer- consistency, hard working, exploring different things, acknowledge others work done in the same field, humble. Which of these skills do you have - consistent and hard working. How to remain consistent?- Planning a day before, doing things the same time, gratitude and dreams are the purpose like adventure sports. Learning strategies- you tube. Nervous about weakpoints?- Interviews. S Jaishankar and Meta - answered</p>

Comments , if any	Intro- good designer, good artist, UI .Good eye contact. Smile and talk. Good attitude. Won national art olympiads. FIGMA designs. Learnt drawing by myself. Subconsciously understanding patterns Code also readable to others. Why are you in IT?- There are 2 brains- designer bynature and computer programming in college. Mentioned achievements. That is good. Developments in IT?- Communication channel and GPS stuff. Winning strategy? - mindset developed by teacher. Just throw us in the competition without knowing whether we will perform or not. 1st- Analyse the requirement. Some are critical like 80..20 rule. 2.d figure out how much time is required in this. 10000 hour rule - to be a master. How do you handle pressure during performance?- I dont want to be a mediocre. Team group role - my goals and their goals. IF people dont want to work like me, I respect their work life balance and monitor regularly and not give feedback later. INdore vs Pune- Vada pav and Language barrier	Eye contact is missing totally. Good in tech skills. Started from tech. Self motivated hardworking and disciplined. Balanced life style. Listening to music and playing TT and Pool. Go to gym for fitness and healthy mind resides in healthy body. MNC where I can contribute. We are not MNC do you want to work?- yes as long as I can contribute. Disciplined?- Every day I wake up at the same time and sleep at the same time. Between internship and good prep of campus placements what would you choose?- Internship for hands on. Good at problem solving and decision making. Business owners - Elon Musk- far sighted and Bill Gates. How do people see you?- consistent and friendly. Hard work or smart work?- hard work which we should use but if there is scope for smart work, then smart work. Can be more energetic

Comments , if any	<p>earning money-enjoy life, dreams- mention responsibilities. Negative points of earning money- greedy and lose real life like parents and friends. This will happen. How will you cope up?- Work for 1 to 2 years and then I will do my start up and work easily and flexible hours. People dont get time even when start up- Mukesh Ambani. Inspiration ?- Dont say many. Always give specific answers. Mention more people and more qualities than Ambani. Indian History?- Internships are paid?- depends on conditions- family issues if then yes. Patriot - yes. Internship done?- No - flat answer. Team spirit ans was good but after details. GK?- No. Not interested in politics</p>	<p>Enjoy participating in competition- won award- Rohit Kumar Sharma- my friend. What are the plus points of competition ?- learning and negative - casteism. 1 year no job - work on myself. Why should we hire you- tech skills, no soft skills? Frustrated?- sometimes my friend- he little bit-His english is very poor. He has to pick up the language. Financial responsibility at home?- No. Its ok if you dont get a job?- Yes. Cricket and Volley ball- How to enjoy your life and fit body. Regret - speaking language and nervousness from english. Fear?- No What should I do when I am scared?- meditation. Confidence?- he answered better when I asked questions in hindi. Unless you do it, then how will you know. Any weakpoint ?- No other than english</p>

Comments , if any	<p>Employer?- give environment to fresher that fresher is able to apply. Boss - a smile like you and anything that creates happy environment and freedom in thinking. Why should we hire you?- as a fresher, I need that avenue to grow and need that experience from you, i will be honest and open minded...he is honest . College challenges- groupsim, ethics dont match but later on after participation, I am ok. What are your hobbies?- react framework, dancing, singing, current affairs- all answers given. Pros and cons of dependency- Russian - dependency on military</p>	<p>Why IT engineering?- I used to use smartphones since childhood, how to make games. Maharashtrians are not helpful. I am from Rajasthan. What do you feel at that time when people don't help you?- Nothing. You might be in the wrong city. If you are in a job and someone makes you feel helpless, I will try to see whats happening In the whole office, everybody cant be against me. .How can you be friend with them and why they are making me helpless. He takes time to answer. He needs to know himself better. Dont look up and think. Sugar and chemical - brainstorm. Have you been disturbed?- no. I follow spirituality. In AIT seniors are helpful. Amit needs to think in depth and answer quick. Every answer is not about spirituality, Good example of Manoj Bajpai. Bad decision and regretted it?- Engineer qualities- to build, imagine, good decision making,</p>

Comments , if any	<p>What difference will you make as an engineer?- Myself creative thinking with disciplined mind set, tech skills and lots of business skills, Vivek Bindra- Idea generation, marketing generation, how to negotiate, strategic planning and execution, Entrepreneur mindset person- want to be an entrepreneur. Negotiation - know about your customer and his wants, person's persona, dont convince them you have to prove that what you are building that is beneficial in their life, make it part of their life. Why do people give up?- Whats wrong with planning?- Business is a mindset. He is a business mindset person - Uncle. Some people failed in execution and they didnt have money. In 1st year, I joined my seniors in their start ups as a teaching intern took me to collaborate to different schools to connect with different parents teachers. Why are you giving this mock interview?- we have to do something for name and certification and thats why. Our fathers are satisfied. ONe of my friend and me were doing a project for DRDO. Good answers but check on time limit for each answer. Smiles and responded to all answers. AIT is focussed only on jobs which is bad as he said. Why will he hire you if you want to be an entrepreneur?- good</p>	<p>Why engineer?- interest in technology, coding. I had computer at very eary age. Movies and typing and games. I have full knowledge. body language- hand on cheek and answering. Why corp world- born to be curious. No one is stopping me. Corp is also about politics- it will sustain interest. I have learnt to handle people and situations. Can handle pressure easily - can empathise with them, everyone has something to say and everyone is unique. From angry to empathetic person, - hormones and family said people get calmer when they grow. I fyou see a sitaution daily, you will get used to it. It calms the anger. Books?- Webseries. Do you think 5 years from now?- it is funny question for who does not know meaning of it. It is a tricky quesiton. I see myself as a working professional. What do I have to do to irritate you?- that is a very interesting question. Stupidity of people - But that too I am trying to conquer. Internship paid?- free internship to upgrade skills. But if you want to earn, then I will apply for paid internship. GK?- No but I will be starting</p>

Comments , if any	<p>Unwell would you give another day- no. Why are engineers important - digitally India is behind. Indian are more engineers there because they cant get role in India. Nowadays Infrastructure. No defence exam given before. Brother was in NIT Rourkella- role model. But batchmates - familiar with defense. Defense minister?- Situation where you were nervous and then got successful - bit nervous during first presentation. Think more about examples. Articulation is an issue with him. If you dont get through campus placements?- I am confident I will get placed but in case I dont get placed, I will work for offcampus placements. Why should we hire you?- adaptive, learn fast, good team member. You were not looking at me at all. Ans in details. Team member - more details. Take on women reservation employmet- merit only. No internships. Applying. Dont know the reason. Loss if no internships?- get experience but people also who didnt get and if they are quick learners they can</p>	<p>Smiling. Intro and why we should hire you- tech skills mentioned, location mentioned. Secretary of finance clubs- organising events of fine arts, manage juniors. Like running- 5kms in 19 min. Didn't ans the question initially on why we should hire you - fast learner, 2 years on prog and logic building and problem solving, experience of working in a team, taking guidance from seniors, consistent, believe in hard work. --- good ans- different mind - dancing and running- hard work, taking off challenges. Develop the mindset- find the reason why you should. HOw did you manage juniors, what guidance did seniors give you and what were you as a junior?- Good answers, art work was really good. Seniors forced me to participate and organise events with others. explained different parts of the event management. That was good.He loves explaining and sharing. Further edu?- Start working but mother wants me to go for higher studies, There is option of joining company and they have facilities. I want to give exam. Night shift?- will be difficult but I can adapt and explained how he will adapt. Any regrets?- good ans. Internship- knowledge is good but experience matters. UK PM?- Time check on all answers</p>

Comments , if any	<p>tell me something about you that I should know- playing, travelling, sports, anime. Not much in my CV and then you said points. Don't start with that. Anime are powerful - psychological war. Smiling always. Bhaumik is bengali name but I am from Haryana and I dont know why. Elon Musk and Bill Gates- explained why- he is not afraid to show it. Do you think you are a confident person- myself and from where I surround myself and teachings of childhood. Whats your advice to scared people- you get a chance once, regret is bigger, cut off toxic people, you are alone . Any thing where you really found yourself alone- No. Any role of responsibility in college that you could have been better ?- Talk with people better especially seniors. I am not diplomatic. If there was a 2nd chance, then how would you change it?- I would take the hard pill and will not be so stubborn. Civilian kids- self centred and not respectful. Learning - planning- goals, then working phase, then test and show it to someone, then feedback. Trekking and travelling has helped me live more. Lovely answer. What is so distracting and attractive about college?- freedom here but in family it was not the AND college says u live only once. Why should we hire you? Focused, sincere, tasks given on or</p>	<p>IT engineering why?- loved maths, logical and reasoning , statistical skills. Been 3 years since introduced to programming I love the work. Background is blurred or white but light should be better. Developments - Chatgpt, AI controlling humans but I was not sure. After seeing chatgpt, but now I am convinced. Wont we lose jobs?- Ans is launch of computers- there were riots but nothing such happened. Maintaining AI- good. Anythign transformed you- my mistakes - improving daily. Any mistakes that you would like to share?- Unknowingly I have been rude. Do you have a supportive family and if you would not have had, what would you do- I would just tell them. What makes you nervous- no one is there who cant be nervous- stage fright. He uses fillers in between. Now i dont get scared but mention how. Why should we hire you- hard work and workaholic 10 to 15 hours. Time management is poor?- no for someone who knows me. Small internships but I dont want to do that. I rather prepare for my placements- mentioned the time allocation hours of CP for logic and ...for something else.</p>

Comments , if any	<p>Harsh- that's your name. What gives you happiness. Car driving- good explanation- vibration, confidence. DO you still feel the same connection with your IT engineering?- He smiled and answered all the time. Syllabus was getting piled up. I took a drop. 95 percentile and got into this college. I have to calculate 5% of 10 lacs- Can I safely assume that you were not feeling good when you entered college- initially yes but then I realised you have good scope. 3 tier or 2 tier college is also good. Difference between tier 1 college- IIT - world class teaching, facilities. Tier 2- limitations education and infra but they are getting good placement. Tier 3 college- no surety of campus placement. Education depends on teachers. But lacks in facilities. Currently AIT is 3 tier- So are you pressured about the unsurity of campus placements or excited about you doing on your own. Good sensible answers but dont say AIT is which type college. Taking decisions confuses me but now I realise....Is there any responsibility that you have taken in college where you had to take decision?- And you mentioned designations of events and described the events. Instead of disqualifying, i</p>	<p>Something not in cv- trekking and travelling and all that. Mention more. Also mention plus points of travelling and trekking- peace and diversity. Once you started, it was good. So you have problem with racist and casteism?- But I respect their opinion as well. Why should we hire you- learn new steps quick, good with people, people dont have to watch stand up, good team member. People dont listen to good people. Have you been in leadership position?- Screaming back doesn not work. Motivating well works. Explained the strucure of cricketing. So can I assume that you have faced no challenge at all since you are so matured?- replace football members if they are not performing but thats the last thing to do. I do get frustrated but I have to handle myself as I am the leader. Leadership in the business world- Jeff Bejoz, Dhoni, Elon Musk- Disheartened with twitter. How to remain calm?- Experience and time does it to you. Understanding the patter well. Nothing to change in parents. Lot of emotions in answers. 3 weakness that might ruin your career- I am impulsive but I am passionate so I become good at whatever I do. Explained the NDA and tech. Little bit of time managment- and spend hours and indulge in it. Mention how you</p>

Comments , if any	<p>Popinder- name given by my grandfather. Smiling and answering. What sweet things that give you satisfaction- I help others even if they deceive me. Only 1 chance. Because of my nature, everyone loves me. Do you never get angry?- I wont remain the same but there is no burst of anger. Lot of mention on the word help- you have to come out with more experiences. Why should we hire you- If you give me work I will always try my best in the time span allotted to you in the most efficient way. -I cant say much about others- good attitude. When did you miss the deadline- SSB. SSB event explanation was regular explanation of routine. You can just mention the highlights and dont even mention the bath and all. How can we manage time better. Give me some suggestions- It depends on their mindset. Even if you are expert you have to start early. Main thing is thinking. If you dont get through the job what would your next steps- study hard. 7 pm to 8 pm is gym time ?? GK - I am not into politics. Cant say that. Learning strategy- not a solid ans. Time table. Internship- applied only.</p>	<p>Your name is Sambhav- were you ever in self doubt?- Multiple times. I have stage fear- stammering problem - nervous. Are you nervous right now?- smile and nervous at the same time. Any situation in life when you thought you were an achiever- LKG till 10th - topper. NOT ranked so much in JEE but now I score again. Education system changes- syllabus should be updated. Poor english. Can answer in mixed hindi after permission. Education system- attendance should be low not as 75%. Because it is not practical. Faculty should be supportive. Team work college opportunity- project based learning. 3 to 4 people. Finish the work. Were you angry with people who were not doing work- but thats what team is- we need to cope up. But that behaviour cant be entertained. Aam bhi churaye hai. Fighting with my friends. In the corporate world, honesty always doesnt work. It works 75% of the time. Do you have any advice for upcoming engineers?- go for practical knowledge. Internships are important but it helps- but if they dont get it, they can use the time efficiently. Internship in Microsoft in future. Dream company- Microsoft</p>

Comments , if any	<p>Fascinating about engineer- creating solutions and building things for our help and ease our work and we progress. and in AIT if your father has not served the country even if you are good, you cant get into AIT. Any recent development in engineering field Google AI, Chatgpt. When I was in 12th, I thought of creating my own chatbot. I created but it only remands to set commands. Why IT?- This is a good question. Good story telling. I was eligible for all but I chose IT. I was not aware how CS is different from IT. IT is software and CS is hardware and software. Smiles and talks. Honest. Dont want to study a lot. My students get paid a lot but sometimes work is boring- I started freelancing when I was in 10th. I will never get bored. Father once asked me- Even if you get a low pay job and you like doing it, then its better. Freelancing at 17- financial need but focussed not on teaching. If it was not a financial need, I would be busy wiht my studies and wont be knowing ways to earn. Pay college fees by yourself and financed by yourself and utility bills and I am proud of you. I have yet to pay my 4th year fee and I have contacted my clients and mentioned I can accident. Should I assume that nothing scares you? - After 2nd year I am degrading of pride and</p>	<p>Are you excited about the interview?- Absolutely. Already given SSB interview. Failed 4 to 5 times. First corporate interview with you. Good confidence and body language. Why you must have failed?- Must have got nervous and must have played down as Army officer must be bold enough. Mention of interviews makes me nervous. Anything else?- Tlme before the results. What gives you confidence?- He started in hindi and continued in english and prepared enough and people are with me. Do you have any inspiration?- Admire the Shah Kashmir Grover because if he speaks the truth everytime. Ashnir Grover civil engineer from IIT delhi...etc- Grofers. Bharat Pay. Can you resonate with him?- I will speak what someone wants to say but if I care for the person, I will speak the truth. Have you landed up in trouble ?- People who care wont mind and others I dont tell. So no trouble. Any other trouble- only failures were trouble Mention the lessons learnt. Searching for internship still - uncertainty of campus placements and recession and slightly below required level. 1.5 times more hardworking. I am the top 30 coders of the college. Honesty</p>

Comments , if any	<p>Computer developer, fast learner, challenging tasks. Do you remember any challenging tasks-explained that well...but challenge is to procure internships but getting rejected. Don't have to mention the client name. Paytm interview- how many tea cups will be sold in pune railway station for one day. Were you able to ask reason for rejection- He figured out reasons-literally no idea. But he used maths and approximation. How many floors are there on 1st floor to 4th floor...How many compartments are there. He said the realisation and observe more ...thats good but dont extend the negative too much. Look at the interviewer- Eye contact. Does effort. Sincere. Higher studies if no placement. If you are team leader and have 3 tasks, then which task will you do- which one will you do. You will request to extend dates. Asked..dddd...wrong pronunciation. HR round is my weakness. Answered all internship interview questions in details. Which company will you choose- task that you dont know- learning language i dont know- salary more...know the language and learning the language is different. He has clarity but has to limit the time of the answer. He</p>	<p>Why should we hire you?-Because I finish things on time and I admire engineering. Why not others?- many are here because parents forced. What is so attractive about engineering-example - millions of picture but server is resource hungry and how to show photos to millions? To avoid hanging of website going down. Mention that we can help out. Rejected?- Rectify what may have gone wrong and work on it. I am from MP and from Rewa. Dont know much about MP and I will feel bad if you talk something bad about Rewa. What is comfortable about Pune-nothing really. I like travelling. Travel through bus which are well connected. Weakpoints- procrastination but only on what I dont like to do. I do corner it. In the corporate world you will get what you dont like to do....then what will you do- But in the IT field I have never procrastinated so will be compensated. Reading books and working out is procrastinating. I like to see things visually and it is appealing. How do you manage to get marks?-You tube videos. Do you fall off to sleep in class- but htye are teaching IT. Shift and location - any is ok unless and untill</p>

Comments , if any	<p>Why IT engineering?- Safest engineering field and an army brat...this is our college. If all were safe which would you choose?- Earlier Biotech. You should mention that the 2nd choice is IT. Achievements of IT - chatgpt-come out with more examples. What achievements of woman is celebrated but not really true?- When you take your time, say you need time. What makes everyone in Bihar so intelligent?- Bihar is not developed. Children see struggles. What is 1 regret ?- Got through NDA - first chance when women were allowed. I didnt utilise it much. If your work culture is not good and boss is not good even though pay is good- I work better under pressure and take it sportively. Challenging situation- 2 years of college has been tough. Not as such but put where you dont want to be. Smiles and talks. If you dont get through the job -Internship- applies but not</p>	<p>What is so excited about being an engineer and why are you looking forward for having a job? Eye contact can be better. He looks down. He wants to be in ISRO. Searched PCM. Mentioned about astronomical physics. When he called them they wanted a donation and could not afford it. AIT would be the best option.Were you disappointed with ISRO rejection in SS Ramaia college? - Yes. IN my heart I knew I had to pay fees.20 lacs management seat. Always smiling while answering. He still wants to get into it. Whether I can do it or not? Thats alternative career. Why would you interview and waste other company time if you get through ISRO- didnt think through. talk to them and it will happen in th enext year. Wont leave immediately. Weakpoint- procrastination- mediocre level. I</p>

Comments , if any	<p>Did not include in intro was mentioned again. Teaching winning cannot be taught. 100% involvement. Level of understanding of the subject. Presenting ideas well. Major goal is to understand others better. Goal is not just winning. Chose AIT- cantonment - so-better ans. Engineering qualities that I lack- only tech skills - good ans..patience Main motive to attend mock interview- 18 interviews- selected in 12.. HR round rejected-scale of 5000 employees-optimize the teams management structure. Internship 2nd year. Why IT-Tried for CS. IT is easier ! ? To learn extra curriculum things and faculty is very supportive. Did not know the engineers day. Education system- focus on practicals. Nervous around groups. But if you care about it, you would generally be a little nervous still. He is reliable</p>	<p>Why AIT and why engineer- because I got in AIT only and don't want to take another drop. Wasn't serious about studies till 12th. Prepared for JEE . College is not that much strict and can develop other skills. College curriculum is out of date. Most of teachers in Govt college are not well qualified. In AIT attendance is not a criteria. Faculties?- dont attend class. They give attendance. But they are supportive. Didnt give the answer to why engineer in 2 minutes. Animation can be controlled. Fascinated by logical and machine learning. Companies are a source of income. But I will give my whole and soul. Too much frankness. IT engineer- its not proper engineering as it is code, copy paste. But engineering is creating something new. Thats a good answer. Basic first jobs-ok to start fresh. Friends- likes transparent and not self obsessed people. Generation gap so friends are good. Task completion with people you dont like- I will complete the project. Mistake I do daily- called my father. Failed in 11th. Regret?-Percentage was low. Dont keep rubbing your eyes. But no regret in any mistake. Always smiling. Good confidence. Why should we hire you-whats special- I mingle with people easily, I am a fast learner, flexible.. I consider jobs as secondary. Friends will help me get the job even if I dont get and they will help me. Interned with Deutsche Bank from 15 May. Change the background while interviewing and control your friends disturbance. Left a coding internship and I got bored. If you sustain in the company and till I find a new job, I will work in that company with full fledged. What is it about you that can lead you into failure- because I get bored easily. If you didnt have friends and coding, then life would be boring- Anime story has good story line. Describe- mutations, scientists, ghosts, out of the box. Contributes to the GDP of Japan. Naruto Anime. A carefree person like you - why are you giving interview- gain more experience. Is there any scope of</p>

Comments , if any	<p>Intro- Data science, volleyball- leadership, confidence, management skills. Trekking - fearlessness, pressure, experience Weakness- cant wake up early, communication skills. Achievement- mentioned, Presidential award but I left scout. What is the eligibility for Governor's award?- situations and give a test on that. Are you doing data science and mech happily?- I love machines. After seeing syllabus, it is tough and placements too so data science. Anuj seems to be a very honest guy. Pay in mech is less. Option between mech and IT? Family wants a high pay job. Rajasthan business- Udaipur is into business. Haryana- every family there is a soldier. No army for me. Medically unfit. Managing people answer was good, substitute, soft spoken, convince. Convincing substantial points in your pitch, soft spoken ( can I speak in hindi), difference between the right and wrong. No failure, no disappointments. Salary expectation?- if parents are happy...what is your family's expectation?- 60000 to 70000 per month. Night shift?- yes. Where do you see yourself a few years now?- no idea. Not settled in which field. If mech diff level and</p>	<p>Intro- location, BE, hobbies- tech books, personal - cycling, art. Basketball and cricket. Intro is incomplete. Why mech? - I was able to visualise it clearly. In coding , you give command but you cant see. In mech, we can manipulate and we can see clearly. Easy to understand. Nervous about mech jobs?- alternative in IT?- yes, trying in IT sector. Lot of fillers in communication. IT is my backup. But I want to get a job in mech. Prateek can smile a little if he wants during the interview. Tech advancements?- I dont know much ( dont say that) I have heard- automobiles, automation , earlier heavy and hard gears, optimising vehicles. In Shark Tank , you heard them speak on some dev. Does Shark Tank help?- businessmen and helps youth - start ups. Internship - not particularly but I dont have proper skills I will lack. Not getting through. Why should we hire you?- Punctuality, problem solving skills, presence of mind, behaviour, attitude. Do you have all of them?- I dont think I have it all . I am working on it. I dont have punctuality and team management is like a daily challenge. As we plan things, it doesnt go like that</p>

Comments , if any	Intro-parents, hobbies- anime and travelling, learning about geopolitics, tech skills- IT. Ukraine - affects the world- price of fuel is increasing- sanctions on Russia- others are facing problems. Historical places. Why hire you?- honest person, straightforward person, flexible, when we see results it motivates me to do more. Example of flexible- studying mechanical and doing coding. Why not mech?- chance of employment. No harm to learn new things. Any inspiration?- Like to play football- Ronaldo- works hard and his fitness- comes from deprived background. Disciplined- Come to college to study- focus our mind, not overdo things, better to be practical, smaller goals bit by bit ( dont say limited goals). Weakpoints?- Procrastinate more. Internship- waiting for the reply.	Intro- location, scores, family - not so relevant. Then hobbies were mentioned. Tech and soft skills? Events? Responsibilities. Why mech?- low scores. Any field is ok with me as final aim is Indian Army. If you don't get through is fine, any corp job is fine. Mech goodpoints and coding good points?- all people do it so I am doing coding. Mech - machines. Why should we hire you?- can handle upto 100 or 1000 people, humility, can manage people. What challenges have you faced- Secretary of sports club, explained the situation well, make a team of sponsors and designing. Explaining why it is beneficial. Kind of people who dont stick to their promise. How will you deal?- If we can talk sweetly ( find better answers. Actually find out how to deal with them). Find out the common connect and influence. Weakpoints?- get angry. ( asked to speak in hindi once is ok) but your english is good so try hindi. I meditate. Any disturbing event?-nothing as such. Tech advancements?- no. Raju doesnt know why he is doing engineering. He is just going with the flow. He has to sit back and reflect. Raju needs to be trained. His answers are superflous. Discipline?- I am. But I dont wake up on fixed time. He studies till 3 for

Comments , if any	Intro- Chose mech and reason- machines- more versatile field. Tech skills well versed mentioned. Interning at CME. Gave details. ( details can be given later.) Eye contact needs to be better. College band. Secretary of culture. Pianist . More versatile field- have doubts- got into details- complete masters, do MBA later, go overseas, PSU- public sector has - railways. Versatility answer can be better. Qualities were forgotten in the intro. Tech advancements- in touch with automotive sector. We also have hybrid electric vehicles. Not really environmental friendly- making of battery. Learning tactics?- Piano- started at a young age. Had a good teacher. Basics are strong. Later grades - managed on my own. Answers need to be timed, interest and heart must be into it, regular practice and be goal oriented. This answer can be better. team struggle- importance and consequences has to be laid. Last person coming late will be responsible for clearing the room. Weakpoints- when a task is appointed to me, I tend to procrastinate. After the deadline starts approaching, I will start it. I also finish it on time. When was the last time you were worried?- end semester exam. 129ous about mech jobs or will you switch to IT?- there are	Intro- Project , BAHA, tech skills - IT skills, management skills- joint secretary, manage the events, learning the communication skills. If you are mech, why are you learning IT- as mech jobs are less, I wanted to be flexible. I will be enjoying mech field better - learning because it is the demand of the situation. Why mech? - IES officer initially. But now I realise, placement is important and these govt jobs can be applied. If I get through govt, in the present scenario, recession is coming, security issue. Silicon Valley Bankrupt. Internship- 2- not much- marketing just time pass internship- AIML- 2 projects. My learning style and others learning style?- What difference you see- good answer- I am planning the things according to my time. 60% working. Internship- if you try you will get it. Team struggle- finally it comes to one person - it is happening frequently- either I push them harder and I work with their pace- there are 2 options- benefit of the other person is also happening- it would be loss for him too. Mention what are you doing about it especially when you said it is happening frequently

Comments , if any	<p>Intro- hailing from Agra, school, hobbies- psychological books and football. Books?- Mind fucked- Abhay Agarwal- people who overthink a lot. The rudest book ever - Shweta Gandhar, you can win by Shiv Khera. Give me tips on how to win- Ronaldo Quote- In my mind I am always the best. In any situation - either complain about it or we can learn what is it trying to show it. 2 years of bed rest in covid area- gym achievement. Consistency tips- Others gym quit. SSB - rejectin - hit me a lot- I will work hard and change my personality. I was not able to speak in front of people. I looked up courses on public speaking. I was a quiz master. When there is a lot of people in front of you, choose your target 3 to 4 people and speak to them, large mass converted into small group. How to deal with people with different opinions- at that moment- how do you resolve them- arguing wont work- Narendra Modi- Britishers said they wont give the blue print. Case of Turkey - has never supported India in Kashmir conflicts. Recent earthquake- India still sending first aid and health care. How are you as person ? You seem happy helping friends during exams. It is pressure handling- do things for</p>	<p>Intro-secretary at EV club, parents, hobbies- used to play some video games. Search about stuff regarding electric vehicles. Tatas are working on EV - aluminium - and currently began the project. Why mech?- to be honest, lack of marks- I actually wanted IT. Now I found it interesting- especially automotative sector. Mech engineering chose me. Mech engineer good qualities- knowledge, software skill, design components. Mention the soft skills - communication- work with your team, patience- mech takes time or start from scratch. Vivek thinks on the spot and he knows his game. His answers had substance. How many of these do you have?- I dont say my comm is good but I am able to explain my ideas to people. Tech skills known and also python. Are you nervous you might not get a job?- backlog in mechatronics. Why did you get the backlog?- heavy fever. Video games- help you or distract you- takes focus but takes time- but I play for one hour only. Time waste?- club- people are not able to attend. I understand but we have to run the club. We have to take some actions regarding them- some leave the club after joining especially girls- lot of physical mech work-we organise meetings and explain benefits that they will</p>

Comments , if any	<p>Intro- AIT, parents, small town, school, hobbies-reading books and football. The boy who loved once-friendzoned.. Intro needs to be more relevant. As a reader- vocabulary, keen listener, how to be in other people's shoes, sitting capacity, focus. Team struggle?- motivate them, how it will benefit them. When people see their selfishness they do their work. Vimal rocks while talking . He can stop that. Practical vs Idealistic- ( Good Vimal asked questions that he did not understand) Practical will know the ground realities. They know what works or what does not. Weakpoints ?- multitasking...this thing and that thing ( can avoid repetition of these words). I try to reduce from 4 to 2...Salary expectation - as a fresher, none. Vimal has good confidence and good body language. Good conversational skills. But his intro was limited and incomplete. Why mech?- because I got it. I like designing, I try to learn. dont try to go into the flow. Nervous- job placements-yes. Alternative plan-certain exam like CDS RBI Grade B. If you get through a well paid job and then get through CDS, then what will happen- I will ask my parents and wherever I get security. Achievement and mistake?- Secured grace marks in maths in school but</p>	<p>Intro- parents, location, school, college, scored, Karate - gold level and national level, 3D modelling and video editing, basketball. I left Karate due to 10th exam. Do you miss it?-That's why I switched to basketball due to height. What problems do you face because of height?- other qualities- good learner, great visualisation, experience in electric vehicles, secretary of EV club, internships related to my core. 3D modelling thats why mech jobs. Not nervous for mech jobs- require experience before knowledge, I am prepared for that. After graduation, I can join start up to gain experience. How are you going to find a start up?- EV start ups, design a rickshaw. Weakness?- pretty much straight forward. It is my strength and weakness. Learning? - Induce interest. But only interest isn ot enough?- Consistency. Give only 1 hour daily</p>

Comments , if any	Intro-location, hobbies- basketball. Internship- good experience but no knowledge but not learnt any new skills from there. Work given was not upto the mark. Applied to 5 to 6 internships. How did you overcome challenges in a team?- special role assigned to every member of the team. Some members are taking it so lightly and the others were very stressed about it. Which side were you in?- Initially I was serious and then even my work start getting delayed. I lost interest as I was not learning anything new. What have you liked about basketball?- to increase my height. Sports players vs non sports players- less stressful about results, can be more focussed and patient, will get tired soon- non sports. Those who play sports can take stress in a different way- good answer . Vikas is honest and has potential but needs to understand the questions from business point of view and give indepth answer. Why should we hire you?- Many I have and many I dont. I dont know but I am trying to improve from it	Intro-location, trading , watch movies, badminton. Tech skills? Qualities? Voice should be louder and clearer. Ironman is my fav movie- lot of technologies. Latest dev tech?- didn't know. 2 achievements ?- Skating ( can use this in intro) Theja has to prepare from scratch. Didn't focus on internships because at that time I was focussing on internship. Taken a course on hybrid and electrical vehicles. Just for learning- can use that in intro. Why did you leave skating ?- focus on JEE. Why did you become an engineer?- I liked maths so I chosen it. AIT?- paused and thought about it. Theja has to prepare a lot. He needs to get trained

Comments , if any	<p>Good intro- tech skills, reason for joining engineering. Sports - Squash, read about space science and technology and F1 and video games. Any issues with video games?- no issues as such. Rather it has improved me to reduce stress. Squash since class 6 or 7. Learning?- Industry requires a lot of skills from you. But to master a single one of them so that you are best at it. I chose solid works. I used to watch youtube videos and search on more topics. Uttkarsh means peak. Do you remember your low?- any regret?- No regret or low. So I assume you have managed things better?- mental state. You have to finish it anyways. I dont get agitated at all. I see whats happening. If you are not selected for promotion and someone lesser gets it, I have my own friends and I see what I need to improve. When work was not done after responsibility given?- Baha- explained the situation. Good communication, body language, fluent and flow. Are you nervous about job market for mech?- A little nervous. The experience needed is much high. ( Real and Practical). Internship role explained well.</p>	<p>Intro- Parents name and profession is not required. Secretary of cycling, 3 internships, Army is my ultimate aim. Giving corporate interview- need a back up. Tech skills and qualities you are good at ?- coding. Internship in Indian railways and mechanical. Can give me a brief on what happens in mech. Gave details of mech internship. Why should we hire you?- I have all qualities. leadership, guide, manage workforce. ( this ans is not exactly specific to hiring you for engineering) What challenges do you face while managing people?- people lack in their work. They give only 40 to 50% investment of time and energy only. Basically I give treats. You do this and I wil give you this. Backlog?- didnt study well. Lot of CDS prep. Busy with sports. Qualities of army officer?- Patience, analyse the situation well, good leadership qualities. Weakpoints?- surf on the net the whole day. If I overcome this, I would get great results in every aspect. Frustrated - that I have to be in Indian Railway/ Army/ Corporate job.</p>

Comments , if any	Intro needs to be more detailed. Hobbies- cooking. Strength- don't rely on motivation and works on discipline, adaptable and explained well. What makes you a good engineer?-something that I will do in future will make me a good engineer. Lacking- engineering is a race these days. Why did you attend?- I am good with english but not a good communicator. You need to convey . Why did you become a coordinator- TPO said you can see other people's mistakes. Pleasant personality. 3 main learnings in life- in my 21 years of life, nothing can outshine your hard work. You are not dependent on fortune, power of God, at times we might feel that we know everything but there is always some part of the story not known to you. Have you ever made a regrettable mistake?- explained the event. Internship details need to be given proactively- front end intern	Intro- love coding, no 9 to 5, prep for army, location, prog, basketball, drawing. Internship - not paid. Mention details proactively. Learnt how to work in a team, how things work in a company. How single and team work. Why mech?- coding for placements. Current trouble with this industry?- in most languages, faculties are not so concerned with how they work, more contests should happen, this ans is good, more practical applications. Why should we hire you?- consistent, get involved with any work, assemble. Consistency- regular in basketball and books. What skills have you learnt because of basketball?- physically active, when you feel low I played basketball, always a learner, how to teach someone. How should we remain consistent?- When I feel low, I watch Tedex and motivation shows. What are your weak points?- I dont have . If I have , I will always improve. Satyam needs to prepare. Answers need to be more deep and detailed.

Comments , if any	<p>Location, AIT...no more intro ? Badminton player.How has badminton changed your personality?- once you start playing, you cant stop playing. ...Discipline. Tell your entire schedule- Speak slow and loud. Why should we hire you?- don't have an answer. Do you know your strength- Supposed I want to study I will give my 99%. I am involved. Audio was little messy in the interview. Strong at python also, previously done html and css, back end also in python. Novels?-10 20 books. Which 3?- what do you remember from that book?- Cant say now. How to influence people?-completed 3 topics- dont criticise anyone, appreciate others. He needs to prepare. Sweet guy but needs to prepare . As an engineer are you happy?-no as an engineer. But in general I am happy. When I come to AIT I am unhappy- first year online. Mech jobs are less. I studied for 4 years but mech jobs are less. I am exploring myself. Dont worry Aakash. If Aakash prepares himself and times his answers, he has the potential</p>	<p>Speak slow and loud. Intro- mechatronics and football.Only 1 line intro? Argentina- 3 you think. FIFA full form didn't know. Mech engineer?- mech and electronics. Multiple disciplinary branches. Time management, also secretary of electric vehicle- he is not mentioning the soft skills. Sometimes we have to step out of the comfort zone. You have to look after everyone and not always be focussed on yourself. Judge what capabilities. Weakness and mention how you are working on it. Scope of mechatronics?- explained well. If there is no job I can switch to purely mechanical and IT too. Happily no option?- I wanted to do chemical engineer. But if college syllabus is as per the university but the issue is what kind of environment we are getting- so didnt get into below average colleges for chemical engineers. Kumar when pushed answers well but proactively does not answer in details. Mention the internship info in details. Eye contact needs to be better. Answers need to be timed to 2 to 2.5 min</p>

Comments , if any	Intro- speak slow and louder. Into data learning and machine learning, additional courses to get experience , hobbies - cook and reading, data scientist aspiration. Why aspire ?- sister is in maths. So I got inspired. Then why mech- Father was a machinist...it is a must have and explained it well. If there was more jobs in mech and less in IT, what would you do?- Would you switch? I will switch to the career that will make me grow. But my interest is with data scientist. It is a relatively easy career. This generation - cant stick around for long, discipline issue, inspired by media. Have you ever failed yourself?- Aim was to get into physics, research into machines, mech engineering is more into automobiles, there are very few colleges for research in physics in India. Depends on what kind of life you want to live and not about what kind of job you want to have. Dont want 9 to 5 no learning job. grow new things. In most companies, it is clerical and small segments, Are you going to get bored and quit?- There are going to be times but for a couple of days I will be bored..I can take a break...It depends on the financial condition. Why should we hire you?- Learning as long as poss, dont like to sit 136 and study continuously, short span learn and short term	Intro was abrupt. Web dev, into boxing. More complete ans. Mech?- because of poor marks. AIT- good culture of learning from peers. Qualities of a good web developer?- learning new things, he should read about different terminologies in the market, he should recall how things are being done. Smiling. Manage tips?- prioritising. No one is perfect but things are going good. Initial internship was not making me learn then I left it and trying again in 4th year. Internships are important for industry working and real life. Why should we hire you?- keen and enthusiastic learner, team worker, happy person ( good ). What is a guarantee that he will be a good web developer- it will come from the projects, style, knowledge, experience. When was the last time you were disappointed?- home. Rajasthanis- business- work- but we need to know how businesses work and so we need to be employed. Weakness- lose sense of time. Boxing?- introspect, time management, other areas depth. Are you planning to pursue this forever?- no this is for physical fitness....can do the set up at home

Comments , if any	Intro- Time management, team leader, internship, event, Table tennis, dance, poetry- it teaches me that competition should be healthy- need more emotions and energy while speaking. - Things can get easy while doing hard work. Anuj definitely prepared. Poetry keeps me happy and connects me to the universe. Keep the answers timed. TT increases my concentration. Time management- schedule making, focus on our aim. ( Say this proactively I had to ask again), scheduling different activities- use the word prioritising. Why mech?- AIT and no other branch. Data analyst pursuing it. Good qualities of an engineer?- good in his core knowledge, time management, sharp decision maker. Anuj' intro was fab but no emotions and no expressions. Anuj was prepared but some answers need to be more detailed and deep. Regret answer or failure answer could be more detailed. Anything to change in this country?- caste system. Reservation is incorrect as the bright students suffer. If you dont get it, you have to improve yourself. What would your advice be for mech and AIT?- AIT Is good	Intro- location, hobbies- anime and basketball. Other details in intro? Is anime good?-Is it good or bad that we get influenced by Japan or USA- It is good that we learn other cultures but we should not forget ours. India?- Diversity and still democracy. Whatever happens it is chosen by people. It is not forced dictatorship. It delays decisions yes but it works for India. What do you like about BJP govt?- not into politics but external affairs, not bending in other countries pressure, RUssia and maintaining peaceful relations with others. Lazy people - leave them out of the group, can motivate but after a point what will you do. Night shift?- kind of environment it depends on that. If company treats me like a family member ( dont say that). Salary expectation?- Above 9 lacs. Expectation is about 10 lacs and there is no upper limit. Why should we hire you?- great comm skills, work well with other team members, good reasoning abiliy, problem solving ability. Have you every solved a real life problem in your life?- paused and thinking. Edu system?- test system should be changed and frequency of tests should be increased. Internship- in CME- explained.. India and

Comments , if any	<p>Intro was traditional- location, school, family background does not matter as such. Positive, confident, determined, not that good at expressing myself...tech skills and internship and contests missing. How does one remain positive?- I don't think about the negative . We can only think about things we can control. We have to focus on our work. Personal challenge that has disturbed you?- Volleyball- havent performed well- I play good volleyball but I havent given my whole. What are you lazy about ?- I am not lazy person but let things pass. I procrastinate. People who procrastinate are also confident people?- yes I dont use time well. Dont have friends who encourage me to do things?- Persons with simiilar interest. Initially takes time to bond. IN the corp world, if you dont bond, do you think it will hamper work?- I will try to get better at it as I know it will affect. I will make the first move and talk to them. I like sketching and music. English is an issue. He pauses and work. Shark tank is good to watch - more ideas, who are establishing. Judges of shark tank ?- didnt know the names but was explaining their businesses</p>	<p>Intro- college, location, covid area, not very exposed to college, joined college post sem, hobbies-writing, volleyball, squash. Squash?- new to me, small city Meerut. Enjoy volleyball better- team work, juniors ask queries, squash has limited interaction. Pune vs Meerut- climate, food, sweet people . Ans needs to be timed. Smiling and answering. Why mech? - mentioned coding and IT did not interest first. In school, thermodyamics and maths and physics. Less jobs in mech?- Its not that. There are less qualified people in mech. CEO of UD Chalo- mech engineer- secretary of innovation. Academics?- If i am getting 8, i am getting what i am studying. When was the last time you were confused?- shopping clothes. What frustrates you?- I dont expect anything from anyone and self and then it doesnt happen, it frustrates me. I stay quiet 4 to 5 hours and keep myself calm and start thinking of positive things I have. Example- Squash and I was not performing good. I am not at 0. I am at 1 or 2. Others are at 10 but I am improving. Learning?- am I really interested in it? Coding- I imagined myself writing code sitting position and I did not feel good at all. I am interested in content writing and researching. I started</p>

Comments , if any	<p>Rewa, MP. Field of analysis and keen interest in designing and maths. Fluent in tech skills mentioned. Tech contests and awards mentioned. Aditya is prepared. Anime. Out of box ideas. Strength - attitude, like to take challenges, take success and failure in balanced manner. Weakness- overthink and overexhaust, sometimes impatient while achieving goals. Series- create your own story in the place of the author. Diff social media platforms- write about different theories, take a reference from a book and generate about my ideas. Currently not thinking about IT and obtaining my skill in designing. Passion goal is to become a designer. Nervous about mech jobs?- true but also depends on the person who is applying. create connections during contests. Higher studies- was- not now...just BE with extra topic. Alternative plan- Amangkaka-comic book artist. How did Japan and Korea enter our culture?- Internet and during corona. Relaxed candidate. Japanese are punctual and will live their life alone. Not very social. Impatient- first 24 hours I will do it continuously and then motivation dies out. How do you revive your energy back- suppose I am learning to design then I will watch other designers and see 139f competition arises. Education - change.</p>	<p>School is not important in intro. Debates, painting- done it all. Hone my skills- Strongly believe that school environment is one of the biggest reason for my reading. Voracious reading- writing. Also play basketball. Captain of school basketball. State representation. College- getting encouragement from my seniors secretary of magazine. Mention the tech skills and contests and awards as a sequence first. Adaptable , open to suggestion and willing to learn. Challenges- gave example. Persuasive, enlisted our merits. Smiling and answering - writing cant be pursued as a career as it comes from inspiration and sudden. Physics was an important -mechanical is a versatile branch- explore all aspects. motion dynamics everything. are you not scared of job issue?- there is a chance but its all about good you are. I am competitve. Delhi vs Pune - Woman safety. What makes your nervous?- fear of being nothing in life. I am the only child, Parents have given everything. I want to make an impact. Are you social?- army background- formed connections. Team challenge?- biggest weakness- not on same page with others on my team. I dont take out on them. Internships explained well- 2 of them. Learning -</p>

Comments , if any	<p>Geopolitics, enjoy with friends, squash, - intro can be more detailed. Squash- in lockdown lost all stamina, we need less stamina I though- and realised it needs more stamina. Any physical fitness to develop more stamina?- roam all over the college. Secretary - sign from different HODs. Are there given to you or voluntary?- 1st year you have to be member, 2nd year...there is a method to this. Why did you choose to be the secretary?- did I have the leadership quality and need to know myself. Do you believe you know yourself and do you know how to be a good leader?- Organised many events, different mindsets, maintain decency while clashes are on. When clashes happen how do you resolve them?- this is not personal its for a whole team . If I want to be easy and friendly how should I behave?- helpful approach, give suggestions, no grudges. Learning?- know the game, try it - give more detailed ans, if you have interest it will help, if you dont have interest you should try somethign else. For textbooks- different funda for education- write it and try to learn it. Are you studying for army?- yes. Right now studying medieval history and S Jaishanskar, who did he succeed</p>	<p>Hobbies- hindi poetry and then tech skills. Intro was abrupt and incomplete. Poetry impact-social issues- elephant was killed . Which one is passion?- Literature or engineering. I am still confused. Poetry is inspirational. Web development- good web developer skills?- basic knowledge of logic knowledge of javascript and ladies library like reactjs and angular, mongo db, database management. Made projects on reactjs. External sources like seniors from IT and Comp. Qualities of a web developer /- problem solver - like bug solving- easy to find but takes whole day to find it and reevaluate the code line by line and can find the incorrect code one by one. Communication with the client- understand the requirement of the client and make them understand in turn. Planning is most important. Abhay knows when he thinks. He needs to be prepared in advance. Planning missed out?- JEE - 2 drops. Learning?- memory is short term. Weak point mentioned. I dont understand from books. Practical implementation . WHat kind of employer are you wishing for?- getting some companies on campus . Very less product based company. But I am planning more product based sector.</p>

Comments , if any	Intro- ML, AI, in automotive industry- worth ethic, dedicated, to learn independently individually and together, positive attitude towards situations, ability to learn quickly and strong organisational skills. What is organisational skills?- give a task to a member of the group, you know what task to be given to whom based on SWOT. In project, I do that.....learn quickly- dedicated and generates interest. This answer could be better and detailed. INternship explained well. Are you enjoying mech?- I love that. Why mech?- its evergreen, it makes you learn lot, material science, carbon fibre- explained well and with passion. Doesnt it make you nervous that there are very few mech jobs in India?- It does so I am learning ML, AI. I fyou get through Mech and IT , which will you choose? - preference on data analytics. Weakness?- organising people. I am energetic and I expect the others to be energetic too. How do you keep yourself disciplined?- My hobbies keep me disciplined ( very interesting ans). Chess and running- Chess is a time game.	Started with hobbies- volleyball, read physics- quantum mechanics. Intro was short and not detailed. Volleyball- impact your personality- team work and scores- answer needs to be relevant. General team challenges- we all have different mindsets and collaborative mindself to win. Have you ever faced a challenge?- no. Internship- No- and smiling- 1 year left and enjoy your 1 year life. Why mech?- more related to physics, you can see physical phenomena...all others are software and you cannot see it. Job situation in mech?- planning to do tech jobs- like software jobs. Are you getting bored in mech?- no - core is not strong. Mech and IT and if mech jobs ?- If you dont get through jobs?- upgrade your skills. 3 good points of you for hiring you- hard working, collaborate with anyone, adaptable. Anurag Singh, Abhishek Shekhawat and Harikesh

Comments , if any	Intro- DRDO internship, weakness- gullible. Positive points - committed to work, positive attitude...too short intro. When did you keep a positive attitude in tough events?- Event explained well. Motivated people around you- How di you do that?- If I am motivated then only others can be motivated, asked help from seniors...explain how did you motivate?- how can we profit, what can we write in resume, how could they add a value. Juniors would listen but classmates wont- batchmates have own mentality. AIT - culture, if you stuck in a problem then remember the positive side. When does the deep talk take place?- video chat or go to their hostel. Why mech ?- Father wanted me to select IT or Comp. But I could not imagine. But in mech, I could imagine the prospect and drawback. So what are the prospects and drawback and what gave you the courage?- Demerits are package is less in India and respect are less. Prospects- its not a 9 to 5 and its core job ( it is not a 9 to 5). Core is working on a circuit but working on embedded and ENTC. Are you secure that you will get a mechanical job?- not mech but ENTC.Explain the internship role more when asked about it. But answered well. Salary expectation - figure given but try not to in fresher	Intro- tech , internship, smiles and talks, soft skills?- benefit of people. India or overseas?- Right now India is more worthy of me, I spent my complete life over here. And if it benefits in the overseas world, then I could. Good about India- we are still a developing nation, but the pace at which our GDP is growing and our PMS and we are proud. GDP - 5th - overtaken Englad, 3 trillion dollars. First is USA and then China. Covid and vaccine situation?- Overpowering and overperforming in stress- Punawala group, Indians are hardworking. When u understand positive benefits then you do overperform. Internship - financial analyst- explained well. Team work - almost daily in college- we dont have the liberty- people who are lazy are not actually lazy but the education does not excite them. What problem you are facing and talk in the room- what is the thing you like in the project and what inputs you want to give. Weakpoints?- lot of people watching you then lot of pressure on your back, people are expecting you to fail. I invest in people a lot, I talk to them, Sometimes it backfires me. You cant think of people betraying me ..you cant think of that while trying to make a relation.

Comments , if any	<p>Introduce yourself- speaks like scripted version. Explained why he doesn't want core mech job in intro. Its not necessary. Finish the ans in 2 min. Currently doing data. Chess and gym and running. Qualities?- gambit, trap explained well. Try to be greedy and it is short term thing. Weakpoint?- Cant interact with many people. Panic with many. Exams. Also in panic now of interviews. Reason ?- After lockdown, I was in my own house and not able to meet friends and society. Tech dev ?- Chatgpt, self driven cars. Where do you see yourself a few years?- good position and be of worth of every penny for the company. What is your salary expectation- min salary for survival and want to good for the company 7 to 8 lacs. Do you have any dream company?- Data analytics, IT sector- Google and Microsoft and ZS for consultancy, core company- Mercedes. Team - teachers give last minute. Explain how you completed it finally proactively PPressure- ?- Myself happy and calm</p>	<p>Introduce yourself-secure a position- immediate goal in reputed firm, school, well in academics, sports and extra curriculum, tech skills well explained---scripted sounded like. Soft skills - Decision making. creative,problem solving, EQ, organisational skills, team and time management, process planning. Projects and names. Currently working on ...project. Achievements- Been given great responsibilities. Hobbies- novel reader - Dan Brown, All round athlete- TT, cross country running, NGO. Decison making - analyse the situation before controllng the situation, control yourself, first cool yourself, look at it from perspectives, review. Have you made some wrong decision?- yes and thats why overtime I have become good. Explained the event very well- achievable targets. Weakness- I am good at things and get nervous when I go unprepared. Are you nervous and unprepared now/- I have prepared a little and developed confidence along the way. EQ &amp; EI - When we are perfroming some thing w e should know our state of emotions , are we under influence of anything or is it our normal self. IQ Is knowledge on the topic. Dan Brown - elements of truth, architecture - facts are</p>

Comments , if any	Intro- Karad, School, Marks. Dhiraj means patience. Do you have patience?- No excitement towards things. What do you like?- competitive nature,games all India rank 32 in PUBG, can include achievements in intro. Achievements?- Studying in 12th, AMECTE- all India ranked 98 but never got admitted to college- Indira Gandhi Ahmedabad.But I didnt want to go in the profession but wanted to give it before JEE. Spors Captain in Khokho. Research and Dev cell - a new cell established this year to promote research activities. Why mechanical engineer?- There is a story- PCMB chosen. Interested in maths only. Dhiraj rate of speech is fast. If you dont get a job, what will you do?- higher studies and even if I do get a job. CAT exam yes and later added company benefits of studies. No internship-Will upgrade my skills and then apply. Dhiraj smiles and answers. Cultural difference between others and Maharashtra - culture does not matter but behaviour does. Team spirit answer could have been better. Say how to convince them. Dont just express disappointment	anime, running, astronomy,. Tech skills mentioned. Role model mentioned. Aim is to be a good leader and help people achieve their goals.Why do you find them inspiring?- courageous, impartial and good and strict when necessary, motivating others, helpful person, supportive and empathetic, calm person in difficult situations- whatever has happened has already happened, focus on the future. Every situation is like a closed room. If there is a closed door, find the open window to get out. When were you in a closed room and what was your window?- game event and prepared for NDA. No job situation?- I have been preparing and help other students, teach in coaching. Internship explained well but do it proactively. Why mech?- Interested in astronomy. I look at stars. I can get a job into spaceX or ISRO and be closer to my hobby. Have you been in a situation where you were made to feel small and insignificant? - Explained exam situation well and went for SSB. Playing for my city-seniors said he wont be able to make it to NCA but I did it. Weakness?- overconfident at times-but in some situations I failed in some situations, quite short tempered but over the period of time, I am not

Comments , if any	<p>Introduce yourself. Thankyou for the opportunity. I do art - carbon art , sketching, painting. No tech skills or internship or any college responsibility mentioned. Impacted your personality?- creative. Not doing in this semester currently. What can we do ?</p> <p>INternship - content creation internship. Just making university. So not happy. Did it for 1 month and then left it. Time was being wasted. Have you wasted time yourself?- not in college because of covid. Weakness- lazy person and to overcome play basketball, pay too much attention to details- lost time. In Bihar, why are people running after competitive exams?- different life, struggle in life. Father is already an engineer. So I got into it. Do you have a vision for yourself?- WHere do you see yourself a few years from now?- be in a position that I can give my parents goodlife, lavish life. Learning?- build some interest in that Data analyst. Indian Businessmen- Shark Tank , Piyush Bansal, Amitabh Mittal. COMMunication got better when he spoke about shark tank</p>	<p>Why mech engineering?- because JEE rank was allowing only for mech engineering. So rank was not good?- yes. How is mech?- it is tough. How are you going to cope up?- Don't want to do the core mech. Recently alternative path like database managementa and consultancy companies. Are you finding database management interesting- comparatively easier. Why should we hire you?- hard working, punctual, regular, i keep a time on task and do it. Weakness?- communication skills but improved it after coming to college and participated in all lot of events. I get angry when people around me are not hardworking and punctual like me. What do you do?- I will try to convince. Have you faced ?- I have given them the negative marking. English and communication skills is poor but attitude and trying to answer was amazing. Only communication training is required. Hobbies - kabaddi, music, work on new things. Intternships- practical knowledge. Learning?- seniors and great attitude at learning. Learning new skills because he knows his weakness. Parents are supporting. Virat Kohli- was out of form and continously worked hard and improved his skills.</p>

Comments , if any	<p>Name mean?- when the sun rises, red rays. Tamil Naidu- Jayalalitha. I like her boldness. She is one of the strong and Iron Lady of TN. Women Men challenges?- Secretary of college. Cant find girls as people say it is mainly for boys. Financial budgets are mostly maintained by boys. Internship- Mechanical core side. Mostly girls dont go there. Arunima is reliable, genuine, sincere and focussed. She looks naive but she is not. She is firm and she will go far eventually. Internship role explained well. Applied through Internshala and 2nd one through reference. Internships are helpful- practical help. Team challenge faced- You explained the challenge but not what you did about it. explain how did you finally do it- culture in AIT that seniors treat juniors. Positive impact and negative impact in your life?- I dont believe in luck. I participated in competitions. Negative impact YOu have to find a proper way, should not leave till the end. Weak points?- introvert but nowadays I am trying my best to overcome being with friends and they are helping to mingle a lot and internship helped a lot. Why should we hire you?- could always believe me that I work hard, I will give my 100%, I will learn waht I dont know and do it with perfection. I will work consistently and not lose my interest. Offer letter accepted and</p>	<p>What about your personality is so impressive that we should hire you?- make friends easily, team player, tech skills. Good team player? - member of football team and there I am a team player. Society of engineers- key person in that. Any hiccups in group activities?- Football injuries. Why engineering?- Hated biology. Subjects of engineering I liked. Opted for ENTC and didnt get it. Got mechanical. Are you happy with mechanical?- not looking for core field. I do like electronic stuff. I am not the best in studies and not looking for core job. So whats your plan?- I love to play in numbers so looking for data analysis. Data Camp courses for machine learning. How do you manage your schedule?- college studies not really required. Then 10 to 1 am- 4 hours in night to do these courses. 5 to 7.30 - I play. Duration depends on us. 1.5 months - full day. If you study 2 hours a day is enough. Bridges, roads, buildings and everythig. There is no debate. Engineers are the backbone of society. What frustrates you- not able to get internship and disciplinary cases against me. Delhi vs Pune- people dont talk in english and pune people sense of humour not that good. Delhi people are not that culturally inclined. Have you paid a price for your honesty?- i have but i cant remember. Weakness?- stage fear. Explained reason for stage fear with many people well. Explains wellwith confidence. Regret?- Maths teacher - wrote a note. Learning well- see and read and you forget it. You do it. Study 1st part and do it immediately. He is streetmart and practical and result oriented. He will survive. Just needs to answer strategically in interviews</p>

Comments , if any	Intro - tech skills, internship, video games and sketching. Video games skills - can be a waste of time but I use them to be consistent. Have to play the games and clear it. Its always in the story- the main player is doing some thing int he story ( mention the skills developed). Learning 3 D modelling- super ! . Is it good to be an engineer in India?- from parents perspective it is a good thing as everyone wants you to be an engineer, problem solvingstable job. Begineers luck or effort?- Maybe both. Businessmen?- Founder of Reliance. Internship- take away should be mentioned proactively. How the corporate works , freedom	Intro - tech skills, novels- Agatha Christi. Why hire you- hard working,dedicated to the work, time management, sincere. Time management- before beginning the task, schedule. Achievement?- don't know ! Not anything great. Patience to finish the work - result orientation. Vijay - not completed on time, But i thought you are good at time managment. Lessons from failures- concentration issue. Inspiration - parents

Comments , if any	<p>Tech skills only in intro. ( incomplete), then mentioned football , chess. Why engineering?- parents chose. Right now I liked it. What is attractive about it- coding and making products that affect billions of people- ( always give examples)- software examples. Weakness - cant say ano , cant start a conversation. So corporate life would be difficult right?- I am flexible and trying to make myself better. ( mention how are you working on it)- focus on little things that will make a difference.</p> <p>Toughest thing- IIT. Apart from that, nothing is tough- do it regularly and you can do it regularly. Learning?- best way - motivate yourself - inspires you- then you have motivation - then discipline and patience. Only 1 offer in internship- ( mention the start date). ( need more energy and more substantial and detailed answers)</p>	<p>Intro- Internship trainee like projects ..., tech skills, internship explained in details in the intro. Strength are :- self motivated, hard working. Weakness - little bit emotional. So whats the problem with being emotional?- it can make you off balance. Are you working on it?- yes. ( explain how in all answers). I have to make myself understand that we cant get success in everything. Failure- questions could not be solved, then the ones I did not know I prepared a lot. Why hire you?- working in a start up, how to do team work, ins and outs of industry, have to deal with clients, time management, discipline. How do we manage time better?- proper planning for it, its impact, practicality of it, talk to our team members. Team challenges?- basic problems like understanding, discussed with team, be transparent</p>

Comments , if any	Intro- (Speak loudly and clearly. Needs more expressions and energy while speaking)Tech skills mentioned, hobbies- kabaddi, several sports. Team challenges- how to execute the plan, how do you resolve- patient, How do you achieve the patience- 2 short breaks, how you can achieve the goal. When did you achieve the goal- sports. When things dont go your way- take a break and think about it, everything happens for a good cause. What negative thing has happened that happned for a good cause?- cant recall. Internship - details and take aways have to be mentioned, how to divide the work,	Intro-tech skills, internship, problem statement, projects, ranks in contests, travelling, reading, writing blogs. Wrting on javascript and coding problems. New tech?- web 3 series, cryptocurrency- decentralised. Whats your career path- applying for coding, I wasnt able to get the branch of CS, trying to perform for both of them. Regret?- NIT, IIT. What would have happened more in IIT than AIT?- just the brand name, tons of opportunity, in AIT, have to apply to colleges outside campus. How would people describe you?- truthful and helpful. WHy hire you?- discipline, punctual, likes to follow rules, good team worker and coding skills. Why good team worker- participated in many hackatons, like working in teams, like minded people and working towards the same goals. Team challenge?- try to motivate them, as much as work that can be done by them. Learning- motivation, discipline, little work daily. Internship details mentioned well

Comments , if any	Intro- speed of speech should be slower. Intro is good. ( eye contact has to be better). Chess and swimming. Skills ?- analytical thinking and critical thinking. When have you felt unhealthy?- when I had jaundice. Unhealthy-phase of depression- coping up with that. Kept reminding myself that this too shall pass. No more risks anymore. Achievement - this one has to be the biggest- recovering. Team challenge answer could be better. Discipline answer- could be more detailed. Bharat Pay - internship	Intro- tech skills, running, singing, mimicry. Why hire you?- programming languages, done a project- paused and then mentioned. Curious to learn more, perfect to be a fresher in any company, devotee of Hanumanji. Achievement - that you are really proud of. Scholarship is on 12th basis. J & K - scholarship. What are you really proud about- no one in my village is going to another city. I am the one. How are you finding Pune-didnt understand the question. Why did you choose engineering?- wanted to go in Army background. But, I had not cleared my NDA exam. Engineering is good for me if you are not in Army. CDS exam after engineering. Time management - just make a schedule . Amandeep's answers has to have substance. Currently that is missing. He needs to be trained.

Comments , if any	Intro-( don't read the intro), Nicely mentioned intro but make it sound natural, internship, projects, new places, trekking. Internship details- Miami Pvt Ltd, machine learning intern, project mentioned by me was made by me individually, others was email recognising model ( speed of speech should be quicker). What do you like about field of engineering? Whats attractive- ENTC is a unique field, core electronics, telecommunication and software skills together, new ideas, more opportunities here. Do you see hope for engineers in India?- Hope for quality engineers is there since we have to add value to our society. Tech advancement?- not able to recall...I gave time ( He needs to think quick and mention beyond his internship details) ( energy and active answers and speed of speech has to be faster). Regrets- none. Life is fine. Weakpoints - If I am working in a group, if i have to delegate tasks, I get hesitant while delegating my work, will he able to complete it or not. If I am equally enthusiast or will he do it ....waht do you do ?- then I ensure which part I am delegating to and do majority of the work myself. Are you ok with India helping Turkey in its disaster?- Foreign polices- beauracrats are not interested in our foreign policy. SOciet living there they got affected.	Intro- tech skills, hobbies- songs, badminton, kabaddi, projects, internship ( speak louder and clearer), NSS Member, Scholarship. It means you are a good student. How do you study better- follow the schedule, easily manage the time ( better answer). How do you manage your time - 2 or 3 days in advance for all the exams. ( better answer needed). Failure- unpaid intern. Good at web development which is paid. Then why are you interning at Bharat - college requirement. No internship - responsibility of the student and college. ( voice has to be louder and clearer. He is speaking within himself). WHy engineering ?- placements and jobs. In govt jobs, tehre is lot of struggle. Why hire you?- easily convince people, leadership quality, doing work on time. 3 important skills - good at communication. ( Sunil has to work on his answers from scratch, on his energy, and his communication)

Comments , if any	Intro- tech skills, gym secretary, currently handling 100 plus students - guiding on work out, behaviour issue,. What challenges do you face while handling these students- challenges have never come up yet, sometimes they behave aggressive. I try to teach them good things, how to behave with seniors, now open for all. Why are some people troubled-delay in work out, they get rude. HOw do you keep yourself patience and maintain your dignity-understand the problem, listen to both sides and sort out. Gym issue explained well, but the issue is going on- Sir has decided it should be open for all- work out should be done only for 45 min. Why did you not think about it?- That day JD sir came for round, they saw Sir and complained about it. I was asked and I explained everything. JD Sir agreed. Weakness- talking to unknown people, time management. Does your work get delayed?- I schedule for the next day. sometimes meetings get delayed- gym paper making things. Why engineering?- Coding was interesting, 1st year pandemic- not doing much. 2nd year- took time to exploring things in college. Alternative career?- for a start up,	Intro- solving problems in DSA, projects mentioned, running, swimming, spending time in gym, cricket, helped me in developing in discipline and being active through out the day. That's all- Daily schedule explained. Major distractions that you face as a college student?- 1st day I bunked and spent night on Dighi Hills. On that day, I took drugs then. How did you decide that you should not consume anymore?- the realisation that it will decrease my health, I am physically fit anyways. Are you angry with the person who gave you?- No, Its my choice. I wanted to do one thing once. Have you been failure for someone else's failure like a group task?- None. What is missing in your life?- Placement, Currently I am giving less time in my studies than physical activities. ANY suggestions for education system?- I am satisfied. If you do somethingm it will pay off someday or the other. Teachers create pressure and this will help us in corporate as the boss will create pressure. Not watched shark tank. Weakpoints?- now I have lack of experience in software and hardware skills. SSB - kick out- so I think my communication skills must be poor. ( dont say kick out). Why english is needed for army?- why cant we develop it later?- Jo badme karna hai voh abhi karna hai. Will you be attempting SSB again ? Army vs corporate?- army gives life.

Comments , if any	<p>Intro- Tech skills, projects, currently working on food recipe website, one of the board of members of Rotaract, Kabbaddi event head, sketches, watches anime and read manga. Books too - Mythological - Immortals of Meluha. Challenges?- kabaddi not too many participants- managing this is not so difficult. Rotaract- making everyone participate is tough. Those who are free we allow them and those who are not free we let them go. Team - 1 member has to manage 5 to 10 juniors. Had to explain what challenges are faced in a team- no challenges faced. Weakpoints?-time management- could not complete any task I scheduled in my calendar -s omething comes up and it never happens.</p>	<p>Intro - ( slow down the rate of speech), AIT, Football event heads, Akriti, ( don't read the ans), DSA problems, C++, every sports, listening music, movies, Football videos, learn new things- comm skills working. How are you working on your communication skills?- lack of confidence in english , learn english and improve vocabulary, ( insisted on giving more details) read books , speak in english with friends. How do I play all sports?- pick one sport which you can do, then do anything just go to the ground, dont feel ashamed, just playing, by playing only you can learn, only rules wont help, dont have to visit any site. How do we analyse where we are going wrong- make friends on the field and they can coach them, when I am on ground I focus on ground, stamina problems -proper diet schedule. How do you discipline your life- make a schedule for my day. ( More details needed) ( Gajender is street smart, quick learner, he can interpret questions well, he has clarity, he wants to be better which is good. English is slightly weak but not so bad either). Studies is boring right?- initially lot of issues, now I started it is easy, earlier I thought it would be hard. Self learnt or asked help?- Took help and watched tutorials. Anything which is not good?- Academics- backlogs. Engineering qualities- patience, time management, leadership quality, organising .</p>

Comments , if any	Intro- Tech skills, Internship, cricket, dance, goal is to join defence forces. Why in defence?- Engineering is just a back up ( don't say that in the corporate interview). What is the attraction?- the attraction is the uniform. IT sector does not have a field job. Army- future is the secure. 2nd priority is govt jobs. I got rejected in SSB. Why did you get rejected - comm skills and physical strength. What exactly in comm skills- gyms, waking exercises and all. When were you really scared?- MOther was ill. bedrest of 2 years. Father is in army. Managed the home - learnt social skills with relatives, grocery, mopping, cleaning, patience. Weakpoints?- communication skills. Advice to upcoming engineers?- multitasker. Are you a multitasker- yes- doing a lot of things. ( Ayush needs to give specific and detailed and relevant answers). Internship answer was too short. I had to push him a lot in every sentence to know more	Intro- AIT, extra curriculum, Projects - water level, home security, organised the events, love travelling, cycling, hiking. Other projects mentioned. Why engineer?- how the interaction of things happen. Seeing clock-why is there a 12 digit allotted to it. Was good at a few subjects. Authors. Choice was PCM. Electronics because- tangible things. Made alot of projects and very happy ( good). Are you nervous about not getting a job- I am actually nervous about not doing anything in my spare time. I am confident about my alumni and honed my skills. They have confirmed that they will give internship or make a partner. AIT - networking and how to organise. Bad point - change takes time in AIT ( Ayush has good conversational skills, confidence, body language and has clarity. ) Why should we hire you?- taken lead in important discussions, event based on stock market, worked on technical department, avid learning skills-lead the team. What challenges have you faced while leading a group of people?- Bonding was tough. How did you bond?- created whatsapp group, conveyed the message, concept of mentor, story, permissions required. Qualities of a good engineer?- Jugadu person, basic resources should be able to do everything. ( Answer needs to be detailed). Inspiring - Author - Dan Brown- History and

Comments , if any	Intro- AIT, captain of TT, leadership skills, tech skills, learning for placement purpose- data structures. Is being an ENTC engineer not enough for placement- but companies that come to our college- above 10 to 12 lacs- specific companies. leadership - TT is a calm game, have to manage 10 to 15 people for practice ( need more details). ANY more avenues where you had to display the leadership skills?- Akriti- Diwali- example- managed people, practice. Is it AIT culture that is supportive or your skill - both ( smart ). ( Vaibhav smiles and talks) Weakness - cant say a no, communication is poor. How is it poss if communication is poor and leadership is good- because it is in hindi. Internship?- Bharat Intern- web dev- gaining experience so that I can go for front end. Judges of Shark Tank - Ashneer Grover- Bharat Pay, Aman Gupta-Boat, Piyush Bansal- Lenskart, Mama Earth and Pharmaceutical. Mentioned the ladies names	Intro-AIT, learnt many skills- tech skills, ( can speak slow), ( eye contact can be steady), don't have leadership quality but can work with team, omnivert ( good one), care for others, also mentioned weakness proactively. Why? - got distracted in college, inconsistency, joined the gym for 2 months- took a break for exams and schedule got disturbed. Khiladi name?- do you love the name- I used to feel awkward- I love the name now. Achievement- sports - play kabaddi ( can say that in intro- can work in a team) ( can work in team was used to repeat multiple times). Why should we hire you- can work in a team ( incomplete ans), blending myself with others, time management skills - ? onlymake a schedule ( incomplete ans), pushed to mention this ans in details- 2 hour I will work and 2 hours I will have fun. Current affairs?- not interested in football. ( dont say that). Internship answer has to be explained in details proactively. ( Khiladi needs training for interviews)

Comments , if any	Intro- myself ( wrong grammar), tech skills, projects based on algorithm ( don't look up while thinking). (The intro was incomplete.)Strength- honest with my work, football so team spirit - under 14 national level football player, I am a responsibility and if mistakes are done I take responsibility. ( didnt have to mention mistakes). If no one willing to take a project, I start working on it myself and inspire my team. I divide the team work in different parts. Can I give eg- IOT- (the example was explained very well. ) ( you can mention proactiveness and work delegation and know my team members) ( In strength you must mention these points that I have noted down instead of just honesty and regular points first) Weakpoints- trust people easily and cant say no to people. Working on it- how?- I am analysing myself, where all I should have said a no. ( Rohit is genuine, sincere, sensible and understands his role. Team leadership answer was very good). Regret?- JEE score could have been better- IIT- how would your life change if you would have gotten through IIT?- What can IIT give that AIT cant?- campus placements and more technologies as comparison to IIT and packages are high ( Rohit has to work on fillers in communication and try to speak more fluently. He should speak more often). HOobbies?- Football-Read books when I feel low- Atomic Habits by James Clear- 1% everyday can better you at 37% as per your previous self. Virtual	Intro- AIT, secretary - innovation and entrepreneurship, managing a team- leadership, tech activities- android dev, ( speak slow , breathe and take a pause), reason to choose engineering- childhood wanted to solve problems using coding skills, coding skills. Do you need to be engineer to do coding?- if you have resources online, then its ok. But if not, then we need engineering. ( Good confidence, good communication and good body language, explains answers well )( engineering answer can be better) Why attend mock interviews - respect TPO sir, it is open for all students, what all skills I am lacking and good. What does Samik mean. Sub skills of leadership skills?- communication, time management, team management, people skills. How can we manage our time better?- Pareto principle - 80 /20. ( Samik has common sense ). Internship- done in various domains- explained well. What kind of a leader are you- calm and doesnt scream, why do people listen to you- they respect me and I dont misbehave with anyone. What qualities of a good engineer and do you have them?- engineer - intermediate level but coding in a good level . ( Mention the human qualities ). Failure?-explained well

Comments , if any	<p>Intro- volleyball and cybergame, good in web dev, DSA. ( Intro is traditional and incomplete) Strength- he is thinking about it, pure API creation helpful in back end, patience, calm, responsible person, play volleyball- can manage team and leadership. Patience is a born skill. It is my weakness too. Why should we hire you?- projects and internship, all strength mentioned above ( you can repeat it). Projects explained. Good confidence and body language. (Smiling and talking.) I used to play volleyball - galli ka volleyball. UP culture and Maharashtra- only vada pav here. ( He has good energy). In 50 Rs , you can have full stomach food. ENTC chose you. I didnt choose. I didnt have a choice. I dont like ENTC. But I can tell advantages - can make new devices, research in ENTC , MTech- you will reduce the time - by 1 microsecond and 1 nanosecond- all processors can speed up- excellent. ( Dont say I dont like it). Also the answer I dont like football but I can tell you who won. ( I am loving the attitude of knowing the current affairs and also the answer on scope of ENTC was fabulous)( He has common sense but some answers need to be controlled honesty) Team struggle - I am in 3rd year. I cant threaten people but I come to practice on time. I like volleyball . He is a setter and has to be very calm in situations,</p>	<p>Intro- Location, school, high school, decent marks, Current score is not that good in AIT but it is decent, ( what is decent, dont use such words) core skill- basically the front end part, did some projects and some internships as well, hobbies - reading books and drawing. Books?- Autobiographies and fiction. Name of the books and authors- Ria Kazan Film director in 50s. Why did you choose this book?- interest in classic movies. Front end work learning?- not teaching in college. Friend was doing a hobby and I got interested and I used to monitor. He taught me and send some resources to learn that. Learning - 2 years. It doesnt take much time 6 to 7 months. Relaxed during the interview. Rajan can have more energy. He has substantial info but needs to be coaxed for it. Confidence has to be built. Weakpoints?- body language, weak communication, low confidence. - body language- eye contact- in real life cant look in the eye- awkward- not that extreme ( when provoked, he blurts out good answers but it has to be proactive). Nervous about trying out new things- new places, new people but not scared with academics. ( you must mention full answer or the interviewer will get confused). Businessmen- Ashneer Grover. Didnt know the other judges names. Why hire you?- hard working, lack to trying out new things in</p>

Comments , if any	Intro- Schooling, location, AIT, hobbies- travelling, squash, gymming, spiritual - 3 hours. That's all. What exactly do you do in spirituality- 5.30 to 6.30- Hanuman Chalisa, Bajrang Bang and Hanuman Ashtang. Eve- go to temple on tue at 7.30, 1 hour - bhajans. How has it grown your personality- initially not an extrovert person, was not used to taking initiative, but now there was a power pushing me to wards the work, calmness, miracles happened, results that came right now I had not studied well for it - got good marks ( dont say the last point), also 2 to 3 incidents that happened- got the leave. If you get the job, who would you credit- Hanumanji helps people who helps people who help themselves, I believe in luck factor a lot, people get jobs who didnt prepare well too, luck depends on Karma. Any weakpoint?- lack in group discussions, not able to represent myself in a noticeable way- working upon that- projects - taking initiative. What people challenges have you faced while working in projects?- lack of communication, not taken seriously by students, convincing people is tough, mindset difference. Explain how you sort the situation well. - gather all people together and find out key points and common solution. What upsets you- not being given attention that I deserve, or credit. What kind of employers are you expecting?- I dont generally categorise employers. Basically the employer who	Intro-location, parents, school and college, JEE rank, AIT merit number 82 ONLY? Why only. Music and playing games, aim is to get a good job, badminton- team work and hard working. Team work example- proactively mention specific example. Finally mentioned delegation. Strength - team leader, not afraid of trying new things, manage work very well, group leader or manager- experience. New things?- android development-need to learn another language. If you dont get through the job?- focus on what can I do more. Try some exams. Why ENTC?- Firstly I got mechanical and then I upgraded ( dont say upgrade. It means mech is inferior). ENTC - software and hardware and opportunity can increase due to vast field. Being an engineer, curiosity to learn more devices and different projects. ( Say this before you talk about placements). So are you happy now>- He took some time to say yes and infact did not say a yes. YOu have to study all equipments. Mostly mixed feelings. Weakpoints?- work under pressure. ( keep your mobile silent). Akhil has to develop the sensibility towards expected answers, he has a very traditional approach to answers, intro was irrelevant. Akhil needs guidance. Working under pressure - working on it-like doing multiple tasks in a day, pushing my

Comments , if any	<p>Intro- a passionate undergraduate, deep interest in tech skills mentioned, internship mentioned - highlights too, Akriti club, hobbies- singing, consistency, hard work and correct direction can lead you to goal. Goal is to be a successful engineer and contribute to society to make a difference.</p> <p>How do engineers make a difference?- all in society including the engineers work, data structures, data in the new oil, economic growth , software engineering, cars, era from humans ( mic needs to be adjusted. ) Sung well. ( Tejaswini has good body language, good communication skills, her choice of words are apt, but her answers need to be timed, she has the presence of mind and she is disciplined and result oriented, she is spontaneous and sincere). Team struggle- mindset of people, lack of interest, irregularity of the work has been a problem to me. (She mentioned about tackling proactively- set the expectation clearly at the start, regular check up and check points). Have you tried to understand their side- both cases- excuses and some are problems- explain a situation specifically like you said later - 3 days hectic schedule.</p> <p>Weakness?- during conflicts, I analyse the situation and speak later. How do you keep yourself on track?- I write on paper today and these include goals - love to do and required to do. Learning ?- time does not matter, some people take 4 hours and others can do it in 2 hours not even about</p>

Comments , if any	<p>Intro-location, school, tech skills. Strength-finish work in given time, hard working. Time management- time table, give buffer. Hobbies- used to play chess, touch typing. Why used to? - After specific time, a threshold is reached. I play chess still. In 2nd year I used to type. Where do you see yourself a few years from now? - working in MNC learning something new and something that I am interested in. I am interested in knowing about new tech, problem solving. Tech advancement- chatpgp. ( better answer). Dhiraj has to improve his confidence and his voice and expressions can have more energy. . Why engineer? - maths and physics. What is great about ENTC? - Hardware and software- how is it interesting to you- he needs to proactively answer. First year I was in mechanical. Hard work vs Smart work - I prefer hard work because I am not smart enough. Why do you think you are not smart? - I think it everyday. You need to grow more ( say that . use it correctly ). Internship details need to be given proactively. It is not paid ( why mention that). Internship are helpful only if it is in your domain or not helpful. Regrets? - no regrets or lot of regrets- I cant do anything about it. I could have studied more. I could go to IIT. AIT miss-</p>	<p>Intro- creative inspired student, aims to get more cognition on upcoming technologies, work on myself, uplift women in the technological sector, Bihar, JEE percentile, school, Bihar repeated. Competitive exams in Bihar why? - assumed we are illiterate and so they go for govt jobs, they have fire within themselves, they want to hold a position. She smiles and talks but looks up and thinks ( should avoid). Tech advancement - quantum computing- has not changed the world yet- but it will- internship I will try to apply-in MCT. Quantum computing in layman's language. Divyanga has good communication and good body language. Uplift woman - gender ratio- 1:10- I believe that peers are not supportive to women. I do believe that. They treat you as you dont know that much. ( Eye contact has to be better. Generally looking up and dazed while talking). ( She loves to explain but the answer needs to be timed). Internship explained well. 2nd internship - start up, small company, paid - did it just for the money. So I asked that the small company paid? - that was a catch on what should not have been said. Team challenge- no enthusiasm for new stuff, opt for something easier, there is nothing else you can tell them, no ppt, it gets difficult, I did the entire work, frustrating, Mention how are you going to</p>

Comments , if any	Intro- school and high school, ( not required), fortunately or unfortunately in ENTC, wanted CS or IT, after spending some time I liked it. ( marks not necessary to be mentioned), what do you like about ENTC - teachers are sweet, time for extra curriculum activities can be developed in ENTC. Job?- in developers job. How are you grooming yourself for that- I solve questions. Internship?- Microsoft engage mentee- mention the experience proactively- you get to know what all you dont know ( Mayank has the potential but needs direction and handholding for training) Mention specifically what all did you not know- back end dev, problem solving ability was not upto the mark. How does a good performer learn differently from an average performer?- different IQs, keeping it aside, next is discipline and hard work, they believe they will manage when the time comes ( the interview got better as he was provoked to speak and there were more questions. However he needs to speak proactively and more deeply. He has to know what he shouldnt be speaking. Answers need to have more substance). AIT - Alumni is good, growth environment. Strength?- Weakness- procrastinate, inferiority complex but working on it ( mention how). I share my feelings with the person. Grudge- dont work. Why do you have to have to achieve?- does	Intro- location, hobbies- chess, discovered gym- addictive, free time- watch movies, series, reading a book - don't actually enjoy reading books, skills- coding, competitive programming, c++. Chess fascination?- just 16 pieces each side and millions of moves, watching chess streamers, predict the opponent's moves and play accordingly. Series- Thrill drama and Skifi. Watching U. Weakpoints?- not that social, shy at first but open up when I am comfortable, procrastination- working on it. It doesnt really matter because I give stuff before deadlines. Procrastination working on it- gym - discipline 1.5 hour and good sleep schedule plus study for 4 hours. Internship- basically unpaid , just have to give a ppt and project ( dont say it like it doesnt have any value), start up. What kind of people irritate you?- kind of smart enough. I dont make team with people I dont like, people who know nothing but show off. Corporate world has people like that. How will you deal?- talking about the job, I will adapt. Why are you not doing it right now?- I dont attract such people and its all about vibes. Proud about?- disciplined life, gym has impacted me, see progress in your body, bagging scholarships ( mention that in your intro). Jatin has good communication skills and good body language,

Comments , if any	Intro- location, techno enthusiast and adventure lover, tech skills, secretary of R&D, Squash game. Girls have tried but they are not able to grasp. Is it challenging or boring?- girls have more options to play. Squash has only 2 courts- Squash is very expensive game. What has squash taught you?- Smiled and answer- I can play it alone, progress it alone, energy consumption game, Good energy, good enthusiasm. Its an observation - why are girls not entering army?- especially from AIT, ration of women to men is less- sex ratio was used as answer, upbringing culture, indulge in safe measures, health issues ( smart and sensible answer and tangent answer too). I can contribute intellectually is what girls think. As for me, I love the aura. What adventures have you done?- trekking and roaming places alone. ( smiling a lot with this answer.) SOlo trip - no compromise with anyone. I dont want to listen to anyone and no one has to tell me. Let them go wrong and I will learn. Not taking any predefined inputs. I know ancestor have great deal of knowledge but at some time , you have to be blank and fill it. Team compromise?- Even if I promote a solo trip, organising a team activity is actually my strenght, used to mood swings of people, I dont have a problem if you have a problem and I am eager to solve it for	Intro-location, school, music, trading, Sports- health point of view. Eye contact has to be better. Tech and soft skills?- Sports- football but did not know who won the FIFA. Strength - positive attitude, people connect, learn from seniors. What have you learnt from seniors- they have experience and they teach me a lot. INternship details can be proactiely. How did you manage internship when others didnt- I created a network, fans, seniors, network, message seniors in linkedin. Chess - strategic planning, helps in life too, in class 12 I was disturbed medical problems - had 2.5 months to manage JEE and 12th std exams, prof guided me how to study efficiently. How do we study efficiently- study new things in morning, take a 1 hour break, revise previous things during the day, study 8 hours and I used to go to park and enjoy too. ( can use this as an example for die hard spirit and your achievement answer. Also the body language was superb in this answer. Smiling, confident and relaxed). Are you still disciplined?- not happening in college.Working on it. If you had 1 wish- what would you wish for- I would wish to learn consistently. Is that your weak point?- yes. Inspiration?- inspiring stories of sports person.

Comments , if any	Intro - tech skills mentioned, various projects , 3rd position in a contest and won cash prize of 500, cricket team won matches, won against MIT, semi finalists. ( can speak with pride and energy). Cash prize of 2500. How do you keep winning-many ups and down, team members are motivated, forming a team with busy people is a challenging task, if you have done rightly you are a good leader. My initial question was how do you keep winning not about the initial challenge of forming a team. I give my personal example of my life- cricket and academics, they can relate to it, tips like time management, for winning - show more interest in it, tell them their weakness and work on it ( eye contact can be better) ( dont give up on the ans. Think and ask for time and respond). Weakness - I overthink. Example - one is doing balling, how to place the players, what kind of balling he has to do ( I am confused what to do ). Internship role and responsibilities and take away should be mentioned. How can you manage time better?- make a schedule and work on it, if I dont complete, then I put that work for another time when I am not doing anything. Most of the people do the same. So whats different?- Most of the people make use of time but they lack 1 quality- they do not see the time they	Intro - tech aspirant, solve prob using tech, web dev, IOT, embedded part, taste of various tech and how they solve common people prob, music, badminton, not a very good at it but love it. Which problems are we solving?- utmost problems- handicapped people have become independent, Google assistant, online teams meeting, any out of the way advancement?- earlier prosthetic hands were mechanical. Nowadays it is bioelectric- muscular and automation. Microsoft engage mentee - explained well- research based approach and product based approach- research based go more into tech. Product based -c customer satisfaction, time efficiency, if something ready made is available then go ahead, create something, manage it in a way that customers feel comfortable using it. Where do you see yourself few years from now?- I am far away - why ( she seems to be analytical and self introspective). Process of selecting web dev and participating into multi activities was a good ans- blue tooth controlled car- small projects, workshops on IOT. Answers need to be timed to 2.5 min. However the question was where do you see yourself a few years from now?- I progressed a lot. What would disappoint you?- to lose a thing which was in my hands and now it is not. But it was in my control. Any example?-

Comments , if any	<p>Intro- want to join as a web dev as worked with languages..., Internship at the post of ( don't say post), cleared exam, liked to read spiritual books and TT . Spirituality learning - be patient, consistent hard work, don't give up. What is the method?-Whatever happens today - Karma. We might not get what we want but we can create our own destiny. Mar 6- Results- qualified for it-when did you forge ahead against all odds. How did you do that?- created a schedule . 8 to 4 college, 1 hour sports, 9 pm to 2 am - studying. Weekends- study hours - 10 hours per day 2 hours each. Ashamed of self?- never but little disappointed but put hard work. Still not achieved- smiles and says JEE. What is the fascination about IIT?- What happens in IIT which does not happen in AIT?- bright minds, compete with their level, here very few are like that. Internship details given. Why engineer and why ENTC?- father is an engineer and how new technologies are developing, I wanted to join CS. But because of low percentile, so ENTC, but now thats fascinating too. Weakpoing- bad at saying no to anyone, but sometimes it helps me, I get opportunity to learn new things.</p>	<p>Intro-location , school, tech skills- various activities, projects- music website. College kabaddi team, branch head of ENTC, sketching, cycling and kabaddi. Abhishek can have more energy and can smile sometimes. What challenges have you faced as a captain and how have you resolved them?- Many times the player was not present. Archit- dont mention his name. We managed to win without him. MOTivation. My question was how are you grooming the rest without the best person. ( mention the skills apart from motivation) . Why have you taken so many responsibilities- I am an introver and not confident to choose in front of people. NOT fully but little confidence has developed. Taken a meet of 120 juniors and given them description of things. How did you get so brave?- friends. 120 cant be friends. So what do friends tell you to push your limits?- this is your opportunity. Anything to change in yourself?- english. How are you improving?- English movies, write down the words and find out the meaning. Parents- nothing to improve. Internship details- given. No friends or family in corp, how would you manage stress?- work can be enjoyable, Make new friends. Currently enjoying- music website because everyone listen to music. Why did you choose to be an engineer?- truly not really. Actually motivated</p>

Comments , if any	<p>Intro- web dev, creative writing, squash, why ENTC- tv curiosity, how does it work. Web dev is easy. Don't say it like that. Don't look up and talk. Web dev is also creative and interesting. Squash- active game, only 30 min of 100% active. Cricket is passive especially fielders. Every second matters. It is good if you have less time and burn more. Wasted my time?- drop out student. I got AIT in my first attempt. Went to Kota and lagged in prep. When I analysed that, wasted that year. Team members also lagged in a few things, other team members managed that. All projects were submitted on time. Project based learning- did others who didnt work get marks too?- Those students were not that much keen and they got marks but not as much as we got. If teacher would have given same marks to all, I would take positively. I dont want negative effect on me. I am happy that 3 out of 5 were able to complete the project. I did more work because someone did less work. Sad about all getting marks. I learnt more things. Sandeep is street smart and the grit to learn. Learning?- Most successful Olympian- hard work and consistency- not the number 1 but will be good. Your strength- positive perspective about things, dont want to see negative- dont want to be dull and gloomy, dont want to regret things, I will finish it no matter what. Human qualities</p>	<p>Intro- Greetings and thanking. Location, High school, Internship mentioned, describe myself as competitive, patient, honest. Interests are outdoor games, new tech. Short term goal- well known organisation and apply my skills, long term - lead position and give back to society. Tips to have patience?- when things are not going my way- I focus on what I can control, I try to convince myself that they are not in my hands, I practice it everyday. In daily life we have many situations- working in a project, group member has not completed. If people take advantage, you have to set the boundaries. How did you finally get the work done- case to case basis-explain the particular situation. Internship - 10 March- learning, time priority, classes and exams and internship, work hard. Explain the role in android dev. A competitive person always has to be ahead of others, always has to know more than others. I compete with myself for satisfaction. If we compete with others, we would be dissatisfied. Weakness- procrastination, life was controlling me, decision making has gotten better. Any critical decision making ?- College was good but not the right branch. Wait for 1 year and now I have taken ENTC. Latest technologies that are impressive- chatgpt, how AI models can help</p>

Comments , if any	<p>Intro - AIT, Hobbies- voluntaries and organising events, bicycling, technical skills, essay writing- research projects, burglar alarm, web dev project, NCC cadet, voluntary org, joint sec of 2 clubs- fine arts and NSS, tech skills ? Sequence of skills has to be correct. Human qualities for a research person- good knowledge, take seniors , ready with all the facts and figures, will and patience. Do you have the will and patience?- yes. Essay?- too much a smart phone addict- weakness ( can use that in weakness answer)- make a new hobby- take a small diary and write anything- life-who gave you this idea- prime reason is I am a defence aspirant- SSB- write different stories- what and why we are doing. Then why corp?- main aim is defence only. I have tried. I need a back up plan. When have you failed yourself?- I was waiting for this question- whole book written on failures. Vikas is always genuinely smiling and answering. Failures- recent coding rounds, competitive exams. Reasons for failures?- lot of reasons- not doing when the time calls, you have to give 100% and not give 90%, learn from your mistakes, have to see all the possibilities and make amendment to your plans and do hard work. How do you have a big book of failures?- is it because you didnt do the above. I have and now I have revisited and now I d</p>	<p>Intro- voice can be louder and clearer, tech skills, govt soft or software dev - not sure. Avid learner. Learning? Learning web dev. Due to exam, I had to stop that. I am following courses, youtube channels. Could have mentioned the method in details to be a good learner. ENTC - no choice- software and hardware.Internship- 1 month, unpaid ( dont say that), develop a website, company name. Explain your role more and be proud and excited- 10 March- How has the experience been so far?- scheduling time, do other things also. Give more specific answer. Generally how do you manage time?- Have a diary. Give more detailed and methodological answer. Achievement proud about?- keep this answer ready. You shouldnt be thinking. IN 10th, science olympiad winner. - first time winner for me. What does it take to keep winning?- consistency. More detailed answer. Consistency?- reward himself, cheat day., keep him motivated. Weakpoints- Self confidence is low and social skills are low because of competitve exams and all. Ayush is smiling and answering. Thats good. Qualities of a very good social skilled person?- bring optimism, motivation, communication, what others are feeling.</p>

Comments , if any	<p>Intro- AIT, hobbies- searching on new technologies, want to be a software dev- then why did you take ENTC- I didn't get it-are you enjoying ENTC- theory I enjoy but not practical. I love coding . Imagine a world without coding, what is boring about ENTC. How do you manage to get a decent score if you are not interested in the subject?- I learn to concepts even if you are not interested. What do you like about AIT?- Culture and AIT has good placement records. Why engineering?- I used to love computers. What stresses you?-When I cant achieve what I set up for. When was the last time this happened?- Internship for Microsoft- rejected. I have done internship in small scale company - It is Australian company. Blue Bricks - IT service company - AIT is the founder- I am happy but. paid internship. Vikram Sareen. It was a mixed experience. I worked on AI based identity verification system. It was sold to Malaysia. That will be used in the real world. What are you sad about?- work culture, they were expecting more. Less interaction. ONLY MD and direct interns and no senior management to contact our queries. Sir will only instruct. If you dont get any job would you go for the job there?- No. I will be the educator in youtube or freelancing. Have you ever been confused?- I dont remember. Weakness?- focus on only one thing and time just flies. New dev?- 167 not, AI will be</p>	<p>Intro-AIT, interest is in web dev and full stack, back end - react, node-node js site, mozilla web, javatpoint, Internship - technical writer. Why ENTC?- low score- Comp science- more marks- you can change your branch in 2nd year. But I could not. But I am enjoying this now. When are you studying back end when college life is so hectic?- I already knew it before college. ENTC- first experience- hardware experience- coding was my first priority. What is your source of happiness?- family and friends. In corpo world, its so hectic, you wont see family and friends?- I will get happiness from coding. Money is not that important and looking for satisfaction. I will be learning from colleagues and they will be giving good idea about how to go on with life. How do people see you- good person. Intelligent person sub parts- communication skills, body language, behaviour, if you ask more you would know. ABhay- when were you scared and when were you fearless-Going late - teacher will scold- but I still go. Between 2 offers- I will stay in the company where I am ok with colleagues. If not, then I will go with the higher pay. If the 2nd company is not that high pay, I will stay back here- I have committed , I will negotiate. ( dont say 10,000 dont quote a figure) and providing environment there. What are the qualities of a good engineer?- he should</p>

Comments , if any	Intro- focussed on dev my skills- coursera- tech skills mentioned- internship- team work and leadership skills. Walk- work life balance and badminton. Abrupt ending. Leadership- sub skills- listening, organised, what are the specific skills each team member is good about, daily updates, set up an example. Any leader who has inspired you?- Sudha Murthy- She is now the chairperson of Infosys. Hackathon- team of 4 members- no one was able to take that lead- I took the lead. I came up with few ideas. Held online meetings with them- how to work- we achieved- it was definitely great start. Any downfall ?- 3rd year exam- individually- I believe in myself- I didnt score well. Is ENTC your first choice?- I am a migrated student from Bhartiya Vidyapeeth-comp. Applied in AIT - 2nd year- Tough decision-wanted to do software dev- AIT has good placement records and good culture. Sanika has common sense, sensible answers. Latest dev?- computer tech, phone network and anything- need a better answer. Online banking system, online education system. GDP?- does not know. Weak points- not consistent maintaining physical fitness and only studying. Sanika has common sense, her answers are deep and sensible. Good body language, spontaneity and good confidence. She is able to interpret questions correctly. She is aware what leadership	Intro- front end dev, intermediate proficiency, tech skills mentioned, worked on couple of projects over 1 year, active part in club events or interbranch events, 3rd year- innovation and entrepreneurship cell, sports- racket games, movies, songs, podcast. Which podcasting?- Dark net diaries-cyber security. Front end - free on youtube- next years. Learning?- documentation, videos, youtube channels, freecodecamp website. How do you get this confidence from by learning from youtube and no certificate?- if you have something to back, then you dont require this certificate. I am working on portfolio website where I have worked on some projects. Portfolio website is an elaborative resume-URL- individual would know the technologies that I have worked on. Applicant tracking system- key words in your resume. If you are unemployed - I would be disheartened, and then get hold of myself, upskilling myself, can go into freelancing, resume value addition. ENTC was my first choice- reason being- really early age- dismantling electronic stuff, what components are responsible for - currently not actively studying electronics. Then why front end and not ENTC career?- companies are looking for specialised individual and avoiding competition. Actually competition is high in IT- avoiding competition is not the solution, I will face it head on. Learning?- I use observation skills- my

Comments , if any	<p>Intro was traditional- school, location, grades are not important. Why engineering?- good in maths- then engineering, daughter is good in science then doctor. Traditional answer. Are you settled right now?-Yes. Parents had pressurised but it was a good pressure. So right now what is interesting in ENTC?- in assignments and attendance it is not as good as CS. But what do you find interesting in it?- small story- before speaking in hindi, ask permission and then continue. One good thing that developed in me that I used to dismantle ( use this toy) and then see. What are the inside things of programming. Tech dev?-asked to repeat that question was good. Development of myself? It has developed consistency. Didn't understand that ans. How did the world change because of engineering?- it changed the world in a slightly good way and bad way. I can explain it through the example. At the age of 3, I used Nokia 2626 but no technologies but I use smart phone. It reduces our strength and sight power ( matlab- this word in hindi is used). people connect has reduced. Strength- consistent, hard work, saying no politely, I will work under any condition. How are you so consistent?- I wasn't consistent before. I now follow a timetable. Make a timetable daily not for a month. Story. Roushan is good at giving examples and story telling. Overthinking irritates me. Some sort of overthinking- placement hoga ki nahi, even if you do smart work</p>	<p>Intro- family and sibling, location, hobbies- music. Feeling relaxed - music. ENTC - preferred comp and IT. Do you see a scope in ENTC?- here equipments are not nice and there is no dev. All people are studying for comp and IT. What are you studying?- Web dev. If mech had more jobs and no jobs in ENTC, Comp and IT- Then I would do further study. Dev?- Data science. What does it mean?- I don't know. Data science is AI. Data of analytics. Suggestions of friends in facebook. Strength- if interested then you can work hard, passionate, dedicated. Faced some situations of poor dedication?- project- all the people were not interested. Only we both completed the project. Angry?- not angry but it's part of life. If similar people come, - assign small tasks to them. 2 offer letters?- will check growth of company, will speak to some employees, linkedin. Any weakpoint?- little shy, can't say no. Tough situation- covid time- exams used to be postponed repeatedly and I used to be frustrated again. I left the study. How do you organise yourself?- fix the time for particular work, break my slots and break my time.</p>

Comments , if any	<p>Intro was good and complete. Data science. Singing. Why engineering?- initially I wanted to be a model. Brief idea about career to earn some good amount of money. From engineering you can enter into any field. Later on I realised it is my cup of tea. I am now interested. I found out diff tech- engineering is about solving problems. You have to come up with innovative and new ideas. How people are designing new tech. I read papers that are into new fields and I can be a part of this domain. Good communication skills and good body language. Hobbies changed personality?- Initially I needed some help. If I sit back and take a notebook and write it, if I cant come up with solution then I play basketball or read a short story or singing loudly and helps to calm down temper. Problem statement is not that bigger as I look into it again. What makes you lose temper ?- cloud of overthinking and expectations. Gave example of an assignment. Teacher didnt give full marks. I have learnt to be independent and you cant control others. You can control yourself. Buddha story- student who speaks a lot and says he is right. Buddha asked to take a resolution. Just be silent.</p>	<p>Intro- web developer, problem solving, 2 projects - gym website, car racing game. Working on becoming full stack dev, books on Indian spirituality, helps me to develop perseverance, optimism, calmness, focus. Karmyog- present is result of past karma. Efforts of present will materialise in future- coding, lab practicals. Scores?- 8.5 and this time it was 7.5 need to work on it. Why ENTC?- Good in maths. PCM in 12th. JEE- as per score I got ENTC. Till 10th, I was interested in biology. I wanted computer science. Eye contact has to be better. Om Swamy is my inspiration- Rishikesh- disciplined man, multimillionaire person now a saint. At age 30, he became a monk. He is always state in bliss. What makes you calm?- everything is illusion or maya. Someone is rude to us. It is only sound vibration. I should not become angry because of sound vibration. Dont take mental stress for what is not real. Swamy - Mind Mysteries and control. - Swami SHivanand. How will you deal with people around you who will spoil it for you?- explain the benefits and then we can have party. I will complete it myself ( dont say that. Not good for team work). Weakness- struggling to wake up early at 3.15-you can do Kumbhak Pranayam- then you can wake up early. After waking at 3, study for 2 hours. What is your salary expectation?- 2 lacs per month. Anything less than</p>

Comments , if any	<p>Like said a lot. Computer prog. Coding quite active. Tendency to apply what I learn. Eye contact is not on interviewer. Recent coding mentioned. Family details not required. Question was prof and pers goals. Want to go abroad. Personal goals was missing. Want to be in MNC. In India, research is not good in India. Would you like to take this job since we cant send you overseas? - you need capital. He wants to clear CDS. Which career path is what you wish should happen?- Defence- my father. Discipline example- abhi to kafi kharab ho gaya hai. And mentioned the entire ans in hindi. Hostel life has messed it up. What is so attractive about hostel life that discipline does not look attractive? - all hostel activities. Time management- u think twice before reacting. U can use the word prioritising. Inspired person - one who can be leaders. Leadership quality you have- all leadership events from childhood. SHould mention qualities. Weakness- easily available. Difference between Lucknow and Pune- not able to connect with people outside due to language barrier but can connect outside. 3 reasons why to hire you- always prioritise my task, mission and vision of company then 100% I will give to the company, All answers are well within time and he is smiling and responding to all answers. Dont look up and think - feedback</p>	<p>Intro- technical intro. Skills and qualities missing. What qualities do you have- sports, team, handle pressure well. Example of pressure?- Kota. Why comp science? - I got it so I am doing it. I didn't know before. Now I know it is futuristic and develop many things in a few seconds. Stable body language. NOT too hyped. Machine learning attracted me. Achievement and mistake?- Can I get a minute. Dont look up and think. Mistake - pandemic time waste. Challenging situation- most people would give up. Fahad seems like an honest guy. No job for 1 year what would you do?- Explain in details. Look for seniors who will guide. Explain the role in your internship and give all details. He is smiling and speaking. GK- he knew one and didnt know one. I used to know when I was in 10th std. Politics is bad for mental health- AIT experience. Altrenative career?- Snger. Sang sportively</p>

### Report Finding

NR-Not recommended means absolute rejection

NT-needs training means I see some hope and he needs guidance and training

CC means can be considered - It means he has the potential but was unable to differentiate between right and wrong answers !  
NT and NR is **31%** of the batch which has the potential to get rejected.

CC candidates-**24%** - are the average ones which can get through average hiring practices. CC candidates are not meant for stric  
However realistically NT, NR and CC need direction and handholding. Thats **55%** of total candidates interviewed

R and HR- Recommended and Highly Recommended - **45%** of the total candidates interviewed- 100% probability of getting hire

## AIT Mock interviews feedback sheet & AIT Group Assessment Snapshot\_Till 31 March 2023

AIT STUDENT MOCK INTERVIEW SHEET 2023.xlsx;

Dear Sir,

Good Morning

Please find attached the mock interview feedback sheet for 146 students till 31 March 2023. There is a **new sheet added called AIT Assessment Sheet** to check the performance of the entire group. This is a very important sheet.

My suggestion is all 3 categories ( CC, NT, NR - a total of 55% students are not ready for interviews. Out of which **31%** definitely need coaching )

**I was thinking we must start our theory training for interviews & GDs for these 31% students. Thats 45 students out of 146 students interviewed till 31 March 2023.**

Currently,

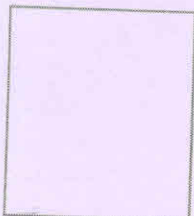

- **45%** of students are recommended and highly recommended to be hired.
- **24%** of students can be considered
- **31%** students are rejected ( of which 14% are sure shot not recommended and 17% need guidance)

**SEMINAR ON BUILDING IMPACTFUL PERSONAL BRAND**  
**BY UST ON 13 MAR 2023**

The days of using LinkedIn as a CV for a job hunt are long gone. LinkedIn is now a content-led platform and the power of showing up there as your authentic self is unmatched.

Join us on **Monday, 13<sup>th</sup> March '23** for a session on **Building an Impactful Personal Brand** by Pooja Pawar, Sr. MarCom Executive, UST Product Engineering.

**What's in it for you? You'll learn:**

1. Why you should build your personal brand.
2. How you can leverage platforms like LinkedIn to build your brand.
3. How to optimize your LinkedIn profile and how to most of your LinkedIn experience.
4. And, you will MAP your own brand.

Sounds interesting? Well, there's more. There'll be fun challenges for you at the session and exciting prizes for working them out.

Please ensure you have access to your LinkedIn profile through your phones or laptops at the session. If not, create your LinkedIn account before the session.

Let's weave your brand magic together! See you on Monday.

RE: Join us for a session on Building an impactful personal brand on Monday, 13th March at 11 am

Seema Sharma(UST,IN) <Seema.Sharma@ust.com>

Fri 10-Mar-23 10:59 AM

To: Training Placement Officer TPO <tpo@aitpune.edu.in>

Dear sir,

We are excited to interact with the students and help them grow. Below are some requirements from our side regarding the session.

1. We hope you have shared the trail mail with the students. Without access to their **linked in** profiles, the session will not be fruitful.
2. We will require the venue to be blocked for the session from 11:00 AM to 12:30 PM on Monday, 13<sup>th</sup> March.
3. A mic with speaker and projection system to project the laptop screen will be needed.
4. It will be good if we have few mics placed in the audience for students to voice their points.

We will be a team of 04 UST associates attending this event and are planning to arrive at around 10 AM at your college camps. Please do let us know if there is any further query.

Warm regards,

**Seema Sharma**

## TRAINING & PLACEMENT CELL

NOTICE – 12/2022-23

### SEMINARS FOR TE & SE STUDENTS

1. Two seminars are being organized for third year and second year students as per the details given below:-

(a) 09 Mar 2023

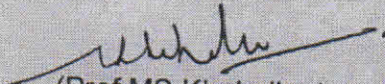

- (i) Time : 2.30 p.m to 4.30 p.m
- (ii) Topic : Cyber Security Career Path Guidance - How to build your career in Cyber Security
- (iii) Speaker: Mr Vinod Gupta, CEO & Sr Consultant, Indicrypt
- (iv) Venue : Manekshaw Hall

(b) 13 Mar 2023

- (i) Time : 11.00 a.m to 12.00 p.m
- (ii) Topic : Building an Impactful Personal Brand
- (iii) Speaker: Ms Pooja Pawar, Sr Executive-Marketing & Communication, UST
- (iv) Venue : Manekshaw Hall

2. All TEs & SEs are required to be seated in M Hall, 10 minutes prior to the above mentioned time.

Date: 06 Mar 2023

  
(Prof MS Khaladkar)  
Training & Placement Officer

Comments , if any	<p>Location - UP, competitive programming, offline internship at Udchalo- ( don't mention lot of internship details in intro. There is a different question for that). Intro was abrupt and short. Internship details- android dev intern, Udchalo - Ravi Kumar , for army there is concession amount. Any businessman you inspired- Bill Gates- great business man . No one from India?- Ratan Tata Sir ( need to study more on this) Leadership skills - multitasking . Multitasking - have you ?- I have. ( need more details) Weakness- delay , trust people easily ( mention how are you working on it). Trying to improve but its not improving ( dont say that). ( dont keep moving so much while talking) Fear - water phobia. Free time?- sat sun- cricket and watch web series. What kind of people u dont like - short tempered, selfish people. Team issue - ( need more explanation) Restless?- public speaking</p>

Comments , if any	<p>Intro - Prayagraj, UP, basketball, cricket, competitive programming as well ( correct the sequence of sharing info ). Basketball - I was a lone wolf, as I gradually proceeded - became a team player. How did you convert from lone wolf to team player- trusting my team ( super ), I used to train 8 to 10 hours a day - nationals - competition got tougher , then I required I need a team . APart from trusting team what else is required to be a good team player - ( mention all points . He stopped at trusting and then took a long time ). Why engineer?- first it was army or engineer, seniors told me about work life balance. Currently engineering and army. ( stick to the answer. Why engineer. For eg why not basketball player). Tech advancement ( not much was said).</p> <p>Weakness - quick speech ( Vikrant has a very good potential , his english is also very good but he restricts himself while expressing. His emotions and words get limited. ) ( smiles and confident but we need more details in answers atleast 4 to 5 points not just 1 point per answer)</p>	<p>Intro - father , mother, hobbies - cricket, badminton, listening to music, watching movies. ( don't look up while talking ).</p> <p>Movie- south indian movie ( sang impromptu which is good). (He is confident and relaxed and pleasant. )Technically good, explore new technologies, good listener, good observer ( nice), listen to people and not interrupt them, emotionally good- I act as per the situation, get the best out of them and me in a difficult situation.</p> <p>Eg?- Internship, react and react native, changes, implementing and learnt ...now comfortable in using that, using practicality I resolved my situation. Weakness - procrastinate- using tools - setting some time 25 min and completely doing my work and take 5 min work and then do it again ( dont say pomegranate when you dont know the tool), bad at making notes- I think I have a good memory - strong point. What kind of people you dont like - 2 faced and then I dont talk to them ( dont say dont talk to them). I am improving on that. Parents - lovable , provide everything without asking them, going through rough patch they dont show anything, even in heavy debt. 1 thing to change - mother - sometimes does not</p>

Comments , if any	Intro - Being a tech enthusiast, tech skills, ( don't look away while answering), hobbies - various sports, new hobby - reading books ( can smile and look more interested), Chetan Bhagat novels- 3 mistakes of my life. Badminton, basketball manager - ( mention that role in your intro), roles - manage juniors, they listen and if they dont listen- I have to be strict ( smiles). How has sports shaped your personality- being an engineer I dont want to be a job seeker I want to be a job provider after 3 years ( avoid that when u r in the placement interview) Leadership skills - ( couldnt answer initially), provide them the right path, if they fail make them understand it is not right. Any leader that you look up to - father heading a unit. He speaks good of his team behind his back, he takes responsibility ( started in hindi but just take permission ). Apart from your father, Vir Abdul Ahmeed- gave his life for our country, shot atleast 6 to 7 times in the Pakistan war. Various - Rachna Bisht Rawat- author in army field- Kargil war - Paramvir Chakra. Why do you want to be a businessman?- one relative is businessman and close to me. No internship. Why hire	Intro - native of Uttarakhand, been in Pune for 7 years, AIT, aim is to become army officer, chess , basketball and listen to music. It is as per mood. Dedicate to a song - I am blank ( think fast). Chess - calm under pressure, patience. Any real life example of pressure - exam, time pressure ( explain the situation dont answer mono syllable answers). Team - managing time and getting work . I was lucky I got a good team If you do get abad team - ( give a hypothetical answer). Calm?- peaceful music to clear up your mind, its also your surrounding. Why hire you?- quick learner, able to readily grasp things ( same points), working with a range of programming languages, up to date latest technologies. Its ok to not get the job its ok right?- but it is a back up

Comments , if any	Intro - myself ( wrong), location, secretary ( abrupt and short intro). Roles of a secretary - make different plans ( look at the interviewer) ( forgot and got confused ) organised different competitions, ( think proactively and ask time out proactively) mention the roles ( write it down in advance). What are the challenges?- on the day of racing, 3 teams backed off ( confidence increased with this answer) and mentioned his decision making. Tips ?- be clear about what are you doing, all think of the possible situations, take a decision in favour of most of the people. From school to college to now, how have you developed, what changes have you seen in yourself?- initially I was stage phobic, maths teacher. I conquered the fear. Who else is your inspiration?- my uncle. father was very strict. But it helped me become tough. Mistake?- 3rd year 1st sem ( Kapil gradually opened up with his confidence) last min study. ( dont say I am a slow learner proactively). Education system focus on assignments not on paper. Teach through assignments. In India - we care more about marks. Happy about being ENTC engineer?- how will you change the	Intro - ( dress code and hair), seeking to advance growing tech career as software dev, coordinated with people all over the country, Microsoft internship, TT- national level. Skills due to TT - consistency, rules we need to follow, ( don't look up and think), ( smiling and excited while talking), sometimes we won and sometimes we lose ( she stops explaining - she knows it but cant explain much), health improvement, not good at any other game ( didnt have to say that ). Challenges while coordinating - someone people were responding and some were not. We took meets ( need more step by step answer). (Internship details need to be given proactively even if you started right now) Also teaching about corporate life. ell me - we dont need to make friends, we need to focus on work, assignments need to be completed on time ( whole day sessions and now you remember only 2 points), dont mind someone's rebuke. Strength - problem solving ( mention human skill) then mentioned creative. Weakness- overthink ( Komal has answers in her head but she does not state everything. She mentions 2 points and then stops.

Comments , if any	<p>Dress code is missing for interview. Intro - directly started with short term goals ( fumbling), good hold over DSA things for tech interviews, long term goals getting involved in software engineering. Learnt in last internship that we should be involved in any task . I realised that somehow I was lacking that kind of enthusiasm, I was delaying, I used to be doing things at the last moment, from that internship - I realised self discipline was important to survive in the corporate world. Teach for India was the internship organisation . They help needy children ( look at the interviewer while thinking, try to speak in a flow). ANY wrong decision ?- give me 2 minutes ( very good to mention that). Why an engineer ? I will be honest here. Initially I was not in a state to decide. I just followed my father's advice. He gave me options. I tried engineering and AIT culture is very involving, senior junior, coding culture. Weakpoints- overthinking , friends would listen for an hour, tend to multitask- some people think multitasking is good but in my scenario it lowers my energy and cant do well , I am not mentioning about 2 to 3 projects, like working on 2 projects simultaneously ( be careful while saying that. Corporate world</p>	<p>Intro - ( speed of speech can be slower and louder and clearer), reading books , tech consumer, daily life to finest details, audio books, gaming, watching anime. Internship - volunteer board for the company. Reason to choose volunteer work than internship - what happens in internship - they give everything and then instruct. volunteer work - we choose and the project needed me. ( mention the details proactively) ( dont mention your friend here). Online - all over the world. Group issues?- time zones. Work delegation - previous person results. Inspiration ?- Elon Musk - out of the box- stuck in traffic jam- boring company that would make underground tunnel from one area to another. ( good examples given). Also co-founder of Apple - developed operating system from his garage. Reading - Apple - biography , reddit , twitter. Shock me with some news that you think I may not know - consumer electronics-new regulation -sold after 2024. Gaming - dev of new tech. Even people like me can develop game in 4 days and AI boom. AI is a tool. It wont take our jobs. Explained why very well. There will be a change in the work culture. Instead of content writing there will be prompt riding.</p>

Comments , if any	Intro - Location, ( pleasant personality), travel a lot and lot of interpersonal skills, ENTC core subjects and coding subjects, management positions and management skills - school captain, joint secretary, organising greatest fests of Pune, 3500 participants, improving day by day and becoming a better version ( very good intro). Which areas have you improved in ?- there were many areas and I love to do all the things. Time management is what I have learnt. Time management tips?- divide your time along with your interest, prioritise as per your interest, dont delay or it will accumulate, team cooperation also helps ( can come out with more points). Team issue?- captain has to be there, divide duties efficiently. Nervous ?- unable to recall ( dont say that) but after pushed for the answer, SSB answer was given. Why engineer?- everything around in the society is due to engineers and I had to be one. Tech advancement - laptoos ( need a better answer) Upcomig advice to upcoming engineers- Give 100% and they will make human life better day by day. Salary expectation - looking for better company which gives me good atmosphere and 20 lacs ( wrong answer). If you get less than 20 lacs	Intro - graphic designer, C++, solve as many problems as an engineer, that's my sole purpose ( keep the sequence correct). What problems do people face - gave Indian Army example of foggy weather. He identified problems of what happened in this incident. Geopolitics not too much into national politics- India talking with Indonesia with Bramho deal - 200 million dollars. Export our defence products. Only 3 major exporters- Russia, China and USA. China is focussing to Africa. Russia is not good with service anymore after Ukraine war. Good current affairs. It helps to diagnose problems. ( very well informed and very passionate). Corporate world is mechanical and small work . Can you handle it being a passionate person?- I can because I have interned for 6 months as a graphic designer. My wor is small but when I see the whole work, I am proud of my contribution ( Super ). Strenght - new challenges, able to say a no. ( dont say comm skills weak pont proactively). Weakpoints - too focussed on one work and I get dedicated and dont do other things, in coroprte world we have to do multiple things, in my unconscious mind I am still the in the past.

Comments , if any	Intro - competitive programming, problem solver....nothing else?- no ( !! ) Hobbies - no hobbies. Free time?- Sleeping. Achievement ?- programming. Why engineering?- pressure from family. CS in my class 12. No medical option . West Bengal vs Maharashtra - Couldnt answer- similar ( Suvajit has a long way to go in terms of being serious about interviews, discipline, time sensivity, clarity, common sensical answers, his maturity has to increase) What is missing in West Bengal - rivalry between religions. Skills - ability to explain my approach to others - learnt in interviews ( if he gets serious and understands to view himself in others eyes, he can get better for sure). His only life is about academics. ( he needs to widen his scope of life)	Intro - tech skills, dancing, playing cards, kite playing. Dance style - general. AIT dance events?- didn't apply. Next time I will. Focussing on problem solving. What irritates you?- Practical files. Teacher only signs . No value. Qualities of a good engineer- patience, calm. Strenght?- patience, helpful, dont react , why I waste my time. ( Couldnt answer questions). What kind of companies - friend circle are good , friendly, ( irrelevant) team issue - others helped you.

Comments , if any	Intro - location ( hardly looking at the interviewer), stopped after dad's career. Hobbies - tennis, trekking, hiking. Tennis skills - discipline, wake up at 5 am, get back home to study. Follow tennis tournaments - US Open, French Open. Fav tennis player- despite facing hurdles, he ends at the top, barred for not getting vaccinated at the Australian open. Strength- on time, can do whatever work with little help as poss, no spoonfeed, quick learner, not excellent but fairly good with people management skills. Explain people management skills - patience, you cant lose patience when you are listening to someone else's problems, keen listening, attentiveness. ( good common sense answer, he seems responsible, calm sorted and good to hire). INternship details given - Non profit organisation- time management and learning SQL. Alternative career - medicines. What annoys you?- when people dont listen to me initally and come back to me asking the same questions.	Intro - traditional intro, internship, basketball, learn new things and talk to new people, learnt about locomtion and movements from my younger sister. Basketball - team work and discipline. Team work sub skills - delegation, 4 members in my team who bring to the table, what skills - good with hardwares. Weakpoing - I dont focus on weakpoints, I will try to do it and make it happen. ( dont say it like that) - phobia from crowd, ( say awkwardness). Describe you?- discipline, leadership, getting things done, good in academics, developer. Annoys you?- ( thinking a lot while answering)- nothing ?? alarm at 5 and cant wake up at 5 and then continued sleeping and then I overslept. wasted 2 hours. Discipline I believe in and that would irritate me ( good answer) Achievement ?- ( Vivek always repeats the question), the way I develped my personality is an achievement. Leadership - can make things happen in the right time. Teachers are also good leaders, should know about their team and bring out their potential

Comments , if any	<p>Good Morning Ma'am. Its evening. Intro - ML , projects, coded the architecture of different projects, mentioned many projects and explained the aim, initial challenge I faced was the knowledge gap and tackled the challenge by grabbing knowledge from different platforms, my seniors helped too, hackaton solo and team performer, keen interest on ..explained the project ....( yes and thats it !!) Why hire you?- persistent, when I work there is a goal set in my mind for a deadline. Weakpoints?- fear of being left behind, also like this weakness to give a kick to learn new things. Wrong decision?- should have started core studying from 1st year. Feeling low?- not getting job, even though resume was good, assignments were neither rejected or accepted.Any mistake that has reformed me?- not made any mistakes. No blunder mistakes. Our offer and higher offer- first I will check the job opportunities and learning ( smiling and confident)</p>	<p>Intro - ( smiling), Location, strong passion for coding , networking ( voice has to be clearer and slower and louder), looking for new challenges ( are you reading), goal - is to become an expert and innovation. ENTC?- Learning C++, java - more opportunities. More interesting. Internship details given. Now tech content writer and published 3 articles. Hobbies - cricket and right now exploring things. Youtube reels. ( find a better answer)</p>

Comments , if any	Intro-location, tech skills in developing web app, android dev, competitive programming, gained knowledge and applied in real life scenarios, work efficiently in a team, reading light novels, creative and talented in drawing and painting. ( video was not very clear, internet issue). Strength- adaptable, disciplined, complete work with whole heart. Weakness- overthinking, anger issues. ( dont say that. he explained also what kind of anger). Efficient team work?- In school, I dont rely on someone else , i dont believe anyone else to work on me. Even if it is group project, I believe in myself and finish the work myself only. To overcome this , I joined a group project- rainwater harvesting. Team partner was complaining. Working in a team can be very efficient and we can overcome any problem, more ideas, helped me, gave me different vision. So right now if some are lazy, I threaten them with consequences and it works ( penalty is not a good thing to use atleast not as the only solution). Disciplined?- I dont share my things because I dont want them to destroy anything. Prioritise my work, segment my work in small parts. Challenges of being disciplined- others dont accept my discipline	Intro - smiled and informed about bad network. - Passionate developer, backside tech, moves- mentioned take aways, find some inspiration, new places, experiencing new culture- broaden my perspective. Power of networking and building connection and learning their experiences. Kanpur and Pune culture- Pune is openminded, Kanpur is not. I miss the food of Kanpur. Inspiration?- my senior, how they learnt new things, follow their roadmaps. Internship - role, designation January, learnts AWS services. employer?- focussed on developing projects so I like start ups. MNCs already have products ( be careful who you are speaking in front of that) . Payment is low and that is ok as I am keen on learning. Weakpoints- focus on new task, time management, ( be careful ) Team issue?- faced before, only interested in projects, we take it positively, we do the work on our own

Comments , if any	Intro - branch head, member of tech board, improved my leadership skills, comm, squash, mimicry, time management skills. Tech skills at the last. Sub leadership skills? keeping on the same pace, everyone together and on the same page, patience and approval of anyone ( not really) ..everyone is aware. Asking again - awareness of everyone. Good mimicry. Time management - to do list in the morning, split in smaller bits, time table should be manageable. Failure?- last yearSSB. Maybe I panicked. Nervous?- when the outcome will affect me badly. When did you come through stronger?- medical procedure- endoscopy and colonoscopy. Internship - none ( give why and how)	Intro - Avid, dedicated to my goal, methodoligcal organised, tight deadlines, interact new people and have conversation, dramatics and sunsets, morning walk, bike rides during sunset, cooking. Cooking skills?- it requires a stable mindset, you end up making different than what you thought of, good time management skills. How to manage pressure better?- have a clear mind, be positive, even if damage is done, what is possible from now on, dont cry on spoilt milk, 4 first things that you need to do to sort things out. Example of pressure - dramatics, voice modulation, dramatics. Team pressure- projects, work under tight deadlines, club activities - senior lead for tech board. Challenges ?- prima facie of an event , successful event and evaluate- you had to get the plan out, get PR, funding, banners, model making - problem statement, note down the points, solution will be evauated, Internsihp none but actively seeking one. Uncooperative team ?- difficult question , if they are not doing, will understand domain of intnerest, delegate and rearrange the work, see if they enjoy, dig deeper and see if there are time management issues, personal problems and not able to put his mind to work. Weakness

Comments , if any	<p>Intro - location, Ait, tech skills, strength - optimistic, confident in initiating new things. Weakness - bit procrastinator. Also sports person - basketball and volleyball. Skills from these sports?- team spirit, how to keep everything together, managing time, sometimes we have exams, 2 different tournaments, how to react in different situations. New things ?- cant give you a clear example, 5 to 6 SSBs, initiate GDs and group activities. ( come out with more examples). Wrong decision ?- none . Nothing major- not a single person. Internship ?- none. looking forward. Employer - software dev, data analyst, employer teaching new skills. (Work culture is important as it affects anything we do) - Super ! Upcoming engineers advice- explore all fields first and then start with something specific</p>	<p>Intro - skilled in react js, good knowledge in C++, intern as tech content writer and enjoying my experience there, badminton, anime. Do you have a fav badminton player?- not that way. Just for fun. Badminton skills?- how team works, pressure handling. Pressure?- how to handle it well?- first thing is what would happen if we get reward or lose ( didnt understand the question well), just keep myself calm ( come out with better ans), think everything is going right and I will do well as much as I can. Any situation where you tried your best but you failed?- JEE. Internship - tech content writer, certain topic, ( mention take aways). ( mentioned about biology but I wanted corporate learnings). Education - attendance issue, half online and half offline. Cultural diff between Orissa and Maharashtra - mumbai then delhi, Jammu . Lets say Delhi vs Pune - dont know much ( dont say that)</p>

Comments , if any	<p>Intro- traditional intro, school, marks, youtube channel achievement for board examinations. ( pauses and talks). Subscribers?- 400 subscribers. Both languages prefer in hindi.. How did you get this idea?- good at studies and I love to teach and I am good at studies. I was teaching since class 8 and also in Kota. Teaching?- All teachers have unique way of expressing ..major quality- teach in a way that the person who didnt want to study feels some connect with the subject. Secretary of National service team, social causes- to increase management skills. explained the role well. good story telling. Management skills?- good team member, then team leader, have to listen to people, lot of minds are working together. How did you understand that it is important to be a good team member and then leader?- I understood it from my experience. Empathy as a team member. Internship - go happy club, start up, work for old age citizens, conducting various sessions, plan trips, independent senior citizens, painting, dancing, video editing- In Punjab ( mention your role)- work as management and make details of the session - non technical.</p>	<p>Intro - good intro, good voice, good body language. Team secured 105th position attended by 12000 team, chess - 1504 ranking, top 18th percentile in global ranking, 8400 games in chess.com, team player- extra mile for the team, teach my juniors - competitive programming so that coding culture thrives in my college and I am excited for this interview - ( Super). What else excites you - long runs of 5 kms, used to be out of shape during covid times, my friends were fitness freaks, eve running affects my schedule. why hire you?- I hone is adaptability due to my military background, integrating to new teams, working on new projects, smallest amount of time - involve with the team, I will take less time than others, can accept other people better than others ( mention engineer soft skills ). Weakness- perfectionist. Have chances to get in army but now I will pursue engineering only. Started learning computers in 6th class. Average people use windows, rich use Mac and legends use linux- ( Super). Wrong decision?- internship asked to complete a task, task related. Problem setter and reviewer for Imuka works ( makes questions</p>

Comments , if any	<p>basketball, football, minimalist, weakness- socialise less and poor memory, tech skills, secretary of maths. Famous maths?- Aryabhatta, Ramanujan, Newton- integration, calculus. Minimalist- minimum effort in unimportant things. ( don't mention weak point in intro). Are you a minimalist because you are lazy?- thin line in subjective words. Pros of being a minimalist- save on energy on unnecessary tasks and expenses, mental clarity. Managing time?- focussed, minimise socialising, dedicate time truly to things that matter. Learning?- teach, when you involve another human being, you will learn actively, not being sluggish. Internship- currently doing it. Triple IT Hyderabad, researching. ( dont look up while talking). Club team issue- we are assuming everyone is like us. We stress on points which we think are important. Everyone is not same. Someone who you think cant contribute might contribute well. Sports - sports cant be gentle even if it is a chess. Sports bring out the real personality, you are tired, you dont have the personality that you are amongst people. Source of energy?- spend the loss less sleepy in other unimportant stuff. Regrets?-(401 specific example)- woman specific internship...didnt</p>	<p>(Reading the intro.) Confidence, time management and weak point is anger issues, communication skills. Anger issues?-not present but improving since last 3 years due to childhood. Comm skills?- Speaking with others ( don't look up while talking). Time management?-list of priority goals, ignoring other shit work ( dont use the word shit). have to overcome your procrastination and have to complete your work on time. AIT?- culture, seniors, exams, how to write exams, teachers are supportive. Biggest fear?- comm skills. Next big achievement - joining a good company. Looking for where consultancy or like a testign engineer is there. Inspiration?- room mate</p>

Comments , if any	Intro - location, schooling, ( nothing else mentioned in intro ). Anything else?- Branch head of my branch, part of volleyball team. Branch head responsibilities?- take the decision for your branch, 3 akritis- sports, technical and cultural. When the notifications come to you, you will communicate to all. Arrange meetings with your juniors and explain, team formation. What motivated you to become branch head?- I am a defence aspirant so ( incomplete ans)...mention the skills- leadership public speaking, team management. Why are you giving a corp interview if you are a defense aspirant?- goals- join the defence forces, appeared for NDA and cleared but got medical out- shift in the bone and kidney stones. Cured them and now will reappear. ( could not ans the question). Then answered again - creativity and engineering field and personality dev- create thing which is not existing. Met my father's colonel friend- he is an inspiration. What did he tel you about engineering?- Areas of weak point - I consider them as areas of improvement. I push team too hard and always punctual and when it does not follow, I get angry. What do you do when you are angry- some 202 issues. Wrong decisions or failures?- failures are the	Intro - good at digital marketing, PR, team management - 68 people, sales closure, business management, tech skills and not as good, enrolled in NSS club, PRO in Rotaract club, interested in running , volleyball, gym, business books, start ups. Capital interested for start ups- knowledge about market, network marketing business, generate leads in 1st year, started a youtube channel- habit of stammering - cant say one line and got rejected in NDA. Why engineer?- keen on building a battery which has much efficiency ratio which will be revolutanary in India, will get links on it , teachers are working on it. Will ENTC helping ?- I had an idea in 1st year and this business needs huge capital. Aman Gupta - Boat Company- picking products from China, rectifying and selling with Boat trademark- it is called drop shipping I bought some products. Why corp job - I want to know about the sharks. So I need to get into corporate- to get some links and collaborations. Strength - can tell people - can convince ( started speaking in hindi). What do you do to convince them ?- motivate them, about reality check, you have jadu ki chadi- story telling. When you are underconfident , whats your anchor?-

Comments , if any	<p>Intro - ( check the audio always , speed of speech has to be slower and dont pause while talking every now and then). Tech skills, clubs, captain of volleyball ( he stopped the intro suddenly). Captaincy issues- challenging no team, starting from zero, catching up with seniors, for 1 year we didn't win any tournament, directors didnt give permission for outside tournament ( dont say that), they didnt provide anything ( dont say that). Finally we won the tournament . How did you win the tournament ? What were some of the practices and mindset that made your team win? - consistency, practice, everyone knew what they need to do. Streight - time management, team, pressure handling. How do you handle pressure?- just think of the present, dont think of the result, dont think too much. Pressure example?- give more details. Time management - example given. Write where you will waste time, making a schedule is not good enough, ( interesting ) Are you a wise person or have you made foolish mistakes?-does not remember. (Shark tank Judge should have been explained in details) internship - none. working on project - library management and website - online game teaching ( mention</p>	<p>Intro - Hi Ma'am ( don't say hi), tech skills , practical experience, developing chess application, sudoku, certifications. During my team in AIT - leadership roles, dedicated and passionate individual. Leadership - struggles, resolve and learning- online event, biggest task is get people together and communicate, whatsapp, friends helped, dont have to take entire load yourself, any unsupportive person - yes, told I gave more task to others and you can do atleast so much. What kind of people annoy you- no enthusiasm to grow and learn in life. Learnings?- nothing is permanent. we have to move on. Leave some people behind. Wrong decision - bunked school. ( smile and good body language). Values- wrong work ethics, limited time, dont waste time. How does the corporate work ?- lot of corporate breaks. Put work in the middle of the breaks. Good to be valuable. Corporate life makes you ready for the struggles. Any alternative career?- goal is to learn as much as I can in next 10 years. After that work for a start up. Cant put hand in an unknown lake. Weak points?- good with everything but not best with it. Does pressurize you - its a good thing. Pressure makes you learn things that you otherwise would not have learnt. Example of</p>

Comments , if any	<p>Intro - internship in software dev, strenght-communication, rest ?- that's about it. Why are you a good communicator?- basically inclined towards leadership skills, empathy, working as branch head in Akriti, can speak on any subject. Internship details given. Challenges faced in Akriti?- having command with juniors. Participation was the issue. Randomly took the list and assigned them. Then spoke to them. Those who are interested specific event is allotted. Those who are not interested random events were allotted. So everyone participated. Challenge was to earn the positive point( Prakash has decent confidence, but he repeats the same point over, he needs to keep his communication crisp. Also he has to listen to the interviewer's question and then answer. Prakash has good story telling attitude.) Empathy answer was wrong. Strenght-hard working , prioritising more to work that can be called negative as well ( dont say that), never rejected any work. Negative because health should be given work. What are your fears?- Dont have any fear. Cost, time, quality-rate the priority- time, quality, cost. Night shift ?- ok. ( Dont look up Gl204e being asked)</p>	<p>Intro was not full . Part time intern- not compulsorily to write article. Why is it called part time?- ( couldn't explain)( not getting full time internship) What must be the problem with you- the project is not good enough ( or you are not good enough?) What problems - learning and improving day by day. Which skills ?- procrastinating, comm skills, public speaking. But how did they know about procrastination nature?- They are not selecting my resume. Are you nervous now?- somewhat. Achievement?- IITs and then into AIT. Sports not that much ( irrelevant ans) - hackathon. Any personal life achievement apart from academics- not remembering. Regrets?- Initaly AIT was a regret but now its vanished. All the companies - our success will depend on performance in these 4 years. But pace is slow. Multiple things going on. Is multitasking an issue?- yes ( it was a trick question). Why engineering?- Maths and problem solving. In 12th, you dont really dont know much. Currently I am thinking I wont be fit for corporate. I will be thinking of the business. ( dont say that) working in corporate for 3 to 5 years. Learning - very</p>

Comments , if any	<p>Intro - nothing in intro. ( also mentioned enjoying my time). Why ENTC?- numbers and electrical engineering. Scope?- Microcontrollers, scope is unlimited, mostly all. Tech advancement - 20 years before , mobiles, video calling, screen touch features, 2 TB ram and now in megabytes, ( voice needs to have energy and speed of speech has to quicker). Strenght- adaptable, adjust with my teams highs and lows, cover up for team's issues, coding and extra skills, android dev. Any achievements in the field of coding. What about engineering you wish was different ?- assignments ( smiled). We have advanced so much but we still have to write personally. Flaws - lazy and short term memory. Internship - stories for them. Didnt know the name of the company ( Nitish has to be prepared. His energy is low and lethargic. Speed of speech has to be quicker. His answers need more substance and insight. I do think he has the potential though but lot of grilling is pending ). Employer - remains true to his word</p>	<p>Intro - location, tech content writer, published an article, tech skills, projects, hobbies- gym and listening to rajashtan music. Can you sing?- ( don't hesitate and start singing ) gave him time to look up the lyrics. Internship details given. Article aim ?- cant get intern due to recession. Strength - creativity, flexibility. How do we be creative?- ( not a good ans). Struggles?- didnt have any. When pushed, then he thought and it was not enough. Any failures of yours which you regret?- NIT. What is good about AIT?- placement ( need more substance). If you dont get through, - family business. contractor of dealing holes in earth. Boss?- dont want strict boss. friendly boss, guide me on project. Any example?- seniors guided me</p>

Comments , if any	<p>Intro - Ait, location, hobbies- movies, anime, jogging, tech skills. Why hire you ?- consistent in many things and disciplined, good in communicating with the team members, handle pressure. Tips on handle pressure because I am not good in it ?- Cant get nervous and example given of Akriti. Good comm with team ?- As I was in 3rd year, I was talking to 1st year and 2nd year. Good with comm?- not hesitant to communicate, by passing the ego of self and others while communicating ( deep). Flaws?- I am a procrastinator ( said too proudly !! ), last minute person. This was a flaw when I was in 11th and now I have overcome it. I was an introvert and now I have overcome. 2 offers and the other one is with a higher pay? If I accepted your offer, I ill commit to you if I had the time, I would go for next offer</p>	<p>Intro - deep interest in computer subject, secretary of cyber security, hackathon, software dev as in intern, joining as SDE role in May, sketching, painting, reading books . Reading - oath of Vayuputra. Internship details given. Downfall?- it depends on mindset. problems are coming in my path. I have to fulfill I have to achieve - i remind myself and that motivates me to complete my difficulty. I dont get stuck. ( Always give an example). Where are you from?- Kanpur vs Pune - people in PUNe all have jobs. In Kanpur- not everyone is employed. some are wasting time. Pune people give priority to marathi language. Team challenges-first of all we need to make a tea which will be giving efforts, selecting students only those who can work in a team and club, have good connections around them. Regret - ( she first explains the philosophy of every ans and then gives example. Do the reverse ) ( good confidence, body language, communication skills, fast thinking). In favour with women reservation - explained well</p>

Comments , if any	Intro- good intro, team management, intercollegiate events. ( tie your hair), captain of volley ball team, good work ethic, good learner, commitment ( good efforts) team issue?- exam issue. What challenges are you facing while becoming an engineer?- in India, we dont have infra support. Flaws?- communication skills, procrastination- work last minute., happened in 1st and 2nd year and now I make a timetable and I have completed all my tasks Comm skills?- hesitation in english .Regret?- paused in between and asked for time ( good), ( good efforts)- not cleared JEE exam. AIT is also good. Learning- clear goals, vision, work on your goals, committed. ( good ). Vision - enhance my skills . In case you dont get placed- enhance my skills and push for further opportunities, will discuss with people who have got selected. Angry?- Sometimes I am focussing on time but team is not as much committed, but I dont show them, then I make them understand (said in hindi. Neha makes good efforts). Wrong decisions in life?- ( Neha asks when she cant understand), ( very good eye contact). If I have decided, then I should not regret. If it is wrong. I accept it and if I a chance, I will	Intro - movies and web series. ( need more energy and voice needs to be loud and clear) Movies- lucy, inception. Do you think you are complex - I am simple. Why hire you?- dedicated to my work, will complete before the deadline, patient, discipline. Patience example- couldnt say. Discipline - make your schedule( got stuck in patience and discipline example answer). Internship - take aways. How confident are you that you will get through - he smiles and he said he is not very confident. I will try next time ( mention how you will try). I know I am lacking - nervous in front of my new faces . ( ! ) What disappoints you- I wasted my time in 1st year. I could have got more internship

Comments , if any	Intro - 1 year experience in software dev field, front end, API, back end. Internship , achievements - lot of tech ones. What kind of qualities- good person, can have faith in me, data structures, algorithms, software dev both , can manage diff situations as I was the Joint Secretary of cultural board and team member of entrepreneurship. Do want to be an entrepreneur-I had experience in software so now m not interested in business but in future I could have. Business acument - leadership, giving somethig back to the nation, problem solving. Team issues- dont turn up, take my juniors and make my juniors do it. If someone is not listening , then explain the situation importance of being harsh and mostly harsh works ( dont say that). Regret - screwed up JEE prep in last couple of months. Couldnt clear. Why everone wants to go to IIT- IIT is a premium institute, good atmosphere, start up , good employment, good funds for R&D for start ups, good coding dev, incubator centres, also 1 year extension after 4th year too. Why are there suicides in IIT- in education system, forcing much to explore. Its science or maths, parents	Intro - good intro, keep yourself presentation. Time management, resource management. How to manage time better?- Don't make a complex time table, keep a simple one, don't do one thing at a time, be confident, you should be happy if you are giving a time in this thing ( good wisdom). Have you always been like this?- 1st year,I wasted my time. from 2nd year I changed - have to maintain my academics and club. Club challenges?- people ask whats their gain, we have to convince them, signing issues-teachers. Why hire you?- hard working, tendency if you have given me any work I have to finish it as soon as poss, I cant take burdent of work, vigilant with my work, can learn new things. What new things have you learnt?- new technologies. Tech advancements- ( had to think )- data science- cant recollect the name ( move on fast. Apart from that, move on to the next point). Resource management. Inspiration - mom she is also studying- yoga BSC and manages all the household work too. Weak points - I get nervous thoda thoda . But when ?- When I have nothing to say and I am an introvert. You bring in new topics - then its difficult. You are in clubs - that I know already. But for

Comments , if any	Intro- location, AIT, hobbies- chess. Tech skills - react native- in a Singapore based start up- neurobit- analytical health info-linked in angelco - well found. Why engineer - make things and develop things, started learning react native because I can make things. Engineering gives me the platform to do it. Why ENTC - dont want to be limited with software. Want hardware- IO, Microcontrollers, microprocessors, expands my scope. You seem to be a person who has clarity. Have you ever been confused?- when i get confused, I consult my family. ( should have mentioned the event proactively). AIT confusion. AIT ?- faculty and environment, very focussed and take decisions in our favour, management is very good. Regrets?- not got internships in Deutsche bank and Microsoft. Any idea of rejection reason ?- tech reason failed. Achievement - chess. upset or annoyed?- never thought about it- when people around me dont think the same way I think about- recently friends thought it was my fault and it wasnt . Team issue - i worked on my own in 15 days for the project. Got a few people but I thought if I get them , I had high expectation, didnt want to 209 across any vulnerabilities. IN case it was average, there	Intro - location, graphic design, video editing. Tech skills? Internship? Projects?-soft skill?- Internship - tried a lot but didn't get. Why is your name Lakshwadeep - Name of God- Vishnu. What qualities ?- consistent, problem solver, lead code, team work - many projects in team, dedicated person, I do work. Flaws?- introvert, speaking skills. How do you know I have improved a lot?- because the way I am giving the interview. Good comm skills - they can influence people easily. Team issue?- projects- all are friends so no issue. Team challenge in future?- convince them or replace them. Clubs?- sports - PR team. Achievement-tech stuff. Prep - tech prep. Advanced algorithm. Employer- time flexibility, team which can help. A few years are now?- promoted in office or start a business. What kind of people are good businessmen- comm skills, confidence and problem solving skills. What problems have engineers solved- bridges, medical instruments, laptop, etc ( he leaves the answer half way). Night shift?- yes

Comments , if any	<p>Intro - location, web dev, play cricket. What skills have you developed through cricket?- consistency. Are you also consistent in other activities- web dev, I am from a hindi medium and how he has learnt everything here. Why web dev - because in college you need to learn more , web dev is the easiest for me. ( dont say that) Why engineering?- in childhood everyone says become an engineer, dad refused for defence, and I am good at maths. What is your dad scared of - risky for life and only son. Engineering contribution to society?-( could not answer that question). Strength - honesty and consistency, i dont leave work in between weakness- communicationskills and I am working on it, take classes on youtube. Are you sure you will get the job - No, I will get the job, then I will take offline or govt jobs. Which govt jobs?- Like income tax, CDS ( didnt know when cross questioned) Learning friends ( apart from friends, could not answer) ( Deepak does not think when he does not know an answer. He has to push himself to spontaneously learn to think ) Education - attendance, tournaments</p>	<p>Intro-location, proficient in C++ and dev projects, AI, ML internship in Blue Bricks based in Australia, explained the internship in intro, I enjoy journaling and gyming, keeping up with latest technologies- chatgpt is cliché, image modulation rather- gave details in it. ( Good details ). If you lose a job due to recession what would you do- I have a habit of saving, losing a job is a hit, I will be fine. ( mention what would you do alternatively . u did mention another job). Tell me more about talents and skills - projects, stand apart is determination, perseverance, learning new skills. Which new skills?- 1st year- video editin project, photoshop. beside your talents, you must be having some weakness I presume, what are they - perfectionism and waste time something that makes me not give up. Between cost, quality and time, what would your priorities be in a project and why?- time, quality and cost. When did you get a chance to display leadership skills- event head for movie making. Regrets?- controversial- say things to people which is true and lost a few people back then What I do now is I keep quiet. Really</p>

Comments , if any	<p>Intro - location, AIT, scores in 10th and 12th, hobbies- music and cricket, web series, mythological facts. Short term goal and long term goal is to be a civil servant. What kind of civil servant? - IPS. Why corp interview? - childhood interested in science and maths, BTEch. Would you like a job in the corporate world- for getting work experience - 2 years. IPS - last year I will prepare for that and after my placements. Why engineering - how to handle pressure, task management. give me some tips on how to handle pressure - doing assignments at the last minute. Internship- virtual internship, applying for others. Is virtual internship worth it? - Can you tell me how- learning front end. Qualities to hire you- honest with myself, tech skills mentioned. Mythological fact -Mentioned an example - Character starts from B- cant remember the name ( dont say that example then ). Weakness - procrastination - working on it- going to gym. Team issue- ground maintenance not been done, yet the administration is not doing its work, its annoying and we have to cope up with it. What do you do when people annoy you- where is the problem coming, is there any communication gap, resolve the matter from</p>	<p>Intro - AIT, from Bihar and district and residing in Jharkhand, School, love to do web dev, hobbies- reading , gardening , dogs, sketching, in house project - drone signal detection. What is the project about?- professor, taken only 1 class, detected wifi signal. What is the aim of the project? - to get to know about the drone signals and how it fluctuates your signals. Why engineer?- loved maths, we dont have to mug up, many approaches, SGPA score was 10, so I took PCM, then I shifted for engineering. But why engineering?- uncle is also engineer maybe because of that. ( unsure). Tech advancements- cyber security, block chain, web dev, AI, ML, EV. Are EV not environment friendly?- maybe because of waste but I am not aware of that. Strenght- extrovert, adaptable, give my 100% task , team work. Example of team work - dancing in a group. Time sensitivity- installed app and go through the list, tick mark</p>

Comments , if any	Intro- projects, maths, problem solving which pushed me to competitive coding, cricket, kabaddi, volleyball, chess, like telugu songs. ( Sang well, pleasant personality, good efforts). Why engineer?- seniors who are literate suggested it. I didn't get CS and IT. How is CS and IT better than ENTC?- Technologies learning in academics is better. For ENTC we have to give extra time for coding. That is because you are not in the syllabus, so why not ENTC?- because i want to go into software. Will ENTC be a waste?- no, learnt that will be relatable to IT sector. Projects like home automation. Why should we hire you >- fast learner, very active throughout the work, punctual, deliver on time . How to manage time differently?- follow a sched, saying in hindi- Kal kare so aaj kar, planning is different and executing is hard. Sports timing and other stuff clash. How do you learn so many things effectively?- learnt all these games in my childhood, gave more priority to games in childhood. ( try to always give the method ) How did you manage to develop the ability ?- Enjoy it, good seniors in village who helped me to learn. Chess skills?- time management, a	Intro - was too short. Were you disappointed with any group?- volleyball defeat. Do you think it was the team's fault?- cant consider that. Every point is earned by the team( Ashish speed of speech is too fast. He needs to slow down, also he has to look at the interviewer more). What challenges have you faced leading a group of people - team member not having a good idea to organise a team, lack of proper goal, so not having proper enthusiasm, told him the points and divided the work force, seniors as head of tasks, miscommunication between us and it was new for me, not having good network initially was challenging. Sync culture?- taking juniors along. Internship details given well. What is attractive about engineering?- teaches you everything , academics, latest tech, how to interact with tech and get to your aim, physicist. Does competition scare you- we will have more Elon Musks, he is crazy, he doesnt think much. Other people who amaze you?- My friend Akshay Maths honours- proper aim. You seem to be confident, when were you underconfident- Standing in front of girls, After SSB, you get more confident. Power

Comments , if any	<p>Intro- location, school, scores ( Azad is reading the intro), ( no eye contact with the interviewer), (however he was prepared for the interview is what was good to know,) tech skills, in school I did not use any multimedia, football and kabaddi ( intro has to be short- within 2 to 2.5 min ), strenght and weakness both mentioned.- overthinking and not comfortable when work is not over. Repeat your strength- leadership, adaptable. Leadership skills?- listen to all team members of all branches. Akriti. What kind of team members dont you like ?- Which are not listening and not giving feedback and uncooperative. How will you convince people who are not cooperative ?- convince them peacefully and you are my best. Discipline?- observe and whatever I do wrong, I will see and rectify. If you are not comfortable if the work is not done, how is that a weak point?- if I didnt do work on time, it shows I am not good at time management. In school life, I did not know how to behave and how to treat people accordingly- juniors and seniors taught me. Inspiration ?- My senior and</p>	<p>Intro - AIT, internship, creative outlets - writing and reading- 30 second interview. Write on video games, how I could design the game. Read?- Jeffrey Archer, not a penny gain or lost. Why video games is not your profession ?- not really. Wants to keep that at my hobby. What if I get burnt out of it. It is my biggest passion. I keep up the news. Its personal to me. Video gaming is very intense and they work for 14 to 15 hours and get paid less. In the IT world engineers work for 15 hours, what is your opinion on that?- even if I get burnt out, I can evolve. Long hours and hard work is not the issue, losing interest in it is the issue. What motivated you to be an engineer?- maths is my strongest job, coding clicks. When did you learn coding ?- 10th. Is ENTC the right stream for coding?- it might not be the right stream but AIT has a great coding culture. Mistake ?- procrastination when I was younger. Education system - flexibility for students to change in majors. Sun cost fallacy - put in more time and seeing, instead of opting out of it. Culture ?- dont judge people immediately. Small cultural differences might create different perception. Team issue?- there was a slight</p>

Comments , if any	Intro - ( more energy required). Tech skills, coding competitions, different projects- hardware ones and mostly software ones, video games related to strategy and listening to podcasts. Enjoy learning and problem solving skills, learn from daily life past experiences. Podcasts?- coding stories , technology, open source. Tech advancements?- more powerful applications. Strong points which makes you the right fit for the company?- adapt to company, eager to learn, good with people. What do you mean you are good with people ?- leading them, understanding them, both be a manager and employee , multiple people to collaborate. Give me a real life example - in multiple hackathons, managed people. What can bring about energy?- working on something new and complex ( Aniket is intelligent and technical but needs to work on his body language and energy and speed of speech ) How would people describe you- great worker and good friend and managing work. Flaw?- perfectionist	Intro - tech skills, projects , podcasts, singing , anime, basketball ( Anirban has good energy, good comm skills, body language, smiles and good conversational skills, he is real, good story telling ). Lets hear you sing- Good singer. TRS clips by beerbiceps. Watched about defence and paranormal activities. Defence minister?- first name is correct not last. If you were the CM of West Bengal, what would you improve - illegal immigration. Topic of concern - no unknown person should enter, political issues - lagging in mainstream. Learning strategy?- hard work pays but smart work pays better, allow us to reach our goal faster, punctuality and time management, determination and perseverance. Do you remember learning any skill ?- game development. Learning complex things has helped me. Apart from this, what are your other strenght because of which we should be hiring you- all the above. Flaw?- habit of working extra and overthinking , overthinking for the interview- treat it like a mock interview. Decisions gone wrong ?- started from 11th std - taking coaching and chose not to. Why is engineering so attractive? - cousin- first

Comments , if any	<p>Intro - AIT, college, location, school, researching about tech world, online gaming ( why describe the game unless you are employing in gaming company), game - patience, team work, meet new people around the world . Any situation where the situation was annoying and you had to display patience?-projects, group members are not in the same page as us, ( dont just describe the situation, mention how you showed patience). Failure - set goals in small milestones . What can you change about West Bengal?- I dont want to change. It is good. Only political issues . Outside people think it is not good. Why engineer?- like to solve problems, can solve problems of everyday life. Tech advancements ?- AI, ML, advancing in a fast rate, chatgpt , 5 G, Moon ( Aman has a lot of potential but a little more substance in the answer) 5G - health issues- there are 2 sides of the coin ( good ans). Why are you confident you will get the job?- 2 internship details explained. Are these enough for hire ?- Not really. Experience is never really enough. But I can provide the necessary skills to the company</p>	<p>Intro- AIT, location, keen interest in problem solving, coding, reading books , painting and basketball. Last books?- 10 Kings , glass palace- set up in Bengal. What is 10 Kings about ?- fight other kings. It is mythology. Reader, Painter and Basketball player- what are you doing in engineering?- because I like problem solving, data structures, coding. Why this decision ?- PCM , elder brother ( need more substance). Do you remember any decision of yours that went wrong?- not able to recall ( generally give an answer). Any mistake or any thing that you wish you could have done ?- painting class. Secretary of fine arts class ( mention that in intro)- challenges in the club?- work assigned, but juniors are also busy. Easy to manipulate juniors. In case they were seniors and batch mates . With seniors you can talk to them politely. No internships. (Amita has to give more detailed and indepth answers). What are you proud about - whatever I have to do it, I do it. Whatever decisions I have to do, they are always mine. Even if I fail in it, I still go ahead. Flaws?- deadline, but so much into achieving perfection. How</p>

Comments , if any	Intro - Greetings - good eve not good morning, hobbies first nothing else mentioned. Why engineer - because I have interest in engineering field. What is attractive about engineering ?- don't know but I like it. Tech advancements - chatgpt ( need more substantial answers). new places, kabaddi- healthy body, manage your team. Team issue - yes i faced problems ( describe the issue and mention in details. Thats missing. He only answers in one sentence and answers are incomplete ). Team has to listen. Strength - from army background and I am disciplined. How do you discipline yourself - it is built in us from childhood. Schedule - attend classes ( should have mentioned time ). Internship - no internship but dont want to do unpaid and virtual ones as there are no knowledge. ( Abhishek has to give substantial answers, he has to proactively answer in details and be more in sync with the profession)( He has a lot to prepare from scratch for interviews and also in terms of mindset) Cant say I dont know CM of Maharashtra because I am from Rajasthan	Intro - AIT, academics, various tech events, work out, video games, running. Skills because of video games?- team skills, never give up attitude ( Aman smiles and talks ). How did you develop team skills ?- I control the team. Have you managed a team in real life?- tech events, gaming event, team leader, team of 4 players. Why did you lose? What is your idea of failure?- players are not that cooperative. Did you not use your leadership skills?- they are not interested. They were forced to play. Do such people irritate you?- no. I can manage them and teach them. Its like life Learning?- practice and make mistakes. Any mistake that you regret?- gym, then diet. What was the mistake - only gymming. - I have not studied for JEE . Internship details given. ( Aman can be trained for better answers. He has the potential for sure. His answers need more finesse. ) Strength - If I dont know something I will learn it ( good answer) Weakness - nervous and dont take much risks- dnt think much about the box ( didnt know who won FIFA and President of India)

Comments , if any	<p>Intro- Location, AIT, school, aspire to be excellent software engineer and hope to do well in placement, read books and play different sports ( intro has to be better). How to win friends , Power of subconscious mind. How to win friends- genuinely interested in people to win over them ( mention more points). Team issue - explained the situation well, not willing to participate as it was not in their interest ( try to finish the answer in 2 to 2.5 min), initially thought of taking up the project on my own, later on realised it is not a one man's job, tried to convince them, actually threatened them ( used penalty. Tried to use convincing skills and you even said you read the book ) - mentioned the future worth of this project - that was good, and it will save time. Sports?- Badminton, Football, Cricket. Football - national team. ( Dont look up and talk )- lot of accolades in sports ( can be mentioned in intro). Sports skills - healthy body, healthy mind, team work, coordination skills, convey the message properly. Learnt a lot from the captain - he knew the limits of the person and he knew where to place and what words to use ! ( Nice ). Time management -</p>	<p>Intro - AIT, intern at Bharat, quick learner, explore new things, sports like cricket, hike, play chess. Eg of quick learning- competitive prog. ( Abhinav has to speak louder and clearer and he can smile and be relaxed). Exploring new things ?- working on a problem and I find a solution to that problem. I dont limit my thinking to that solution only, I get alternatives. I dont always be successful but I try to find alternatives if my first solution is complex. Internship learning - real life projects, not a team because it was virtual internship. Chess skills?- about trying out all possibilities in a position. I apply that in real life .( I dont know CM of Maharashtra because I am from UP. Dont say that !! ). Why engineer?- I am the first person and make some good money ( Have more substantial answer). How would you be described?- hard worker, does not talk more, not talkative, humble, he could appear rude if you dont know him. Is engineering attractive?- things to exploure ( a more substantial answer)</p>

Comments , if any	<p>Intro - Tech skills, projects. Internship ?- ( Sumit needs to give details in his answers. ). Is it worth having a virtual internship ?- better to work on own project and develop own skills. Problem is there is no interaction and there is no outcome as such. Only topic given and build projects. Is it helping the organisation?- I dont think it is helping the business. Why hire you?- working on dev skills through project work, tech qualities mentioned. ( Mention the human qualities)- humble towards people, try to understand people, problem solving of the others. Eg of problem solving- guidance to my cousins with their career choices. Why engineer?- has interest in doing software things ( Sumit has to be prepared. I believe he has the potential but he was not prepared for the interview). Are you happy with AIT ?- happy with AIT but not happy with branch. So what do you want to do - want to become software developer and then start a start up. What is attractive about engineering ?- syllabus is not great but journey of engineering is interesting and enjoying with friends. What technologies are you impressed with ?- hesitant. Which company? dont know</p>	<p>Intro - AIT . That's all ( He is not prepared). When pushed for detailed answer- Member of radio club, robotics club, tech skills. Why engineering ?- problem solving. ( not a good enough answer. Has problem with interpretation skills ). Engineering placements are high and start ups. What problems of society has engineers solved?- zomato. Why hire you?- problem solving, team leader, positive attitude. Team issues?- if they are not working, I will give extra work load ( Wrong answer ). Weakness - crowd is very high then I wont speak correctly, fear of public speaking. Happy about AIT - yes, army , placement is better than IIT and NIT. What is the % - almost 100%</p>

Comments , if any	Intro - ( The camera needs to be adjusted )- conservative intro, tech skills, internship, chess. ( speed of speech has to be slower). Internship details mentioned well. Happy?- anything that gives me experience. What experience in your personal life has helped you develop ?- JEE prep has helped become consistent. How did you become consistent? my aim was to go to IIT or NIT and CS. Good marks but not good enough. Those colleges are prestigious. ( Mention consistency as your strength). Other strong points?- give 100% and quick learning. Team issue?- If I am the leader of the group and such a fault arises, then I am also in the fault. It is my responsibility to give them spark. I need to make the project interesting ( Superb answer. ! ). has it happened that you were a team player and you didnt give your full - yes, but I did it because other team members were doing it. Boss?- personality, giving work late at night - we have to manage that. If I have given late night and informed sudden. But when did you have an experience?- my brother. Scared ?- no we can manage. Meaning of your name?- Dont know. It doesnt mean God actually. ( you should know it). Achievemnet - Struggling	Intro- just mentioned AIT ( he was not prepared). Then when pushed, he mentioned tech skills, projects ( unprepared). Strength- problem solving. What are qualities that you have as an individual - time punctual ( totally unprepared). How do you follow a schedule- just follow it. Regret?- which I am not able to do. Wanted my own start up. Providing training for robotics. So why are you regretting?- Willing to start. But some problems. Why engineer?- used to play with wires. Weakness- sometimes I am nervous. ( He needs a total prep ). . He mentioned 8 CGPA as a score in engineering. (But he is not answering any questions. We cant hire him at all). Who inspires you?- New technologies like robotics ( Ankit has to be louder and clearer). Internship - controllers, discipline. What irritates you - when someone does not listen to me. Give me an example - last 3 to 4 days-

Comments , if any	Intro - tech skills, enthusiast in data analytics and machine learning. Projects - highlighted . Global gold use. In pandemic gold price was not that affected. ( explained this very well but try to mention this in a question asked on projects or internship . Dont mention that in intro in details . Just the highlight). You can continue with your intro - made projects and pitched it to some companies but was not enough. Phy and mental health- football and chess. Strenght - Hard work is enjoyable and can utilise resources. Books - Shiva Trilogy, 48 rules of power by ( forgot the author). ( I personally forget the book names and authors so I have huge sympathy for people who forget too but I remember the learning and take away ) Learning from the books - discard all 48 rules, these are not hard and fast rules, never outshine your master . Football FIFA?- didnt watch the games. It is a personal exercise for me only. For entertainment - I watch videos and podcasts. Who has inspired you- Ronaldo- however small you are, you are never smaller than what is in front of you. Your steps will decide. God - Shiva- Calm but he can also bring calamity- dual nature, Krishna-has all qualities that	Intro-passion for front end dev, tech skills mentioned, also proficient in..., compettiive programing, playing chess and badminton. Chess qualities?- developed me in challenges, if my opponent has a move he will try to overtake me. I also have to think how to overtake him . That helps mental state . How has sports helped you improvise yourself?- ( initially ans was coordination in badminton). Then he was pushed to answer further- further project handling. Are you happy being in AIT?- yes but I wanted CS. But ENTC has both then why are yo not happy?- maybe because of hardware is it?- Yes !. I wanted to be software engineer- how technology works and computer works, but what will you do just knowing it ?- Applies it. Why are engineers important ?- stepping stone ( give more detailed answer on engineering skills importance in the nation). Tech dev - distant comm, web site. Current affairs - not interested in current affairs. Why hire you ?- adapted to tough situations, flexibiity, team work. Example - public exam , got a good result. Happy about internship ?- It is not about happy, it is ok . Applying - virtual based- only task based. No mentors. Then mentioned seniors

Comments , if any	Intro- conservative intro, leader position in sports, movies, speaker on youtube, squash. ( more energy and enthusiasm required in speech)( speed of speech can be quicker). Squash- shots, practice, 10 to 15 min in one round. ( can smile more). Before that I go to football and running. Football qualities?- not just a game but it is about how who you are in something, how your mind works, how you tackle things, how you motivate your players, team work. Did you get a chance to display these qualities?- motivated , either I am losing or winning, doesnt matter you have to give 100%. ( Vivek has a good attitude and understanding of the answer but the energy, smile and speed of speech has to increase) ( Body language- he does not look at the interviewer much). NEgative points?- not so social, problem in communication skills. Why hire you?- different, unique, qualities that many people dont have - kept myself apart from crowd, give time to myself and working on my skills and all of that ( he keeps saying all of that ...all the time). ( Apart from crowd means I do things differently and I approach differently. Exams-I study from books people study	Intro- Location, optimistic, confident, hard working, tech skills mentioned, web activities, basketball and chess, science fiction. Chess qualities?- develops thinking ability, trains your subconscious mind, being proficient in every move in your life. Chess player?- average. ( speed of speech has to slower otherwise communication is good and he smiles too). Wrong decision ?- Rank in JEE. Civil Eng in BITS Pilani. ENTC in AIT. Although I aspire to be a software engineer from class 11 . Made a wrong decision. BITS Pilani offers more opportunities, but apart from that, the start up culture, the technologies, the alumni network- these things hamper a lot, AIT also has alumni network but not much intereaction. Negative?- procrastination. Why hire?- give my 100%, inculcate skills- organisational skills, time management ( but you just mentioned procrastination !! ) . Time management ?- it is not contradictory and you delay those things to you that are not important. But if it is important, then I am responsible. Team club issues?- I have faced those situations and learnt from those too. (Good examples given- lot of rush in college for events, original team was not there, made a new team ). Internship - current virtual

Comments , if any	Intro - tech skills, novels- Agatha Christi. Why hire you- hard working,dedicated to the work, time management, sincere. Time management- before beginning the task, schedule. Achievement?- don't know ! Not anything great. Patience to finish the work - result orientation. Vijay - not completed on time, But i thought you are good at time managment. Lessons from failures- concentration issue. Inspiration - parents	Intro- 12th, AIT, problem solving, geo politics, current affairs,. ENTC engineer?- didn't choose ENTC. Why CS?- what scope?- in this college- 90% of this branch gets placed from ENTC. Confident that you will get through the job?- if you don't?- not thought of . I am clear I will get through it. Seniors also help. You said it is not poss to reject you?- companies only look for tech skills, have done lot of problem solving in those areas, I have good comm skills, hard working , dedication, determination . These 3 qualities were Give me an eg where you had to show these qualities- in college example. Regret?- many- accomplishment - IIT, SSB cleared but not in medicals. Things change with time. Now options are diferent- 12 lacs spent here. CDS is still there. Job vs CDS?- then aiming to get in the exam. Attractive about those jobs?- my family was there. Smart work vs hard work - cant achieve smart work without hard work. Flaws?-. Good attitude ! Internship - Just a virtual one. portfolio website. front end.back end. ( need to mention take aways). Maharashtra politics- Congress was in power with some regional party ( mention the party. It is a very important party here). (

Comments , if any	Intro- Internship trainee like projects ..., tech skills, internship explained in details in the intro. Strength are :- self motivated, hard working. Weakness - little bit emotional. So whats the problem with being emotional?- it can make you off balance. Are you working on it?- yes. ( explain how in all answers). I have to make myself understand that we cant get success in everything. Failure- questions could not be solved, then the ones I did not know I prepared a lot. Why hire you?- working in a start up, how to do team work, ins and outs of industry, have to deal with clients, time management, discipline. How do we manage time better?- proper planning for it, its impact, practicality of it, talk to our team members. Team challenges?- basic problems like understanding, discussed with team, be transparent	Intro - tech skills, internship, video games and sketching. Video games skills - can be a waste of time but I use them to be consistent. Have to play the games and clear it. Its always in the story- the main player is doing some thing int he story ( mention the skills developed). Learning 3 D modelling- super ! . Is it good to be an engineer in India?- from parents perspective it is a good thing as everyone wants you to be an engineer, problem solving stable job. Begineers luck or effort?- Maybe both. Businessmen?- Founder of Reliance. Internship- take away should be mentioned proactively. How the corporate works , freedom

Comments , if any	Intro-tech skills, internship, problem statement, projects, ranks in contests, travelling, reading, writing blogs. Wrting on javascript and coding problems. New tech?- web 3 series, cryptocurrency- decentralised. Whats your career path- applying for coding, I wasnt able to get the branch of CS, trying to perform for both of them. Regret?- NIT, IIT. What would have happened more in IIT than AIT?- just the brand name, tons of opportunity, in AIT, have to apply to colleges outside campus. How would people describe you?- truthful and helpful. WHY hire you?- discipline, punctual, likes to follow rules, good team worker and coding skills. Why good team worker- participated in many hackatons, like working in teams, like minded people and working towards the same goals. Team challenge?- try to motivate them, as much as work that can be done by them. Learning-motivation, discipline, little work daily. Internship details mentioned well	Tech skills only in intro. ( incomplete), then mentioned football , chess. Why engineering?- parents chose. Right now I liked it. What is attractive about it- coding and making products that affect billions of people- ( always give examples)- software examples. Weakness - cant say ano , cant start a conversation. So corporate life would be difficult right?- I am flexible and trying to make myself better. ( mention how are you working on it)- focus on little things that will make a difference. Toughest thing- IIT. Apart from that, nothing is tough- do it regularly and you can do it regularly. Learning?- best way - motivate yourself - inspires you- then you have motivation - then discipline and patience. Only 1 offer in internship- ( mention the start date). ( need more energy and more substantial and detailed answers)

Comments , if any	Intro- tech skills, running, singing, mimicry. Why hire you?- programming languages, done a project- paused and then mentioned. Curious to learn more, perfect to be a fresher in any company, devotee of Hanumanji. Achievement - that you are really proud of. Scholarship is on 12th basis. J & K - scholarship. What are you really proud about- no one in my village is going to another city. I am the one. How are you finding Pune-didnt understand the question. Why did you choose engineering?- wanted to go in Army background. But, I had not cleared my NDA exam. Engineering is good for me if you are not in Army. CDS exam after engineering. Time management - just make a schedule . Amandeep's answers has to have substance. Currently that is missing. He needs to be trained.	Intro- (Speak loudly and clearly. Needs more expressions and energy while speaking)Tech skills mentioned, hobbies- kabaddi, several sports. Team challenges- how to execute the plan, how do you resolve- patient, How do you achieve the patience- 2 short breaks, how you can achieve the goal. When did you achieve the goal- sports. When things dont go your way- take a break and think about it, everything happens for a good cause. What negative thing has happened that happned for a good cause?- cant recall. Internship - details and take aways have to be mentioned, how to divide the work,

Comments , if any	Intro- tech skills, hobbies- songs, badminton, kabaddi, projects, internship ( speak louder and clearer), NSS Member, Scholarship. It means you are a good student. How do you study better- follow the schedule, easily manage the time ( better answer). How do you manage your time - 2 or 3 days in advance for all the exams. ( better answer needed). Failure- unpaid intern. Good at web development which is paid. Then why are you interning at Bharat - college requirement. No internship - responsibility of the student and college. ( voice has to be louder and clearer. He is speaking within himself). Why engineering ?- placements and jobs. In govt jobs, there is lot of struggle. Why hire you?- easily convince people, leadership quality, doing work on time. 3 important skills - good at communication. ( Sunil has to work on his answers from scratch, on his energy, and his communication)	Intro- speed of speech should be slower. Intro is good. ( eye contact has to be better). Chess and swimming. Skills ?- analytical thinking and critical thinking. When have you felt unhealthy?- when I had jaundice. Unhealthy- phase of depression- coping up with that. Kept reminding myself that this too shall pass. No more risks anymore. Achievement - this one has to be the biggest- recovering. Team challenge answer could be better. Discipline answer- could be more detailed. Bharat Pay - internship

Comments , if any	Intro- solving problems in DSA, projects mentioned, running, swimming, spending time in gym, cricket, helped me in developing in discipline and being active through out the day. That's all- Daily schedule explained. Major distractions that you face as a college student?-1st day I bunked and spent night on Dighi Hills. On that day, I took drugs then. How did you decide that you should not consume anymore?- the realisation that it will decrease my health, I am physically fit anyways. Are you angry with the person who gave you?- No, Its my choice. I wanted to do one thing once. Have you been failure for someone else's failure like a group task?- None. What is missing in your life?- Placement, Currently I am giving less time in my studies than physical activities. ANy suggestions for education system?- I am satisfied. If you do somethingm it will pay off someway or the other. Teachers create pressure and this will help us in corporate as the boss will create pressure. Not watched shark tank. Weakpoints?- now I have lack of experience in software and hardware skills. SSB - kick out- so I think my communication skills must be poor. ( dont say kick out). Why english is needed for army?- why cant we develop it later?- Jo badme karna	Intro-( don't read the intro), Nicely mentioned intro but make it sound natural, internship, projects, new places, trekking. Internship details- Miami Pvt Ltd, machine learning intern, project mentioned by me was made by me individually, others was email recognising model ( speed of speech should be quicker). What do you like about field of engineering? Whats attractive- ENTC is a unique field, core electronics, telecommunication and software skills together, new ideas, more opportunities here. Do you see hope for engineers in India?- Hope for quality engineers is there since we have to add value to our society. Tech advancement?- not able to recall...I gave time ( He needs to think quick and mention beyond his internship details) ( energy and active answers and speed of speech has to be faster). Regrets- none. Life is fine. Weakpoints - If I am working in a group, if i have to delegate tasks, I get hesitant while delegating my work, will he able to complete it or not. If I am equally enthusiast or will he do it ....waht do you do ?- then I ensure which part I am delegating to and do majority of the work

Comments , if any	Intro - ( slow down the rate of speech), AIT, Football event heads, Akriti, ( don't read the ans), DSA problems, C++, every sports, listening music, movies, Football videos, learn new things- comm skills working. How are you working on your communication skills?- lack of confidence in english , learn english and improve vocabulary, ( insisted on giving more details) read books , speak in english with friends. How do I play all sports?- pick one sport which you can do, then do anything just go to the ground, dont feel ashamed, just playing, by playing only you can learn, only rules wont help, dont have to visit any site. How do we analyse where we are going wrong- make friends on the field and they can coach them, when I am on ground I focus on ground, stamina problems - proper diet schedule. How do you discipline your life- make a schedule for my day. ( More details needed) ( Gajender is street smart, quick learner, he can interpret questions well, he has clarity, he wants to be better which is good. English is slightly weak but not so bad either). Studies is boring right?- initially lot of issues, now I started it is easy, earlier I thought it would be hard. Self learnt or asked help?- Took help and	Intro- tech skills, gym secretary, currently handling 100 plus students - guiding on work out, behaviour issue,. What challenges do you face while handling these students- challenges have never come up yet, sometimes they behave aggressive. I try to teach them good things, how to behave with seniors, now open for all. Why are some people troubled-delay in work out, they get rude. HOW do you keep yourself patience and maintain your dignity- understand the problem, listen to both sides and sort out. Gym issue explained well, but the issue is going on- Sir has decided it should be open for all- work out should be done only for 45 min. Why did you not think about it?- That day JD sir came for round, they saw Sir and complained about it. I was asked and I explained everything. JD Sir agreed. Weakness- talking to unknown people, time management. Does your work get delayed?- I schedule for the next day. sometimes meetings get delayed- gym paper making things. Why engineering?- Coding was interesting, 1st year pandemic- not doing much. 2nd year- took time to exploring things in college. Alternative career?- for a

Comments , if any	Intro- AIT, extra curriculum, Projects - water level, home security, organised the events, love travelling, cycling, hiking. Other projects mentioned. Why engineer?- how the interaction of things happen. Seeing clock- why is there a 12 digit allotted to it. Was good at a few subjects. Authors. Choice was PCM. Electronics because- tangible things. Made alot of projects and very happy ( good). Are you nervous about not getting a job- I am actually nervous about not doing anything in my spare time. I am confident about my alumni and honed my skills. They have confirmed that they will give internship or make a partner. AIT - networking and how to organise. Bad point - change takes time in AIT ( Ayush has good conversational skills, confidence, body language and has clarity. ) Why should we hire you?- taken lead in important discussions, event based on stock market, worked on technical department, avid learning skills-lead the team. What challenges have you faced while leading a group of people?- Bonding was tough. How did you bond?- created whatsapp group, conveyed the message, concept of mentor, story, permeations required. Qualities of a good engineer?-	Intro- Tech skills, projects, currently working on food recipe website, one of the board of members of Rotaract, Kabbaddi event head, sketches, watches anime and read manga. Books too - Mythological - Immortals of Meluha. Challenges?- kabaddi not too many participants- managing this is not so difficult. Rotaract- making everyone participate is tough. Those who are free we allow them and those who are not free we let them go. Team - 1 member has to manage 5 to 10 juniors. Had to explain what challenges are faced in a team- no challenges faced. Weakpoints?-time management- could not complete any task I scheduled in my calendar -s omething comes up and it never happens.

Comments , if any	Intro-AIT, learnt many skills- tech skills, ( can speak slow), ( eye contact can be steady), don't have leadership quality but can work with team, omnivert ( good one), care for others, also mentioned weakness proactively. Why? - got distracted in college, inconsistency, joined the gym for 2 months- took a break for exams and schedule got disturbed. Khiladi name?- do you love the name- I used to feel awkward- I love the name now. Achievement- sports - play kabaddi ( can say that in intro- can work in a team) ( can work in team was used to repeat multiple times). Why should we hire you- can work in a team ( incomplete ans), blending myself with others, time management skills - ? onlymake a schedule ( incomplete ans), pushed to mention this ans in details- 2 hour I will work and 2 hours I will have fun. Current affairs?- not interested in football. ( dont say that). Internship answer has to be explained in details proactively. ( Khiladi needs training for interviews)	Intro- Tech skills, Internship, cricket, dance, goal is to join defence forces. Why in defence?- Engineering is just a back up ( don't say that in the corporate interview). What is the attraction?- the attraction is the uniform. IT sector does not have a field job. Army- future is the secure. 2nd priority is govt jobs. I got rejected in SSB. Why did you get rejected - comm skills and physical strength. What exacty in comm skills- gyms, waking exercises and all. When were you really scared?- MOther was ill. bedrest of 2 years. Father is in army. Managed the home - learnt social skills with relatives, grocery, mopping, cleaning, patience. Weakpoints?- communication skills. Advice to upcoming engineers?- multitasker. Are you a multitasker- yes- doing a lot of things. ( Ayush needs to give specific and detailed and relevant answers). Internship answer was too short. I had to push him a lot in every sentence to know more

Comments , if any	<p>Intro- AIT, secretary - innovation and entrepreneurship, managing a team- leadership, tech activities- android dev, ( speak slow , breathe and take a pause), reason to choose engineering- childhood wanted to solve problems using coding skills, coding skills. Do you need to be engineer to do coding?- if you have resources online, then its ok. But if not, then we need engineering. ( Good confidence, good communication and good body language, explains answers well ) ( engineering answer can be better) Why attend mock interviews - respect TPO sir, it is open for all students, what all skills I am lacking and good. What does Samik mean. Sub skills of leadership skills?-communication, time management, team management, people skills. How can we manage our time better?- Pareto principle - 80 /20. ( Samik has common sense ). Internship- done in various domains- explained well. What kind of a leader are you- calm and doesnt scream, why do people listen to you- they respect me and I dont misbehave with anyone. What qualities of a good engineer and do you have them?- engineer - intermediate level but coding in a good level . ( Mention the human qualities ).</p>	<p>Intro- AIT, captain of TT, leadership skills, tech skills, learning for placement purpose- data structures. Is being an ENTC engineer not enough for placement- but companies that come to our college- above 10 to 12 lacs-specific companies. leadership - TT is a calm game, have to manage 10 to 15 people for practice ( need more details). ANY more avenues where you had to display the leadership skills?- Akriti- Diwali- example- managed people, practice. Is it AIT culture that is supportive or your skill - both ( smart ). ( Vaibhav smiles and talks) Weakness - cant say a no, communication is poor. How is it poss if communication is poor and leadership is good- because it is in hindi. Internship?- Bharat Intern- web dev- gaining experience so that I can go for front end. Judges of Shark Tank - Ashneer Grover- Bharat Pay, Aman Gupta-Boat, Piyush Bansal- Lenskart, Mama Earth and Pharmaceutical. Mentioned the ladies names</p>

Comments , if any	<p>Intro- Location, school, high school, decent marks, Current score is not that good in AIT but it is decent, ( what is decent, dont use such words) core skill- basically the front end part, did some projects and some internships as well, hobbies - reading books and drawing. Books?- Autobiographies and fiction. Name of the books and authors- Ria Kazan Film director in 50s. Why did you choose this book?- interest in classic movies. Front end work learning?- not teaching in college. Friend was doing a hobby and I got interested and I used to monitor. He taught me and send some resources to learn that. Learning - 2 years. It doesnt take much time 6 to 7 months. Relaxed during the interview. Rajan can have more energy. He has substantial info but needs to be coaxed for it. Confidence has to be built. Weakpoints?- body language, weak communication, low confidence. - body language- eye contact- in real life cant look in the eye- awkward- not that extreme ( when provoked, he blurts out good answers but it has to be proactive). Nervous about trying out new things- new places, new people but not scared with academics. ( you must</p>	<p>Intro- myself ( wrong grammar), tech skills, projects based on algorithm ( don't look up while thinking). (The intro was incomplete.)Strength- honest with my work, football so team spirit - under 14 national level football player, I am a responsibility and if mistakes are done I take responsibility. ( didnt have to mention mistakes). If no one willing to take a project, I start working on it myself and inspire my team. I divide the team work in different parts. Can I give eg- IOT- (the example was explained very well. ) ( you can mention proactiveness and work delegation and know my team members) ( In strength you must mention these points that I have noted down instead of just honesty and regular points first) Weakpoints- trust people easily and cant say no to people. Working on it- how?- I am analysing myself, where all I should have said a no. ( Rohit is genuine, sincere, sensible and understands his role. Team leadership answer was very good). Regret?- JEE score could have been better- IIT- how would your life change if you would have gotten through IIT?- What can IIT give that AIT cant?- campus placements</p>

Comments , if any	<p>Intro-location, parents, school and college, JEE rank, AIT merit number 82 ONLY? Why only. Music and playing games, aim is to get a good job, badminton- team work and hard working. Team work example- proactively mention specific example. Finally mentioned delegation. Strength - team leader, not afraid of trying new things, manage work very well, group leader or manager- experience. New things?- android development-need to learn another language. If you dont get through the job?- focus on what can I do more. Try some exams. Why ENTC?- Firstly I got mechanical and then I upgraded ( dont say upgrade. It means mech is inferior). ENTC - software and hardware and opportunity can increase due to vast field. Being an engineer, curiosity to learn more devices and different projects. ( Say this before you talk about placements). So are you happy now&gt;- He took some time to say yes and infact did not say a yes. YOU have to study all equipments. Mostly mixed feelings. Weakpoints?- work under pressure. ( keep your mobile silent). Akhil has to develop the sensibility towards expected answers, he has a very traditional approach to answers, intro was irrelevant. Akhil needs</p>	<p>Intro- volleyball and cybergame, good in web dev, DSA. ( Intro is traditional and incomplete) Strength- he is thinking about it, pure API creation helpful in back end, patience, calm, responsible person, play volleyball- can manage team and leadership. Patience is a born skill. It is my weakness too. Why should we hire you?- projects and internship, all strength mentioned above ( you can repeat it). Projects explained. Good confidence and body language. (Smiling and talking.) I used to play volleyball - galli ka volleyball. UP culture and Maharashtra- only vada pav here. ( He has good energy). In 50 Rs , you can have full stomach food. ENTC chose you. I didnt choose. I didnt have a choice. I dont like ENTC. But I can tell advantages - can make new devices, research in ENTC , MTech- you will reduce the time - by 1 microsecond and 1 nanosecond- all processors can speed up- excellent. ( Dont say I dont like it). Also the answer I dont like football but I can tell you who won. ( I am loving the attitude of knowing the current affairs and also the answer on scope of ENTC was fabulous)( He has common sense but</p>

Comments , if any	<p>Intro- a passionate undergraduate, deep interest in tech skills mentioned, internship mentioned - highlights too, Akriti club, hobbies- singing, consistency, hard work and correct direction can lead you to goal. Goal is to be a successful engineer and contribute to society to make a difference. How do engineers make a difference?- all in society including the engineers work, data structures, data in the new oil, economic growth , software engineering, cars, era from humans ( mic needs to be adjusted. ) Sung well. ( Tejaswini has good body language, good communication skills, her choice of words are apt, but her answers need to be timed, she has the presence of mind and she is disciplined and result oriented, she is spontaneous and sincere). Team struggle- mindset of people, lack of interest, irregularity of the work has been a problem to me. (She mentioned about tackling proactively- set the expectation clearly at the start, regular check up and check points). Have you tried to understand their side- both cases- excuses and some are problems- explain a situation specifically like you said later - 3 days hectic schedule. Weakness?- during conflicts, I analyse the situation and speak later. How do</p>	<p>Intro- Schooling, location, AIT, hobbies- travelling, squash, gymming, spiritual - 3 hours. That's all. What exactly do you do in spirituality- 5.30 to 6.30- Hanuman Chalisa, Bajrang Bang and Hanuman Ashtang. Even go to temple on tue at 7.30, 1 hour - bhajans. How has it grown your personality- initially not an extrovert person, was not used to taking initiative, but now there was a power pushing me to wards the work, calmness, miracles happened, results that came right now I had not studied well for it - got good marks ( dont say the last point), also 2 to 3 incidents that happened- got the leave. If you get the job, who would you credit- Hanumanji helps people who helps people who help themselves, I believe in luck factor a lot, people get jobs who didnt prepare well too, luck depends on Karma. Any weakpoint?- lack in group discussions, not able to represent myself in a noticeable way- working upon that- projects - taking initiative. What people challenges have you faced while working in projects?- lack of communication, not taken seriously by students, convincing people is tough, mindset difference. Explain how you sort the situation well. - gather all people</p>

Comments , if any	Intro-location, school, tech skills. Strength-finish work in given time, hard working. Time management- time table, give buffer. Hobbies- used to play chess, touch typing. Why used to?- After specific time, a threshold is reached. I play chess still. In 2nd year I used to type. Where do you see yourself a few years from now?- working in MNC learning something new and something that I am interested in. I am interested in knowing about new tech, problem solving . Tech advancement- chatpgp. ( better answer). Dhiraj has to improve his confidence and his voice and expressions can have more energy. . Why engineer?- maths and physics. What is great about ENTC?- Hardware and software- how is it interesting to you- he needs to proactively answer. First year I was in mechanical. Hard work vs Smart work - I prefer hard work because I am not smart enough. Why do you think you are not smart?- I think it everyday. You need to grow more ( say that . use it correctly ). Internship details need to be given proactively. It is not paid ( why mention that). Internship are helpful only if it is in your domain or not helpful. Regrets?- no regrets or lot of regrets-	Intro- creative inspired student, aims to get more cognition on upcoming technologies, work on myself, uplift women in the technological sector, Bihar, JEE percentile, school, Bihar repeated. Competitive exams in Bihar why?- assumed we are illiterate and so they go for govt jobs, they have fire within themselves, they want to hold a position. She smiles and talks but looks up and thinks ( should avoid). Tech advancement - quantum computing- has not changed the world yet- but it will- internship I will try to apply-in MCT. Quantum computing in layman's language. Divyanga has good communication and good body language. Uplift woman - gender ratio- 1:10- I believe that peers are not supportive to women. I do believe that. They treat you as you dont know that much. ( Eye contact has to be better. Generally looking up and dazed while talking). ( She loves to explain but the answer needs to be timed). Internship explained well. 2nd internship - start up, small company, paid - did it just for the money. So I asked that the small company paid?- that was a catch on what should not have been said. Team challenge- no enthusiasm for new stuff, opt for something easier. there is nothing else you can tell them.

Comments , if any	Intro- school and high school, ( not required), fortunately or unfortunately in ENTC, wanted CS or IT, after spending some time I liked it. ( marks not necessary to be mentioned), what do you like about ENTC - teachers are sweet, time for extra curriculum activities can be developed in ENTC. Job?- in developers job. How are you grooming yourself for that- I solve questions. Internship?- Microsoft engage mentee- mention the experience proactively- you get to know what all you dont know ( Mayank has the potential but needs direction and handholding for training) Mention specifically what all did you not know- back end dev, problem solving ability was not upto the mark. How does a good performer learn differently from an average performer?- different IQs, keeping it aside, next is discipline and hard work, they believe they will manage when the time comes ( the interview got better as he was provoked to speak and there were more questions. However he needs to speak proactively and more deeply. He has to know what he shouldnt be speaking. Answers need to have more substance). AIT - Alumni is good, growth environment. 236gth?- Weakness- procrastinate, inferiority complex	Intro- location, hobbies- chess, discovered gym- addictive, free time- watch movies, series, reading a book - don't actually enjoy reading books, skills- coding, competitive programming, c++. Chess fascination?- just 16 pieces each side and millions of moves, watching chess streamers, predict the opponent's moves and play accordingly. Series- Thrill drama and Skifi. Watching U. Weakpoints?- not that social, shy at first but open up when I am comfortable, procrastination- working on it. It doesnt really matter because I give stuff before deadlines. Procrastination working on it- gym - discipline 1.5 hour and good sleep schedule plus study for 4 hours. Internship- basically unpaid , just have to give a ppt and project ( dont say it like it doesnt have any value), start up. What kind of people irritate you?- kind of smart enough. I dont make team with people I dont like, people who know nothing but show off. Corporate world has people like that. How will you deal?- talking about the job, I will adapt. Why are you not doing it right now?- I dont attract such people and its all about vibes. Proud about?- disciplined life, gym has impacted me, see progress in your body,

Comments , if any	<p>Intro- location, techno enthusiast and adventure lover, tech skills, secretary of R&amp;D, Squash game. Girls have tried but they are not able to grasp. Is it challenging or boring?- girls have more options to play. Squash has only 2 courts- Squash is very expensive game. What has squash taught you?- Smiled and answer- I can play it alone, progress it alone, energy consumption game, Good energy, good enthusiasm. Its an observation - why are girls not entering army?- especially from AIT, ration of women to men is less- sex ratio was used as answer, upbringing culture, indulge in safe measures, health issues ( smart and sensible answer and tangent answer too). I can contribute intellectually is what girls think. As for me, I love the aura. What adventures have you done?- trekking and roaming places alone. ( smiling a lot with this answer.) SOlo trip - no compromise with anyone. I dont want to listen to anyone and no one has to tell me. Let them go wrong and I will learn. Not taking any predefined inputs. I know ancestor have great deal of knowledge but at some time , you have to be blank and fill it. Team compromise?- Even if I promote a solo trip, organising a team</p>	<p>Intro-location, school, music, trading, Sports- health point of view. Eye contact has to be better. Tech and soft skills?- Sports- football but did not know who won the FIFA. Strength - positive attitude, people connect, learn from seniors. What have you learnt from seniors- they have experience and they teach me a lot. Internship details can be proactiely. How did you manage internship when others didnt- I created a network, fans, seniors, network, message seniors in linkedin. Chess - strategic planning, helps in life too, in class 12 I was disturbed medical problems - had 2.5 months to manage JEE and 12th std exams, prof guided me how to study efficiently. How do we study efficiently- study new things in morning, take a 1 hour break, revise previous things during the day, study 8 hours and I used to go to park and enjoy too. ( can use this as an example for die hard spirit and your achievement answer. Also the body language was superb in this answer. Smiling, confident and relaxed). Are you still disciplined?- not happening in college.Working on it. If you had 1 wish- what would you wish for- I would wish to</p>

Comments , if any	Intro - tech skills mentioned, various projects , 3rd position in a contest and won cash prize of 500, cricket team won matches, won against MIT, semi finalists. ( can speak with pride and energy). Cash prize of 2500. How do you keep winning- many ups and down, team members are motivated, forming a team with busy people is a challenging task, if you have done rightly you are a good leader. My initial question was how do you keep winning not about the initial challenge of forming a team. I give my personal example of my life- cricket and academics, they can relate to it, tips like time management, for winning - show more interest in it, tell them their weakness and work on it ( eye contact can be better) ( dont give up on the ans. Think and ask for time and respond). Weakness - I overthink. Example - one is doing balling, how to place the players, what kind of balling he has to do ( I am confused what to do ). Internship role and responsibilities and take away should be mentioned. How can you manage time better?- make a schedule and work on it, if I do complete, then I put that work for	Intro - tech aspirant, solve prob using tech, web dev, IOT, embedded part, taste of various tech and how they solve common people prob, music, badminton, not a very good at it but love it. Which problems are we solving?- utmost problems- handicapped people have become independent, Google assistant, online teams meeting, any out of the way advancement?-earlier prosthetic hands were mechanical. Nowadays it is bioelectric- muscular and automation. Microsoft engage mentee - explained well- research based approach and product based approach- research based go more into tech. Product based - c customer satisfaction, time efficiency, if something ready made is available then go ahead, create something, manage it in a way that customers feel comfortable using it. Where do you see yourself few years from now?- I am far away - why ( she seems to be analytical and self introspective). Process of selecting web dev and participating into multi activities was a good ans- blue tooth controlled car- small projects, workshops on IOT. Answers need to be timed to 2.5 min.

Comments , if any	<p>Intro- want to join as a web dev as worked with languages..., Internship at the post of ( don't say post), cleared exam, liked to read spiritual books and TT . Spirituality learning - be patient, consistent hard work, don't give up. What is the method?- Whatever happens today - Karma. We might not get what we want but we can create our own destiny. Mar 6- Results- qualified for it- when did you forge ahead against all odds. How did you do that?- created a schedule . 8 to 4 college, 1 hour sports, 9 pm to 2 am - studying. Weekends- study hours - 10 hours per day 2 hours each. Ashamed of self?- never but little disappointed but put hard work. Still not achieved- smiles and says JEE. What is the fascination about IIT?- What happens in IIT which does not happen in AIT?- bright minds, compete with their level, here very few are like that. Internship details given. Why engineer and why ENTC?- father is an engineer and how new technologies are developing, I wanted to join CS. But because of low percentile, so ENTC, but now thats fascinating too. Weakpoing- bad at saying no to anyone, but sometimes it helps me, I get opportunity to learn new things.</p>	<p>Intro-location , school, tech skills- various activities, projects- music website. College kabaddi team, branch head of ENTC, sketching, cycling and kabaddi. Abhishek can have more energy and can smile sometimes. What challenges have you faced as a captain and how have you resolved them?- Many times the player was not present. Archit- dont mention his name. We managed to win without him. MOtivation. My question was how are you grooming the rest without the best person. ( mention the skills apart from motivation) . Why have you taken so many responsibilities- I am an introver and not confident to choose in front of people. NOt fully but little confidence has developed. Taken a meet of 120 juniors and given them description of things. How did you get so brave?- friends. 120 cant be friends. So what do friends tell you to push your limits?- this is your opportunity. Anything to change in yourself?- english. How are you improving?- English movies, write down the words and find out the meaning. Parents- nothing to improve. Internship details- given. No friends or family in</p>

Comments , if any	Intro- web dev, creative writing, squash, why ENTC- tv curiosity, how does it work. Web dev is easy. Don't say it like that. Don't look up and talk. Web dev is also creative and interesting. Squash- active game, only 30 min of 100% active. Cricket is passive especially fielders. Every second matters. It is good if you have less time and burn more. Wasted my time?- drop out student. I got AIT in my first attempt. Went to Kota and lagged in prep. When I analysed that, wasted that year. Team members also lagged in a few things, other team members managed that. All projects were submitted on time. Project based learning- did others who didnt work get marks too?- Those students were not that much keen and they got marks but not as much as we got. If teacher would have given same marks to all, I would take positively. I dont want negative effect on me. I am happy that 3 out of 5 were able to complete the project. I did more work because someone did less work. Sad about all getting marks. I learnt more things. Sandeep is street smart and the grit to learn. Learning?- Most successful Olympian- hard work and consistency- not the number 1 but will be good. Your strength, positive perspective	Intro- Greetings and thanking. Location, High school, Internship mentioned, describe myself as competitive, patient, honest. Interests are outdoor games, new tech. Short term goal- well known organisation and apply my skills, long term - lead position and give back to society. Tips to have paitience?- when things are not going my way- I focus on what I can control, I try to convince myself that they are not in my hands, I practice it everyday. In daily life we have many situations- working in a project, group member has not completed. If people take advantage, you have to set the boundaries. How did you finally get the work done- case to case basis-explain the particular situation. Internship - 10 March- learning, time priority, classes and exams and internship, work hard. Explain the role in android dev. A competitive person always has to be ahead of others, always has to know more than others. I compete with myself for satisfaction. If we compete with others, we would be dissatisfied. Weakness procrastination, life was controlling me, decison making has gotten better. Any critical decision making ?- College was good but not the right branch. Wait for 1 year and now I have taken ENTC latest technologies that are

Comments , if any	<p>Intro - AIT, Hobbies- voluntaries and organising events, bicycling, technical skills, essay writing- research projects, burglar alarm, web dev project, NCC cadet, voluntary org, joint sec of 2 clubs- fine arts and NSS, tech skills ? Sequence of skills has to be correct. Human qualities for a research person- good knowledge, take seniors , ready with all the facts and figures, will and patience. Do you have the will and patience?-yes. Essay?- too much a smart phone addict- weakness ( can use that in weakness answer)- make a new hobby- take a small diary and write anything- life-who gave you this idea- prime reason is I am a defence aspirant- SSB- write different stories what and why we are doing. Then why corp?- main aim is defence only. I have tried. I need a back up plan. When have you failed yourself?- I was waiting for this question- whole book written on failures. Vikas is always genuinely smiling and answering. Failures- recent coding rounds, competitive exams. Reasons for failures?- lot of reasons- not doing when the time calls, you have to give 100% and not give 90%, learn from your mistakes, have to see all the possibilities and make amendment to</p>	<p>Intro- voice can be louder and clearer, tech skills, govt soft or software dev - not sure. Avid learner. Learning? Learning web dev. Due to exam, I had to stop that. I am following courses, youtube channels. Could have mentioned the method in details to be a good learner. ENTC - no choice- software and hardware.Internship- 1 month, unpaid ( dont say that), develop a website, company name. Explain your role more and be proud and excited- 10 March- How has the experience been so far?- scheduling time, do other things also. Give more specific answer. Generally how do you manage time?- Have a diary. Give more detailed and methodological answer. Achievement proud about?- keep this answer ready. You shouldnt be thinking. IN 10th, science olympiad winner. - first time winner for me. What does it take to keep winning?- consistency. More detailed answer. Consistency?- reward himself, cheat day., keep him motivated. Weakpoints- Self confidence is low and social skills are low because of competitve exams and all. Ayush is smiling and answering. Thats good. Qualities of a very good social skilled person? bring optimism</p>

Comments , if any	<p>Intro- AIT, hobbies- searching on new technologies, want to be a software dev- then why did you take ENTC- I didn't get it-are you enjoying ENTC- theory I enjoy but not practical. I love coding . Imagine a world without coding, what is boring about ENTC. How do you manage to get a decent score if you are not interested in the subject?- I learn to concepts even if you are not interested. What do you like about AIT?- Culture and AIT has good placement records. Why engineering?- I used to love computers. What stresses you?-When I cant achieve what I set up for. When was the last time this happened?- Internship for Microsoft- rejected. I have done internship in small scale company - It is Australian company. Blue Bricks - IT service company - AIT is the founder- I am happy but. paid internship. Vikram Sareen. It was a mixed experience. I worked on AI based identity verification system. It was sold to Malaysia. That will be used in the real world. What are you sad about?- work culture, they were expecting more. Less interaction. Fully MD and direct interns and no senior</p>	<p>Intro-AIT, interest is in web dev and full stack, back end - react, node-node js site, mozilla web, javatpoint, Internship - technical writer. Why ENTC?- low score- Comp science- more marks- you can change your branch in 2nd year. But I could not. But I am enjoying this now. When are you studying back end when college life is so hectic?- I already knew it before college. ENTC- first experience- hardware experience- coding was my first priority. What is your source of happiness?- family and friends. In corpo world, its so hectic, you wont see family and friends?- I will get happiness from coding. Money is not that important and looking for satisfaction. I will be learning from colleagues and they will be giving good idea about how to go on with life. How do people see you- good person. Intelligent person sub parts- communication skills, body language, behaviour, if you ask more you would know. ABhay- when were you scared and when were you fearless-Going late - teacher will scold- but I still go. Between 2 offers- I will stay in the company where I am ok with colleagues. If not, then I will go with the higher pay. If the 2nd company is not that high pay, I will stay back here- I have committed , I will negotiate. ( dont say 10,000</p>

Comments , if any	<p>Intro- focussed on dev my skills- coursera- tech skills mentioned- internship- team work and leadership skills. Walk- work life balance and badminton. Abrupt ending. Leadership- sub skills- listening, organised, what are the specific skills each team member is good about, daily updates, set up an example. Any leader who has inspired you?- Sudha Murthy- She is now the chairperson of Infosys. Hackathon- team of 4 members- no one was able to take that lead- I took the lead. I came up with few ideas. Held online meetings with them- how to work- we achieved- it was definitely great start. Any downfall ?- 3rd year exam- individually- I believe in myself- I didnt score well. Is ENTC your first choice?- I am a migrated student from Bhartiya Vidyapeeth-comp. Applied in AIT - 2nd year- Tough decision-wanted to do software dev- AIT has good placement records and good culture. Sanika has common sense, sensible answers. Latest dev?- computer tech, phone network and anything- need a better answer. Online banking system, online education system. GDP?- does not know. Weak points- not consistent maintaining physical fitness and only studying. Sanika has common sense, her answers are deep and sensible. Can't be</p>	<p>Intro- front end dev, intermediate proficiency, tech skills mentioned, worked on couple of projects over 1 year, active part in club events or interbranch events, 3rd year- innovation and entrepreneurship cell, sports- racket games, movies, songs, podcast. Which podcasting?- Dark net diaries-cyber security. Front end - free on youtube- next years. Learning?- documentation, videos, youtube channels, freecodecamp website. How do you get this confidence from by learning from youtube and no certificate?- if you have something to back, then you dont require this certificate. I am working on portfolio website where I have worked on some projects. Portfolio website is an elaborative resume-URL- individual would know the technologies that I have worked on. Applicant tracking system- key words in your resume. If you are unemployed - I would be disheartened, and then get hold of myself, upskilling myself, can go into freelancing, resume value addition. ENTC was my first choice- reason being- really early age- dismantling electronic stuff, what components are responsible for - currently not actively studying electronics. Then why</p>

Comments , if any	<p>Intro was traditional- school, location, grades are not important. Why engineering?- good in maths- then engineering, daughter is good in science then doctor. Traditional answer. Are you settled right now?-Yes. Parents had pressurised but it was a good pressure. So right now what is interesting in ENTC?- in assignments and attendance it is not as good as CS. But what do you find interesting in it?- small story- before speaking in hindi, ask permission and then continue. One good thing that developed in me that I used to dismantle ( use this toy) and then see. What are the inside things of programming. Tech dev?-asked to repeat that question was good. Development of myself? It has developed consistency. Didn't understand that ans. How did the world change because of engineering?- it changed the world in a slightly good way and bad way. I can explain it through the example. At the age of 3, I used Nokia 2626 but no technologies but I use smart phone. It reduces our strength and sight power ( matlab- this word in hindi is used). people connect has reduced. Strength- consistent, hard work, saying no politely, I will work under any condition. How are you so consistent?- I wasn't consistent before. I now follow a timetable. Make a timetable daily not for a month. Story. Roushan is good at giving examples and story telling. Overthinking irritates</p>	<p>Intro- family and sibling, location, hobbies- music. Feeling relaxed - music. ENTC - preferred comp and IT. Do you see a scope in ENTC?- here equipments are not nice and there is no dev. All people are studying for comp and IT. What are you studying?- Web dev. If mech had more jobs and no jobs in ENTC, Comp and IT- Then I would do further study. Dev?- Data science. What does it mean? I don't know. Data science is AI. Data of analytics. Suggestions of friends in facebook. Strength- if interested then you can work hard, passionate, dedicated. Faced some situations of poor dedication?- project- all the people were not interested. Only we both completed the project. Angry?- not angry but it's part of life. If similar people come, - assign small tasks to them. 2 offer letters?- will check growth of company, will speak to some employees, linkedin. Any weakpoint?- little shy, can't say no. Tough situation- covid time- exams used to be postponed repeatedly and I used to be frustrated again. I left the study. How do you organise yourself?- fix the time for particular work, break my slots and break my time.</p>

Comments , if any	Intro was good and complete. Data science. Singing. Why engineering?- initially I wanted to be a model. Brief idea about career to earn some good amount of money. From engineering you can enter into any field. Later on I realised it is my cup of tea. I am now interested. I found out diff tech- engineering is about solving problems. You have to come up with innovative and new ideas. How people are designing new tech. I read papers that are into new fields and I can be a part of this domain. Good communication skills and good body language. Hobbies changed personality?- Initially I needed some help. If I sit back and take a notebook and write it, if I cant come up with solution then I play basketball or read a short story or singing loudly and helps to calm down temper. Problem statement is not that bigger as I look into it again. What makes you lose temper ?- cloud of overthinking and expectations. Gave example of an assignment. Teacher didnt give full marks. I have learnt to be independent and you cant control others. You can control yourself. Buddha story- student who speaks a lot and says he is right. Buddha asked to take a resolution. Just be silent. head chatter.	Intro- web developer, problem solving, 2 projects - gym website, car racing game. Working on becoming full stack dev, books on Indian spirituality, helps me to develop perseverance, optimism, calmness, focus. Karmyog- present is result of past karma. Efforts of present will materialise in future- coding, lab practicals. Scores?- 8.5 and this time it was 7.5 need to work on it. Why ENTC?- Good in maths. PCM in 12th. JEE- as per score I got ENTC. Till 10th, I was interested in biology. I wanted computer science. Eye contact has to be better. Om Swamy is my inspiration- Rishikesh- disciplined man, multimillionaire person now a saint. At age 30, he became a monk. He is always state in bliss. What makes you calm?- everything is illusion or maya. Someone is rude to us. It is only sound vibration. I should not become angry because of sound vibration. Dont take mental stress for what is not real. Swamy - Mind Mysteries and control. - Swami SHivanand. How will you deal with people around you who will spoil it for you?- explain the benefits and then we can have party. I will complete it myself ( dont say that. Not good for team work). Weakness- struggling to wake up early at 3.15-you can do Kumbhak Pranayam- then you can wake up early. After waking at 3, study for 2 hours. What is your salary expectation?- 2 lacs per month. Anything less than that, you wont join right?-

Comments , if any	<p>Intro - nothing much specified, school. Why engineering ?- ( Gautam has to improve his communication. He needs to answer in details and in depth of the answer).</p> <p>Engineering tech - mobile, computer, AI.</p> <p>How has engineering changed the world ?- as you know it has changed the world- pros and cons mentioned. Sure about getting the job?- how are you working on it?- I was from mech but I had interested in cyber security. ( Gautam can be trained ). If you dont get through the job, what are your next steps?- I will be taking a drop and preparing for exams. If that also not happens, then I will work harder and find job in mechanical. Challenges faced by engineers?- clerical jobs too. Team challenges ?- I only did the ppt (delegation missing). Weak points - I stopped things in between even though initially I started well. ( Gautam has energy and drive but his answers need more finesse and he needs training for sure for right and wrong answers). Why are you the right fit?- atleast I try, self discipline is missing, but if someone tells me to do the job then I can work a lot.</p> <p>Internship learning - MS Excel, advise</p>	<p>Intro - Location, work experience mentioned, positions in college- secretary of radio club, rotaract. RJ, singing. Sing a song - ( he smiled and started). (Don't take too long to start singing ). Intro - tech skills , internship, soft skills? ( Adjust the camera from face to chest). Why engineering ?- good jobs, typical parents. Are you enjoying the profession ? yes . What excites you about engineering - tech, day to day, web dev. ( give more detailed ans and in depth ans). Why are you confident that you will get a job ?- Tech skills. ( Mention soft skills ). Soft skills ?- RJ . Team issues ?- explained and working as a coordinator. ( mention how did you convince them). We have to motivate them. ( mention specifics of convincing ). 1st year had difficulty in making posters, sit with them, help them. Regret?- was not serious about NDA but I was taking lightly and was focussing on JEE. But now I will be giving exams again. ( cant say this ). Inspiration - everyone in family is in armed forces. It is a legacy ( Prince has the potential but he needs to know the right from the wrong ans).</p>

Comments , if any	<p>Intro-location, poetries. ( Tech skills ? And other ans). Tech skills ?- C++. Projects - no. Internship- details need to be given and the future of automobile industry. Why engineer?- Innovation , Solar power plants, Electric vehicles, Solar refrigerators ( when asked about solar refrigerator, then he backed out and mentioned that in future we would have ) ( Aryan keeps pausing and having ) what would your alternative career be?- Weakness - communication skills, english. I hesitate. Regret?- Nothing big. Achievement - mentioned school achievement ( mention recent achievements as an adult). Strength- innovation, patience, punctuality. Patience - by doing meditation, by remembering the Lord, we should give 10 min of naam jap of the Lord. How is spiritual books helping you to be a better person - mysteries of life. If you don't get jobs, what would your next steps be?- prep for JEE exams.</p>	<p>Intro- (Only AIT mentioned and then when pushed, hobbies mentioned cricket and kabaddi. )How to play in different situations, calm, patience, think always win from any situation, teammate understanding - ( This answer was good ) Any failure?- many times, lost in local tournament. Lost due to everyone. Forgot to get our strength. Roles should have been delegated as per the strength ( Rajnish can answer well but need to be continuously nudged. ) Why mech engineering ?- design of vehicles. Are you sure of getting a job?- Yes. Why people are scared about mech?- mech is good but they are comparing with different branches. But I am not comparing. I am satisfied with the job. Achievement - did project alone. Challenges - have to work alone and do more work. When you are in a team, a little bit careless and you take rest. When you are alone- you have to do it. Team issue - differential work, people who don't take life seriously. Regret- don't take part in clubs, used to be alone, that was not good ( mention how you are overcoming it)</p>

Comments , if any	Intro - tech skills, hackathons, several projects- critical thinking and problem solving, leadership, team spirit, adapt to new challenges, meet the deadlines, collaborate effectively. If we have a diverse group of individuals, we can perform better, proactive learner, hunt for new knowledge, upto date with the latest gadgets, tech news and discuss with peers, quizzing events, won several awards, college topper for 2 years, passion for gaming, organised alumni event. This experience developed my comm skills, delegation skills. hard working computer student with a thirst of knowledge with diverse skills. How do you manage to keep in deadlines?- prioritise your task, what is the impact of task having on you, can you take the loss of not maintaining your streak. Weak point - not able to delegate so If I could it would be better ( dont say weak point proactively). How do you collaborate?- I am a highly competitive person, I get badly triggered by losses . its my weakness ( dont say proactively), you should have the skillset that everyone is different and their work ethics and skillsets are different. It is our duty to	Intro - academics - didn't achieve much, I have achieved many friends in academic years, currently member of radio club, engaging in many events. Strenght and weakness - weakness - trust people easily and hurts me back ( y start with weakness), strength - don't get demotivated easily. I failed many times. I failed in 12th and tried again. Maths - sickness - deals with nerves and whole body is in pain. Had it till 3 years. Why engineering?- subjects. Engineering as a profession - made great friends ( irrelevant ans) qualities of a good friend - trust worthy. No internship details given. Edu system - mentality of teachers and change the syllabus, some subjects are not even helpful.

Comments , if any	Intro - strenght - problem solving skills, greater threshold value for situations under pressure, team player, life the mood of room with good sense of humour, easily motivated , great interest in sports, during lockdown - movies and series. Malayalam movie - ( got stuck while expressing in english and started in hindi directly) pressure situation - exam ( come out with better situations). Team qualities- bond. Inspiration - father - struggle which he went through . Engineer skills - hard working, develop somethign at great pace( he started very well, great intro and then the interest, energy and communication faded. Lot of pauses in between words). Are you confident you will get the job- does it bother you?- recession does not bother me, ANy condition person will right skill set - Charles Darwin - naturally fit person will survive ( dont look up while thinking )	Intro - projects - paraphraser, python, rudimentary level, reading books- high fancy books, gained communication skills, gaming- gaming got you into CS. Will gaming be your alternative career?- gaming introduced me into CS. Other things like AI ML Block chain or trading. Why not gaming as main profession?- dev process was very hard. Strength - adaptability, environmental awareness, try everything. 2 real life examples of environmental awareness and take decisions accordingly. First was let me try everything and then decide. Cultural event. Tech advancement - AI images, copy right issues. Alternative career - study physics. Weakpoints - I get distracted by new things. Salary - above 16 and below 25. ( dont quote a figure). books -creative imagination . For eg ( good you are giving examples). ( good story telling). INternship details given. I am a terrible commander but a good solder . I may not be a good leader and I can take . Cooking is also one of my passion . To taste what you are doing. Learning?- Enjoy the cooking,

Comments , if any	Intro - problem solving, contests, creative person , new ways to solve problems , think out of the box, consistent regarding any goal, even if steps are small I take steps towards the goal, projec - full stack dev, football - comm, team. Sketching - imagination, patience, solve rubiks cube - problem solving. Patience skills?- takes a lot of time, keep practising and reducing the time. Why engineering?- Watched Ironman ( dont stop at that and continue). Tech advancement - cyber security Weakpoints - stick to one problem for a longer amount of time. I put the time stamp on it, take a break come back to it again ( great )...( he has applied all learning of training)	Intro - watching movies, learning new things. Movies?- Dasara. Why hire you?- good decision making skills and at th emoment, ability to work with team, good discipline. Ability to work with team - supporting the team, helping the team member. Good leader?- he should set example, he should be involved. Narendra Modi - running the govt better than others, discussed with cabinet ministers. Weak points - more time for learning new skill. ( dont look up while talking ), cant mingle with others. Fear - placement ( dont say that), 80% confident - recession . India - great tech hub- China magnetic train- can go upto 1000 kms per hour- fascinated- only 1 or 2 hours to reach home ( good calculation)

Comments , if any	Intro - good at tech, looking for various web tech, sports like cricket. Cricket skills?- team work ( answers need to be a little more detailed and extensive). How to be a good team member- to empathise ( more content required) engineering?- problem solving, real life problems, like maths, best option is engineering . ( better answer required). BSC is 9 to 5 job. We learn more in engineering. Weakpoints - I overestimate certain situation that is not going to happen. Education minister. Why hire you?- good problem solving skills, love technologies, want to create different things, give my best. Tech advancement - ML - we can predict and all ( use specific words than using this and all ). (Internship details given and then pushed for details. ) corporeate take away- it is good we should be focussed with what we are assigned. Ashneer Grover - Bharat Pay transaction in future will be zero. Regret - IIT. After AIT, I am satisfied ( say both)	Intro - 3 internships. Internship details given in 1 line in intro. Strength - following schedule rigourouly ( mention more). Wake up at 4 - gym, running, then solve questions, and then breakfast. Whats the solid purpose?- before engineering, wanted to join NDA due to medical reasons, I will be following that life. I will be trying again after placement ( dont say that to corp). Weakpoints - communication skills, ( keeps looking up while thinking), mumble with the words. ( mention how you are working on it), 5 to 10 min interaction with friends, reading newspaper. team member - to complement each other. Engineering?- datascience love. Corporate learnings in internship - have to be good at work, team member, regular at work

Comments , if any	Intro - speech of dignitaries. Rebuttal that Indian PM and delegates give during speech. Orator - S Jaishankar - orator, form his sentences, words are measured, conducting dialogues with hostile nations. He is a role model. Dev areas - polyglot, more languages than Python. Languages- 3, writing only 2. Learn Japanese- clean country, Russian. Why engineer- profound interest in electricals, remote control car, high school - ( always smiling), fascinating engineering - cutting edge technology gives exclusivity and excites me, can flip the entire industry and lifestyle changes. Advancement - I will take you through the journey of how it started, smart phone, data analytics and segregate data and predict events and thats fascinating, to some degree predict the future, gives a sense of control, like God. Information is the power now. Future of engineers in India ?- hefty pay but Apple has announced that they would be setting factories here and other technologies will also be required. Internship details given. As python being my strong point, I was easily able to work. We can make a small scale model out of it. Internship experience- before the experience, I would not see the phone. But now I keep reading the messages. How to work in team - split our	Intro - BE - CS, tech skills, keen interest in web dev, front end dev, full stack dev, hard work and smart work, cricket, watching football, keep participant in extempore, debates. Reservation for women - for the motion- its not about starting the race together, its about ending the race together, so women didnt get enough exposure outside, ( points are repetitive, try to complete answer within 2 to 2.5 min), inspire a lot of young girls into politics, how you can change your country, they hold a lot of power, engineering has always been taboo for the Indian society, reservation in such field would encourage and women will be in all fields. I countered on mindset and credibility, To counter- why they dont want to send the girl child, its a culture. Reservation of caste vs reservation of women . Caste reservation has been there for long. Like Dr Ambedkar said when people demand to stop reservation , my work will be finished. Like army, Indian women took part in operation in Sudan. Strenght and weakness - sportsperson, professional cricket since 5th class, team performance matters a lot, team man, hard working. ( he forgot about the weakness). Why people cant be disciplined - lazy in mind, angel and devil in mind, decision - do or not do it. ( dont read out the current affairs answers. )

Comments , if any	Hail from Ayodhya, lived in Bihar, School from Kota, 10th and did not get award ( it's a humour.( Check out the interviewer and decide whether to joke or not) 12th, JEE, get around 78%, CS from AIT, podcasts ( Andrew Hubermann), recreation room. Shubham is tired of losing to me ( again a joke but try to check the compatibility of interviewer first )Qualities of an engineer that you heard in podcasts?- sleep routine, come back and read the material again and again, its just a 15% reduction - you have not lost the capability. Strenght and weakness- weakness - not able to go into routine and I can swayed away a lot, I have to believe in my dreams and be consistent . Strenght- no idea ( dont say that), being able to talk , hard working, Tushar and Abhishek Thakur learns quickly, seek good even though you dont like him. We are incompatible roommates and he leaves no stone unturned. INternship like Bisht got ( try not to give out names or comparisons at all in interviews). Regret?- project based learning, create what is interesting for them, you could be passionate but talk about their self interest like marks	Intro - 8.25 CGPA upto 6 semesters, web dev courses, machine learning, block chain events. Strength - good disciplined life, motivated to do good in work that is given to me, hard working. Hard work vs smart work- if they both are used hand to hand , that is better. Then I would choose hard work more - someday hard working person will be able to perform more, clear his doubts more, and gain more knowledge. Weak points-( can you give me 1 or 2 min) ( he smiled and said)- overconfident sometimes. Discipline - wake up early, maintain the bed properly, do some productive work, after that spend with friends. Internship details given- take our chances to enhance our knowledge through all team members. Selected in Indian Alr Force. First I will do corporate job, if I enjoy it then I will continue . If I didnt enjoy then govt. 6 months of corporate job. Preparation will start after placement ( dont say that)

Comments , if any	<p>Like said a lot. Computer prog. Coding quite active. Tendency to apply what I learn. Eye contact is not on interviewer. Recent coding mentioned. Family details not required. Question was prof and pers goals. Want to go abroad. Personal goals was missing. Want to be in MNC. In India, research is not good in India. WOULD you like to take this job since we cant send you overseas? - you need capital. He wants to clear CDS. Which career path is what you wish should happen? - Defence- my father. Discipline example- abhi to kafi kharab ho gaya hai. And mentioned the entire ans in hindi. Hostel life has messed it up. What is so attractive about hostel life that discipline does not look attractive? - all hostel activities. Time management- u think twice before reacting. U can use the word prioritising. Inspired person - one who can be leaders. Leadership quality you have- all leadership events from childhood. Sould mention qualities. Weakness- easily available. Difference between Lucknow and Pune- not able to connect with people outside due to language barrier but can connect outside. 3 reasons why to hire you- always prioritise my task, mission and vision of company then 100% I will give to the company. All answers well within time and he is smiling and responding to all</p>	<p>Intro- technical intro. Skills and qualities missing. What qualities do you have- sports, team, handle pressure well. Example of pressure?- Kota. Why comp science ?- I got it so I am doing it. I didn't know before. Now I know it is futuristic and develop many things in a few seconds. Stable body language. NOT too hyped. Machine learning attracted me. Achievement and mistake?- Can I get a minute. Dont look up and think. Mistake - pandemic time waste. Challenging situation- most people would give up. Fahad seems like an honest guy. No job for 1 year what would you do?- Explain in details. Look for seniors who will guide. Explain the role in your internship and give all details. He is smiling and speaking. GK- he knew one and didnt know one. I used to know when I was in 10th std. Politics is bad for mental health- AIT experience. Alternative career?- Snger. Sang sportively</p>

Comments , if any	Intro- initiative, new ideas, let my enthusiasm do the work, looking forward to helping with organisation with my skills. How are you a good engineer?- worked with teams for 3 years with 4 or 5 members, good technical combo, punctual and complete task within deadline. Team issue?- different people, dont agree with each other, we have to take final decision where every one agrees ( describe the situation and how have you resolved it) - each topic was discussed many times and then agreed upon ( need different example). Are you a better leader or follower?- better follower. I lack leadership qualities ( dont say that proactively) Plus points of leader and follower?- follower - we dont have to take care of others. We just have to focus on ourselves vis a vis leader. Leader should have qualities have of team co-operating with each others. Failure or disappointment?- failure - JEE passed but not IIT- but being in AIT is positive. ( speak in details proactively). Why did you choose to become an engineer?- they can solve any problem in any situation. 4 years of engineering makes them a complete man and can survive in any situation in any pressure. More options available. Most IAS officers are engineers. Do you want to go into AIS?- it depends. Currently no. I have other	Intro - West Bengal, score, Java, Python, designing websites I see my future in that field, information security. What skills does info security need and do you have them?- currently exploring. Human qualities - learn to be anonymous ( very good), should not disclose any secret of yourself or of the company. ( give more details in intro). WB good and bad stuff - good things- food, culture, people. Development - job opportunites, technical skills. Contribution of engineers?- light is glowing, virtual distance meet, laptops, buildings, and in medical . Any tech advancement - I heard it and was working on it in intern- artificially implanting organs. we can artifically generate it through 3D bio printing. Its called bio technology. It will be done in 10 to 15 years. in 11th and 12th I had PCMB. Weakness?- trust any one too easily and bored easily too. Fear of rejection. When someone has praised you before and then you are rejected, it is shameful ( good ). Internship details ( give more proactively). AI and ML - learn to model the data and get future predictions. What is the future of engineers?- growing too fast. Many will be jobless. We hear that people take MBA. Many IITians have become youtubers. In core engineering, there will be

Comments , if any	<p>Intro - contests, scores, active member in coding club, mentoring my juniors on weekends, organising events. Interest in data security, projects are related to that. Tried to build projects related to cryptography. Basketball, volleyball and watching manga. Do you like hostel life?- This is the best. Perks such as freedom. We are in a transition mode. Neither completely dependent or independent. Making financial decision, friends. Why do you mentor your juniors ?- its rather about tradition and legacy. I was helped too. Pleasure of interacting with students, sense of achievement that I am making a difference. Engineers tech advancements?- one of my friend made chatgpt to make users using linkedin. the chat will provide suggestion while you are in different moods. Recently, car ran on the road - it created more pollution. When they checked the car, the carbon emission minimised and the cars sold were taken back. What inspired you to choose engineering?- apart from the monetary perks, it is interesting and you have to keep yourself updated and its always evolving. You think you are innovative?- I would like to think I am that way. 256 able to think out of the box in some occasions. It is our own</p>	<p>Intro - last 3 years of Computer engineering journey, tried to have a balance of club activity, technical skills and ML developer. Not yet a prolific developer yet. PR and social media secretary, alumni meet of 2022, reading, lot of music, keyboard, cricket. Reading - re reading my Hanuman Chalisa - Devdutt Patnayak - very intellectually written. Has he written on his own or just presenting well?- It depends whether you think mythology is a fact or not. Hinduism is a way of life. Its how to live a good life. No God is perfect. What makes you a good engineer?- problem solving ability especially under pressure, I dont get flustered under pressure, friends get figity ( dont say that - the answer was about you not about them). After asked more - good leadership qualities- given roles as such in the past, presence of mind of an engineer, engineering requires you to be present with the resources best utilisation, ( look at the interviewer), initiative, engineering is no use if you dont try to innovative. So its a conscious decision to be an engineer?- BA Eng honours or Engineering. I was torn. Team issue?- PR cell was extinct initially. Biggest challenge- there was no emotion for the club because they had not experienced the club before. Needed</p>

Comments , if any	Intro - location, scores, running , swimming, cycling, honesty, punctual, hardworking, overthinking ( why negative points proactively) ( sequence of items in intro ). Why engineer?- sab kar rahe hai isliye hum bhi chalte hai ( ask for approval before speaking in hindi. ) ( better answer). Had interest in computers . Computer innovations are fascinating. Line - We engineers move the world. Engineering day?- none. CEO of Microsoft- Bill Gates. Weakpoint - how are you overcoming it?- started planning things. Earlier I was planning but never acted upon. When I realised I was wasting time, then I started planning things by dividing them to tasks. I write one assignment at a time. When do you lose interest?- doing things for an extensive period of time. Isnt that something we need to do to master?- But I am an average person I dont want to be a master ( dont say that). What will you change in the world with your engineering skills?- cant think ( dont say that). Learning ?- practising and taking help ffrom someone who knows. Depth of 4 feet and floater. Then I removed the tube. Current affairs?- Yogi Adityanath257 comments- I dont follow politics	Intro - Hobbies-boxing, reading books, ML projects. That's all. ( intro is not enough and tech skills? )Projects - NLP - learning about technology and trying to implement it. Personal project ! ( interesting). Team or do it yourself?- with a friend. Boxing skills?- focus increased, overthinking has reduced, in 3 min you dont have much time, you just need muscle memory and skills no time to think , shadow sparring I tend to apply these things, shadow boxing - 2% sports - a single person represents himself in the ring, you may not get an opponent during the training, appropriate opponent during training may not be available like I need 75 kg opponent. You see yourself in the mirror. ( look at the interviewer), see your opponent in the mirror, huge pressure in 3 min. I have played district matches too ( mention that in achievement and in intro). You win or lose, you represent yourself only so you are showing yourself only. Mohammad Ali punched 11 times in 1 seconds. You cant give them room to enter in your area. You cant overthink. Pressure handling in other segments?- I can handle after boxing. I did reality check on my studies. Example of pressure handling - 2nd year, project- if it take pressure, my output will decrease. Fear

Comments , if any	Intro - weakness - public fear, cricket and learning new skills ( intro incomplete). DSA and web dev. Why engineering ?- for coding. What struggles do engineers face in academics?- we have to sit for long hours on our laptops. Not able to think ( don't say that). Strenght - quick learner, good at while being in a team. Team issue- mentioned well . excites you about the profession- n number of advancement- education thing - everything has moved online- it was supposed to happen 10 to 15 years but got preponed due to covid, learn new things . Admire tech advancement- chatgpt, teams.Salary expectation ?- as a fresher - 70 to 80K , you cant expect 3 to 4 lacs ( mention the skills). I have that much value. Good at working in team, quick learner, eager to learn new skills, data structure, web developer. What makes you stand out ?- no point of being a person standing out, lot of start ups, so lot of demand, we all can be good. Internship - none maybe I dont have that much skills . Recently started learning web development. Why web devl?- I tried everything but I liked it because it can be seen	Intro - geopolitics, tech skills, Russia and Ukraine, Sudan. Why hire you?- good in problem solving ( don't say we are good in ...its about you), organisational skills, ( look at the interviewer), can work well with a team. Example of working with the team well inspire of struggles faced with the team?- project , form a common consensus and how you went about it. Internship - none. Project- web dev, CSS. ANy regrets professionally?- in the first 2 years, covid batch, limited exposure to college. Learn any skill effectively?- no gaps in between, do it daily, gaps will frustrate you , suggest the change in sources or widen the sources. Understand the fundamentals better, how much time you are devoting to it. Achievement ?- NDA written exam but not ssb ( dont mention SSB then)

Comments , if any	Intro - Location, 10 12th...that's all. I don't need a job. I have a personal plan.	Intro - location, Sultanpur of UP, school, Prayagraj, Coaching Kota, JEE. Are you regretting getting in AIT?-aimed for AIT only Pros and cons of AIT - all over the country, discipline, culture, sports facilities as compared to other colleges. I play football , basketball, volleyball ( insert this in your intro). Agile working personality, persistently and rigourously doing something, had a bone fracture you can ask friends here( why say that). 2 aspects of getting work done from others- either tell them their benefits or be more blunt and threaten them. Which one works?- 80% first thing works. I chose group as per my style (dont say that). Learning ?- first I will watch the videos and then follow it but now first the documentation, follow the project and then follow the syntax, learn the business model and then why the syntax is there ( Super). Games - have been a good athlete - play for 2 hours daily for 20 days. Situation of no confidence- today morning, volleyball at 10, our intime was 10, gate was closed , Director Sir caught us ( Good conversational skills, good confidence, good body language, clarity. Only intro was poor and keep your answers till 2.5 min max) Why engineering?- honestly saying, destiny. I wont say in real

Comments , if any	<p>Intro - proficiency in tech skills, web dev, java, AI , ML, music, quick learner, hobbies...that's all. How do you know you are a good learner?- give a more relevant example. Qualities ?- consistent, don't think much about out of box, positive. Pros and cons of hard work vs smart work. Practice 1000 times one thing instead of new stuff 1 time. Basketball- 3 weeks- attain confidence. Basketball skills - patience.</p> <p>Weak points - dont have much, cant say no to helping people, lost my work because of that( dont say that ...) why engineer?- family. Tech advancements- security surveillance system, cloud computer cloud will get better, AWS, now open source, doctor in hand. Inspiration - father because he has given 20 years to the army, stories of the army, how to handle pressure- just take one day at a time, not think about the result. Team - dont leave the arena till the fight is over</p>	<p>Intro - full stack web, back end, projects - sufficiently proficient - tech skills, tennis, reading books, technical podcasts, debate club. Reading - Dan Brown - Only time will tell, Raj Himani, Thermodynamics- Stephen Hawking - all from different domains. Reading fiction is creating a different reality which is not true. Didnt say to friends as they would say why are you reading mech books when you are not doing well in your subjects ( dont say that). What was your role as a secretary- in 2nd year in participating and getting things done, at the helms of affairs, also the same now but now into organising and management. Organising issue?- rather interesting story ( good start of an answer) event is bigger than both your egos. ( nice), people from outside college would judge the success of the event and not your egos. ( authoritative). Internship - none but done content writing - take away- can write better than chatgpt ( mention the corporate experience). They dont have emotions built and chatgpt are laid back in database till 2021. Post that data is being lying. Developmental areas? cant put myself through the monotonous regime, a little short tempered to get the work done. What kind of an employer are you looking for?- no</p>

Comments , if any	<p>Good intro. Focussed, determined, hardworking, quick learning, team player, time management, confident, cricket, watching true story movies, listening to old music ( pauses a lot between words ) Kapil Poonia- ABCD- good association, read books, chanting, diet. Thats how I learnt focus. Time maangement?- one should be very determined , before going to sleep we should be aware of our next day schedule, this helped me lot. If the time remains, I can do other stuff. The most difficult task should be done first and then do the easiest and the smalles task ( super ). Team issue - ask better questions for better solutions ( great ). Learning - strong mindset, find why we want to learn that school, purpose, how seniors became pro, take help from seniors, consistently follow class that are decided by you, consistently, if you are consistent you will feel better while going to sleep, what all I have done to be happy tonight. Why did you choose to be an engineer?- long story and summarise in short. Dreamt of army officer. Had a medical issue. Father wanted me to join IIT.</p>	<p>Intro- location, music, workout, meditation. That's all . Why engineering ?- good at logical skills, maths, coding skills. What fascinates you about engineering- multitasking ( find relevant reason) offers many skills - languages, communication. Inspiration?- relatives. Fearless - u must be confident and have will power. ( but how can we be confident if we have fear), stories - Guru Govind Singh. Failure - wrong decision - cant recall now ( dont say that). why hire you?- what will you bring to the table as an engineer?- can work in a team, can organise a good team, good communication skills, helps you build links in the corporate world, tech skills. Internship skilsl - started late. Negative - bit shy, overthink. I dont open up instantly to new people. Salary expectation - min 80000 and above per month</p>

Comments , if any	<p>Basic intro. Guitar- patience, consistency, focus. If you want to learn - focus and passion, if you are buying a guitar - treat it like a best friend, it is a personality change, don't focus on span of time ( Super ), depends on your time and skill, don't compare yourself with experts, its not a competition , it is a skill. Foolish decision ?- underestimated myself. Engineering?- problem solving, ppt ( more relevant ans needed) Technology- Burj Khalifa architecture, ( more relevant answer) Weakness - communication , shyness, little bit of procrastination. Cause of procrastination- overthinking, we dont know why we are doing that thing. Learning leadership qualities- able to convey messages well, leader must be the ideal person in the team, with whom you can share anything</p>	<p>Problem solving innovatively, guitar, dancer. Dancer skills - ( needs to explain more. I didn't notice) ( looking up totally while talking Not looking at the interviewer). ( Interpretation skills need to be develoed). What kind of skills have you developed because of hobbies - ( need relevant answer). Problem solving - strength ( we need more). Weakness - overthink a lot. Why do you do that - involuntary. Involuntary thought - foolish decision?- JEE - spondilitys. Engineering colleges cant be so strict. Culture comes from randomness and not from background. Events - we saw emotions - connected to Indian Army- other colleges didnt have restrictions. We have lot of restrictions. 1 hour jamming sessions are not enough</p>

Comments , if any	<p>Intro - location, school scores, JEE- All India Rank of 42535 through which got admitted into AIT, tech skills, captain of school team, managed sports clubs events, organisation and management skills, dancing, sketching and drawing. What is management skill and real life example - roles explained well, management work to sports club was central authority, taking inputs for different event heads, distributing juniors, compiling work to different heads. Conflict management. - we should not measure the work as per their different percentage of work. The best he can do, casual meetings, friendliness, team spirit, working like a proper team in the main event. Internship details given very well- mentors helped in achieving my goals, specifically mentioned. Learning - more concepts, learning while working is the best thing to do, consistency and motivation. Consistent?-making it a part of your daily habit such that you feel empty without it. Inspiration?- consistency, hard work, strong mindset- Ronaldo (explain why always) - strong mindset- cant be distracted by others. Why engineering?- developing things that people use in the real world and not just use them (Super)</p>	<p>Intro - location, scores, CS- firm grip on ...tech skills, projects on ML and EDA projects, lot of details on projects. He asked (keep the intro compact and crisp). Strength- complete the work overnight to deploy new stuff next day (try to keep extremities at bay), photographic memory but sometimes it doesn't work (don't say that) because of lot of pressure (don't say weak point proactively), second strength is consistency. <b>Motivation is temporary and drive is permanent.</b> Why engineering?- father's circle - doing engineering would be best. Package is my drive (don't say that). Disciplined?- Army background. Rituals?- no, just pray. External affairs minister- S Jaishankar</p>

Comments , if any	<p>Conservative intro, video games, football. ( nothing else mentioned). Video game skills?- not lot of positive skills have developed ( why say that), I can focus much better than before and I get peace when I am stressed. Why engineering?- I used to see stars, technology, that used to amaze me, when I was reading as I was preparing for JEE. Tech advancement?- flying within no time. ( more relevant answer). Strength - lead the team, very disciplined person, not waste time in other activities, if I start watching netflix, I know when to stop. 3rd strength- I cant think of ( dont say that), Learn new things. What new things have you learnt in recent times?- it means reading about them, the more time you give to something you get better at it. Weakness - addictive person - wasted time in playing video games, introvert person, ( dont rock while speaking), dont give priority to work and always do last minute ( dont say that)</p>	<p>Intro - (check your net always before starting interview), football player, cultural board, organised several events. Engineering?- why this happens, why this happens- that drove me to become an engineer. Really interesting field. Bangalore city made by engineers. People generally oversee the power. What developments have we done in our country?- city , building , malls, countries development by seeing advancement in technologies. Astonishing advancement?- google itself, old thing ( need better answer or atleast more points along with that). Cons- national education policy - documentary - read it -you can drop out whenever you want and still get the degree. Strength - lively person, I create the energy and vibe in whatever environment we have. know when to be calm and when to not be. Weakpoints - hard on myself, physical fitness</p>

Comments , if any	<p>Intro - tech skills, geopolitics, financial world, basketball - good intro, achievement - Joint secretary, merit scholarship by AIT by chief of army , other achievement - specialist in competitive programming, Headboy.</p> <p>Geopolitics - Operation Kavery - I am happy to share too ( smiling and saying. Very good).</p> <p>Sudan . We would be hosting SCO- Shangai.</p> <p>G20 Summit throughout the year. We have hosted finance ministers of 20 countries. We would be hosting top leaders by October.</p> <p>Ukraine conflict still on since 15 months.</p> <p><b>Youtube chanel is world affairs by Prashant Dhawan, The print - journalism- Shekhar Gupta, Hindustan Times.</b> Wrong decision ?- online examination, started late, network issue. Weakpoints ?- told by individuals - handwriting is an issue even though the answers are very good, self critical- write down on paper and pen- no technology.</p> <p>Internship - Credit Suisse- on campus- bank was sold out. I could not get more internship, utilised the time for back end skills. Where are you learning back end ?- half true half wrong. We know some concepts but not enough to drive everything</p> <p>We need to invest 2 to 3 years. Good engineer?- human qualities 265 whatever the profession is, few are important, Empathy</p>	<p>Intro - tech skills, automation. Why hire you?- interact with people efficiently, ( more points?). Weakness- time management ( don't say that). Why engineer?- really into technology, from an early age- keen to know about technological stuff. No internship but contributed in clubs - NSS ( explain the role and achievement ) ( include that in your intro )</p> <p>Helped in organising. Troubles while organising?- time constraint, distribution of tasks, how to monitor the tasks given. Good leader?- I think I am good but I dont always go for leadership . I should be the leader only when I have considerable knowledge and then dive into it. No knowledge leaders can create a chaos. Leader that you look upto - Narendra Modi</p>

Comments , if any	Intro - member of clubs, competitive programming, DSA questions on various platforms, learning web dev, morning walk, mental health ?- calm under pressure?- usually I do meditation when I feel low. Hobbies - badminton. Badminton skills?- since 6th class, I have been playing ( irrelevant ans) if i play very good, i feel confident about myself. ( more relevant ans). What else gives you confidence- when I do my work properly. ( also ask for time while thinking Keep the camera in the right position) Why hire you?- honest and dedicated. No internship. Last year got selected in technical round Microsoft. But got rejected due to english maybe. ( thats not the case). Weakness - when I dont have work to do, I get angry ( dont say that). Achievement - village- 10th std score ( mention a recent achievement ). Fear?- scared of losing friends because I make less friends ( paused for a few minutes ) Inspiration - father - why? ( mention why always)	Intro - web dev, intern- collaborate with people, clubs, pixel arts. Internship details given well- roles and collaboration. Dev areas - problem solving skills. My curiosity and confidence to go deep into solutions- preferable candidate- do things and bring results- done in the past. Have to develop more social skills. If you dont get the job- it will hurt for sure as I am skillful. I would ask people what would my weakness be, try asking for feedback. Engineering- curiosity about science and then one thing led to another. Master a skill - end to end process, brief idea, travel through the roadmap, get increment through small steps

Comments , if any	<p>Intro - 2.5 years of inhand experience, helped me to understand how people acknowledge products, comm, problem solving. Computer games, badminton skills? Increased my reach, can understand situation easily, can make decision promptly, strategic improvement, badminton relaxed myself. One decision which went wrong and which went right?- good details given ( generally pauses and then speaks. The gaps can be reduced). Started internship journey since 2.5 years. How come so many internship - father asked me what are you doing? no no what are you doing with what you are studying? ( lovely). salary 15 lacs?- if you get less than that- there is always room for negotiaion, i will be offering my experience, my case study, it will give me an edge, they want someone who can understand their product, I am willing to put in that much work and they want something more capable. Weakpoints - procrastination - it can get the best of me. Sometimes I like to work alone. If there is an immediate time crunch( mention how are you working on it). Team issue- design team, lot of ups and downs, no one was able to understand the club design. Situaion - whether to back out or pu</p>	<p>Conservative intro, music, running. ( don't look up while talking). ( not looking at the interviewer )Why engineering - solve problems. Technology- electricity- Tesla, AI ( more info ). So many engineers and so few jobs, what gives you the confidence that you will get through?- its about what you want to do. satisfaction, hard working, like working with technology, any amount of hours can be invested by me. Work life balance then?- I have a balanced life and I can manage long hours of work, running and meditation helps me to balance. Dev some habits to keep myself healthy. Weak points?- overly disciplined, disappointing to me. Discipline ?- reminder habits, try to keep it simple in the starting . Being disciplined itself is a task and one more task with it. So keep it simple ( super)</p>

Comments , if any	<p>Intro - bike trips, trekking, research and dev, working with NGO- stopping cyber security attacks and making people aware (look at the interviewer). Paid internship - no - it was for the experience- I got to learn and connect and fruitful - being paid or not was not a matter. 5 takeaways- more like a NGO, people were nice, communicated based on requirement, not with lot of people, football was good, people still dont know how to report cyber crime. I helped out ( mention the process as that was the question).</p> <p>Strenght- work in a lot of roles, I have been It Secretary, organising events ( mention in intro ), weakpoint - should take more on leadership role, focus on fitness as well. Why engineer?- Dad is from Electronic and Mechanical engineering, from childhood the interest grew. What can get me angry - not lot of things- very few incidents - very tired - need to realise and analyse things - there must be reasons- there could be problem from my side as well- no point shouting back-understand both point of view.</p> <p>Upcoming engineers?- its actually problem seeing skills and not problem solving skills. ( super)</p>	<p>Problem solver, game dev, extended reality, secretary ( voice fades towards end of the sentences and he looks up while talking), conducting competitive exams, speed solving rubiks cube, 3D modelling and drawing. Hobby skills?- speed solving from 9th class then solved in 20 seconds, determined , focussed. Learning strategy - break down the goals into small steps, working down towards small steps ( answer should be longer and relevant). Engineering?- pro at maths and not intereted in biology. wanted to explore more. Tech advancements - pacemaker, AI, ML, Chatgpt ( can have more content). ( more energy required ) Strength - finish it before time , team player, adaptable, small details. 1 achievement and 1 failure. I cant think of failure now. ( cant recall). Internship details given.</p>

Comments , if any	Intro -location, 10th , 12th, hobbies - chess, gaming, calesthenics, interests are building my basics of computer engineering branch, questions on lead board, there is a streak and I am maintaining my streak. Chess skills?- think 2 steps ahead, what I need to learn right now, block chain , read your opponent, imagine your moves. How do you discipline yourself ?- punctual and I have proofs, How I do it is I dont aim for something big. I just love the thing I need to do ( super), love workouts and I dont aim to achieve a good physique. ( good personality- pleasant-smiling- curious and asked me question back-struck a conversation). I am in love with the process then I will be punctual to it. Why are anime such a big hit?- in Indian we dont get to learn that much. Anime called blue lock . Anime gives you brief about what it is trying to show you. Anime will tell you how he will do it and how it is achievable. Focus on small steps. Everyone has different strenght. We have to develop our strenght . Weakpoints - havent thought of it but can you give me a moment I will think of it-( good). Hard for me to build a habit. 2 months of getting up early at 6. Why engineering?- I didnt chose it but I have started to fall in love with it. Started to look at the subject from different	Problem solving, travelling, exploring natural places, doing adventure, gardening, animal lover, automobiles, learning culture of different tribes. Award from Draupadi Murmu as I am from Ranchi. Adventure?- trips. Ranchi - city of falls. Ranchi is similar to Pune. Gardening skills?- patience, I understand that I am not chasing into quick results, I want to do somethign for society , I plan trees, 40 trees ( mention in intro) ( answer has to be within 2.5 min). Why engineering?- we didnt have anyone to give direction. Noone was there to give direction. But now I am enjoying it. I am closed by nature and everything has done it in machine ( dont say negative things proactively). It iw as difficult for me to adopt but now I am cool. Patience?- 2 options - learn from your mistakes or someone else's mistakes. But it will take time. You have to practice. Hobbies can make you patient. Internship - upcoming. projects can be said. Paid internship matter ( why)- seriousness comes with payment. unpaid internship - I will still do it. If it is free then the person who is giving work then he wont be seriuous ( explain that while mentioning why paid)

Comments , if any	Intro - projects, good comm skills , ability to work under pressure, read blogs of programmers, daily diary for introspection, read novels ( Also is repeated a lot, ), I believe in power of groups so I collaborate well. Good comm sub skills - listening and talking, good listener, good observation skills, clarity, concise, 7 Cs of communication. Novels- Harry Potter, Chronicles of Narnia, Amateur authors, <b>webnovels or crazypasta websites</b> . Reading skills?- vocabulary, reading speed increases, ( smiling but looking sideways mostly while talking). Why engineering?- no engineering interest till 12th. ( he tries story telling). He likes problem solving, algorithm, AI. Dream is to build solutions to modern problems using softwares ( insert that in intro). CDA introduced UPI. It changed mode of payment. Govt intro eruppee. Biometric login to cluster of social	Intro - Rajasthan, basketball , talking to ( started in hindi slightly), interacting with people, web dev, data structure, problem solving. ( more relevant intro required), reading books- rich dad poor dad, writing daily diary. 3 learning from the book - explained in hindi totally ( take permission while switching language), taking risk, cashflow and mindset of 2 different fathers finance wise. Basketball skills - team playing, leadership quality. Do you have the skills - leadership slowly- divide tasks, team ke saath lekar chal sakta hoon, patience. How can we develop patience?- smaller tasks, realistic expectations to be set , take breaks, learn from setbacks ( english , lot of practice in thinking required, if he speaks in hindi he answers content better). Strenght and weakpoints-( he does not give up, he ensures the result is achieved). ( if he gets training and his english improves, he will do well in life). Strenght - no procrastination, Daily diary , I finish what i write in my diary. Weakness - I trust easily, cant say no. team

Comments , if any	Intro - Maharashtra, Beat boxing, web dev in the meantime, national level basketball player, I make websites. Beat boxing skills - discipline, consistency, throat. How did you get attracted to this?- thinking of writing a song, lets compose and put a beat .Basketball skills - its the game . (Apology point not required) Weakpoints - If i am not interested I wont do it. In corp world, you might find things boring - ( he twisted the ans and said he is mostly interested in all things and gave an example) ( answers need to be within 2 to 2.5 min . dont get carried away with the ans). Website - aesthetics. 2nd weakpoint - do a lot for people, give him everything I have.( Internship details can be given more and with pride) help in resume building. Seniors who havent done but are placed in good companies ( dont have to mention that really) ( while switching language ask permission )	Intro - hobbies, watching cricket, games. ( irrelevant intro ). Engineering ?- interested in biology and then I realised that whenever I am doing maths - self satisfaction, problem solving, AI, building time machine, olympiads. Tech advancement?- Already using chatgpt to make college reports. Good engineer?- innovative mind, self learning new things, curiosity about new technologies, competitive nature, not giving up, good comm skills, (lovely ans). Abhay - fearless - scared of only home insects, facing in life - not scared, take it calmly, work out the mistakes, step by step undersand and get the best solution. Mistake?- I will tell you the story. If I had to ask you what would you like to change about you?- I must be able to say things on the face. I will do his share of work too and I can complete the whole project ( dont say that for team results)

Comments , if any	Intro- play volleyball, listen to music, rock music . Any fav musicians or vocalists?- love to listen to Arijit Singh and Honey Singh. Why engineering?- went with the flow and chose non - medical ( need more relevant info), interest in the fields which are emerging nowadays. Is it challenging or enjoyable - it is enjoyable because it is challenging ( lovely). ANY other event which is challenging and enjoyable ?- SSB, Army, travel a lot for SSB. SSB rejected. Why was there a fascination for army - being army brat , how it functions, seeing the beauty of places, respect they get, team working under you from 1st day only. Strenght and weakness- quick learner, punctual. Weakness - do the things on time but I dont take a proper sleep and dont take health. Team issue?- not much experience. Less proficiency , delay a lot	Intro - dev new websites, keen learner, learn new tech, love to play basketball and video games, long walk. Focus? - usually listen to music before anything. Meaning of your name ?- Bhu earth and van means forest . Why engineering - siblings. Learning ?- find your roadmap, be consistent, learn on daily basis, practice too. What have you learnt recently- web dev, AI. Do you think people will lose jobs?- some people will face consequences, some jobs where simple codes - that can be replaced by chatgpt, but personalised work cant be replaced. Weakpoints- overthink, nervous, introvert. Why not gaming in your profession - because I am not good at it. Mom unwell and client meet ?- call someone I know from neighbourhood and if that is not poss and take her to Dr, ask client to give you some time. Time table ?- I dont follow any timetable. I just keep in mind what I have to do ( lovely). Wrong decision ?- no big mistakes

Comments , if any	Intro- prog and dev, learn new things, basketball and gaming. Gaming skills?- leadership. Leadership skills?- team work. I cant remember now ( never back out of any answer), how to manage work within time, ( look at interviewer while thinking), learn from whatever work we do. Inspiration?- My college senior. ( mention the qualities). Their tech skills, Why engineering ?- tech field from 12th class. ( irrelevant ans). Why corp job ? came to know about the corporate world. NDA - achievement. Tech advancement - chatgpt changed life. Weakpoints - comm skills, not consistent to any work. Why are you not consistent ( switched language), - give up, bored . In the last 20 years, what have you been consistent at - listening to music, play sports. One thing to change in your parents - strictness. What boss would you liek - not strict and not give a lot of work.	Intro - tech skills, detailed and analytical skills, ( need more energy), Prove the analytical skills - hackathon. Fast learner, time management , communication skills - strength. Time management - ? Follow the time table ( need to explain points in more details and more relevance). Weakpoints- go too much into details. Why engineering?- looking for a field where maths and technology can be applied. Tech advancement?- computer graphics to be really cool, simulate, games. Achievement - hackathon. Team issue?-mentioned but we need relevance. Credit Suisse internship but that got jeopardised. Fear you might not get the job?- no fear. What keeps you calm when you are disturbed?- I dont know

Comments , if any	<p>Intro - more into technological stuff. 1 year BSC and national mathematics olympiad. Japanese language, Java, C++.</p> <p>Why engineer?- brighter future in engineering . It has demand. ( more energy and voice needs to be clearer and louder). I knew everything about maths but not about engineering.</p> <p>Cleared both medical exams. Chicken pox- JEE Mains. Do you regret coming to AIT or not clearing JEE?- teachers disturb me the most. There should be gaps between internal and external exams.</p> <p>Team issue?- no issue with classmates. ( let the interviewer finish). Yes faced the issue. give him small tasks. Dont expect him to do everything. Cant judge him.</p> <p>Mistake?- not far sighted. How do you know that?- Some things I could have done better but I did not . Not multitasking person ( dont say negative proactively). In my case, I do not copy paste assignment. Internship - Mumbai - consultancy firm- I dont know any one -</p>

Comments , if any	Intro - good intro. Would gaming be alternative career?- no my priorities are set. Play chess. Chess skills- better utilisation of my resources, plan better for the future, what I should be learning, example of building a project- evaluate the entire scenario before hand, what I can learn now and later, planning. Mahipal - many names of Lord Vishnu. Have you ever saved anyone from trouble?- Always provide the code to friends, always provide them with write ups. teach my juniors - mentioned what all he taught. Why did you choose engineering?- father wanted me to go into NDA. Got conferenced out. Didn't have any idea. ( finish within 2.5 min). ( good conversational skills, good confidence and body language). One thing to change in AIT and parents- not about AIT but about university- dates of final exam- variable dates . Regret ?- deeply interested in physics and it took too much time and maths questions were left. If I had to ask	Intro - computers have always been around me. Tech advancement - state of art, cable image processing , images from noises, chatgpt. Internship - credit suisse ( mention projects), personal project should be mentioned. Strength - grasp things fast, read about last week, next time I was reading about documentation. Learning strategy ?- confident to write stuff. I don't go into depth first. I write the code and if it doesn't work, then I go into docs . I don't go into the course first . Weakpoint s- reached to conclusion first and make mistakes. , initially I am slow but when I grasp it . A little confusing with quick learning and initially slow . Gave an example of deadline of 2 hours. I won't follow the normal procedure and rebuild a project, But when I edit it I study what's done there. Salary expectation - interns- 30k , 70 to 80k per month. Where did you get this number from ?-

Comments , if any	<p>Intro - professional proficiencies, 1st year was explorative- organised multiple events in different clubs, 2nd year - competitive programming and increased that profile and explored android, part of hackathons, 3rd year 0- data science, ML. Hobbies- beatbox, draw, rubics cube. Beat box show. Hobby skills?- Rubics- timing. Club activities and project ?- 15 days project, team mates were not as proficient in java. Why engineering?- in order to earn in rubics or beatbox, they have to be exceptionally the best. I wasnt very good at it ( nice answer). Elder sister is a good software developer. I am from a village. I did coding a lot ( good energy, good conversational skills, good body language, good common sensical answers) no fine arts as you have to hustle a lot- there is no direct success as such. Engineering?- i have lot of people who can guide me. Sister used to tell me - graphic designing , fine arts you can do that in college also. Why is</p>	<p>Intro - all activities clubs, tech board, cultural , internet security, digital forensics, I set out on a mission to explore what is in my reach, cyber security, web dev. Hackathons, ML and deep learning in my 2nd year. Participated in various events -Branch Head, shortlisted for 3rd ground, finalist of another hackathon top 3 teams. Internships - ML instructor 1.5 month selected for Blue Bricks ( repetitive points sometimes), selected as upcoming President of AIT. Roles and responsibilities would be ?- to manage all the internal issues, administrative. Struggle or excited?- mixed feeling, overwhelmed sometimes, selection procedure- we filled a form. Why do you think they selected you?- I was already the branch head of comps, sports akriti, the way I represented my branch, it was different from others- Akriti is filled with clashes from all teams, our branch was awarded the most ethical branch, can get</p>

Comments , if any	Intro - ( smiling. That's good). Tech skills - ( pausing and speaking. Can rehearse the intro more). 1st year was online - various clubs- OSS, sports, cycling but it makes no sense. ( was he looking at the interviewer), robotics club, 2nd year - learning new skills - focussed on computer subjects, DSA, 3rd year - mastered my comp subjects. Hobbies - loved to listen to music, outdoor games, almost all games, good at cricketm kabaddi volleyball. What kind of qualities should a person have for being a good sportsperson? - must have interested in that sports, being punctual, find friends who play that game, patience, never give up, once done it is easy. Learning? - different mindset, good resources of learning that skill, reading experiences of other people who learnt that, regular. Highly paid vs no sports ever? - I will join the job and play later. I will work for a period and then change my job. Love?- travelling, family and friends. 2 things	Intro - location, dad, tech skills, projects, web dev, sports - boxer, college team of football, journaling and reading. Reading 1st book - Meluha. Boxing skills?- refreshes me, started in college, good stamina - try boxing, I like offensive sports, consistency is most important, give it time atleast 1 hour per day, keeps me in routing. Engineering?- like maths, i thought i could do good with coding, if not computer branch, not interested in engineering as such other parts. Alternative - planning and managing. Weakened situation?- last boxing match recently, played at district levels, open boxing which means club people can also join, nervousness felt numb. College contests district level. Why hire you?- apart from extra curriculars , worked on tech skills as well, it took me long ( dont say that its irrelevant to this question), i was confused with coding or ethical hacking ...all of these requires same amount of time. ( didnt mention human

Comments , if any	<p>Intro - it was a personal intro, moved away from home, lifestyle changed, lifestyle will change again, last days of Pune. ? Will choose away from home - jobs- in Rajasthan only ( try not saying that as a preference). ( lot of personal info in first 3 to 4 min). Why engineer?- initially didnt know, based on interest, maths as major, I dont regret it. What is fascinating?- wanted AIT , stream to revolve around computers. ( incomplete and irrelevant ans).</p> <p>Strength - dont get frustrated easily, I take my time and take rest and look for new perspective, it helps me find bugs in code, problems in real life, dont fuss about small things, things fall in place. ( lovely answer) Real life examples - submissions- assignments . Failed?- I dont rem as such, everyday, contest- can solve 2 or 3 questions ( need more relevant answers and more details). Education - what he has written. Internship - ended and right</p>	<p>Intro - myself ( wrong), participated in clubs - NSS- covid times, hostels, ( intro sequence should be correct)( look at the interviewer while thinking), web dev, ML, coding, Captain of college kabaddi team. Kabaddi skills?- I am underrated and my confidence is not so good ( don't say it proactively), it changed my personality , i have become calm and calmness goes to a peak, its a big impact on me. Team issues?- whether we win or lose we have to give our best ( excellent), we know anything can happen. Describe you?- calm, sportsperson, friendly with all. Annoys you?- no one. ( he pauses and talks). Why engineer?- younger, elder brothers are in the same field so they inspire me a lot, good in maths and science. Tech advancements?- ( took time to think) ( check the audio. audio is stuck many a times), chatgpt, ISRO, NASA. Time management - consistency, time is fixed, 2 to 3 hours invested in sports , When i plan , i have to do and I must do it, make a</p>

Comments , if any	Intro - myself ( wrong ), ( stammers and pauses and speaks) strength - curiosity and explore technologies like games, ( he stopped),, ( intro was incomplete). Tech advancement - ( his speech got better), in 10 years IT was not there, now zomato, any tourism, swiss bank ( looks up only while talking), Why engineering?- itsnot my decision, i like volleyball, gym, sportsperson, gymnastics, wrestling. Family forced me do something in technology- IIT Delhi , I am good in maths. 2 things you like and dislike in AIT - ( better body language and expressive now), amazing culture, senior teaches us, respect for seniors, nowadays respect is deteriorating, administration always argue about sports. I fyou play any sports then you are going to be disciplined and respect. if you respect someone then respect comes from our daily routine ( lovely), respect comes from our games, if you dont respect our games you always fail.	Intro - father, mother, 2 elder sisters, Rajasthan, mentioned it as a journey to AIT, it was ok, I made friends and watched movies, didn't learn any tech skill at that time, DSA, front end dev, tech skills helped by friends, article writing, love to play every sport, college badminton , paint , sketch was in fine arts, video games. Hobby skills/- learn different things from different things, painting and sketching makes you observing ability, physical sports builds your strength and stamina and helps in mental calmness. Time management - divide my time as per needs like in exams it is different and otherwise it is different. Failures- coaching at JEE, was not giving my best. What is amazing about being an engineer - pen to scale, innovate ( the interview got better with the answers other than the intro )( good body language, patience, confidence, relevant answers later). tech advancement s- real games big games, literally feel you are in the game. Why is

Comments , if any	Intro - maths club, question making and poster making, hackathon participation, CME internship, tech skills - projects in AI, web dev, block chain. Finalist of Hackathon. Hobbies - walk in nature, hiking, dancing. Internship details?- govt based, no stipend, 3 months, domain was AI and datascience, group of 5 people from AIT , completed in March ( mention the take aways). Learnings?- work of delegation, team collaboration, how should we regularly meet and convey work distribution, status, present it well, how professionalism plays a big part. Professionalism ?- timeliness, completion of work, keep your personal things aside and always collaborate and communicate. team issues?- meetings( not enough answer)( then after being pushed, he said make juniors practice), not just me but others too. Learning?- put yourself into difficult situations, overcome obstacles, consistency. What do you think is your	Intro - family details, location, very photogenic person, like to travel, football and cricket , football college team, quit video games and learning skills. Physical games skills?- team work, dedication , practice ( not looking at the interviewer), discipline to improve the games, leadership qualities, captain of your team - set an example , learn to bounce back ( very good answer and lot of details). When did you bounce back?- till now no situation like that. Weakness - no such. I dont follow the time table easily. Strenght - do it carefully ( has lot of potential but needs more coaching )

Comments , if any	Intro - clubs, networking, lot of friends in college- first year, tech skills in 2nd year- cyber security, internship in VTF, remote intern, hands on experience, 3rd year - pythonm, ML , hackhathons, finalist in hackhathon. Internship in image processing. Looking for more internship - networking, lot of knowledge expanded, you can talk to many people. Lot of meetings - I dont like. Why are these meetings so frequent?- 1st meeting in morning before work , which technology, which feature of the product. middle day - progress of the day, EOD - review how much work is done, it can be automated - you mean. Why engineering?- most were into engineering and medical. I used to love their lifestyle- 5 days and 2 days chill out, travel around ( but thats not the case now) corporate world has more money. Strenght and weakness - open to opinions ( lovely), good at team management, good at team playing,	Intro - chess- what resources you have, how to utilise resources, time management, we get 10 min , make fast decisions, get most of it. Good and bad decisions - joining engineering and not made very bad . Maybe not effective decsions - chose the wrong assignement. education system - quite primitive, revise the syllabus. Tech advancement - mentioned a lot and in details, everything is advancement when you come to physics, cosmic ladder was broken ( very sweet and pleasant personality, childish voice but good matured wise answers-relevant answers) Source of knowledge?- hands on experience, read it news, physics, quantum magazines, youtube channels. You said your good decision was engineering- in 10th class, science and commerce, I chose science, I am not good at mugging up things, so no bio. Maths- I had to decide engineering karna ha ( changed the language), engineering - learnt new technologies, i am not scared

Comments , if any	<p>Myself ( wrong), (short intro nothing much was said. ) Tech skills - good at basics , data structure and algorithms required in companies. Hobbies- workaholic, running. Running skills?- it's actually a mental exercise not a physical exercise ( didn't know that !! wow). 5 rounds of football ground- I get tired in the 1st round . But i do 5 rounds- perseverance, ability to go through hard times ( lovely). Any hard time ?- class 11. What do you like about yourself ?- If I am motivated to do something and if i have the right resources and time, I can work 24 hours, consistency. Tips for consistency?- its part of discipline- if you dont like it you do it still. It comes from a mindset. It cant be advised. You have to be mentally strong. Inspiration - watch podcasts of army personnel - Rajeev Varvan, Marcos, video podcasts, beerbiceps, shawn ryan show. When does Saurabh Joshi go down - I become inconsistent, i dont get that much time</p>	<p>Intro - reached the rank of expert level of coding, hobby and profession both, cryptography and algorithms, hobbies - watching anime, manga, games, basketball. Anime popularity?- stories, complex things, building stuff, scientific glories. How did you know this was meant to be?- coding- I was good in maths. Never worked on science. I had started computer coding. Alternative plan?- freelancing, some need of project. Freelancing in front end web dev. Tuitions or teaching. Strength and weakness - consistent in my work, fast learner, team leadership skills, team player. Weakness - habit of connecting easily with everyone, emotional connect is the downside , trust others. Sub skills of leadership - if there is a sudden change in plans instead of panic, I can sort it. 2nd is divide the work. 3rd communication ( and he gave an example) ( good body language, communication, confidence). No internship but done courses in Udemy.</p>

Comments , if any	<p>Myself ( wrong), front end dev, programming, app for farmers, hbbies - games - skills - making decisions, what should we do in many situations. App for farmers?- itsyour project. Internship - selected in 2 to 3 days ( always give details). ( explanation should be better) Internships help?- separate environment, what kind of real world is. games - kabaddi. Why engineer? - software engineering from watching movies. Are you happy or shocked?- sometimes both. Engineering like ?- lot of money. Engineering is the field which will help people develop personal skills like pressure ( but that can happen from Army too). Alternatively?- join army , teaching. What do you like about yourself - consistent, deadline, hard working. Certain things I dont like about me ( weakness was not asked so why proactively). - I dont like team leadership skills. I need someone to pressurize me. ( dont say that) Edu - nowadays if you</p>	<p>intro - project on ML, hackathons, ( closes eys while thinking )( speed of speech is slow ) ( voice can be more energetic and louder) free time - watching football and importance of team and how team performs. What is it that makes the winning team - chemistry between the team members is more important than individual credentials ( Superb One of the best answers ever) Team issue- didnt face it. But if i do face, then my first approach would be to call a team meeting, if he cant work or not being a good team player, put his ego down, doesnt think of him as a super leader, ( good he asked that he could not understand the question). Try other method if niceness doesnt work, cant get them on single page, make a deal with them and if you do this we will give you time a better deal. Time ?- muscle memory- do things daily- inculcate after and before that period so that my mind knows, its like setting a trigger, doing same things on</p>

Comments , if any	Intro - Schooling ( not required), family, kanpur- UP, family details given ( not required), more into tech - block chain and web dev , interested in dance,podcasts, music. Podcasts- gaining experience from different fields. Which topics?- Wizardlizz-women empowerment things, facing some kind of adversity, cheer everyone up. Women empowerment?- comparing last 2 decades there are changes even in tech field. Why engineering ?- I love to see and learn stuff in tech domain, it makes me curious how this is working, I really want to do this ( more detailed and relevant ans) ( smiling and energetic and confident) AI and chatgpt ( more points required). Edu ?- changing completely is not required. Can make it better , syllabus mughal part instead of that learn about Indian history and soldiers ( good). Army vs civilian kids- civilian think that we are more disciplined but its not like that ( how honest). team issue - we did his work	Intro - engineering due to 2nd option, school, score, ( looks up while talking), cricket- makes my mood good, first aim is to become army officer ( be prudent), corporate is 2nd option in life. Why you must have gotten rejected?- comm skills. Parts of comm skills ?- should not fear before it happens. How should I get rid of it?- think of other things and think of it when it comes ( superb). Cant cope up- divert your mind. Peace?- talk to my parents, any problem they are with me. Disturbs?- cricket, it takes me there, leave important work and play cricket only, I am regretting only. So now what are you doing ?- now I play cricket between 4 to 5 or 5 to 6 (say this proactively). Projects - rental car. Discipline?- create mindset that I want to, necessary at that time ( use the word priority). Describe Aman- he doesnt care , he wants life to go on, focussing on present, he wants things at a time, not focussing on more. Dhoni Inspiration -

Comments , if any	Intro - solid understanding of comp fundamentals, tech skills, prize - 4000 dollars, resource management skills, punctuality, manage large groups, take best from the groups. Leader?- you must know your team very well, special treatment , lazy, very good at certain things, ( more detailed answer), approach is to first motivate them, i can do more work if they are not supporting. Salary expectation ?- above 10 LPA. Night shift?- ok	Intro - student of block chain, cloud computing, hobbies are to learn new things, geo politics, current affairs. Aim for UPSC. I wanted to work for google. The day I work for google I believe I have achieved something else (don't say that in front of other companies). Why engineering?- parents told pros and cons of both fields, if you are going for google and software jobs, choose PCM and after that studying subjects, I made the choice. Fascinating ?- whatsapp, facebook, google maps, imagine shut down whatsapp for a min ( need better ans). Things you like about yourself - I want to interact more with people , more news about India, what I can do for my country, I guide my juniors. Weakness - I am too invested, I forget to eat. Russia vs Ukraine - peace talks - no war- diplomatic perspective- I would support Russia as Russia supported us when the entire world supported us. Many interests with Russia. Ukraine is sponsors for Pak

Comments , if any	<p>Sudoku, team and time management , calmness, web dev, music. Be calm - consider the situation of other person also. Disciplined?- schedule the targets and targets be achievable. Internship - front end, 2 main projects. Learning strategy?- basics and then implement it ( more details answers), it will be lack of practice. Team issue?- conflict and clashes, we need to understand what the other person is saying and if the point is valid or not, we have to make him realise that work is important, divide the work based on ability that is important. 3 things which I like in you - punctual, spiritual, helpful. 2 weakpoints - inquisitive, emotional and rarely get angry but when I do get, it is bad anger. Inquisitive is good in a larger scale. But if it is constant it is not good. Salary expectation - depends on role and which roles I am applying (but you do know which role you are applying for now )</p>	<p>Intro - basketball, football cricket, tech skills, online PC games. Why engineering - I don't want to get into defence and this was the only field which was exciting ( more detailed and complete ans required) ( why mention not entering army). Frameworks . Fascinating - challenges, pressure ( but the question was about engineering and not about personal stuff). Challenge - exam. Strength - friendly happy. Dislike about me ?- none ( ?? ). Edu- reservation criteria, generals have to try much more than other caste system. Team issue?- i have been told that i have leadership quality in 6th std but I like being the member. Alternative plan - defence is the 2nd option, and then masters if nothing else works out. Tired of education.</p>

Comments , if any	Intro - UP, keenly interested in web dev, internship in Deutsche bank , ( mention the roles and responsibilities- not so familiar) ( more energy ). Hobbies- solve puzzles and read books - Japanese book- The Shiva Trilogy. Why should we hire you?- leader, participation, Sub skills of a good leader?- listen to each and everyone in the team, and finally decide whats best for the team, how to flourish. Weakpoints?- I am weak in physical health, dont indulge in other stuff I have to do, I was the main organiser of the event and I was skipping other stuff. Organising challenge - arranging sponsors, take the permission from the administration, allow us but it takes a lot of effort to pass on file on, take major decisions, if someone is interested - we can take problems from others and represent. Proud of ?- How I like to help individuals. ( explain your previous internships too)	Intro - passion for software dev, honing my skills through 2 projects, peer to peer money laundering, got selected, making music, arranging music and beats. Why engineering?- passion for developing new sites. . Acc to you, qualities of a good website dev - learning, as a begineer doing more suggest. Strenght - both music and engineering work handle work. Weakness - cant ask for help. Internship work is in progress. Projects explained. ( good confidence good body language but answers needs to be relevant and detailed.). If there is no work balance then I will switch to music. Team issue?- as of now, no but in case there was I would give them small work. ( Puneekar does not know CM)

Comments , if any	Front end developer , ML engineer, HTML , CSS, Java skills, ML model project, finalist in hackaton, front end dev made my own profile - react js and javascript and deployed in datapages, many data analyst. Strength- absolute confidence in my skills, whatever work I take I finish it. Weakness - overconfidence byt taking feedback, sometimes I have low moral and I am distributing my problem statement into small parts. ( dont say proactively) HOobbies- art and craft, something new excites me, novel books. Chinese novels have lot of imagination. mysterious 7 and Sherlock Holmes book. Problem statement was anything created for health using ML. Weather condition has an aspect in diseases. More rainfull and more malaria. Disease management system launched by govt of India. So R & D. Made a model and created time series analysis and can predict the disease for next week. It will help in hospitals. Underconfidence?- when I see the	Intro - tech skills, reading, gaming, sports like basketball, lawn tennis, recently doing 2 to 3 projects, it is deployable on amazon web services, updated on latest technologies. Vite app, chatgpt, google io, farm AI, elastic . Common man - he will look at results only, how much the time complexitiy has improved, different outcomes of a single project without any hassles ( good one). Strenght - trying my best to learn about everythin. Strenght - honest and humble , ( gave an example). ( concise this answer in 2 min ). Anything you dont like about yourself - explain things a lot, motivate people too much. Project - trying to integrate with amazon, load it and can have its own features. ( positive attitude and appreciative). Team issue?- mostly everyone is energetic here but there was one case in Kolkata.

Comments , if any	<p>Intro - Bihar, decent location in competitive programmng, events held in colleges, Kodak event, journey in tech dept, sing and dance, sports, basketball. ( He sang well) ( Pleasant personality). Why engineering?- boosting area, creating new fields of AI and ML, lot to explore, lot to learn, good growth. Where do you see yourself a few years from now?- I am doing internship . I want to do datascience. Human qualities for a good datascientist- knowledge, patience, accountability, dedication to your work. Why hire you?-dedication, ability to learn fast, socialise, make friends. Make friends?- love to initiate talking, love to ask questions. Team issue?- not till now, communicating to sync, but if I would face that then I would create a plan, make the team know about the work and time in advance, we need to coordinate. Holidays?- I dont have any idea of time, I play for 4 to 5 hours. Learning strategy?-</p>	<p>Intro - From Goa, AIT, football, tech skills,explore things and want to travel. Internship details given well. Why engineering?- as a child used to watch discovery channel, aliens, I wanted to be space explorer or scientist . Thought of it and researched. Wasnt able to clear IIT. ended up doing computer engineering. I felt. Tech advancement s?- AI, personal experience by using AI an dassinging tools, I can feel the productivity that has increased. Application of strenght ?- havent experienced the adventure of life so I will speak as per that. ( you can directly start with the answer. ) I can figure out things if you dont provide me everything I can still figure out what to do ( good answer) . Disciplined?- I am not disciplined . If a project pays a very good amoutn then I am serious ( dont say that). ( look at the interviewer while answering)</p>

Comments , if any	Intro - football , volleyball, blockchain, project dev intern. Internship details given. Corporate experience?- industry experience, it's a little chill, sky parks, lunch parties. Why engineering- wanted to join army but couldn't clear SSB. I thought I will give CDS. But I thought I must have a back up ( dont say that). If you dont get through army and job what would you think- I dont think about future. I think about today only. I will see things down in my way. You see only today so does that help you be focussed? disciplined?- I wake up at 7.45 and go to sleep at 12, never taken a leave, also ( good energy, good voice), met new people, do not give up your ground. Inspiration - mother was studios, talents were not recognised by the family. Happy or unhappy?- because of me if someone becomes unhappy. Wrong decision ?- didnt pay attention in written exam( dont say matlab every now and then)	Intro - learning new tech, Dehradun, internship in Microsoft, tech skills? , tech secretary in college, students council ladies representative, sports - volleyball. How do you manage your time?- ( good body language, good confidence, good clarity) stopped at desire. Weekdays - learning and studying. Weekend - dance. (Time management answer could have been better) She mentioned activities and not the concept behind time management. Tech secretary challenges ?- branch head might call while I am working on something important, we cant say a no to any questions( keep the answer crisp and compact and not continous explanation). Team issue?- work cant be done its not like that. We did the work done in a different way ( tell the example proactively). I would like to share ( good). Strength - dedication and hard work , punctual. ( give specific ans). Weakness - get anxious when I cant achieve their deliverable, dont have any

Comments , if any	<p>Intro - hackathon, we organise annual hackathons ( a lot of info on Hackathon and AIT instead of self), success we have achieved in past few years , anime , playing PC games, Maze Runner - novel, ( Always smiling). Vidushi - intelligent women. Do you think you are intelligent and what are your other strength - I am a learner , I dont believe that people are born intelligent. If you want to grow personally. I learn explouring, team worker, like to socialise with everyone, I am not shy asking help, I can accept what I dont know. Bad stuff are ? - less consistent ( but weakness was not asked), not expertise but knowledge of many stuff. Regrets?- explained well. Why engineering?- inclined towards scientific part. Bio is there ( keep the answer crisp and compact), I dont like bio as I could not mug up ( say why I chose engineering and not why you did not choose bio). Engineeering read - they are working for providing things as solutions for society.</p>	<p>Intro - projects, chess, strategising things, read lot of books, self help books in engineering. ( good attitude, genuine , pleasant, sincere) Why engineering?- subjects interested me a lot. ( more relevant ans). Tech advancement - chip - transmitted to the brain...posted on linkedin - Elon Musk . Anyone else who has contributed to th society- JRD Tata- Industrialist - vision for India- focussed on technology- he bought it to India and tried to contribute. Strength - ready to learn new technologies, keep calm in situations, have plan things and if it gets overwhelming , I jot things. Currently lot of assignments - prioritising them. Learn things effectively?- basic understanding, go through specific things, branch out, and getting insights from people. Weakpoints - hesitant to learn new tech and converted them into strength. Edu system - taking inputs from students, edu system was colonial and that should be changed. ( mention altlernative to</p>

Comments , if any	<p>Intro - AP, Mumbai for internship, ML, web dev, sports secretary, organised a biggest fest in Pune, badminton and football, read and dance and paint. Roles and responsibilities and challenges faced as a sports secretary?- organise leagues, train teams, help teams who want to go out, infrastructure arrangement. Challenges?- students and teachers both are asking what are you doing. Administrative are not supportive Easy to be asked it is so simple but it is not ( dont mention unsupportive administrative. say stricter administrative). Give eg:- example given of refreshments especially Glucose especially in Feb since it was summer. Good leader qualities-listen to people, patience for people who are working with u and for you, its their problem you have to solve, decision making is critical, delegation, which people you should delegate it to, know your team , how to negotiate. Weakness that has let you down in life so far?- perfection and wasted my time a lot, stage fear but now</p> <p>Intro - Rajasthan, schooling from Dehradun, tech guy, ( don't look up while talking,,), nosy person, current affair as compared to other people, ( don't say in comparison and know all info then ) ( need more relevant intro ) Strenth - good time manager, quick learner, learn new things ( more specific ans needed) learnt python. Time management - (explain the concepts and attitude and not specifically your schedule). Weakness - I go for excellency. Why engineering?- it was my 2nd option first for army. Fascinating ?- sitting in room, you can generate so many ideas, so many solutions. Any regrets?- I want to change something, but if i get a though, i always switch that I come to conclusion that everything is ok . 9th to 10th - Army prep, I developed my personality that people dont have ( dont mention comparison)</p>

Comments , if any	Intro - location, district, schooling, what exams you gave to join AIT, 96 percentile, hobbies - rap, basketball . ( rap ) ( Enimen). What do you like about him- he raps as reality, he has a tough life. Inspired by father. Father has been through tough times, he lifted the entire family, started from ground zero, now everyone respects him. Did you always want to be an engineer?- like face verification query and curiosity, father said about software engineering. Tech advancement ?- ability to make machines understand human language- it is called NLP- natural language processing, chatgpt, face verification, object detection for eg brain surgery. If there is an object, the machine scans the accurate position- software engineering and other vision - computer vision. Weakness - online gamer- lot of time in gaming. gaming skills?- became an introvert, didnt talk to anyone,	Intro - Rajasthan, schooling from different place, interning from Microsoft, solved 1000 plus questions, problem solver, anime, football, Achievements - scoring 3rd rank in coding. ( don't look up while talking). Lot of achievement any failures- I took 2 year drop ( he stopped. details?). ( learning?) - earlier i used to procrastinate a lot. Now also I do- but I can control myself ( lovely). Apart from the control that you have developed, what are other strength you have - I am not scared of failures, I know I can cope up ( he stopped, more details required), I was able to score 97% percentile in 1 month prep. So it means if I set my mind to something I can . ANY regret?- drop year - play. Inspiration - disciplined people. Football skills?- observing people ( lovely), play role of defender, command my other team players or coordinate. What do you reall like about your life now and what do you dont like?. What would describe you as get along very

Comments , if any	Intro - Haryana, tech skills I love maths so I love coding, 1000 questions, good with data structures, project on ML, sporty person, basketball, movies - Life of Pi, in the wild, ( don't look up while talking), animated movies- The Soul, lesson learnt . Why engineering?- I hated biology but I loved maths ( better answer) and now loving it. Tech advancements - chatgpt , track people, order online, dont have to take a step out of our home, I like to do background work and I want to like the real logic ( can insert that in intro) Women and men equal - things are not changed for all, people are not aware. Taken away your smile situation - phases situation. Discipline - priority, focus on work and completion, not specific time as such. Learning strategy?- first read it, even if you dont get it , collect all the doubts, ask experts. Corporate experience- logic is not the only thing important, the way you are writing code, even if anyone doesnt know he should	Disciplined, strong army background, work ethics. Responsibility- Chess event head, It secretary of fine arts clubs. Strong work ethics?- do things on time, truthful to the organisation. Chess qualities?- concentration, if you get distracted by just a little noise, move prior to that and that can effect you in the head. Achievement ?- 5 students from ENTC to comp- I scored well. Why engineering?- problem solving skills ( incomplete answer. There are more details required and irrelevant) , we get to know more people ( not relevant to this question). Roles and responsibilities of event head?- not many girls have played chess, taught more than 10 girls. ( incomplete ans for roles). Challenges while teaching them?- it was difficult but I encouraged them. Strength and weakness - weakness ( why start from weakness)- cant say no to people. Strength - hard workin g( more specific ans required) ( she has the potential but

	12%	16%	25%	30%	17%	
	28%	52%				
				48%		

### Report Finding

NR-Not recommended means absolute rejection

NT-needs training means I see some hope and he needs guidance and training

CC means can be considered - It means he has the potential but was unable to differentiate between right and wrong answers in a few places.

NT and NR is 28% of the batch which has the potential to get rejected.

CC candidates-25% - are the average ones which can get through average hiring practices. CC candidates are not meant for strict hiring

However realistically NT, NR and CC need direction and handholding. Thats 52% of total candidates interviewed

R and HR- Recommended and Highly Recommended - 48% of the total candidates interviewed- 100% probability of getting hired

Mock PI Feedback 2023.xlsx;

Dear Sir,

A very good afternoon.

Please find attached students' review on mock interviews and interview feedback for your reference.

### **Highlights - Average rating ( out of 5) given by 144 students out of 313 interviews conducted**

- Trainer skill and knowledge - 4.53
- Ability to connect with trainee - 4.58
- Communication skills - 4.67
- Style of interaction - 4.64
- Simulation of interview environment - 4.31
- Relevance of personal feedback - 4.46
- 106 (74%) people would *definitely* like more guidance and training for final interviews. 28 people would *probably* want more sessions. Thats 134 (93%)
- 130 (90%) people would definitely recommend the training to juniors.
- Overall experience of the sessions - 4.51

Warm Regards,

**Paromita Das**

## **EVENTS & ACHIEVEMENTS**

### **International Yoga Day 2023**

Since its global recognition as an international observance in 2015, the summer solstice of June 21<sup>st</sup> has been synonymous with the celebration of Yoga Day. This ancient Indian discipline, revered for its holistic approach to well-being, continues to captivate the world with its promise of unifying body, mind, and spirit.

In a vibrant celebration of unity and well-being, the Sports Club of Army Institute of Technology embraced the spirit of International Yoga Day on June 21, 2023.

19 Jun 2023

**OFFICE OF PRINCIPAL**

**INTERNATIONAL DAY OF YOGA**

Sports Club of AIT is celebrating "INTERNATIONAL DAY OF YOGA'23" on 21st June 2023 (Wednesday). All Faculty and Non-Teaching Staff Members are requested to attend and grace the event at RAMAN THEATRE, 7.00 am to 08.00 am. All are instructed to seat in RAMAN THEATRE by 6.45 am.

Yoga Day Celebration is mandatory for staff members who are staying in Campus. However it is expected that maximum faculty and staff members attend the same.

Please wear appropriate attire and bring yoga mats to perform asana.

Number of Faculty Participants	2

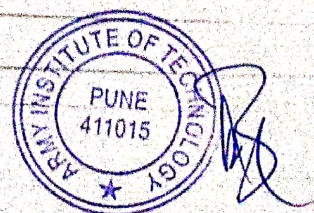

Number of External Participants, If any	
Expenditure Amount, If any	500
Description of activity( 50-150 words)	Cycling Club organized a ride to Ramdara temple on the occasion of Ramnavmi. Ramdara Temple is an ancient temple with steps down to the water & decorative idols in vibrant, colonnaded prayer halls. The temple is devoted to Lord Shiva and Goddess Parvati. It houses the idols of many Gods, Goddesses and Saints. As it is more famous for Shri Ram, Sita and Lakshman, hence the name. It is surrounded by lake from three sides. There is a huge garden beside the temple. This Ride included staff members with BEs and TEs. They visited the temple and spent some time in the holy atmosphere there. Total distance covered was 66 kms.

Comments , if any	<p>Lost confidence at the start but pulled it up later. Weaknesses were not mentioned as rectified and how.</p> <p>Mentioned no internship at the start which is not a good answer but later mentioned he has applied to different companies. He did explain the reason he should be taken seriously even though he is an engineer in pandemic times very well. Tough situation. Salary answer was good. He has mentioned only short term projects. Should mention long term career as well. The question back to the interviewer was good in terms of what would you do with your new employee</p>	<p>Self introduction needs to be better. Instead of focussing on scores, skills can be mentioned -technical skills and soft skills. Not playing football in the evening on the day of rejection of the interview can be improved. Weakpoint answer needs to be improved. <b>He can be trained for sure but needs time.</b> Which offer would you take answer is incorrect. Could have answered about the research and work environment before.</p>	<p>Aim is to be come an army officer &amp; he is exploring corporate job in engineering so that's a completely incorrect answer. Internship project initially answered wrong but later on added that he would look out for projects proactively as his friends are doing it. Between national and international projects, he chose national as he would learn more ( not logical because you learn from everywhere) and later added that would help him serve the country ( the answer was rectified). I believe he answers right when he thinks about it. But reflexively he answers as per the first thought. <b>He needs to be prepared for sure and then it will work out perfectly fine for him</b></p>

Comments , if any	Volume of speech has to be loud and clear. Introduction was natural and not scripted. Speed of speech is too fast. Good confidence. Introduction was longer than required. Good communication skills. Proactive. Explanations were good. Common sensical and valid answers. A miss one or two. Good attitude and careful. Highly recommended for hire !	Compact introduction. Speed of speaking has to be slower. Needs to be more proactive with answers. Weakness answer was not prepared. Overall good answers as such especially efforts well taken. Good to hire	Forgot to mention his name in the introduction. Interesting introduction. Good confidence, valid answers and good personality. Steady and groomed. All answers had valid rationale. Most answers were a good blend of common sense, required culture and purpose. Quotes and examples given from real life. Highly recommended for hire !

Comments , if any	Speech has to be loud and clear. It seemed like he was reading the introduction and a few answers. He did not look at the interviewer most of the time. Good confidence, calm, sober but clear firm and confident....covid project explained well. Continuously moving while speaking. Smiled at all the critical questions asked. He is a positive person as such. Team spirit answer could have been better. He is a good candidate. Needs more grooming. Feedback was explained and most probably he will do well in his final interview.	Roll number was not mentioned on the screen. Eye contact missing, ave an impromptu topic of women being lesser than men...he was confident and excited. He was put in a spot by me and he did well. Internship explained well. Great answer for team playing. Good common sense. He is a street smart candidate and will get the work done. Good to hire	T Shirt on interviews? Fumbling while introducing. Introduction errors rectified. Continuously fidgeting while answering. Poor eye contact. Weakness answer was good. Team issue answer has to be more refined. Biggest achievement explained very well. Learning answer was good. Why should we hire you was confused with why are you applying with us. Can be considered if he prepares well. Has potential

Comments, if any	<p>He confirmed if he was audible. Hobbies to be mentioned with skills. Competitive personality, multitasker - in 3 years of engineering, sports and other things too. Latest developments in computer engineering is AI, Machine learning, cryptocurrency and stock market, block chain - building block of crypto currency. Described multitasking well. Able to multitask because he enjoys things so he can fit things in his schedule easily. That is the most genuine answer. Good eye contact. He does not overthink. Liked the explanation of I want to win but cant win always and he realises that. He does not overthink. When was the last time he lost? - explained well. Explained the internship well. Job market explained well. Weakpoints - learning skill properly and was not filtering it. Poor vocab? Excellent. A boss who is always thinking of himself- dislike ? - wrong answer. Except the last answer and latest developments, the candidate is clear, confident, deep and answered excellently well . Must hire !</p>	<p>In the last 4 years, used my time effectively - good sentence. Good introduction. Why is Akhil looking down and talking? Maybe he is looking at me but it looks like he is looking down. Latest developments is AI, Machine learning, High performance computing used for scientific applications to process large amount of data. Weakpoint - shy - mentioned how to overcome, also self reliant- he realises he should ask more questions. Spontaneous candidate, he is confident. Speed of speech has to be slower, good expressions. Some answers seemed abrupting ended. Good to hire anyways</p>

Comments , if any	<p>Good introduction. Good efforts. Gave quotes and examples. Wrong answer for latest development in technology. English grammar slipped here and there. Otherwise good answers and good attempt. Good to hire</p>	<p>Dress code totally incorrect and keep the background blurred. Started with city and hobbies and then AIT ...sequence was wrong. Mention the strength- good sense of humour, adaptability, confidence, work efficiently in team. Weakness - want to improve my study skills, trust easily, i spend time on making things perfect. Team issue - explained very well and in good language and explained why he was in favour of it. Good choice of words. Learning effectively - the hardest thing to start is to just start, passion. If not passion, think of necessity. Be hard on yourself and think of future plans and mind will work in constructive manner. Internship- no. This guy is a must hire. He is not only intelligent but brave and can take hard decisions- Must hire</p>

Sub! - Mock PI, Reviews & Feedback

Date  
6/8/21

The major success of this campus placement (2022) has come because of the systematic Mock PI, individual feedback & reviews. First time, 305 students have gone through this exercise rigorously. The students got a very big advantage in the process of Delhi & RS. All Mock PIs were conducted even after the timings mentioned. RS. 1500/- for ~~2 hrs~~ one hour.

Total hours =  $111.17 \times 1500 = 1,66,755$ .

Put up for your approval pls.

34		

### REPETITIVE LEARNING WITH PRACTICE

- Impromptu Questions are asked on earlier syllabus covered anytime in the next hours
- The method to reach the answer is evaluated and expected than just the right answer
- Right behavior and body language hammered frequently

### INSTANT FEEDBACK MECHANISM WITH REINFORCEMENT

- Feedback is instant to enhance immediate learning and retention
- Both positive feedback and developmental areas are publicly shared for optimum group learning
- Students are trained in advance to receive feedback sportively
- Counter feedback from students is encouraged

### CONSTANT PRESENCE OF MENTOR

- Available to respond to students personally post training sessions to encourage overall growth of the student and to continue hand holding till the student is independent

### BALANCED CLASS CONTROL- BEHAVIOURISM & LIBERATIONISM

- Students and trainer both control the class part by part as and when needed. So behaviourism ( teacher in control) and liberationism ( student in control) are both used in sessions
- 100% liberal participation
- Group interactions
- Queries and doubt clearing post training

### STRUCTURED SYLLABUS

- Content is customized as per client requirement
- Content is logically and time wise structured
- Content is covered as per the schedule

### REFERENCE MATERIAL

- Documents like types of Job Description are studied in depth
- Success mindset hammered
- Reference videos
- Reference documents

## **TRAINING APPROACH**

Different styles of training have been integrated for maximizing results. Deep learning along with a balance of reflective & impulsive learning are brought to the table. Reading, Writing, Interacting and Visual styles of learning are used in combination to train effectively.

### **CONNECTIVISM**

- Students are asked about their challenges
- The training is custom created as per the batch
- Students are connected with on their level of IQ and EQ first and later attempted to develop gradually
- Trust ensured between the Guru and Shishya, the expert and student, the trainer and the trainee

### **CUSTOMISED RESPONSE**

- The questions are generic and repetitive by interviewers, however individual unique response to the same question is trained
- Critical thinking trained
- Method to customize the answers to avoid cloning response
- Method to retain interest of the interviewer
- Ensuring time driven response
- Ensuring relatable response

### **COACHING & TRAINING – NOT SPOONFEEDING**

- Students understand how to respond and draft their own answers
- Students practice their answers camera facing and class facing.

### **SOCIAL CONSTRUCTIVISM- GROUP INTERACTION**

- Students' interview answers are publicly brainstormed/ evaluated by all students and by the trainer
- Students learn from information exchange & from each other's displayed strength & weaknesses
- Mistakes are encouraged
- Students learn by talking to each other and not by only studying

## “Cracking job Interview Program- Adv (CIP- Adv)”

1. **Conduct** - The program consists of 4 hrs of training, For better assimilation it is recommended to cover it as 4 hours on a given Saturday (say 11- 1 PM and 3- 5 PM) or 2 hours on consecutive week days
  2. The training will be carried out in highly interactive, highly engaging manner by highly experienced faculty who are GoI certified Master trainer, Corporate Trainer and Corporate recruiters. The training will include practical tips that have been observed through more than 2000 interviews. Further a Whatsapp group will be created to share various relevant articles and tips. The key take aways are as given below –
    - **Curate professional profiles (CV II)** - How to proactively showcase your capability for a desired job. This training gives an insight to strengthen your CV by correctly showcasing your work experience, strengths, skills and accomplishments. Causes of rejection of CV by Application tracking system (ATS), Strategically use your network to grow professionally like LinkedIn
    - **Communication Skills (CS)** – How to improve your self-presentation and communication skills to get your dream job. This training gives an insight into accurate and successful verbal communications, non-verbal communication, active listening, common mistakes and pitfalls to be avoided
    - **Crack your dream job by boosting your interview skills (FAI - II)** - How to actively engage with interviewers to ensure a successful job interview. This training gives an insight into covering gaps in CV. Mastering common interview questions. All aspects of facing an interview
    - **Strategies for interview Success (FAI - III)** - How to ensure you project yourself with confidence among your peers in job interview. This training gives an insight into answering techniques, types of questions, finer points of projection, highlighting your strength. Answering how you are the best fit for job. Dealing with HR round

Subject: Closure report - "Cracking job Interview Program Adv" for TE students of AIT by Centerpoint4skills

Hello Prof Manoj Sir,

Please find given below the Closure report on conduct of "Cracking job Interview Program (CIP)" by Centerpoint4skills (refining careers)

**Cracking job Interview Program (CIP) @ Centerpoint4skills (refining careers)**

Date and Time - 08 Mar (4-6 PM) and 10 Mar 22 (4-6 PM)

Average Participants per day - 20

**A - Conduct**

1. The four lecture Program was conducted in lucid manner with numerous examples under four major modules ie
  - (a) CV Writing – The lecture covered finer points of aligning the CV to the Job Description (JD), recruiters mindset, steps to write a powerful CV, power of networking and LinkedIn
  - (b) Non Verbal Communication during Recruitment process - The lecture comprised aspects of non verbal communication in view of F2F or VC based interview as well as during Group Discussion
  - (c) Facing an Interview (02 lectures) – The two lectures covered reasons for poor performance, types of interviews, types of Questions – behavioural and situational, steps to prepare for interview, STAR methodology to answer questions, Introduce yourself, frequently asked Questions and activities during Interview day
2. WhatsApp Group – A WhatsApp group was created and articles were posted on a regular basis
3. Engaging activities – Brain teasers, small videos were also conducted during the lecture

**B - Feedback** - Feedback was taken after every day's lecture (on a scale of 1 – 5, 5 being the highest). 35 responses were received and average feedback score received is **4.51** on scale of 5 implies that they found the language, speed and content highly satisfactory

**Comments** – Some of comments received in the feedback are as given below :

- 
- The lecture was quite helpful to understand the selection process of companies
  - The lecture was very amazing and knowledgeable
  - A knowledge gaining lecture
  - It was very impressive
  - Very knowledgeable and good session
-

213

The under mentioned seven soft skill training lectures have been carried out for TE students of esteemed AIT during Academic Year 2021-22:-

**Professional Soft Skill Program**

1. "Write a powerful CV to successfully clear the screening process", on 13 Oct 21
2. "How to prepare for success in a job interview" on 08 Nov 21
3. Improve your employability: upskill for endless possibilities through Professional Development Plan" on 22 Nov 21

**Cracking job Interview Program Adv (CIP Adv)**

1. Write a powerful CV to successfully clear the ATS on 08 Mar 22
2. Critical role of Communication in Interview process on 08 Mar 22
3. Understand the recruiters mindset in Interview process on 10 Mar 22
4. Learn the efficient way of answering during an interview on 10 Mar 22

Request the charges (INR 7,000 - Rupees Seven thousand only) for said lectures may please be remitted to Centerpoint4skills account by 25 Mar 2022 (considering the closure of Financial year)

1. Google pay : Mob no +91 8805008177 / Name - Centerpoint4skills or
2. Bank Transfer (NEFT) :

Beneficiary name- Bindu Arora ;

Account no. Saving 0616104000250986;

Bank- IDBI Bank Ltd;

Branch- East Street, Camp, Pune;

IFSC- IBKL0000616

Thanks,

Colonel Ajay Arora

Team Centerpoint4skills

M- 8805008177

Case No:

Sheet No: 01

Sub:- Centre 4 point Skills program.

This is the regular series, we organize from last yr by Col. Anora. very useful & good practice.

First phase is over. Details are placed opposite.

Rs. 7 K for 7 sessions.

Put up for your approval plz.

(TRP Budget)

- 57 What is the value of  $k$ , if  $k$  is an integer?
1.  $k^3 - k^2 = 0$ .
  2.  $k > 0$
- 58 20 boys and 30 girls of a class took a test. Was the average score of boys more than 73?
1. The sum of all the scores in the test was 3750.
  2. The average score of the girls was 76.
- 59 If  $x$ ,  $y$  and  $z$  are positive integers, is  $x + y + z = 3$ ?
1.  $xy = 1$ .
  2.  $y.z = 1$ .
- 60 Of 5 boys, how much did the first boy score?
1. The five boys scored together 880 marks.
  2. The last four boys collectively scored 400 marks more than the first boy.

Space for Rough work

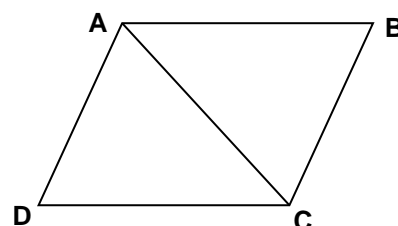

## Analysis and Solutions of CPFT N6

### Paper Structure and Analysis –

Sections	Quant	Verbal	Logical
Questions	20	20	20
Time Allocation	22-24 Min	17-18 Min	17-18 Min
Easy	01, 02, 05, 06, 07, 11, 12, 14, 15, 17, 18	27, 28, 30, 32, 33, 24, 36, 38, 39, 40	45, 46, 47, 48, 52, 53, 54, 58, 59, 60
Cut Off Marks	8	8	8
Good Score	11	12	10

### Quantitative Ability

- 01 (2)  $1/6 = 1/12 + 1/18 + 1/C \rightarrow C$  will fill the tank in 36 minutes.  
Capacity of tank =  $36 \times 10 = 360$  litres.
- 02 (2) Speed =  $(L_T + L_P) / T \Rightarrow (100 + 50) / 6 = 25$  m/sec  
New speed =  $60 \times 25 / 100 = 15$  m/sec  $\rightarrow$  Time =  $(100 + 50) / 15 = 10$  sec
- 03 (1) Probability of cat catching mouse =  $1/5 \rightarrow$  Probability of dog =  $1/6$   
Both are dependent events  $\rightarrow$  Required Probability =  $1/5 \times 1/6 = 1/30$
- 04 (2) Let C.P. = Rs. 100; Loss = 70%; S.P. = Rs. 30; But this is only one third of original S.P.  
 $\Rightarrow$  Original S.P. = Rs.90 But C.P. = Rs.100  $\Rightarrow$  Loss = 10%
- 05 (3)  $2^3 + 4^3 + 6^3 + \dots + 20^3 = 2^3 (1 + 2^3 + 3^3 + \dots + 10^3) = 8 (10 \times 11 / 2)^2 = 24200$
- 06 (1) We need a three-digit number which is multiple of 11 and divisible by prime numbers above 7. So, the no could be  $11 \times 11 = 121$ ;  $11 \times 13 = 143$  etc. The smallest among these is 121.
- 07 (3) Milk in both glasses =  $2/3 + 4/5 = 22/15$ . And Water in both glasses =  $1/3 + 1/5 = 8/15$   
 $\rightarrow$  Ratio of Milk : Water =  $22 : 8 = 11 : 4$
- 08 (2)  $\Sigma 3n^2 + \Sigma 2n - \Sigma 5 = 3n(n+1)(2n+1)/6 + 2n(n+1)/2 - 5n = 20 \times 21 \times 41/2 + 20 \times 21 - 100 = 8610 + 420 - 100 = 9030 - 100 = 8930$
- 09 (1) Let the parallelogram be ABCD and let AB = 10, BC = 8 and AC = 14.  
Now Area(ABCD) = 2 X Area ( $\Delta ABC$ )  
Area of  $\Delta ABC = [s(s-a)(s-b)(s-c)]^{1/2}$  where a, b and c are lengths of the triangle ABC and  $s = (a + b + c) / 2 = (10 + 8 + 14) / 2 = 16$   
Area ( $\Delta ABC$ ) =  $[16(6)(2)(8)]^{1/2} = 16\sqrt{6}$   
So Area(ABCD) =  $32\sqrt{6}$
- 10 (1) Since speed of passenger train = 28 Kmph; Speed of express train = 42 Kmph  
Distance covered by passenger train in 4 hours =  $28 \times 4 = 112$  Km  
 $\Rightarrow D/42 = (D-112)/28 \Rightarrow D = 336$  Km
- 11 (2) Let present ages of Ram be x years and Shyam be y years.  
 $\Rightarrow (x - y) + (y - 5) = 55 \Rightarrow x + y = 65$  ————— (1)  
Also,  $(x + 5) = (x + 5 + y + 5)/3 \Rightarrow 2x - y = -5$  ————— (2)  
Solving (1) and (2) we get x = 20 and y = 45
- 12 (4)
- | Name   | Capital | Period | Profit |
|--------|---------|--------|--------|
| Raghu  | 1/4     | 8      | 2/5    |
| Bharat | 3/4     | T      | 3/5    |
- $(1/4 \times 8) / (3/4 \times T) = (2/5) / (3/5) \rightarrow T = 4$  months

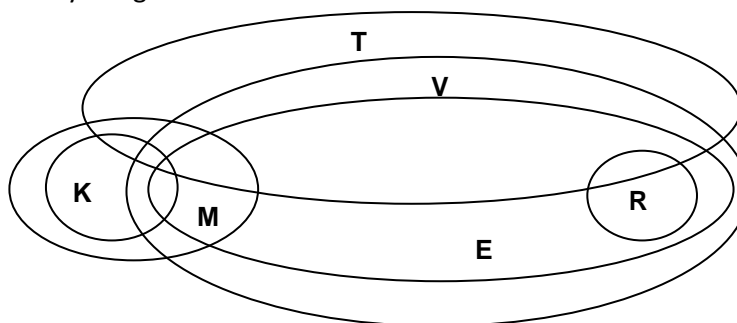

- 13 (2) Let  $n(A)$  = Hindi;  $n(B)$  = English;  $n(C)$  = Marathi and  $n(D)$  = French  
 $\rightarrow n(A \cup B) = n(A) + n(B) - n(A \cap B) \rightarrow 100 = 85 + 80 - n(A \cap B) \rightarrow n(A \cap B) = 65$   
 $\rightarrow n(C \cup D) = n(C) + n(D) - n(C \cap D) \rightarrow 100 = 90 + 95 - n(C \cap D) \rightarrow n(C \cap D) = 85$   
 So Minimum 65% people speak Hindi & English. Also minimum 85% people speak Marathi & French.  
 Hence minimum % of people who speak all language is the minimum of 65% & 85%  
 $\rightarrow 85 + 65 - 100 = 50\%$
- 14 (3) Let  $L_A$  and  $L_B$  be salaries one year ago. Also let  $A$  &  $B$  be their present salaries  
 $\rightarrow L_A / L_B = 2/3, L_A / A = 1/2, L_B / B = 1/3, (A/2) / (B/3) = 2/3 \Rightarrow A : B = 4/9$   
 $\rightarrow B = 9(6500)/13 = 4500$
- 15 (1) S.I. for 2 years = Rs.900 – Rs.700 = Rs.200  $\rightarrow$  Amount after 2 years = Rs.700  
 Hence principal = Rs.500
- 16 (2)  $343 = 7^3$ . Hence sum of divisors =  $(7^{3+1} - 1) / (7 - 1) = (2401 - 1) / 6 = 400$ .
- 17 (2) Let total profit = Rs.  $X$  Now, 40 % of  $x = 0.4x$  is distributed in proportion to investment.  
 Shyams share =  $3(0.4x)/9 = 900 \Rightarrow x = \text{Rs.}6750$
- 18 (1) No of ways you can answer any no of questions =  $2^n$ ; At least one correct =  $2^n - 1 = 31$
- 19 (4) No of Girls above 8 years = 48  $\rightarrow$  No of boys above 8 years = 48  $(3/2) = 72$   
 Number of students above 8 years =  $48 + 72 = 120 = 80\%$  of Total students  
 $\rightarrow$  Total number of students =  $120 / 0.8 = 150$
- 20 (2) When repetition of digit allowed =  $9 \times 10 \times 10 \times 10 = 9000$   
 When no digit repeats =  $9 \times 9 \times 8 \times 7 = 4536$   
 At least one digit repeated =  $9000 - 4536 = 4464$

### Verbal Ability

- 21 (4) Refer to second half of the passage. It talks in details about reforms, and effects of it.
- 22 (1) According to the passage reforms does change character of the society
- 23 (4)
- 24 (1) Refer third line of the passage
- 25 (4)
- 26 (3) The verb should be “is increasing”
- 27 (4) Replace “given the lead” by “who have lead the country”.
- 28 (2) It should be tall “enough”
- 29 (3) Verb should be “wants”
- 30 (1)
- 31 (1)
- 32 (1) Aggressive and Large does not fit in the first blank. Also ignore does not fit in the second blank.
- 33 (4) Ingenuous means naïve, frank, candid, honest
- 34 (3) Accolade means honour, tribute, award
- 35 (2) Archaeologist studies past human life through antiquity [means things of past times].  
 Ichthyologists studies the marine life
- 36 (2) Pedagogue is someone who offers learning or educate people, similarly professor offers erudition [profound scholarly knowledge]
- 37 (3)
- 38 (4) Gun is kept in holster same as books are kept in school bag.
- 39 (2) Abhor means to hate, dislike. Adore means to love, worship
- 40 (3) Nepotism means Favouritism, partiality

## Analytical Ability

- 41 - Following Venn diagram satisfy the given conditions –  
44

- Q. 41 **(1)**, Q. 42 **(4)**, Q. 43 **(2)**, Q. 44 **(2)**
- 45 **(4)** 1242, 1362, 1482, 1503, 1623, ? =  $12 \times 2 = 24$  which is written as 1242 [interchange of last 2 digits] so answer is 1743
- 46 **(3)** 5431, 9854, 7865, 9762, 4310 in each no value of digits is decreasing from left to right except 7865
- 47 **(3)** 48 **(3)**
- 49 **(2)** 50 **(1)** 51 **(4)** Explanation –  
 $X + Y + Z = 10C_1 + X \rightarrow Y + Z = 10$  and as maximum value of any digit is 9 we get  $C_1 = 1$   
 Now  $X + C_2 = 10Q + P$ ;  $C_2 = 1$  or  $2$   
 At  $C_2 = 1$   
 We get  $X = 9$ ,  $Q = 1$  and  $P = 0$   
 Also  $X + X + Y + 1 = 10 \rightarrow 9 + 9 + Y + 1 = 10$   
 $Y = 0$  NOT POSSIBLE as  $Y = P$   
 At  $C_2 = 2$   
 We get  $X = 8$ ,  $Q = 1$  and  $P = 0$   
 Also  $X + X + Y + 1 = 20 \rightarrow 8 + 8 + Y + 1 = 20$   
 $Y = 3$   
 Also as  $Y + Z = 10$ ;  $Z = 7$   
 Final Answer  $\rightarrow X = 8$ ,  $Y = 3$ ,  $Z = 7$ ,  $Q = 1$  and  $P = 0$
- 52 **(2)** 53 **(4)** 54 **(4)** Explanation –  
 Side opposite Face 4 can be with Face 1, 2, 3, 5 and 6  
 $\rightarrow$  Fig 1 and 2 indicates that Face 4 is NOT opposite of Face 1, 5, 2 and 6  
 So, Face 4 is opposite of Face 3  
 Now Face 2 can be opposite of Face 1, 5 and 6  
 $\rightarrow$  Fig 2 and 3 indicates that Face 2 is NOT opposite of Face 6 and 5  
 So, Face 2 is opposite of Face 1. Lastly Face 6 is opposite of Face 5
- 55 **(1)** From statement (1) alone we get individual quantities of ethanol in P and Q and hence we can find its percent in R. Hence option 1
- 56 **(2)** From statement (1) alone  $b = \pm c$ , hence  $bc = \pm c^2$ . Hence, we cannot come to definite conclusion. From statement (2) alone  $b = c$ , hence  $bc = c^2$ . Hence option 2
- 57 **(4)** From statement (1) alone  $k = 0, \pm 1$ . From statement (2)  $k > 0$ . Hence  $k = \pm 1$ . We cannot come to definite conclusion. Hence option 4
- 58 **(3)** From statement (2) we can calculate total score of girls. Substituting it in (1), we can calculate total score of boys and hence their average. Hence option 3
- 59 **(3)** Both the statements when used together give values of x, y and z as 1. Hence their sum is 3. Hence option 3
- 60 **(3)** If x is the score of the first boy and y is the sum of the scores of other four boys, we get two equations in two unknowns. Solving them we get x. Hence option 3

		X	X

**Sent:** Friday, August 6, 2021 2:30 PM

**To:** Principal AIT <principal@aitpune.edu.in>

**Subject:** URGENT: "Azadi Ka Amrit Mahotsav" - Fit India Freedom Run 2.0-reg.

*Dear Sir/Madam,*

*Greetings from AICTE..!!*

*This is in continuation of our earlier email dated 2nd August 2021 on subject mentioned above. We have received D.O. letter from the Ministry of Education(MOE) dated 05 Aug 2021(attached). As you are aware that the celebration of 75 years of India's Independence - "Azadi Ka Amrit Mahotsav" have commenced with active participation of all stakeholders. In this connection, "Resolves@75", Fit India Mission has conceptualized Fit India Freedom Run 2.0 to commemorate the occasion.*

*The Nationwide Virtual launch of Fit India Freedom run 2.0 by **Hon'ble Minister of Youth Affairs & Sports, Sh. Anurag Singh Thakur and Hon'ble Minister of State, Youth Affairs & Sports, Sh. Nisith Pramanik** will be held on 13th August 2021. All the citizens will be given a call to make a resolve to include physical the activity of at least 30 minutes daily in their lives i.e. FITNESS KI DOSE AADHA GFIAANTA ROZ. A concept NOTE on 'Fit India Freedom Run' is enclosed in this regard.*

*AICTE seeking cooperation from your institutes in reaching out to students & faculty members in your institutions for their participation in the 750 events organized by the Ministry of Youth Affairs & Sports (MYAS) across India and conducting physical/virtual Freedom Run events. Pre-event promotion of the event may be ensured from 10th August, 2021 onwards and the program may be given publicity through social Media, Regional TV/Newspaper etc. Also, ensure the promotion of Freedom Run on the social media channels with #Azadi Ka Am rit Mahotsav and #Run4 India.*

**Expectations from Institutions**

- Appoint one Nodal officer for coordination with Fit India Mission and forward the details at [contact@fitindia.gov.in](mailto:contact@fitindia.gov.in).
- Encourage participation in the 750 events across India organized by Ministry of Youth Affairs & Sports (MYAS).
- States/Ministries/Organizations to conduct physical / virtual Freedom Run events
- Ensure pre-event promotion of the event from 10th August 2021 onwards.

- Organize events on launch day i.e 13th August 2021 at iconic and historically important places in the State/Uts to be attended by People's representatives/Celebrities/Athletes/Iconic Personalities/Social Media Influencers, etc.
- Organizers to register their RUN on Fit India portal with details of participants and kms covered
- Promote Freedom Run on their social media channels with #AzadiKaAmritMahotsav and #Run4India.
- Adequate publicity for the program through Social Media, Regional TV/Newspaper, etc.
- Ensure participation at Panchayati/Municipality level, Schools/Colleges, Youth Clubs, Self-help Groups, etc.
- Ensure the momentum of the campaign from 13th August 2021 to 2nd October 2021.

**Sent:** Friday, August 6, 2021 2:30 PM

**To:** Principal AIT <principal@aitpune.edu.in>

**Subject:** URGENT: "Azadi Ka Amrit Mahotsav" - Fit India Freedom Run 2.0-reg.

Dear Sir/Madam,

Greetings from AICTE...!!

*This is in continuation of our earlier email dated 2nd August 2021 on subject mentioned above. We have received D.O. letter from the Ministry of Education(MOE) dated 05 Aug 2021(attached). As you are aware that the celebration of 75 years of India's Independence - "Azadi Ka Amrit Mahotsav" have commenced with active participation of all stakeholders. In this connection, "Resolves@75", Fit India Mission has conceptualized Fit India Freedom Run 2.0 to commemorate the occasion.*

*The Nationwide Virtual launch of Fit India Freedom run 2.0 by **Hon'ble Minister of Youth Affairs & Sports, Sh. Anurag Singh Thakur and Hon'ble Minister of State, Youth Affairs & Sports, Sh. Nisith Pramanik** will be held on 13th August 2021. All the citizens will be given a call to make a resolve to include physical the activity of at least 30 minutes daily in their lives i.e. FITNESS KI DOSE AADHA GFIAANTA ROZ. A concept NOTE on 'Fit India Freedom Run' is enclosed in this regard.*

*AICTE seeking cooperation from your institutes in reaching out to students & faculty members in your institutions for their participation in the 750 events organized by the Ministry of Youth Affairs & Sports (MYAS) across India and conducting physical/virtual Freedom Run events. Pre-event promotion of the event may be ensured from 10th August, 2021 onwards and the program may be given publicity through social Media, Regional TV/Newspaper etc. Also, ensure the promotion of Freedom Run on the social media channels with #Azadi Ka Am rit Mahotsav and #Run4 India.*

## **Expectations from Institutions**

- Appoint one Nodal officer for coordination with Fit India Mission and forward the details at [contact@fitindia.gov.in](mailto:contact@fitindia.gov.in).
- Encourage participation in the 750 events across India organized by Ministry of Youth Affairs & Sports (MYAS).
- States/Ministries/Organizations to conduct physical / virtual Freedom Run events
- Ensure pre-event promotion of the event from 10th August 2021 onwards.

- Organize events on launch day i.e 13th August 2021 at iconic and historically important places in the State/Uts to be attended by People's representatives/Celebrities/Athletes/Iconic Personalities/Social Media Influencers, etc.
- Organizers to register their RUN on Fit India portal with details of participants and kms covered
- Promote Freedom Run on their social media channels with #AzadiKaAmritMahotsav and #Run4India.
- Adequate publicity for the program through Social Media, Regional TV/Newspaper, etc.
- Ensure participation at Panchayati/Municipality level, Schools/Colleges, Youth Clubs, Self-help Groups, etc.
- Ensure the momentum of the campaign from 13th August 2021 to 2nd October 2021.

## **EVENTS & ACHIEVEMENTS**

### **International Yoga Day 2022**

Since its global recognition as an international observance in 2015, the summer solstice of June 21<sup>st</sup> has been synonymous with the celebration of Yoga Day. This ancient Indian discipline, revered for its holistic approach to well-being, continues to captivate the world with its promise of unifying body, mind, and spirit.

In a vibrant celebration of unity and well-being, the Sports Club of Army Institute of Technology embraced the spirit of International Yoga Day on June 21, 2022.

Hello Sir/ Madam,

Please find given below the report on conduct of workshop by Centerpoint4skills.

Topic – "Mastering how to take rational decisions"

Date and Time - 4 - 6 PM IST on Wed 21 Oct 2020

Participants - 30

Report : The workshop was conducted in lucid manner with numerous day to day examples. The coverage was in five phases viz Tools and Techniques to be used for analytical and critical examination of the problem, Group decision making techniques, Decision making as a process, Quiz and a detailed case study on McDonalds. Active participation during the quiz is highly appreciated.

Please find given below the link for feedback which can be shared with participants.

<https://docs.google.com/forms/d/1nr0rQDGUAOUUKn1G7SyES5Bb3PPTfkjDDP3OTSDZ8ng/edit>

Attachments:

1. Screenshots during the workshop
2. Handout (pls circulate with the participants)

Looking forward to more lectures and workshops for the benefit of the students in near future.

Thanks

## Centerpoint4skills

(www.centerpoint4skills.com)

### Workshop : "Mastering how to take rational decisions"

Different employers look for different things but decision-making skills are sought by virtually all companies. Decision-making is a cognitive process that helps solve problems by scrutinizing alternative options and determining the best alternative to take. In simple terms, it is an act of making a choice among available options. What is a Decision? A decision, in short, can be defined as a course of action purposely chosen from a set of alternatives to achieve personal, organizational or managerial objectives.

Using a step-by-step approach is an efficient way to make thoughtful, informed decisions that have a positive impact on organization's short and long-term goals. The business decision making is a step-by-step process allowing professionals to solve problems by weighing evidence, examining alternatives, and choosing a path from there. In order to examine the inputs in an analytical and critical manner, we may use tools and techniques viz- Root Cause Analysis, Pareto analysis, Histograms, Precedence Charts etc.

An important part of a good decision process is generating as many good alternatives as sensibly possible to consider. Alternatives should be capable of being implemented, whether on a personal or organisational level. In the final step, consider the results of your decision and evaluate whether or not it has resolved the problem. If the decision has not met the identified need, there may be a requirement to repeat certain steps of the process to make a new decision. Decision making, thus, comprises of six steps- 1. Context for success 2. The framing challenge 3. Generating alternatives 4. Evaluate alternatives 5. Making a decision 6. Review decision.

How all these tools, procedures and processes are put to use in real world ? You are aware of multinational fast food chain restaurant McDonalds. Established in 1955, it had a good performance in fast-food industry. It had a long standing reputation for strong marketing campaigns, however it was not always so and there were issues which threatened its brand image, revenues and leadership position. So how did it use Decision making process to successfully regain its lost ground and continue to grow. The market demand had changed over the recent years, McDonald's needed to adapt to the new environment in order to maintain its position. The adoption of rational decisions ensured McDonald's retained its position as a market leader.

Decision making is a skill. As you gain more experience in making decisions and more familiar with the tools needed for effective decision making, your quality of decisions will have a marked difference. Ultimately, improving your decision-making skills will benefit you and your organization.

Hello Prof Manoj Khaladkar sir,

Thanks for sparing your time on 07 Mar 2020 for an in person meeting on conduct of Skill Development Workshop/ lectures at your esteemed college. Please find attached the brochure and list of courses under the four modules. As was discussed during the meeting, please find given below one of the suggested systematic approach to upskill the students :-

2nd Year

- Communication Skills
- Public Speaking
- Effective presentation

3rd Year

- Decision Making
- Negotiation Skill
- Group Discussion
- CV Writing

Final Year

- Facing an Interview
- Stress and Time management
- Leadership lessons from the Army (Lecture)

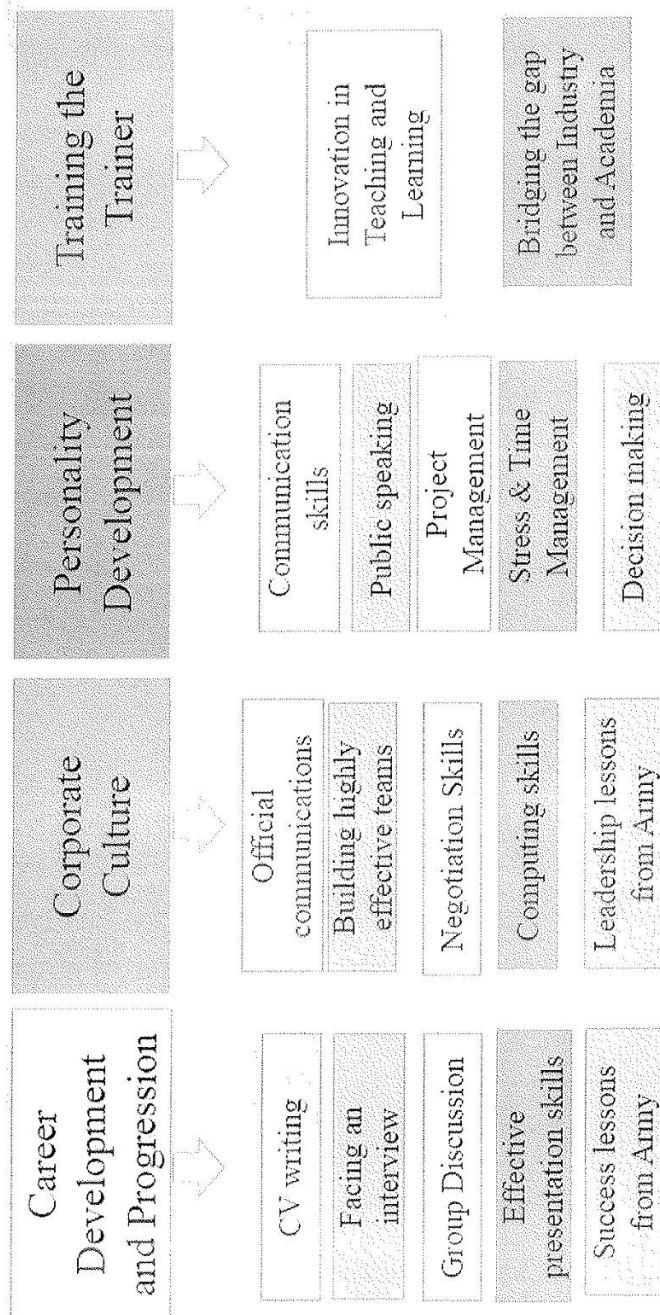

All above four Modules have both Workshop courses and Lecture courses. Different formats of conduct are as given below :-

- The workshop course will be for four hours (20-30 participants) and will cost INR 5,000.
- The short workshop course will be for two hours (50-60 participants) and will cost INR 2,500.
- Each lecture course will be of 1 hour and will cost INR 1,000.

Since you are planning to engage the Centerpoint4skills in month of Jun 2020, it may be best to finalize the courses so as to allow time for customizing the modules as per your requirement. Please let me know if we need to have another in person meeting at AIT to discuss further.

Great Learning - Job Readiness Program\_v2.pdf; GL Library Courses.xlsx;

Dear TE Students ,

Your final placement registration is depending on the performance in this initiative .

The Job ready program is focused at providing students with guidance in specialized areas and the skills required to help them with their placement process and achieve their career goals.

1. The next step in taking this forward is to gather data to collect email ID's of students who will be participating in the career ready program. Please share this form with students so that they can fill the

Information: <https://forms.gle/QcJa544BdrcPJecQ7>

Student Orientation - where we will be addressing students on the program and getting them started with the platform .

The Job Readiness Program is designed to ensure college graduates get learning and job outcomes. Over the past 7 years, 300,000+ students across 80+ countries have benefited from Great Learning's courses and are now working in job-roles such as Software Engineers, Full Stack Developers, Data Analysts, Business Analysts, Reporting Analysts, Data Scientists, Digital Marketing Specialists, etc.

The content is curated from Great Learning's flagships programs in partnership with world renowned universities such as University of Texas Austin, Purdue University, Stanford, MIT, IIT Madras, IIT Bombay, PES University, Great Lakes Institute of Management, etc. and created by the world's best faculties and industry practitioners.

The Job Readiness Program comprises the following components:

## 1. Access to Job Ready Courses

- Live Sessions of 40 hours duration in 4 tracks- Software Development, Data Analyst, Aptitude and Soft Skills.
- Self Paced Video Content
- Access to a Content Library of short courses certification courses

## 2. Assessments

- There will be regular assessments after each component. At the end there will be a comprehensive Job Ready Assessment conducted to determine the job readiness level of students.

## 3. Job Opportunities

All students who clear the Job Ready Assessment will get access to Job Opportunities via Great Learning's network of 400+ Hiring Partners.

All the Best !!

*Orientation Session will be conducted on 02 Feb 21.*

## Structure of the Program

## Great Learning Job Readiness Program

Geared towards college students, our Job Readiness program helps the learners build job-ready skills that employers look for during interviews

**Job Ready Content**

Training provided to prepare students for interviews via Live Sessions, Self Paced Videos and providing access to GL content Library

**Job Ready Assessments**

Providing students with aptitude and technical questions commonly asked by Hiring organizations & determining their Placement readiness

**Job Opportunities**

Exclusive access to Great Learning's network of 400+ Hiring Partners via Job Opportunities posted on Excelerate Job Platform

## Job Ready Content- Live Sessions & Videos

More than **80+ hours of Live Sessions & Self Paced Videos**. Training Content is designed and curated in consultation with Hiring Partners and Alumni

Software Development	Data Analyst	Aptitude	Softskills
Data Structures	Python for Data Science	Quantitative Ability	Resume Building & Personal Branding
Algorithms	SQL	Logical Reasoning	Preparing for Interviews & Commonly asked questions
Programming Techniques	Data Visualization	Data Interpretation	Interview Best Practices

## Job Ready Content- Library of Certification Courses

- 100+ courses with 1000+ hours of learning in-demand skills
- Courses on Data Science, Machine Learning, Artificial Intelligence, Cloud Computing, Business, Digital Marketing, Big Data, etc.
- Certificate of Completion by Great Learning
- Live Alumni Talks

The screenshot displays the Great Learning Academy homepage. At the top, it says 'GREAT LEARNING ACADEMY' and 'Learn the most in-demand skills for free and transform your career'. Below this, there's a 'START FOR FREE' button. Three statistics are shown: '500,000+ Students from 142 countries', '300+ Hours of Live Sessions & Videos', and '3 Million+ Courses, projects, assignments, and projects'. A section titled 'Select a course and start learning now' features a grid of course cards. On the left, a sidebar lists categories like 'Python for Data Science', 'Machine Learning', 'Artificial Intelligence', 'IT & Software', 'Cloud Computing', 'Marketing and Finance', 'Big Data', and 'General Computer Science'. The course cards include titles like 'Python for Machine Learning', 'Machine Learning Foundations', 'Introduction to R', 'Data Visualization using Seaborn', 'Cloud Foundations', and 'Introduction to Digital Marketing'.

## Job Ready Assessments

Extensive evaluation of students throughout the program

Regular Assessments  
Conducted after each  
Module

Industry Sessions &  
Hiring Partner Talks

Assessments on  
Technical Skills,  
Aptitude & Soft Skills

Chalking out a path  
and providing  
Additional Support  
to Lagging Students

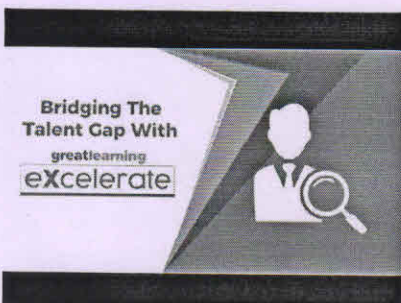

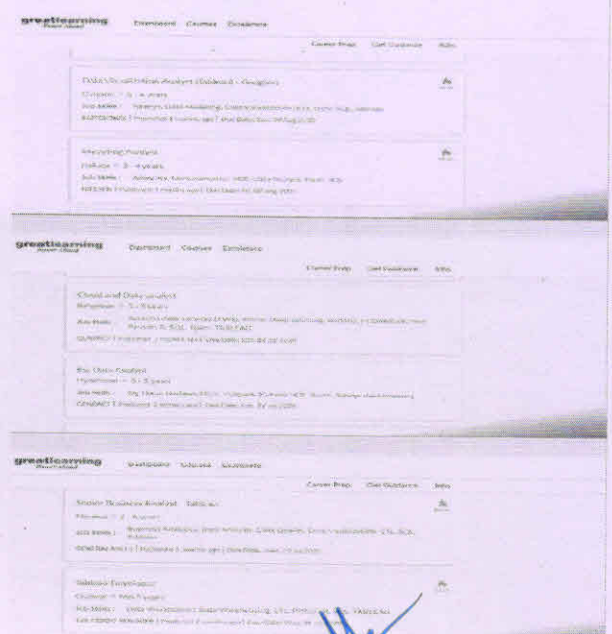

Job Ready Assessment to  
Determine Placement  
Readiness

## Job Opportunities

### Job Board

Access to an exclusive network of  
400+ Hiring Partners

- Regular job postings and  
interview processes throughout  
the year

**GoPrac.com : Interview Preparation Platform – Sign up date extended till 8th May 2021.**

GoPrac <admin@goprac.com>

Sun 09-May-21 9:00 AM

To: Training Placement Officer TPO <tpo@aitpune.edu.in>

Dear AIT students,

Greetings from GoPrac !!

GoPrac is an AI enabled interview preparation platform where students practice series of mock interviews (IT Services / IT Product / Core Companies) , get feedback from Industry professionals and hence build their Behavioral, Communication and Problem solving and Coding skills. Students can practice interviews on their laptop / smartphone at anytime from anywhere.

GoPrac in collaboration with Army Institute of Technology is providing an opportunity to students to practice any interview of their choice and experience the platform. Our team will be recommending mock interview links to ALL the SIGNED UP students ONLY.

To Sign Up Click on: <https://goprac.com/mentorship-form> , fill your profile ( \*select Army Institute of Technology, Pune\* in the college name drop down for uninterrupted service) & start your practice.

Last Date to Sign up – 8th May, 2021

Last Date to Give Interview – 18th May, 2021

Students who have signed up already, please ignore this mail.

Regards,

Team - GoPrac.com, Bangalore

# **ARMY INSTITUTE OF TECHNOLOGY**

## **WORLD FITNESS DAY (25 SEP)**

### **RULE BOOK**

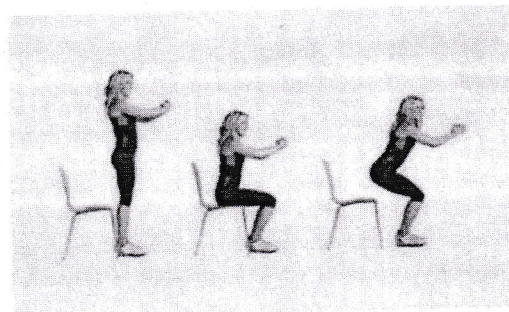

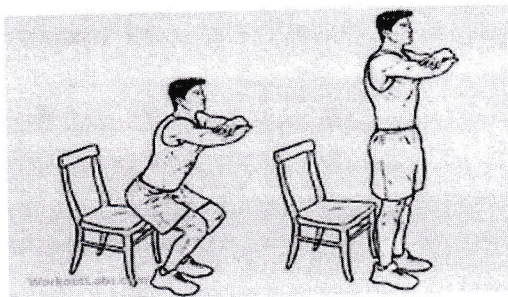

**A COMMON OPEN COMPETITION FOR Teachers, Administrative staff and Non-Teaching staff.**

#### **EVENT 1: CHAIR SQUATS**

**TIME: 1 min**

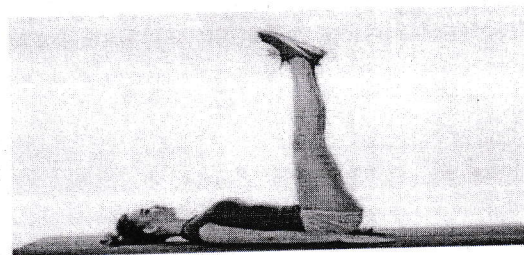

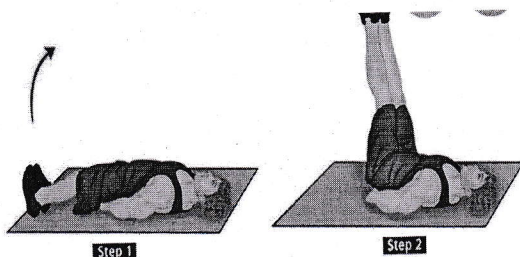

- Place a chair behind you. Stand up straight with a tight core and flat back. Fold your arms in front. Your feet should be shoulder-width and toes pointing forward.
- Slowly descend by bending your hips back. Keep your chest and head up.
- Touch the chair with your butt then slowly rise back to the starting position.

#### **EVENT 2: LEG RAISE 90 DEGREE**

**TIME: 1 min**

- Lie with your back flat, legs extended with your toe pointing forward, and the hands either by your side or under the hips.
- Slightly bend your legs exhale and raise both the legs until they make a 90-degree angle to the floor.
- Give your best in a time limit of 1 minute.

*V. V. V. V.*  
Physical Director  
Army Institute of Technology  
Dighi, Pune - 411015.

### EVENT 3: SKIPPING

TIME: 1 min

- a) Hold the jump rope in front of you with your hands together and your elbows in close to your body.
- b) Practice a toe catch.
- c) Place the rope behind you and turn the jump rope over your head.
- d) Catch the jump rope under your toes and lift up your heels and let it out from underneath your feet.

### EVENT 4: SURYANAMSHKAR

TIME: 1 min

#### Step 1 (Prayer Pose)

Stand at the edge of your mat, keep your feet together and balance your weight equally on both the feet.

#### Step 2 (Raised Arms pose)

Breathing in, lift the arms up and back, keeping the biceps close to the ears.

#### Step 3 (Hand to Foot pose)

Breathing out, bend forward from the waist, keeping the spine erect. As you exhale completely, bring the hands down to the floor, beside the feet.

#### Step 4 (Equestrian pose)

in, push your right leg back, as far back as possible. Bring the right knee to the floor and look up.

#### Step 5 (Stick pose)

As you breathe in, take the left leg back and bring the whole body in a straight line and keep your arms perpendicular to the floor.

#### Step 6 (Saluting with eight points or parts)

Gently bring your knees down to the floor and exhale. Take the hips back slightly, slide forward, rest your chest and chin on the floor. Raise your posterior a little bit. The two hands, two feet, two knees, chest and chin (eight parts of the body) should touch the floor.

#### Step 7 (Cobra pose)

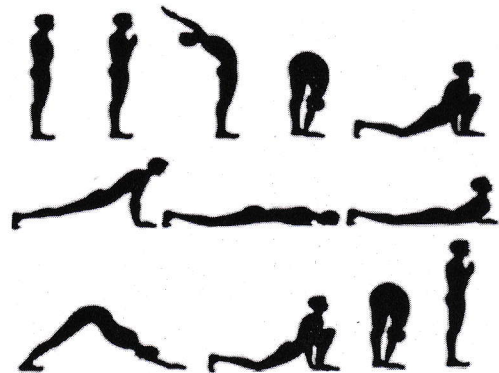

Slide forward and raise the chest up into the cobra posture. You may keep your elbows bent in this pose, the shoulders away from the ears.

#### Step 8 (Mountain pose)

out, lift the hips and the tail bone up, chest downwards in an 'inverted V' ( $\wedge$ ) posture.

#### Step 9 (Equestrian pose)

in, bring the right foot forward in between the two hands, left knee down to the floor, press the hips

Breathing

As

Breathing

Breathing

Physical Director  
Army Institute of Technology  
Dighi, Pune - 411015.

down and look up and place the right foot exactly between the two hands and the right calf perpendicular to the floor.

#### Step 10 (Hand to foot pose)

Breathing out, bring the left foot forward. Keep the palms on the floor. You may bend the knees, if necessary. Gently straighten the knees and if you can, try and touch your nose to the knees. Keep breathing.

#### Step 11 (Raised Arms pose)

Breathing in, roll the spine up, hands go up and bend backwards a little bit, pushing the hips slightly outward. Ensure that your biceps are beside your ears.

#### Step 12

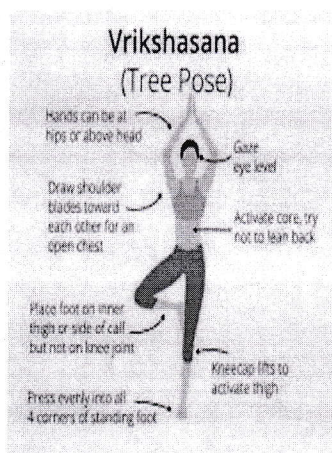

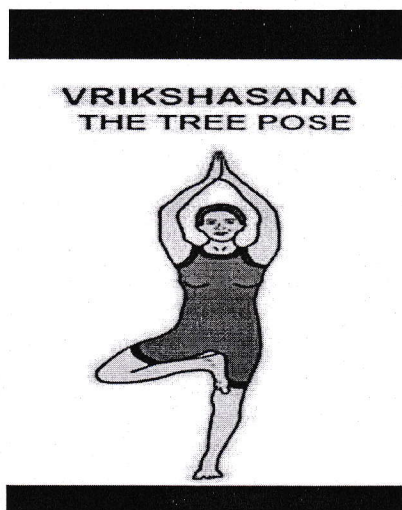

As you exhale, first straighten the body, and then bring the arms down. Relax in this position.

### EVENT 5: VRIKSASANA (TREE POSE)

Balance is something many of us take granted, but everyone can benefit from improving it. Balance training exercises strengthen core muscles and improve stability, making you lighter on your feet.

1. Stand with 2 inches feet apart.
2. Focus on a point in front. While exhaling, bend the right leg and place the foot on the inside of the left thigh. The heel should be touching the perineum.
3. Inhale and extend the arms up and join the palms in Namaste.
4. In this position continue deep breathing pulling in the tummy muscles and expanding the spine upwards with every exhalation.
5. Stay here as long as you can focusing on one point.

**This is not for 1 minute, you can balance yourself for as much as you can, the one with maximum time balancing will won.**

## WHY THIS CAMPAIGN ?

**The COVID-19 pandemic means that many of us are staying at home and sitting down more than we usually do. It's hard for a lot of us to do the sort of exercise we normally do. It's even harder for people who don't usually do a lot of physical exercise.**

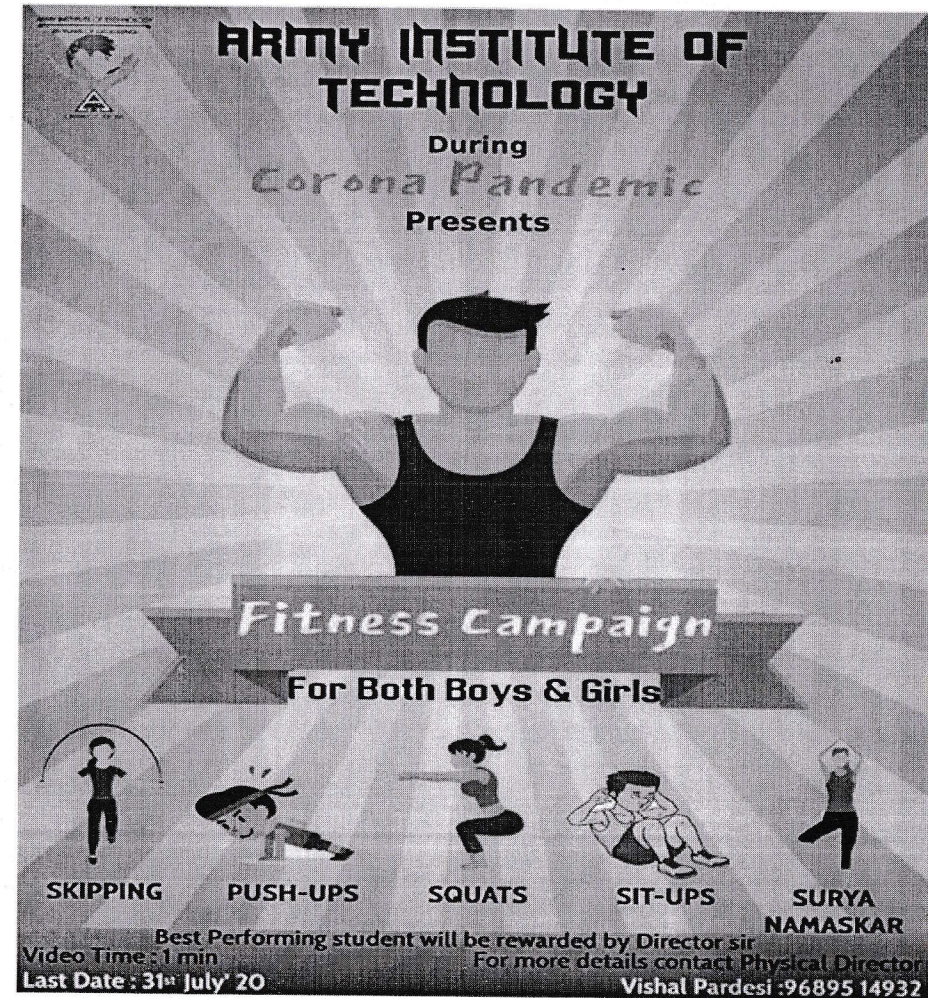

- **Regular physical activity benefits both the body and mind. It can reduce high blood pressure, help manage weight and reduce the risk of heart disease, stroke, type 2 diabetes, and various cancers - all conditions that can increase susceptibility to COVID-19.**
- **It's also good for our mental health - reducing the risk of depression, cognitive decline and delay the onset of dementia - and improve overall feelings**
- **These active campaigns aims to helps others do just that - and to have some fun at the same time.**

**#HEALTHY AT HOME**

# WHEN & THE KEY TARGETS

## JUNE 1- AUG 15

- \*Keep students active and healthy at home
- \*Keep them engaged with the college events
- \*A healthy body brings healthy mindset
- \*Involve alumni to make it work more efficiently .

**ARMY INSTITUTE OF TECHNOLOGY**  
During  
*Corona Pandemic*  
Presents

**Fitness Campaign**  
For Both Boys & Girls

SKIPPING    PUSH-UPS    SQUATS    SIT-UPS    SURYA NAMASKAR

Best Performing student will be rewarded by Director sir  
Video Time : 1 min  
Last Date : 31<sup>st</sup> July '20

Vishal Pardesi :96895 14932

# ACTIVITIES AND RULES !

Physical activities involved were:

1.Skipping

2.Push-ups

3.Squats

4.Sit-ups

5.Surya Namaskar

\*Students must perform these activities in 1 min and post the videos on AIT SPORTS CLUB Facebook page .

\*Student with maximum count will be declared winner

\*There will be the winner and runner up in every activity and the results are to be declared separately for boys and girls.

-Winner and Runner-up ( girls)

-Winner and Runner-up ( boys)

## STUDENTS RESPONSE

The initiative has flooded our social media platforms and has seen widescale participation, both male and female.

More than 40 students have participated and shared their excitement and enthusiasm in the comment sections respectively.

- They were further encouraged by our physical director sir by his encouraging words.

Vishal Pardeshi 🇮🇳 Naveen - tumhare kyaa kehane - great man let's see who can break your record. Waiting to see 🤔👍👍👍

Like · Reply · 2d

Naveen Indoria Author Vishal Pardeshi even I'm waiting sir.... Frr mujhe 50sec me 100 pushups waali video daalne ka mokka milega 😊😊.....

Like · Reply · 2d · Edited

Vishal Pardeshi 🇮🇳 Garima - Superb performance. This time you have done it 39 but next time you have to cross 50 for sure. Keep doing workout- don't stop here. You have to inspire your upcoming junior's I need your positive support for same. Great job keep it up 🤔👍

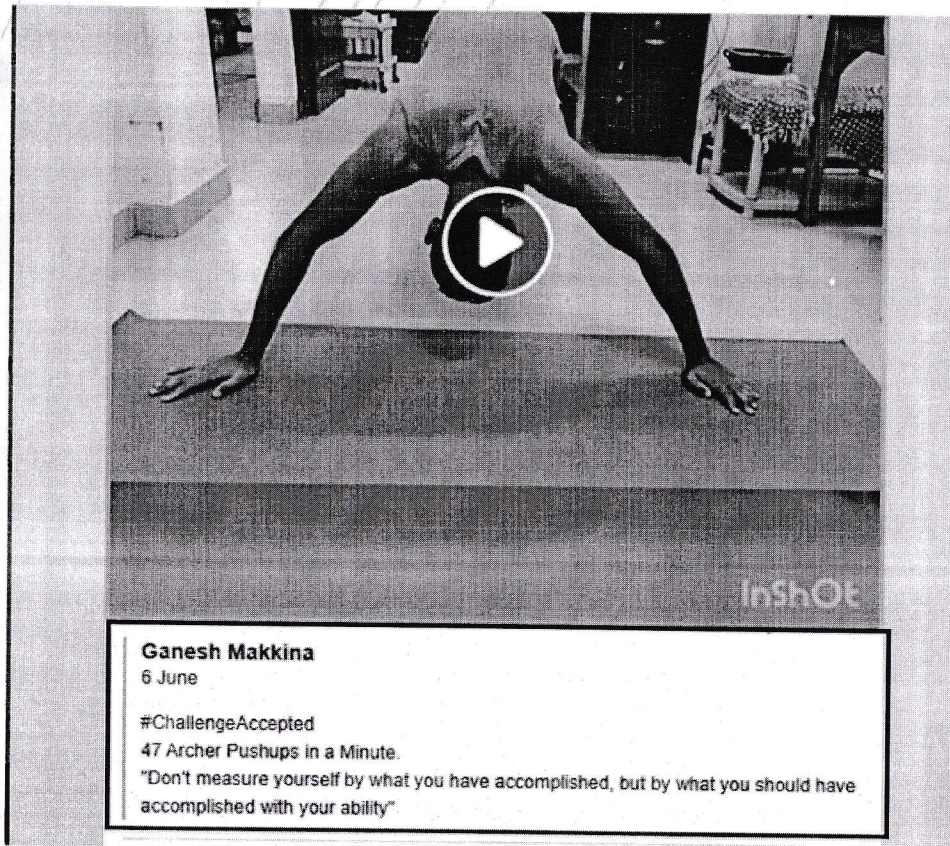

Like · Reply · 2d

Garima Singh Author Yeah sure sir.yesturday it was 36,39,43,51.This was my first activity in college.i got high level confidence.N i have to continue it.  
Sir ,Thanks alot for ur inspiring words . 🌸🌸🌸

Like · Reply · 1d

**THE CAMPAIGN WAS FURTHER BOOSTED BY THE #CHALLENGE\_ACCEPTED IN WHICH STUDENTS WERE CHALLENGING THEIR FRIENDS ,THUS FORMED A COMPETITIVE ENVIRONMENT.**

## SUCCESS OR NOT?

- Regular exercise is one of the best things you can do for your health. It has many benefits, including improving your overall health and fitness, and reducing your risk for many chronic diseases.
- By organizing this event we were able to bring back togetherness and competitive spirit which we have somehow lost in this pandemic.
- We were able to involve every year batch both boys and girls and the alumni which is a great step in its own way.
- People will be more aware of fitness now via this campaign and are more energetic and excited for our next fitness campaigns.
- We have a very long way to head to!!!

## FURTHER EVENTS

**29 AUG 2020**

### **NATIONAL SPORTS DAY**

THE MAIN AIM IS TO INCULCATE THE MOTHERS IN THE FURTHER ACTIVITY FOR MORE FUN AND SOME ADDITIONAL FITNESS EXERCISES FOR STUDENTS.

**25 SEP 2020**

### **WORLD'S FITNESS DAY**

THE MAIN IDEA IS TO INCLUDE PARTICIPATION BATCH WISE FOR MORE COMPETITIVENESS.

THANK YOU

**ARMY INSTITUTE OF TECHNOLOGY**

**INTERNATIONAL YOGA DAY 2021**

The message of Yoga in promoting both the physical and mental well-being of humanity has never been more relevant. A growing trend of people around the world embracing Yoga to stay healthy and rejuvenated and to fight social isolation and depression has been witnessed during the pandemic. Yoga is also playing a significant role in the psycho-social care and rehabilitation of COVID-19 patients in quarantine and isolation. It is particularly helpful in allaying their fears and anxiety.

Army Institute of Technology has celebrated the International Yoga Day on 21 June 2021 for students and faculties Online, with much fervour and enthusiasm. The online assembly and celebration depicted the innumerable benefits of Yoga.

Live-streaming on YouTube and online platform Microsoft teams ensured the interactive session on yoga was viewed live by students and their parents from the comfort of their homes. The event gathered many viewers participating in the engaging and interactive session which was live from Raman theatre along with few faculties practicing session at the campus while rest attended online .

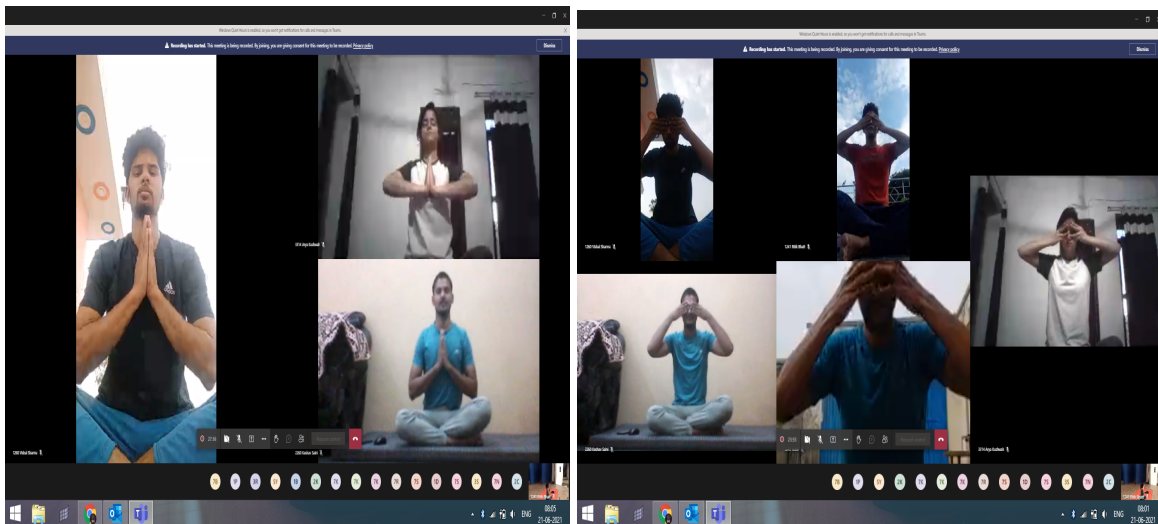

The program began at 7am with a brief warm up. The enthusiastic gathering performed various Yoga *asanas* under the tutelage and guidance of the Yoga teacher, Rani Singh. Step by step instructions were given for each *asana* along with their benefits to allow participants to consciously experience all the Yoga *asanas*.

The Yoga Instructor, Rani Singh, briefed the participants about the benefits of Yoga and how it enhances our quest for a healthier life. She also emphasised the need to make Yoga an integral part of daily routine to boost our immunity, strength and vigour.

The event concluded at 8am with the Director, Abhay Bhatt sir, complimenting the teachers, the instructor and students for their keen and enthusiastic participation.

Live streaming ( youtube official channel ) at 7:00 am

Students celebrating at Microsoft teams platform

Faculties at Raman Theatre (at campus)

Emotional development, good health, fitness and hygiene are important aspects of personality development and yoga can help to achieve it. Ever since the lockdown, AIT has continued to hold various fitness online events which has proved to be a blessing as a larger number of parents and students can watch, participate, follow and gain benefits from these events.

# The White Rainbow

## Presents

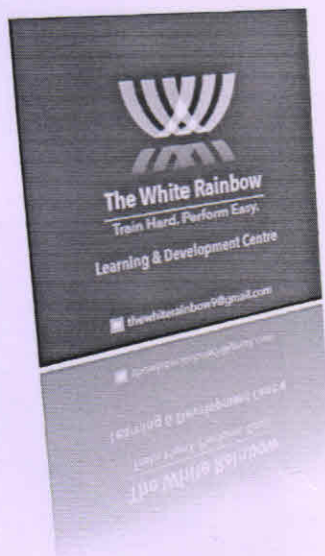

## CASE STUDIES

### Benefits of case based learning

1. Active learning with participation from faculty and student side
2. Being told, Trial and Error, Imitation and Thinking are all utilized in a balanced approach
3. To hone your management skills
4. Relate to real life business situations
5. Each business situation is unique so requires case to case basis diagnosis, analysis and unique management actions
6. You are forced to step into scene of action and make evaluations, make recommendations and take decisions
7. Atleast 500 case studies during the program

## CASE STUDIES

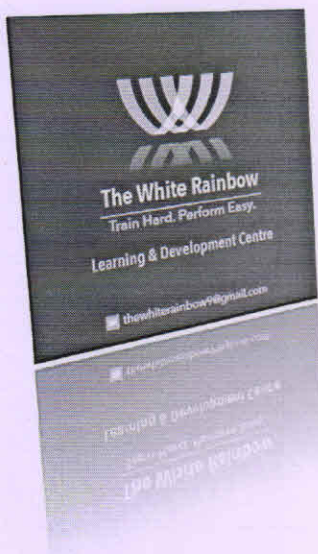

### □ WHAT IS A CASE STUDY?

- A Case study usually describes the events and organizational circumstances surrounding a particular managerial situation in a factual manner

### Notes

- A case is not a problem.
- A problem usually has a unique solution
- However, a decision maker in a business situation can choose between several alternative courses of action
- Each of these alternative solutions may be supported by logical argument
- So there is no unique answer in a case based learning
- This is because Business is not an exact science and there is no one best way

## CASE STUDIES

### ❑ EXPECTED OUTCOMES FROM STUDENTS DURING CASE STUDY

- What kind of management skills are you displaying?
- What kind of skills are you enhancing?
- Have you developed your managerial judgement?
- Do you understand what needs to be done in different situations?
- Have you understood how to apply theoretical concepts in real life?
- Are your analytical skills developed?
- Can you identify the core issues?
- Can you work out different alternative course of actions with subsequent results?
- Can you formulate workable course of actions?
- Have you developed critical skills?
- Do you have indepth knowledge of your industry and companies?
- Most importantly, do you have the ability to flex, unlearn and relearn if required?

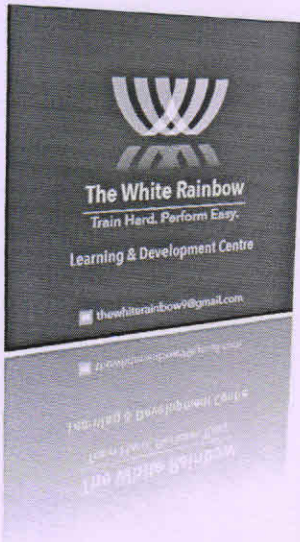

## CASE STUDIES

### ❑ EXPECTED OUTCOMES FROM STUDENTS DURING CASE STUDY

- Important Managerial Skills to be learnt / displayed
  - Diagnosis
  - Decision Making
  - Observing
  - Listening
  - Persuading
  - Imagination
  - Prediction
- To be able to relate analysis and actions – to develop realistic and concrete action despite the complexity & partial knowledge of the situation
- To be able to confirm the intractability of reality – absence of info, an imbalance between resources and needs & conflict amongst competing objectives
- To be able to develop a general management point of view – where responsibility is sensitive to action in a diverse environment context

4/20/2022

## CASE STUDIES

### ❑ EXPECTED OUTCOMES FROM STUDENTS DURING CASE STUDY

- Individual preparation
- Group preparation
- Class participation

### ❑ MINIMUM EXPECTATION FROM STUDENTS IS

- Come adequately prepared
- Actively participate in discussions
- Share your views in groups and in class
- Learn from others
- Keep an open mind
- Learn from instructor and peers
- Maintain a good decorum
- Respect others during the discussion

- ❑ Before Class – Teachers to give case based assignments, students to prepare individually and in group
- ❑ During class – Teachers to lead case discussion, students to raise queries and participate in discussions
- ❑ After class – Teacher to evaluate students and materials, Students to review for major concepts learnt

## EVALUATION OF STUDENTS

## CASE STUDIES

- Quality of participation
- Intensity of participation
- Decorum
- Ability to express
- Ability to convey a point through to others
- Logical skills
- Analytical skills
- Deduction skills
- Decision making skills
- Persuasion skills
- Team work
- Delegation
- Synchronization
- Structuring of content
- Language
- Ability to flex
- Ability to unlearn and relearn
- Ability to summarize
- The manner in which you put forward your views
- Confidence
- Conviction
- Laying out priorities
- Time Management
- Interpersonal or social skills – dealing with peers, solving conflicts, practicing art of compromise
- Creative skills
- Written communication skills – regular and effective note taking, reports and exams

## CASE STUDIES

### SKILLS DEVELOPED IN STUDENTS DUE TO CASE STUDY METHOD OF LEARNING

- Qualitative analytical skills & Quantitative analytical skills include problem identification skills, data handling skills, critical thinking skills
- Decision making skills – generating different alternatives, selecting decision criteria, evaluating alternatives, choosing the best one, formulating congruent action and implementing plans
- Application skills – using various tools, techniques and theories
- Oral communication skills – speaking, listening, discussing and debating
- Time Management Skills –
- Interpersonal skills or social skills – conflict solving, art of compromise, dealing with peers
- Creative skills
- Written communication skills – regular and effective note making, reports and exams
- Learn by doing – in the shoes of the decision maker, improves ability to ask the right questions understanding the root causes rather than the symptoms
- Expose you to wide range of industries, organisations, functions & responsibility levels

## CASE STUDIES

### AN EFFECTIVE CASE ANALYSIS PROCESS

1. Gaining familiarity
2. Recognizing symptoms
3. Identifying goals
4. Conducting the analysis
5. Making the diagnosis
6. Doing the Action Planning
7. Time management – Segregate the above in duration to finish on time

## CASE STUDIES

### DETAILED CASE STUDY PROCESS

#### 1. Gaining familiarity

- Determine who, what, where, how and when
- Identify the places, persons, activities and context of the situation
- Recognize the degree of certainty / uncertainty of the situation

#### 2. Recognizing symptoms

- List all indicators – including stated problems that something is not as expected or desired
- Ensure that symptoms are not assumed to be the problem ( symptoms should lead to identification of the problem)

## CASE STUDIES

### DETAILED CASE STUDY PROCESS

#### 3. Identify goals

- Identify critical statements by major parties ( people, group, work units)
- List all goals of the major parties that exist or can be reasonably inferred

#### 4. Conducting the analysis

- Decide which ideas, models and theories seem useful
- Apply these conceptual tools to the situation
- As new information is revealed, cycle back to previous 2 steps

## CASE STUDIES

### DETAILED CASE STUDY PROCESS

#### 5. Making the diagnosis

- Identify predicaments (goal inconsistencies)
- Identify problems (discrepancies between goals & performance)
- Prioritize predicaments / problems regarding timings, importance etc

#### 6. Doing the action planning

- Specify and prioritize the criteria used to choose an action alternative
- Discover or invent feasible action alternative
- Examine the probable consequences of action alternatives
- Select a course of action
- Design an implementation plan / schedule
- Create a plan for assessing the action to be implemented

## CASE STUDIES

### TIPS ON CASE STUDY PROCESS

#### Have your six best friends

1. **What** issues are involved
2. **Why** the issues have arisen
3. **When** the remedial action have to be taken
4. **How** these issues can be addressed
5. **Where** (context of the case)
6. **Who** the protagonist is / her position, roles & responsibilities

*Me*

**GENERAL CASE OUTLINE****CASE STUDIES**

- **Introduction** – Use 6 best friends
- **Background information** – context of issues, relevance of details, probable implications of alternative recommendations
- **Specific areas of interest** – how does detailed info increase my understanding, relationship between stakeholders, what has led to current situation, opportunities & constraints, missing data, quantitative analysis, basic issues
- **Challenges** – alternatives, what happens if we do nothing, pros & cons of each alternative, feasible alternatives, can some alternatives be combined
- **Concluding part** – time frame to resolve issues, which issues are more important than others, which issues are more urgent than the rest
- **Exhibits** – Purpose of giving this exhibit, how can this help in my analysis, what do numbers say, anything unusual, any scope for quantitative analysis, missing data

**CASE STUDIES****DIAGNOSIS**

- **Facts** – are verifiable – ( Rely more on this)
- **Inferences** – represent individual's judgement in a situation
- **Speculation** – information which cannot be verified
- **Assumptions** – cannot be verified and are generated during case analysis

*Handwritten signature in blue ink.*

## CASE STUDIES

### ALTERNATIVE CHOICES

- Choosing one strategy and supporting it with reasons and evidence
- Use qualitative and quantitative answers

## CASE STUDIES

### RECOMMENDATIONS AND ACTION PLANS

- Lays out clearly a set of specific recommendations
- Avoid unsupported opinions, over generalisations and platitudes
- Recommendations should be defensible
- Action plan should be specific
- Have a contingency plan

**CASE STUDIES**

A Sample Case Analysis Chart

How	

**CASE STUDIES****ORAL PRESENTATIONS OF CASE STUDIES**

1. A presentation is more than just content
2. Divide the content uniformly so that each team member gets an opportunity to speak
3. Divide the content into different parts and assign each part to each team member
4. Use powerpoint presentations or visual aids
5. You can bring newspaper clips or advertisements
6. Be brief and to the point
7. Be aware of the time limit
8. Be open
9. Be enthusiastic
10. Understand the role well before you take the role play
11. When the case is given in advance, you can prepare for it like in written exam
12. Try to anticipate questions that you may be asked
13. Allocate time to each activity – reading, analyzing, writing, diagnosing
14. Spend time – sharpening the axe. Make a plan on how you are going to present the analysis and only then start writing.
15. Its ok if half of the time is spent in cracking the case and planning the presentation
16. Then put forward your recommendations and suggestions
17. Demonstrate your command over the subject; framework, tools etc
18. Don't ask for help or go to help anyone. It will be a misconduct. Remember it is an exam
19. Sources of research – library, website, google

*Handwritten signature*

## CASE STUDIES

### TEN COMMANDMENTS FOR CASE STUDIES

1. Read the case twice – once for the interview and the other time to gain full command of the facts
2. Make a list of problems and issues to be confronted
3. Do enough number crunching to discover the story told by data presented in the case
4. Look for opportunities to apply concepts and analytical tools
5. Be thorough in the diagnosis of the situations ( 1 or 2 page of your assignment)
6. Support all opinions with well reasoned argument and numerical evidence. Don't say 'I think' 'I feel'....Say ' My analysis' shows
7. Develop charts, tables and graphs to express better
8. Prioritize your recommendations and ensure they can be carried out in an acceptable time frame with the available skills and financial resources
9. Review your recommended action plan to see if it addresses all the problems and issues you identified
10. Avoid recommending any course of action that may have disastrous consequence.

## CASE STUDIES

Japan's March 11, 2011 Great Tōhoku earthquake and tsunami was among the most damaging natural disasters on record. This case examines the organizational structure and operational decisions that allowed Nissan Motor Company to recover from the disaster more rapidly than its peers. In doing so, Nissan was able to increase production and capture market share from its slower-to-recover competitors.

**LEARNING OBJECTIVE-** To facilitate a discussion on how one of the world's biggest car companies was able realize a faster time-to-recovery through superior supply chain visibility, rapid response efforts, and flexible supply allocation and production decisions.

# Footloose

## Introduction

Duraflex is a German footwear company with annual men's footwear sales of approximately 1.0 billion Euro(€).

They have always relied on the boot market for the majority of their volume and in this market they compete with three other major competitors.

Together, these four brands represent approximately 72% of the 5.0 billion € German men's boot market. The boots category includes four main sub-categories:

Work boots, casual boots, field and hunting boots, and winter boots. Work boots is the largest sub-category and is geared to blue collar workers<sup>1</sup> who purchase these boots primarily for on-the-job purposes. Casual boots is the fastest growing sub-category, and is geared more towards white collar workers<sup>2</sup> and students who purchase these boots for week-end / casual wear and light work purposes.

The four key competitors in the market are Badger, Duraflex, Steeler, and Trekker.

<sup>1</sup> Blue collar workers: wage earners who generally work in manual or industrial labour and often require special work clothes or protective clothing, which are replaced approximately every 6 months

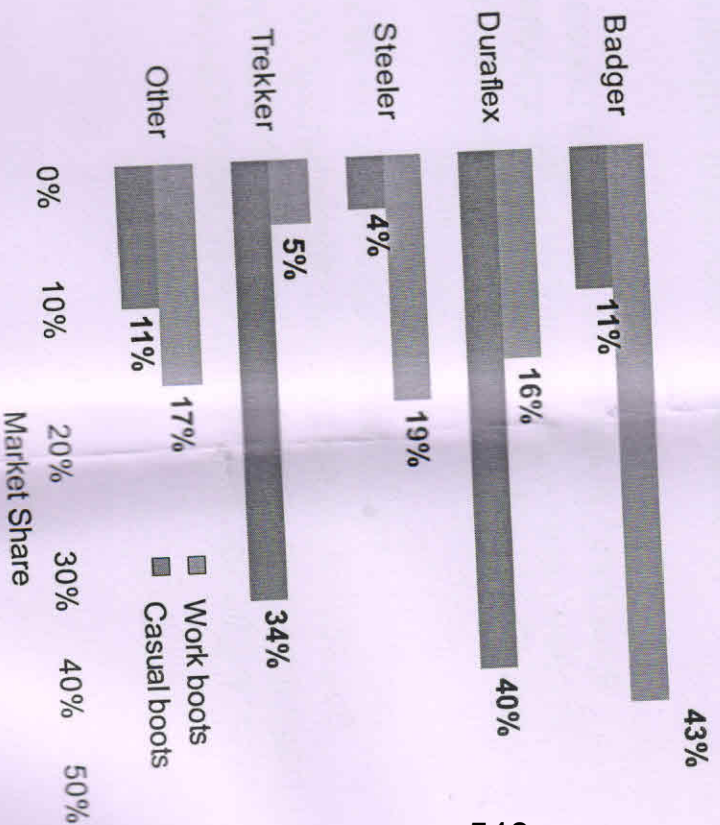

<sup>2</sup> White collar workers: salaried employees who perform knowledge work, such as those in professional, managerial or administrative positions

# Competitor profiles

Badger and Steeler are both well established as work boot companies, having a long history and strong brand recognition and credibility among blue collar workers. At the other extreme is Trekker, a strong player in the casual boot market but a very weak player in work boots. Duraflex, however, is a cross between the other competitors, having a significant share in both work boots and casual boots.

Historically Duraflex had an even stronger position in the work boot sector. However, since 1996 when the company began selling casual shoes and focusing on the growth opportunity in casual boots, sales of the Duraflex work boot line have steadily declined. Also, around the same time Duraflex shifted its emphasis, Badger became a much more assertive competitor in the work boot market, increasing its market share to 43% in just three years.

Market Share of Work and Casual Boots by Company (2013)

# Consultants' role & data collected

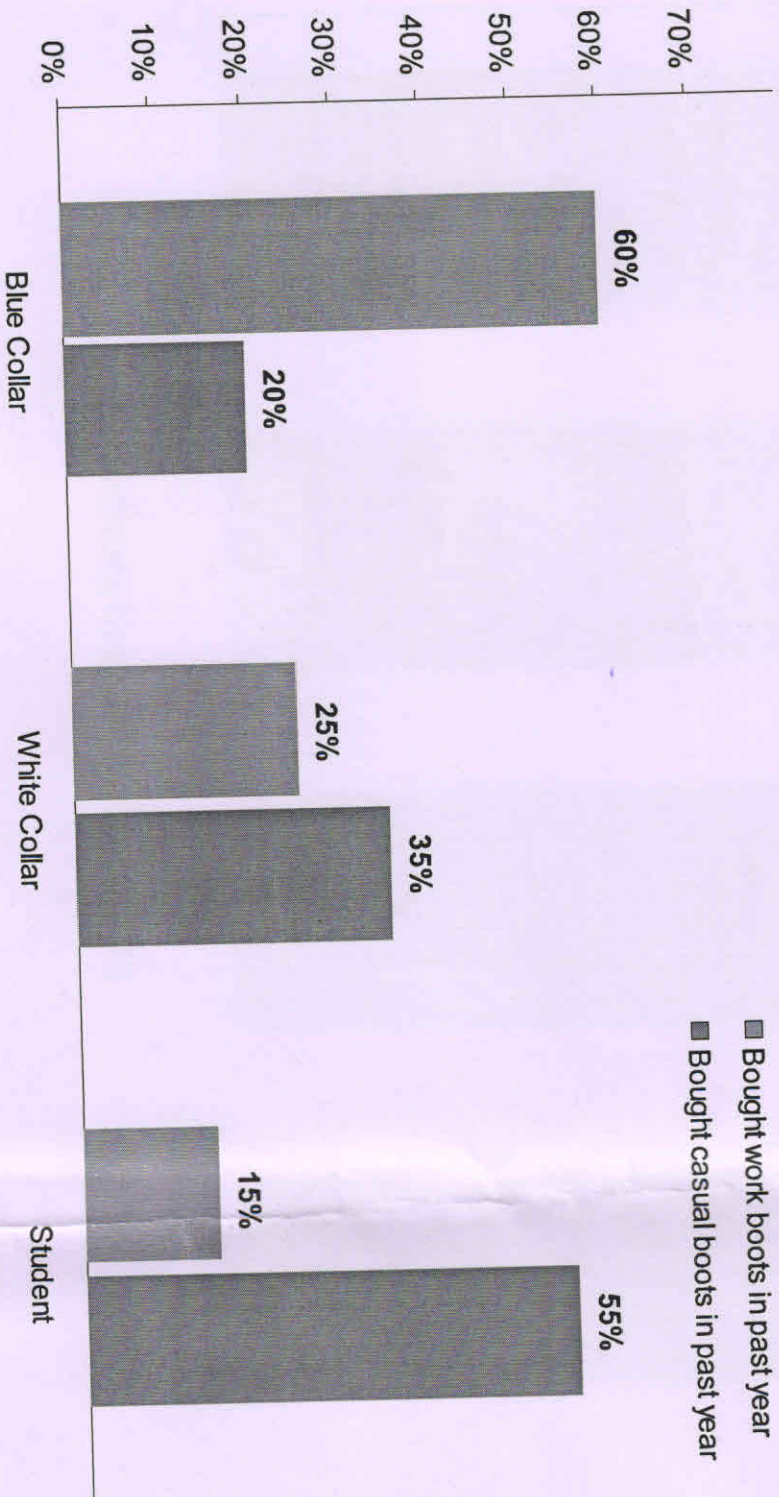

In the fall of 2013, Badger launched a new line of aggressively priced work boots. The strong success of this line has caused Duraflex's management to re-evaluate their position in work boots. With limited additional resources, management must now decide if they should focus their efforts on competing with Badger in the work boot sector, or focus their resources on further strengthening their position with casual boots.

In January of 2014 Duraflex hired a leading consulting firm to conduct research to help management in its decision making. To make an informed recommendation, the consultants realized they needed to collect information that would enable them to size the market and better understand Duraflex's competitive position.

To begin with, the consultants developed a 20 minute quantitative telephone survey that was conducted among 500 randomly dialed consumers across the country's 6 primary regions. In addition, the consultants completed some internal cost and pricing analysis for Duraflex's work and casual boot lines. The market pricing analysis showed Duraflex competing at the premium end of the market for both its casual and work boot lines.

# Exhibit one

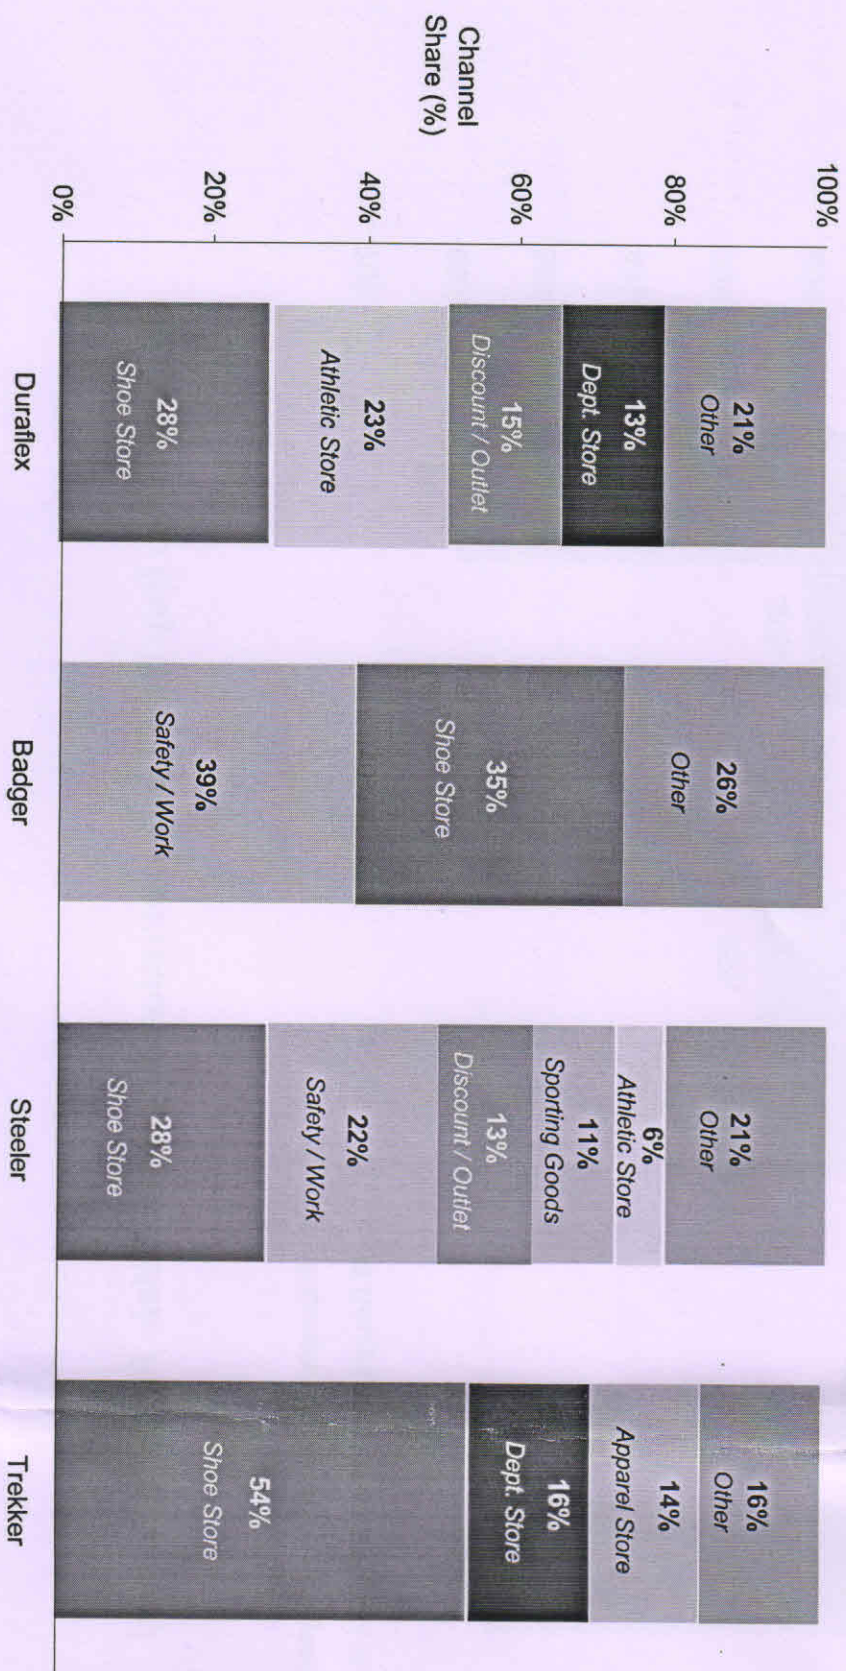

**Propensity to Buy Boots by Population Segment (Male Population 12+)**

Population Average	11.0 MM	12.0 MM	7.0 MM
Price Paid for Boots	140€	130€	110€

Channel preference by Brand

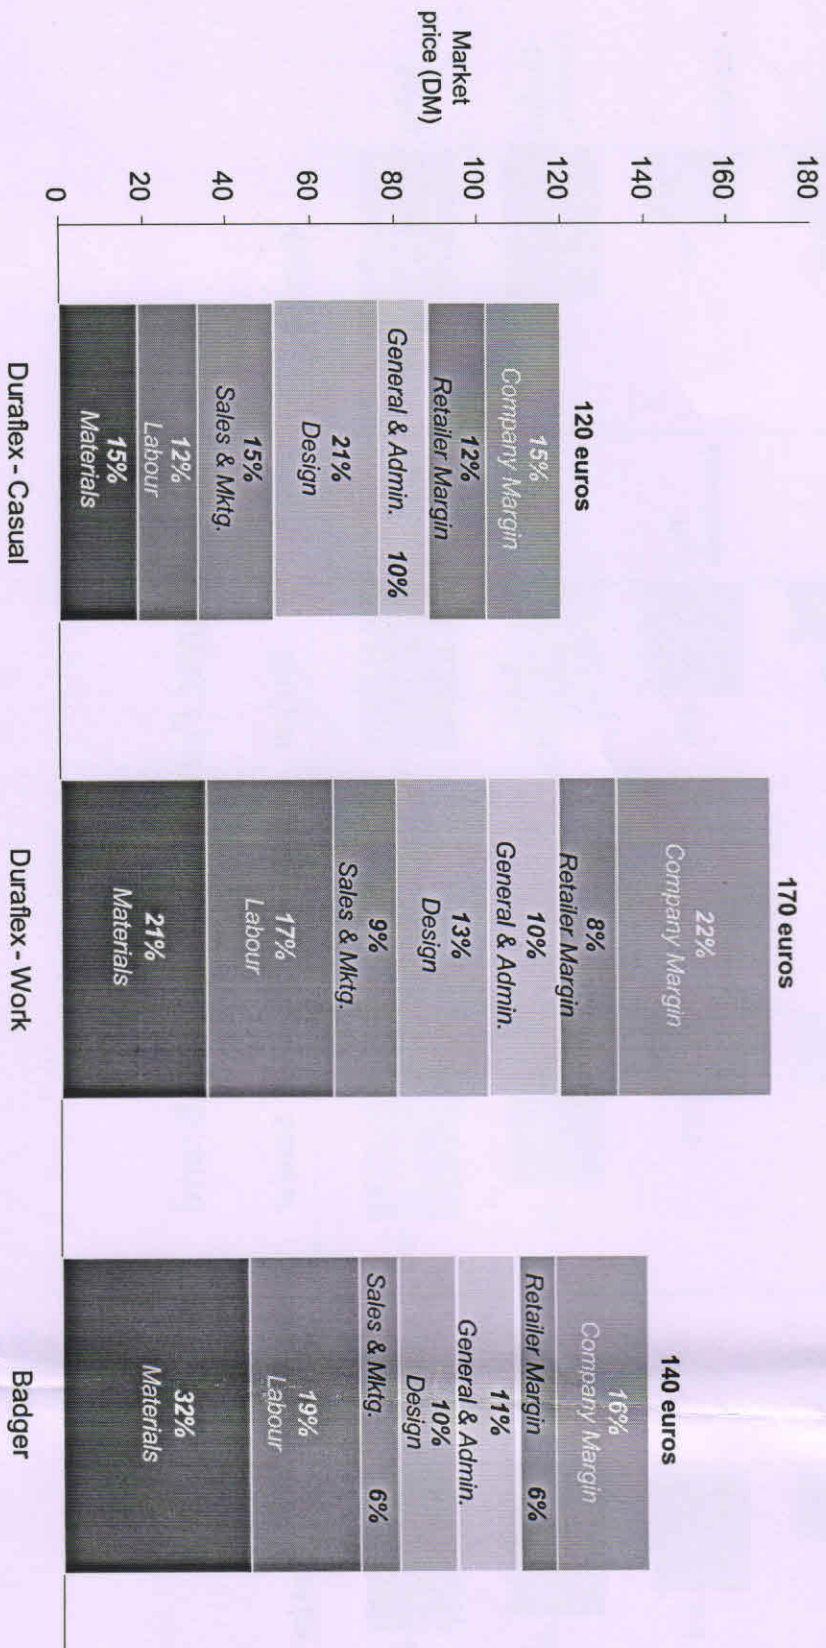

# Exhibit three

## Buyer Purchase Criteria by Brand

# Exhibit four

## Retail Price of Selected Boots, Split by Price Component

# Case study questions

Work through these questions on your own, using the text and exhibits in the preceding slides. An answer key is provided in the slides that follow...

1. How big is the work boot market (expressed in euros)? Does Duraflex get more of its revenue from work boots or casual boots?
2. Explain why Badger is outperforming Duraflex in the work boot market.
3. What changes would you recommend to Duraflex's work boot strategy? Why? Would you recommend they introduce a sub-branded boot line?

# Answer Q1

1. How big is the work boot market (expressed in euros)? Does Duraflex get more of its revenue from work boots or casual boots?

To find the size of the market, we can use the following equation:

$$\text{(Average Boots Price)} * (\% \text{ of male population that bought work boots in past year}) \\ * (\text{total population for the segment}) * (\text{number of pairs bought in a year})$$

*Exhibit One* gives us the populations for each segment and the percentages that bought boots. We therefore need to find the number of boots sold and the average price of each pair. For this question, the candidate will need to make some assumptions.

1. Average number of boots purchased per user
  - For work boots, we know that blue collar workers purchase an average of 2 pairs per year (from Introduction, Footnote1)
  - White collar workers and students who buy work boots probably use less rigorously and less frequently, therefore *probably only 1 pair per year*
  - For casual boots, we can make a reasonable assumption, knowing that casual boots are purchased primarily for weekends and light wear (from text) so the average number of pairs should be no more than work boots from Exhibit 1 (i.e. 1 pair per year)
2. Average price per pair of boots
  - Work boots cost more (compare Blue Collar vs. Student) so the average price should be higher than 140 € for all (150 € is reasonable); casual should be lower than student (100-110 € is reasonable).

# Answer Q1

1. How big is the work boot market (expressed in euros)? Does Duraflex get more of its revenue from work boots or casual boots?

The total market value will then be the sum, for each segment, of the following equation:

$$\begin{aligned}
 & \text{(Average Boots Price)} * (\% \text{ of male population that bought work boots in past year}) \\
 & * (\text{total population for the segment}) * (\text{number of pairs bought in a year}) \\
 & (\text{€}150 * 60\% * 11\text{MM} * 2) + (\text{€}150 * 25\% * 12\text{MM} * 1) + (\text{€}150 * 15\% * 7\text{MM} * 1) \\
 & = \text{€}2,588\text{MM}
 \end{aligned}$$

The following table shows another way to see it:

	Population	% Buying Work Boots	# Pairs work boots bought / year	Price Per Pair (€)	Segment Size (€)
Blue Collar	11.0 MM	60%	2	150	2,000 MM
White Collar	12.0 MM	25%	1	150	450 MM
Student	7.0 MM	15%	1	150	150 MM
				<b>Total</b>	<b>2,600 MM</b>

# Answer Q1

1. How big is the work boot market (expressed in euros)? Does Duraflex get more of its revenue from work boots or casual boots?

Following the same procedure the casual boot market is then:

$$\begin{aligned}
 & (\text{Average Boots Price}) * (\% \text{ of male population that bought work boots in past year}) \\
 & * (\text{total population for the segment}) * (\text{number of pairs bought in a year}) \\
 & (\text{€}100 * 20\% * 11\text{MM} * 1) + (\text{€}100 * 35\% * 12\text{MM} * 1) + (\text{€}100 * 55\% * 7\text{MM} * 1) \\
 & = \text{€}1,025\text{MM}
 \end{aligned}$$

Or:

	Population	% Buying Work Boots	# Pairs work boots bought / year	Price Per Pair (€)	Segment Size (€)
Blue Collar	11.0 MM	20%	1	100	220 MM
White Collar	12.0 MM	35%	1	100	420 MM
Student	7.0 MM	55%	1	100	390 MM
				<b>Total</b>	<b>1,030 MM</b>

# Answer Q1

1. How big is the work boot market (expressed in euros)? Does Duraflex get more of its revenue from work boots or casual boots?

## Summary:

- We know from the table on slide 2 that Duraflex has a 16% share of the work boot market and 40% of the casual boot market, therefore:
  - Duraflex's revenue from the work boot market =  $16\% * 2,588 \text{ MM} = 414 \text{ MM}$
  - Duraflex's revenue from the casual boot market =  $40\% * 1,025 \text{ MM} = 400 \text{ MM}$
- So Duraflex gets most of its revenue from work boots, even though the revenues are almost evenly split

## **Our Answer:**

The size of the work boot market is ~€2.6 billion. The casual boot market is ~€1.0 billion large. Duraflex generates €414 million from work boots and €410 million from casual boots. Depending on the assumptions taken, work may be slightly larger but the two should be relatively close.

# Answer Q2

## 2. Explain why Badger is outperforming Duraflex in the work boot market.

### Ways to approach the question

According to the data we have, and what we know as industry dynamics, the analysis can be split in 4 main areas that would demand further study:

- Distribution
- Buyer Purchase Criteria by Brand (BPCs)
- Pricing
- Cost analysis

*Even if you have many good ideas to answer this question, you won't be impressive without STRUCTURE. You don't need a formal framework, just be methodical and organised in your approach – and summarise at the end!*

# Answer Q2

## 2. Explain why Badger is outperforming Duraflex in the work boot market.

### Distribution

- Duraflex is not sold where work boots are being purchased. Exhibit 2 shows that Badger's and Steeler's boots are often purchased in safety / work channels, whereas Duraflex does not have a significant presence in them
- *Therefore, Duraflex will need to broaden distribution if it is to increase its share; it needs to get shelf space in the relevant channels*

### Buyer Purchase Criteria by Brand (BPCs)

- Exhibit 3 shows us that Badger's top two associated criteria are: "Quality / Durability" (45%) and "Comfort" (39%). The same holds true for Steeler. Thus, these seem to be critical criteria for work boot market
- However, Duraflex's top criteria are "Styling" (45%) and "Quality / Durability" (37%), with Comfort is a distant 3<sup>rd</sup> at 19%, far from its competitors figures
- *Duraflex is not meeting the key needs of blue collar workers and will need to strengthen its "comfort" perception*
- Additionally, we should note that Badger has built up a loyal customer base: "past experience" as a criteria represents 30% and is 3<sup>rd</sup> on its list of associated criteria

# Answer Q2

## 2. Explain why Badger is outperforming Duraflex in the work boot market.

### Pricing

- We know that Badger is launching an “aggressively priced” work boot line. Duraflex can alter its pricing strategy, e.g. lower its own boot price
- However, looking at Exhibit 3, among the stronger work boot market competitors, we see that only Steeler shows price as a top BPC (and then it is the lowest one) – potentially because they are the lower cost option is this market
- Given that price does not appear to be an important criteria for work boot consumers, Duraflex will likely not realise great benefits from this strategy, and will also lower its profits in so doing
- We know from the case that Duraflex has premium price positioning, hence lowering its price may lead to perception of lowering quality

### Cost Analysis

- Comparing Badger to Duraflex work boots, from Exhibit 4, there is one key area where Badger proportionately and absolutely spends more than Duraflex: “materials”. This supports their perception of “quality / durability” and “comfort” among their consumers. Also, they spend more on “labour”
- Retailer margin is lower for Badger – due to significant presence in safety / work channel
- Sales & Marketing spend is lower for Badger – potentially driven by lower marketing requirements in safety / work channel as well as established brand name among blue collar workers; Also, Badger has built a loyal customer base, and it is less costly to maintain existing customers than attract new ones
- Badger has lower margins (both absolute and relative); given already higher market price, Duraflex has limited flexibility to raise its boot prices; Duraflex may lower its margin somewhat and shift emphasis to labour and materials

# Answer Q2

## 2. Explain why Badger is outperforming Duraflex in the work boot market.

### Summary

- Duraflex is not sold where work boots are being purchased
- Duraflex is not meeting the key needs of blue collar workers, as it is weaker than competitors on the critical 'Comfort' dimension
- Badger prices its boots more competitively, which is likely to be particularly appealing to the large work boot market; this has helped develop a large and loyal consumer base
- Badger has lower retailer margins (both absolute and relative) and spends less on Sales & Marketing

## Answer Q3

3. What changes would you recommend to Duraflex's work boot strategy? Why? Would you recommend they introduce a sub-branded boot line?

### Ways to approach the question

*There are two reasonable answers to this question. The company can either:*

- *Focus on increasing its work boots activities, or*
- *Emphasize casual boots*

*Each option has its own justifications and implications*

The important thing with a subjective question is not what you answer to the question, but how you answer the question – pick a point of view and support it with critical reasoning!

# Answer Q3

## 3. What changes would you recommend to Duraflex's work boot strategy? Why? Would you recommend they introduce a sub-branded boot line?

### Increased work boot market focus

#### Justification:

- Represents approximately 40% of Duraflex's business (from question 1), making it very difficult to profitably ignore this market
- While Duraflex does have greater market share in the casual boot market, we know from information given in the case that the casual boot market is smaller in size than the work boot market, which may indicate less opportunity for share growth; also, we derive lower margins (15% vs. 21%) from casual boots (from Exhibit 4)
- Given that Badger is introducing a new work line, they may see new growth potential in the market which Duraflex may also want to capitalise on
- Building a stronger image among blue collar workers may entice them to try other Duraflex footwear products

#### Implications:

- Enter safety / work channel – we may be faced with pressure from Badger exerting influence on retailers in this channel
- Build "comfort" and "quality / durability" perception among blue collar workers
- Increase proportion of costs allocated to materials and labour – potentially reducing company margin
- There may be unique / niche positionings for Duraflex (suggestions should be well thought out)
- Introduce sub-brand or increase promotion of brand with a focus on blue collar workers: may include on-site promotions, advertising in industry publications, or advertising in magazines / on television during programmes with a higher blue collar readership / viewership

# Answer Q3

3. What changes would you recommend to Duraflax's work boot strategy? Why? Would you recommend they introduce a sub-branded boot line?

## Emphasize casual boots

### Justification:

- Stronghold for Duraflax right now (40% market share)
- Fastest growing market
- Represents approximately 40% of Duraflax's business (from question 1), making it very difficult to profitably ignore this market
- Focusing additional resources on work boot market would risk of alienating casual boot buyers (white collar workers and students)
- "Style" is the top BPC for Duraflax (from Exhibit 3). From the statistics on Badger and Steeler, we know this is likely not an important criteria for the work boot market. By focusing on the casual boot market Duraflax can devote additional resources to keeping up with styles to better appeal to this target

### Implications:

- Unlikely to be a strong competitor reaction, since Duraflax is already dominant player
- Duraflax will not need to enter new distribution channels
- Candidate should discuss a strategy for work boot market – either winding down, maintenance etc. and implications of this

# Monitor Deloitte

This communication contains general information only, and none of Deloitte Touche Tohmatsu Limited, its member firms, or their related entities (collectively, the "Deloitte network") is, by means of this communication, rendering professional advice or services. No entity in the Deloitte network shall be responsible for any loss whatsoever sustained by any person who relies on this communication.

## About Deloitte

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as "Deloitte Global") does not provide services to clients. Please see [www.deloitte.com/about](http://www.deloitte.com/about) for a more detailed description of DTTL and its member firms.

Deloitte provides audit, consulting, financial advisory, risk management, tax and related services to public and private clients spanning multiple industries. With a globally connected network of member firms in more than 150 countries and territories, Deloitte brings world-class capabilities and high-quality service to clients, delivering the insights they need to address their most complex business challenges. Deloitte's more than 220,000 professionals are committed to making an impact that matters.

## About Deloitte & Touche (M.E.)

Deloitte & Touche (M.E.) is a member firm of Deloitte Touche Tohmatsu Limited (DTTL) and is the first Arab professional services firm established in the Middle East region with uninterrupted presence since 1926.

Deloitte is among the region's leading professional services firms, providing audit, tax, consulting, and financial advisory services through 26 offices in 15 countries with more than 3,000 partners, directors and staff. It is a Tier 1 Tax advisor in the GCC region since 2010 (according to the International Tax Review World Tax Rankings). It has received numerous awards in the last few years which include Best Employer in the Middle East, best consulting firm, the Middle East Training & Development Excellence Award by the Institute of Chartered Accountants in England and Wales (ICAEW), as well as the best CSR integrated organization by CSR Levant.

## About Monitor Deloitte

Monitor Deloitte is the strategy practice of Deloitte Consulting. From strategy through execution, Monitor Deloitte in the Middle East helps deliver improved performance by increasing growth and de-risking strategic choices through strategy professionals who employ cutting-edge approaches embedded with deep industry expertise, working with leaders to resolve critical choices, and drive enterprise value.

## English Enhancement Program - Structure

Paromita Das <thewhiterainbow9@gmail.com>

Fri 03-Jan-20 4:23 PM

To: Training Placement Officer TPO <tpo@aitpune.edu.in>

Dear Mr. Khaladkar,

Please refer below for the course structure of the English Enhancement Program as requested.  
We start from 27th Jan. Please let me know the days. I would prefer back to back like a mon, tue or  
thur, fri etc  
Also kindly send me the work order today with timings, days, work terms and payment terms

As requested, I would be grateful if a monthly payment for monthly hours completed can be done

Looking forward to working for and with AIT team

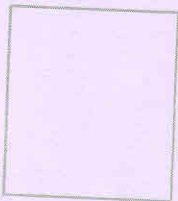

Thank you.

Warm Regards,

**Paromita Das**

## English Enhancement Program - Test and Keys

Paromita Das <thewhiterainbow9@gmail.com>

Fri 03-Jan-20 3:46 PM

To: Training Placement Officer TPO <tpo@aitpune.edu.in>

Dear Mr Khaladkar,

Good Afternoon

Please find attached the test and the keys of the English Enhancement program as requested. The test is for 25 marks and it is for 10 minutes. A person who knows english well will complete it in 10 minutes surely.

Please shortlist the students and share their names and engineering stream with me once the correction is done.

Warm Regards,

Paromita Das

Contact : + 91-8605008837

## AIT – English Enhancement Test

Total – 25 marks – Each question 1 mark – 10 minutes paper

### EXERCISE 1

Fill in the blanks with the right option

Q.1 Wait here \_\_\_\_ I get back.

a. as soon as

b. until

c. Either could be used here.

Q2 - We'll be ready \_\_\_\_ the time you get back.

a. By

b. before

Q3 - We'll leave \_\_\_\_ we're ready.

a. as soon as

b. when

c. Either could be used here.

Q4 - I'll be glad \_\_\_\_ it's finished.

a. When

b. before

Q5 - I hurt myself \_\_\_\_ I was playing tennis.

a. Whenever

b. while

c. Either could be used here.

Q6 - I'll give her the message \_\_\_\_ she arrives.

a. a moment

b. the moment

Q7 - I'll be ready when she \_\_\_\_.

a. Arrives

b. will arrive

Q8 - I'll only pay you \_\_\_\_ you finish the work.

a. If

b. unless

c. Either could be used here.

Q9 - We turned back \_\_\_\_\_ it was raining.

- a. **Because**                      b. because of

Q10 - \_\_\_\_\_ I was tired, I managed to finish the work.

- a. **Although**                      b. But                      c. Yet

Q11 - I was tired, \_\_\_\_\_ I managed to finish the work

- a. **Although**                      b. **but**

Q12 - \_\_\_\_\_ her salary was so high, she changed her car every other year.

- a. Because of                      b. **Since**                      c. As

Q13 - Rains have been heavy this winter, \_\_\_\_\_ the great amount of water everywhere.

- a. knowing                      b. fully aware                      c. **and that accounts for**

Q14 - \_\_\_\_\_ of their weaknesses, they opted for negotiation.

- a. Realising                      b. **fully aware**                      c. Since

## EXERCISE 2

Fill in the blanks with the given conjunctions below. (Capitalize where needed)

now that	although	because	while	nor	otherwise	thus
nonetheless	because of	therefore	unlike	since	both	as

1. Stephen Crane's schooling was not continuous; **nonetheless** he read all of the 19th-century English writers and the Greek and Latin classics.
2. Medical scientists have not yet discovered what causes muscular dystrophy, an inherited disorder that strikes nerve tissue and cripples its victim. **Therefore** they know what causes sudden death syndrome.

3. **While** the Greeks, who considered physical health a part of education, the church considered the human body something to be ignored.
4. A greenhouse is used **both** for displaying plants and, where winters are cold, for growing plants that would not **otherwise** survive the seasonal change.
5. **Since** its creation in 1903, the High Court of Australia has been responsible for interpreting the constitution.
6. **Although** T.S. Eliot published few poems, they have had a tremendous influence on modern poetic technique.

### **EXERCISE 3**

Put the verb into the correct form. (Present Simple, Present continuous, past simple, or past continuous) Make the sentence negative if needed and use being verbs if needed.

- 01) Arun was waiting for me when I entered the room. (wait, enter)
- 02) What do you do in your spare time? Have you got any hobbies? (you/do)
- 03) What speed were you driving when the accident happened? (drive, happen)
- 04) When I first told Ajay the news, he did not believe me. He thought that I was joking (tell, not believe, think, joke)
- 05) Sakshi was busy when we went to see her yesterday. She was studying for UPSC exams. We did not want to disturb her, so we did not stay very long. (go, study, not want, not stay)

## **International Yoga Day 2019**

Since its global recognition as an international observance in 2015, the summer solstice of June 21<sup>st</sup> has been synonymous with the celebration of Yoga Day. This ancient Indian discipline, revered for its holistic approach to well-being, continues to captivate the world with its promise of unifying body, mind, and spirit.

In a vibrant celebration of unity and well-being, the Sports Club of Army Institute of Technology embraced the spirit of International Yoga Day on June 21, 2019.

certificate.jpg;

Dear Madam ,

Please find herewith the details of finishing school program conducted by Barclays in association with NASSCOM and GTT .

Respected AIT Group,

## Meetings from Global Talent Track !!

It is my pleasure to introduce Global Talent Track (GTT); an education and training venture, set up by some of the best minds from the industry, education and technology domains. The venture aims to provide 'quality with scale' through programs delivered with the help of innovative technologies and compelling content.

Among others we provide training to fresher's hired by companies such as Cognizant, Capgemini, Genpact, Infosys, Oracle, Hexaware, etc.

As part of their CSR initiative, **Barclays** has decided to skill unemployed youths as per the industry requirement. Barclays has decided to partner with **GTT & NASSCOM Foundation** in this initiative. GTT would be executing the training program under this initiative, with limited number of colleges across India.

## Training Programme Details:

- 24 Hrs. of high impact workshop by industry expert on Soft Skills and Communication, topics are mentioned below:

BARCLAYS JOB READINESS WORKSHOP - CONNECT WITH WORK (F2F)

2. All the students should be registered on our portal (<http://www.careerclap.com/#/login/>) google form for this CSR atleast 2 days prior to the face to face training.
3. Post face to face training all the student needs to undergo an assessment.
4. All the participating student would get NASSCOM Foundation-GTT's Certificate
5. As of now this program is open for all the **Final Year Student** and this program would help student during their placements
6. All the student should carry any 1 Government ID during the training – Gov. ID like Aadhar card, License, PAN card, etc. They just have to mention the number of any one ID card.

**For arranging the face to face training, please provide me the below mention details:**

1. Final year students count.
2. Tentative date for the face to face training.

**Please find the attached soft copy of student certificate and college certificate which we would be providing.**

**We would also like to mention that the entire program is being funded by Barclays and there would be no cost to either the students or the institute.**

Please feel free to contact undersigned for any assistance.

Thanks & Regards,

**Gaurav Srivastava** | Global Talent Track | **Group Manager** | Mob: +91 7507600085

### **Introduction of APPART's Training Module "CAMPUS WISDOM"**

APPART, an organization in the field of Aptitude, Technical and Behavioral Training which has created an exemplar of success in the training field. It was instituted on 24th July 2009 in **PUNE** with a unique structure of creating employable work force from Engineering, MCA and Management Institutes.

After 9 years of hands-on experience in the training industry and having trained approximately 300000 students in more than 60 colleges in Pune and across Maharashtra, MP & CG, we have ventured into this enterprise based on students' requirements and contemporary needs pertaining to the enrichment of their employability skills.

**Campus Wisdom** is a module with a holistic approach symbolizing character and integrity in precision with a delivery that synchronizes the rare blend of success and retention. It is a long term program which will be integrated with students' regular academics and emphasize on training students right from the onset of their college days till the final step towards their professional career.

**Campus Wisdom** covers multitude of subjects starting with basic Communication skills, Aptitude and Behavioral skills and overall grooming of students. With an immensely experienced team, committed efforts, and rigorous research, our training modules are meticulously designed with a specific goal of augmenting the professional competencies of students, and impart overall grooming thereby making them employable and help them sustain proficiently in their professional lives.

We at APPART would like to extend our expertise in the training field and be associated with your esteemed institute.

We look forward for a positive response and a fruitful association with you.

With Best Regards

Vevek Malhotra  
Founder & Managing Director  
APPART

## APPART's Journey & Growth

- Pioneer & Completely dedicated to Campus Recruitment Training with the most advanced & unique features
- Formulated on 24th July 2009 with a small batch of 75 Students
- Association with more than 60 Institutes
- 30000+ students trained so far
- 24000+ successfully placed till date
- 3000000+ man hours of rich experience
- A team of 30+ dedicated & passionate professionals

### Training Methodology Description

#### Introduction-

Identifying the contemporary requirement in the booming Industrial Sector and with an aim to bridge the gap between students and the corporate requirement, we have designed a training module with an amalgamation of precisely prepared content and well-structured training delivery. Our training modules are placed in alignment with the requirement focusing on aspects like- Quantitative Aptitude, Logical Reasoning, Verbal Ability and Communication Skills that are required to successfully undergo the selection process of major Companies.

**Our Training methodology comprises the following aspects.**

#### 1. Assessment tests

- **Pre-Assessment test** -APPART conducts a pre-assessment test for all the students free of cost before commencing the classroom training. Sectional scores are shared with the students and the college management.
- **Post Assessment Test** -This includes a final & full-length test at the end of the classroom training.

#### 2. Training Methodologies

- In-depth classroom training on all major topics followed by assignments and doubt clearing.
- With respect to Aptitude training we ensure maximum discussions/solutions of actual company specific aptitude questions in the class.
- Intensive participatory sessions with lots of engaging activities such as Mock Group Discussions, Mock Interviews.
- In-depth activity based sessions on the usage of appropriate words, correct grammar in the daily conversing scenarios
- Constant Self Evaluation and Assessments.
- Doubt clearing and Revision sessions.
- One-O-One Personal attention.
- Regular tests which aim to discuss the queries and doubts of the students.

**3. Monitoring and Assessments -**

- Training followed by assessments of students throughout the year.
- Assessments to evaluate the progress and performance of students.
- Assessment tools include audio/video tools, classroom activities.
- Behavioral skills assessment through Questionnaires on various aspects.
- Results/ feedback of students to be shared with the college management.

**4. Content & Study Material** – A well formulated content which is upgraded every year with rigorous research as per Industry Specification.

**5. Revision & doubt clearing Sessions** – One session in between the training & second at the end of the training that aims to discuss the queries and doubts of the students.

**6. APPART's Mock Test & Paper solving Methods –**

- The sectional tests included in the curriculum assists the students in evaluating company papers and apply better approaches to solving the papers.
- This helps the students improve their scores with invariable knowledge by developing better test taking strategies.
- The tests help in gauging the students' improvement throughout the Training Program.

**6. Company Specific Tests** – APPART provides 10 Mock company specific tests (During the training or at the end). This helps the student to understand the paper patterns of different companies and, in turn, prepare them for respective companies.

**7. Company Specific Workshop** – Contains Company Specific Test Papers (Very similar to the actual placement papers) and GD & PI tips prepared after research of previous years' papers and APPART Alumni.

## APPART's Training Module

### CAMPUS RECRUITMENT PROGRAM

#### A . IMPACT Plus – The Giant Leap

##### Program Overview and Objective:

- Detailed concepts of Maths, Reasoning, English, and Soft Skill orientation.
- In-depth classroom training followed by assignments and doubt clearing.
- Mock tests and analysis to simulate company recruitment exams.
- Better methods to solve aptitude exams.
- Extensive Online support and comprehensive post training support.

**Course Details: 50 Sessions / 100 Hours**

##### Session Details:

##### A – Aptitude Section

- |   |                        |   |             |
|---|------------------------|---|-------------|
| ➤ | Maths (MA)             | : | 10 Sessions |
| ➤ | Logical Reasoning (LR) | : | 8 Sessions  |
| ➤ | Verbal Ability (VA)    | : | 8 Sessions  |

##### B – Basic Communication & Soft Skills

- |   |             |   |            |
|---|-------------|---|------------|
| ➤ | Soft Skills | : | 8 Sessions |
|---|-------------|---|------------|

##### C - Additional

- |   |  |   |                                     |
|---|--|---|-------------------------------------|
| ➤ | APPART Mock Test (Assessment)          | : | 3 Sessions (Pre, Mid & Post)        |
| ➤ | Sectional Test & Paper Solving Methods | : | 3 Sessions (1 Each for MA, LR & VA) |
| ➤ | <b>Total</b>                           | : | <b>40 Sessions / 80 Hours</b>       |

- |                               |   |  |
|-------------------------------|---|--|
| D - Company Specific Workshop | : | 10 Sessions / 20 Hours<br>(5 Hours for one workshop) |
|-------------------------------|---|--|

**Grand Total – 50 Sessions / 100 Hours**

**Fees: Rs. 1500/- Per Hour + Per Batch**

**(60 to 80 students in a batch)**

Payment Terms – In 2 installments.

(1<sup>st</sup> Installment after completion of 50% of course & 2<sup>nd</sup> Installment at the end of the program)

## **EVENTS & ACHIEVEMENTS**

### **International Yoga Day 2018**

Since its global recognition as an international observance in 2015, the summer solstice of June 21<sup>st</sup> has been synonymous with the celebration of Yoga Day. This ancient Indian discipline, revered for its holistic approach to well-being, continues to captivate the world with its promise of unifying body, mind, and spirit.

In a vibrant celebration of unity and well-being, the Sports Club of Army Institute of Technology embraced the spirit of International Yoga Day on June 21, 2018.
