Description of activity(50-150 words)	Devlok is a 15 day event exclusively for SEs and TEs of AIT only. The Purpose for the event is to make students learn the new development skills and implement the same using our problem statement. The problem statements are given such that they could learn the basics of any tech-stack they choose to learn from basics. To monitor and enhance the learning journey they are learning under the mentors. This not only helps them to learn, but also builds team spirit. To make the whole journey for the student learnfull there will be 2 sessions by mentors. The whole event was created to make them learn along with projects which they could add in their resume.

3. Conducted Innerve 6 in offline Mode

Innerve- Nerve to Innovate, is India's biggest student driven hackathon, organized by OSS Club, Army Institute of Technology, Pune. This year, innerve was back with its sixth edition. After two years of lockdown, this year we had a hybrid id hackathon with first round i.e., ideation round in online mode from 5 February 2022 to 20 March 2022 and the final round in offline mode on 8th and 9th April, in the college campus. 13 teams were selected for the final round of Innerve 6 from a total of 800+ applications, competing for a total prize pool of 10 lacs. Innerve, has a short yet memorable history. It was started in the year 2016, under the guidance of Mr. Anup Kadam, and we are leaving no stone unturned to raise the bar of Innerve with every coming edition. Innerve has always been the most awaited hackathon because it brings with it, plethora of ideas from various domains and it is a gathering of innovators and the torch bearers of innovation.

Ideation Round is Live.

Innerve 6.0 registrations are open now!

India's biggest student organized hackathon!

Register here : <https://innerve.tech/> Its' free!
Closing on 25th Feb 2022.

ARMY INSTITUTE OF TECHNOLOGY

Dighi Hills, Alandi Road, Pune-15

About

Army Institute of Technology is an engineering college located in Pune, Maharashtra, India. It is affiliated to the University of Pune. Only wards of army personnels are allowed to take admission.

Glory

Army Institute of Technology was ranked 109 amongst engineering colleges by the National Institutional Ranking Framework (NIRF) in 2020. Best Pune University college in 2017.

Footmark

The college organizes its own fests and events throughout the year. The college has been accredited Grade A by NBA and NAAC. This prestigious college has already produced a lot of sparking minds who are now contributing at respectable posts at different firms.

It truly justifies its motto "ONWARD TO GLORY"

 +91 98776 62729, +91 91305 33126

The Journey of Innerve has been started in 2016. Now we are conducting its 5th edition INNERVE 5.0.

Hackathon is in the nerve of AITians, Hence we organize a national level hackathon. INNERVE is a hackathon conducted every year by AIT, this time due to COVID-19 we are making it possible online. Over the past few years, the reach of INNERVE has been increasing exponentially. People from various colleges from all over the country participate in one most prestigious hackathons in INNERVE.

The INNERVE 5.0 is bringing together the best minds in an online hackathon. The motive is to develop problem-solving skills and entrepreneurship skills amongst students.

The event is made a grand success through the sponsorship of a lot of startups, educational groups, and individuals. From learning and innovating to pitching and coding, INNERVE 5.0 will unform incredible things in a never-before virtual experience. It's a platform to bring bright minds together. By harnessing the power of collaborative computer programming, it aims to create qualitative, open-source projects that would help solve the most pressing problems

**‘जेआयएस’चा संघ
हॅकॅथॉनमध्ये प्रथम**

पुणे : ‘आमी इन्स्टिट्यूट ऑफ टेक्नॉलॉजी’तर्फे (एआयटी) आयोजित ‘इनरव्ही ५.०’ या पाचव्या वार्षिक राष्ट्रीय हॅकॅथॉनमध्ये पश्चिम बंगालच्या जेआयएस अभियांत्रिकी महाविद्यालयाच्या ‘एस-टर्नॉन’ या संघाने विजेतेपद पटकावले. या संघाला एक लाख रुपयांचे रोख पारितोषिक व ३० हजार रुपयांची कूपन्स देण्यात आली.

‘एआयटी’च्या ओपन सोर्स सॉफ्टवेअर क्लबच्या वतीने ही राष्ट्रीय हॅकॅथॉन स्पर्धा नुकतीच झाली. ‘एआयटी’चे संचालक ब्रिगेडियर अभय भट, प्राध्यापक समन्वयक प्रा. अनुप कदम, विद्यार्थी समन्वयक अक्षय शर्मा उपस्थित होते. या स्पर्धेत चेन्नई (तमिळनाडू) येथील लोयला आयकॅम अभियांत्रिकी व तंत्रज्ञान महाविद्यालयाच्या ‘दिवा कोडर्स’ आणि पुण्याच्या शासकीय अभियांत्रिकी महाविद्यालयाच्या ‘लिओ कोडर्स’ या संघांनी संयुक्तपणे द्वितीय क्रमांक मिळवून, ५० हजार रुपयांचे रोख पारितोषिक व २० हजाराचे कूपन्स जिंकले.

राष्ट्रीय हॅकेथॉनमध्ये 'एस-टर्निओन' विजयी

पुणे : दिघी येथील आर्मी इन्स्टिट्यूट ऑफ टेक्नॉलॉजीच्या (एआयटी) वतीने आयोजित 'इनरव्ही ५.०' या पाचव्या वार्षिक राष्ट्रीय हॅकेथॉनमध्ये पश्चिम बंगालच्या जेआयएस अभियांत्रिकी महाविद्यालयाच्या 'एस-टर्निओन' संघाने विजेतेपद पटकावीत एक लाखाचे बक्षीस व ३० हजारांचे कुपन जिंकले. चेन्नई येथील लोयला आयकॅम अभियांत्रिकी व तंत्रज्ञान महाविद्यालयाच्या 'दिवा कोडर्स' आणि पुण्याच्या शासकीय अभियांत्रिकी महाविद्यालयाच्या (सीओईपी) 'लिओ कोडर्स' संघाने संयुक्तपणे द्वितीय क्रमांक मिळवत ५० हजार रुपयांचे पारितोषिक व २० हजारांचे कुपन जिंकले. 'एआयटी'च्या ओपन सोर्स सॉफ्टवेअर क्लबच्या वतीने ही राष्ट्रीय हॅकेथॉन स्पर्धा नुकतीच आयोजित करण्यात आली होती. चेन्नईच्या 'एसआरएम आयएसटी'च्या गार्लिक ब्रेड आणि नवी दिल्लीच्या भगवान परशुराम इन्स्टिट्यूट ऑफ टेक्नॉलॉजीच्या 'कॉर्टेक्सकेस' या संघांनी उत्तेजनार्थ यश मिळविले. आर्मी इन्स्टिट्यूट ऑफ टेक्नॉलॉजीचे संचालक ब्रिगेडियर अभय भट, फॅकल्टी समन्वयक प्रा. अनुप कदम, विद्यार्थी समन्वयक अक्षय शर्मा उपस्थित होते.

वर्ष : १४१

एआयटीच्या हॅकेथॉनचे विजेतेपद पश्चिम बंगालच्या 'एस-टर्निओन' ला

पुणे : पश्चिम बंगालच्या जेआयएस अभियांत्रिकी महाविद्यालयाच्या 'एस-टर्निओन' संघाने दिघी येथील आर्मी इन्स्टिट्यूट ऑफ टेक्नॉलॉजीच्या (एआयटी) वतीने आयोजित 'इनरव्ही ५.०' या पाचव्या वार्षिक राष्ट्रीय हॅकेथॉनचे विजेतेपद पटकावत एक लाख रुपयाचे रोख पारितोषिक व ३० हजारांची कुपन्स जिंकले. 'एआयटी'च्या ओपन सोर्स सॉफ्टवेअर क्लबच्या वतीने ही राष्ट्रीय हॅकेथॉन स्पर्धा नुकतीच झाली.

स्पर्धेत चेन्नई येथील लोयला आयकॅम अभियांत्रिकी व तंत्रज्ञान महाविद्यालयाच्या 'दिवा कोडर्स' आणि पुण्याच्या शासकीय अभियांत्रिकी महाविद्यालयाच्या 'लिओ कोडर्स' या संघांनी संयुक्तपणे द्वितीय क्रमांक मिळवत ५० हजार रुपयांचे रोख पारितोषिक

व २० हजाराचे कुपन्स जिंकले. चेन्नईच्याच 'एसआरएम आयएसटी'च्या 'गार्लिक ब्रेड' आणि नवी दिल्लीच्या भगवान परशुराम इन्स्टिट्यूट ऑफ टेक्नॉलॉजीच्या 'कॉर्टेक्सकेस' या संघांनी उत्तेजनार्थ यश मिळवले. त्यांना प्रत्येकी दहा हजाराचे रोख व दहा हजाराचे कुपन्स देण्यात आले. आर्मी इन्स्टिट्यूट ऑफ टेक्नॉलॉजीचे

संचालक ब्रिगेडियर अभय भट म्हणाले, आमचे विद्यार्थी 'एआयटी'सह इतर विद्यार्थ्यांमध्येही तंत्रज्ञानाची रुची निर्माण करत आहेत.

विद्यार्थ्यांमार्फत भरविण्यात येणारी ही भारतातील सर्वात मोठी स्पर्धा आहे. या स्पर्धेतील विजेत्याला एक लाख, उपविजेत्याला ५० हजार रुपयांचे पारितोषिक मिळते. या स्पर्धेमध्ये विद्यार्थी आपले तांत्रिक कौशल्य परीक्षकांना समोर सादर करतात.

समन्वयक प्रा. अनुप कदम व विद्यार्थी समन्वयक अक्षय शर्मा यांच्या माहितीनुसार, तरुणांच्या मनातील कल्पनांना वाव देण्यासाठी 'इनरव्ही' ही हॅकेथॉन असून, यावर्षी भारतातील एक हजाराहून अधिक तर २५ हून अधिक आंतरराष्ट्रीय नोंदणी झाली.

ACTIVITY REPORT OF OPEN SOURCE CLUB FOR THE YEAR OF (2018-19)

OPEN SOURCE CLUB (OSS)

Events	Dates(Tentative)	Type and duration of activity
1. Jumpstart with Web Interface	Month of August	Once in week
2. Intro to Analytics using R (Python or JAVA)	August or September	Once in week depends on student interest
3. Coding Contest	September	One day or two days
4. Workshop on Raspberry Pie or BBB	October	One week
5. Hackathon	(Tentative)	One month activity
6. Other competition and training ,workshop	Date and time is not fix	Continuous process

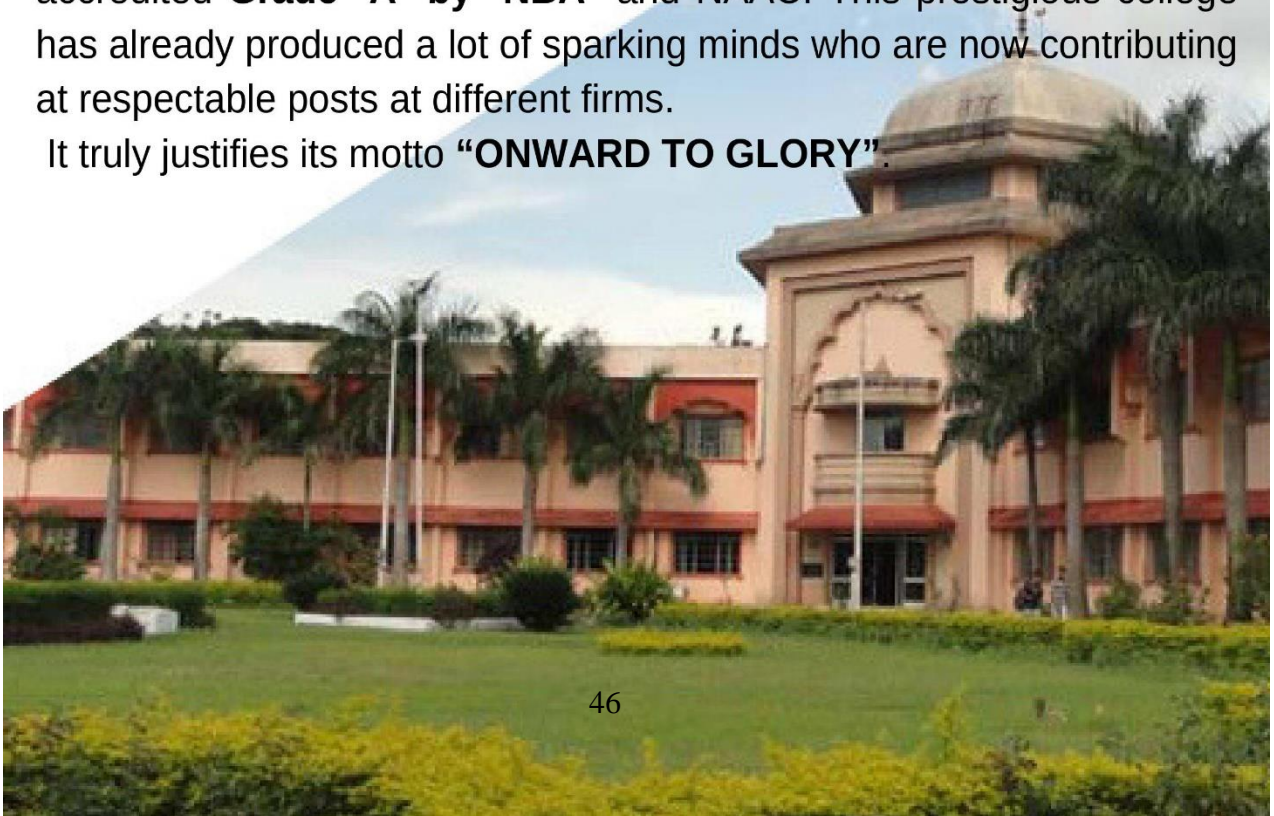

1. **Conducted National level Hackathon (INNERV 4.0)**

WHAT MAKES AIT DIFFERENT?

Army Institute of Technology is an engineering college located in Pune, Maharashtra, India. It is affiliated to the University of Pune. Only wards of army personnel are allowed admission. AIT is operated by the Army Welfare Education Society (AWES) and has the Chief of Army Staff of the Indian Army (COAS), as the president of its board of governors. Army Institute of Technology was ranked 91 among engineering colleges by the **National Institutional Ranking Framework (NIRF)** in 2019. And **Best SPPU**(Savitribai Phule Pune University) **college** in 2017. In 2018 college celebrated its **silver jubilee**. With the best cream of Army Wards, Army Institute of Technology boasts of its discipline, organization and team spirit. The college organize its own fests and events throughout the year and make sure every event is a benchmark in itself. The college has been accredited **Grade A by NBA** and NAAC. This prestigious college has already produced a lot of sparking minds who are now contributing at respectable posts at different firms.

It truly justifies its motto **“ONWARD TO GLORY”**.

WHAT IS INNERVE ?

Started in 2016, INNERVE is the annual Hackathon of Army Institute of Technology, Pune. The Hackathon witnesses a great number of ideas every year with students participating from colleges in Pune and outside Pune as well. INNERVE is a renowned Hackathon, popular in all the major colleges of the city. The event is of three days comprising the idea pitching round, followed by 24 Hours coding session and the event ends with prize distribution. Innerve has been sponsored by a lot of startups, education groups, and individuals.

**Guest Lecture**

Dear Prof. Manoj Khaladkar,

Greetings from LTIMindtree!

We are pleased to invite the students from your esteemed institution for a virtual guest lecture session with LTIMindtree Subject Matter Expert. This connect session is crafted to share insight on the kind of Non-Tech skills and latest learning trends a students should have to prepare for the Upcoming campus interviews.

We request your continued support in ensuring maximum participation from the students. Look forward to an engaging session.

Please find the following details for the said session:

Topic	How to Prepare for Interviews
Date	2 nd March 2023
Time	16:00-17:00 Hours
Venue	Click here to join the meeting
Audience	2 nd year and 3 rd Year Students
Speaker Details	Puja Ingale

Regards,
Harsh

Comments , if any	<p>Intro- Location, AIT premise, headphone string, hobbies- athletics. Body language was poor. He was not only not prepared but the behaviour was childish on camera and for the interview especially. What technical skills are you good at?-ML/ Any Tech dev ?- Chatgpt. Time was given to ans this question. Attitude is extremely casual and body language is fidgety. Internship- content writer- give the articles. Someone was also prompting from behind. After insisting on the internship, more detailed answer was given. Weak point?- not fluent in english, cant say no for help. Strength- help others, good learner, not much self confident and confident about things that I can do. Hobbies- running and basketball part, athletics part. Running - mental strength, removes anxiety. What kind of anxieties do you have?- It is generally personal and family. I am disturbed about academics part. Any regrets/ fears- no fears of anything. Regret about past.I could have been better in JEE and I could get into IIT. AIT is as good as IIT. Family aspiration. AIT - it has some broad culture, sports and cultural events, small institute, 360 students and compact college, teachers take care of us. IIT strength is very high. Why engineer?- to help the society in the technology part ...give complete answers ...How do we be fearless?- panic is in our minds. We have to tackle it by thinking it how much it can get worse. Girvar needs to hone his communication skills. He takes time to convey his ideas. Learning?- write 2 - 3 times to retain it. Answers need to be deep. Its too superficial. Interpretation skills are very poor. He needs training from scratch</p>

Percentage scored	70%	60%
Rating for Decision	R	CC
Comments , if any	<p>Introduction not in cv- starts up and rejected in army 4 times. Is it disappointing to enter the corporate world ? Not at all. It was something that you wanted to try. Any idea what could have gottten wrong?- first time lack of confidence, then not serious about it and the last time I was giving it a shot and got rejected the last day- psychological test. Strenght- problem solving skills, out of the box. Have you solved a real life problem?- provide tech assistance. Dont have to discriminate between problems. Just fix it, every task isimportant, work ethics, cant skip any part of the problem, Good answer. How can we create unity?- unified work effort?- diversity helps in many ways, cause conflicts but in team they start to understand. But what if the work needs to get done in 1 month and there are conflicts?- How can we get it done. Internship done . Give more details proactively. QUite a number of internships. Mention the takeways. Can have more energy but good to go. Good interview as such</p>	<p>Introduce yourself- Location, college, school, public speaking like debates, compettive programming. Shuld have mentioned the clubs and responsibility and all these things (dont keep saying all these things)How to be good at debates?- aware of the topic, confidence, authority in your speech, general awareness (got stuck). Hobbies- arts and all those stuff. How has it helped your personality?- calm. Any challenges that you see in this profession of engineering?- software engineering- new technologies daily. What challenges have you faced in your personal life?- As in what? dont ask that way. Currently internship issue. 2 to 3 tech rounds and then final round it is getting rejected. If the same thing happens with no job situation, what will you do?- work on my skills because we know ourselves better than others. We have to upskill. I will get in a month of two and I have to be prepared. Club tasks- maintain a coordination between tasks, build a trust. I get nervous when I get a new project and I have to finish in deadline. This is a weakness and I take a break and I think about it what would be my plan now. What kind of boss ?-not give much thinking to this. But if he gives any task to</p>

Comments , if any	<p>If you get the lowest pay, then I will take the offer and will be a bit disappointed at the start, parents are supportive, will upgrade yourself. Current weakpoints?- Procrastination, delay things a lot and leave them on tomorrow. Tryng to get things under my control. Pushing it to do some part today and some part tomorrow. What urged you to improve?- others who are like that will take a lot of time to succeed. How do you discipline yourself?- discipline is forever but motivation is temporary. If one day you are not feeling like. When you are down who would you go to?- 2 friends. best part. Team struggle?- first year ppt experience. WHere do you see yourself a few years from now?- explore IT sector and work for more 40 years of my life...be more specific. in the pursuit of result some people are unkind and pressurised, would that affect you?- consider that person's psychology and go a long way for us. Do you think you will be taken for granted?- not as a trend. Speak it up. Internships - favourable ans but duration was longer but that is not possible as I have college and salary is low. But I am lookign for a a project to get my necessary skills</p>	<p>Introduce yourself- inclined to web dev but done coding more, club oriented roles, read and write. Not written anything since 6 months. Not in a mood. When I write something I express myself. Makes me feel happy. I like the imagination of something, I am a fictional reads. Fictional books?- Ranjeet Singh Q & A- Poor boy end up being a rich person. Why did you choose engineering?- In 11th there is a subject called C++ and coding interests me. If you dont get a job?- study for PG course and keep applying. It would be a nightmare for you. Family background?. Didnt miss a deadline due to laziness but lack of consistency - I had prepared everything for the interview and I wasnt consistent enough, they shifted the interview date and stopped studying at that time. I dont make friends easily. I have a small group though. What inspires you or what keeps you going?- I just have to pay for myself. Women reservation?- yes. Then wont it be fair for men?- Yes but women's reservation are important to avoid crime. Internship- explain the role proactively and dont say you didnt learn anything</p>

Comments , if any	<p>Where do you see yourself in a few years from now?- high position and google and amzon. But we are not google or amazon- I will see. I will start with something. First aim is to get a job. Last aim is to get a big firm. What do you think is a good employer?- we develop more skills and not just documentation and real technical skills. If reality is such that what would you do?- I will check my financial condition then I will do the job or I will switch the job. Are you happy about being an engineer?- Wanted to join ISRO and wanted to be a research engineer. Yes I am happy. Qualities of a good engineer?- problem solver, all poss solutions, get the best out of them- thinking about more qualities, team work. Any struggle in team work?. When there are bad team mates what do you do?- I do it myself or try to convince them or drop them. Not getting internship tomorrow is my first interview. Weakpoints?- Not confident in myself, self doubt, But I am better than before. Smiling and talking always. GK- not into politics</p>	<p>Why did you choose engineering?- not my choice initially but going with the flow But later it got exciting. If IT job would not pay well and mech would, would you still pursue it- I would continue unless it is a bad financial status. What difference do you think engineers make in the society?- most of the things and homes revolve around machines and technology and that is where we come into the picture. Any latest tech dev?- not much into. When was the last time you got emotional and why?- attached to my family. Cultural differences- food and dress. Cant compare them and I like both of them. I havent explored yet but looking forward. Why should we hire you?- No specific ans, I wil be an asset and will give my best in tech knowledge, I can assure you , i give my best in whatever I do. Any achievement that you are satisfied with ?- lot of achievements cited. Team struggle?- example given well but explain the exact situation and how did you manage. What scares you?- losing anyone closer to me. Weakpoints that are yet to overcome?- dont know, control over emotions, lash out on people. Internship is at hand- give more details proactively. How are you getting when others are not</p>

Comments , if any	<p>Why engineer?- Coding 11th and 12th, create and modify. So. How do you think engineers make a difference to society- solve small problems for different people, mama does business, applications for his shop. What is good about AIT?- Sports facility. Most of them. How has it developed your personality?- keeps me fit. Anything else?- team work. Mostly mono syllable answers or 1 line answer. Explain in details is missing in most answers. Failure?- JEE. I am ok with any other college. Engineer qualities- perseverance, problem solving skills, technical skills. How do you look at a problem differently?- examine the problem, poss ways to solve the problem and then optimise the situation. Real life issues?- random problems to solve. These are not real life issues. Quality then time and then cost - product creation - priority- because poor products does not help anyone. Have you wasted time?- today 10 hours. Video game?- only team work...you can choose your career in that. Do you want to?- first of all I will try engineering. Lazy and delay work - only if something interests me. If engineering jobs are boring- will explore for next 5 years...if no interest, then I will create applications. Cultural between</p>	<p>Yatin meaning- Koshish...Have you tried anything and that has failed?- in college, I visit gym regularly and not getting results and I am getting bored. Conscious of workout and reduces our stress. Now focus on studies. Who do you think is a good communicator- Which field? Qualities of a good communicator- can express his thoughts and feelings to the interviewer, should be a good listener. What are your hobbies- singing, visting new places. Impromptu singing- recalling and due to nervousness-...How has travelling and singing made a difference to your personality?- people speaking different languages, noticed people..What has grown in your personality?- become a calm person. I dont interact much and I am an introvert person. Already accepted the job offer and next job is higher pay- if the first job is not creating interest and 2nd company has my skills, then I will select 2nd. If it is the other way round, then also skills job only. Money is not an issue. Where do you see yourself a few years from now?- hOping taht I will be a good engineer</p>

Comments , if any	<p>Weakpoints?- Initially was good at communication in hindi. But not in english. Gave example and good story telling. Eye contact should be better but good firm voice tone. How did you start learning english well?- start watch anime-dubbed version. Also it comes to topics- We know that but general topics were difficult. When do you feel free?- Father didnt want to watch movies as it is waste of time. Now I am in college and no one to stop me to watch movies. Travelling to different places and can do different things. THrice in Dighi Hills and not regularly. These days focussed on coding. After exams, we go to Hills. Listen to music I dont like silence at all. Very energetic interview. Very excited. Failure that has impacted you- example given. School example. Since lot of examples were given, you have to time yourself in 2 to 2.5 min you have to finish. Learning?- setting up small targets and continue the next day, postive feedback and keep a checklist on seeing the performance. explained the ans again. It is an engaging interview. No boredom. Frustration?- normal for everyone. If you cant do it, you consult and then you understand and you are good to go. Internship in Microsoft-</p>	<p>If there were less jobs in IT, would you still be in IT- I will still do this as it is my passion. If no job, what circumstances are lying in front of me. Govt or Private. Are you prep for any govt now?- Thought of civil services. More productive in that job. Boons and Banes of corp private job?- Latest technology and social- odds-not interested in sitting in cubicles. Field job- developing the society. Internship - not done. To learn how a company works. Not interested in their payscale. Have you been confused?- something I tried but this is not productive. NOT reall a bad decision. Gave eg:- courses of ISRO and IRR has to offer. Time to learn new things. Is there anything that you shoudnt have done?- when you are in the problem, you feel you shouldnt have done it. But when you are out of the problem, it helped you being a different person, different perspective. Qualities of a good engineer?- creative, innovative, rather than being more professional you can be creative, you should be the jack of all trades. Being the Jill of all trades, what all are you into?- social work, NSS, women representative of Rotaract club, Debates. International debate participation-Green energy is it actually or is it just a hoax. Electrical vehicles-Lithium imported from</p>

Comments , if any	<p>Why is it important to earn?- to be dependent . Some want to leave the parents dependency. What is your expectation on salary?- I have no expectation. Experience above 50,000 for internship. Mention for the job-70 to 80000 per month. How did you decide this is what you deserve?- I have seen people. Strenght and weakness- start something and consistency, work towards it. Weakpoint - I start late. Do you remember what you started late?- fitness. What motivates you?- Motivation is not enough. I do half of my schedule in sleep mode only. This is interesting. Now I wake up before my alarm clock. I dont think about anythign after I wake up. When I change my clothes, I realise. Nothing to think to go for running. Just do the regular thing. Internship - didnt do 1 task with effort so didnt shortlist. Inspired ?- Jordan Peterson- Psychologist. David Loggins - Marine. Not inspired by businessman but mentioned fitness...that was smart. He has written a book- Cant Hurt Me. 12 rules of life - Jordan's book</p>	<p>Name meaning?- warrior. Overcome struggles?- feet in too many stuff. But finally was satisfied. Why engineering?- laptops, computers and soIt is just that I am in web development. Good qualities of a good engineer- good problem solver, communication skills with client, time management as due to deadlines- answered well as you gave reasons. Missed deadline- assignment- mention why and how u overcome. this year- follow fitness and maintain proper routine. Problem solving?- I am the first one to reach there, setting an example myself, now they have to follow, they were not waking up early. Discipline?- sleep late and wake up early how does that happen?- I now convinced my room mate to wake up early. I have chosen my room mate. I turned on the fan and pulled the bed sheets. If you are doing SOPs only, what would your thoughts be?- Developed some skills and some freelancing and learn from failures. I have friends who are doing free lancing. Do you know any such website that is well made?- Brittany Chan- popular software engineer- good portfolio. Businessmen of India?- Satya Nadela and Sundar Pichai- But they are Indians yes but Indian Businessmen- Mahindra. Internship done- unpaid...dont have to say that....but</p>

Comments , if any	<p>If friends got jobs and you havent?- take guidance from friends. Engineer?- pillars where world becomes a better place. Technology. Hire you?- learn from my mistakes. Also want to learn things. Will get the work done. Don't want to give up easily. Table Tennis- we won against the same thing whom we had lost. Sports?- learn from them. Ans more in details. 5 big learnings- dont give up and but I cant remember , money is not everything. Feelings and emotions and treatment before money, always dont judge people by actions. Ujjwal smiles and talks. When do you get angry?- I understand the other person and I dont finish the work on time. It is because of myself. Miss college days- we can try different things and fail at it and do mistakes. Destroy your happiness?- Take it as a challenge. Hobbies- free time - TT and talk to friends and football. Single book - not completed a certain book- Alchemist. Who has made you who you are?- Father from angry to calm person. Internship ans was good- didnt get now but will get it and I am sure. I want to be an engineer and I will try to learn from every opportunity. Even if I dont get the job, I will try harder and learn and finally become a good engineer</p>	<p>Name meaning. WB and Maharashtra- In WB, we are proud of our culture and here I don't find that. Here people are friendly and people in WB are judgemental. Employment status in WB?- Education and employment both have degraded. Both my parents are employees of govt of WB. Why did you choose engineering?- guided by parents and no problem with that and liked maths. Do you like engineering now?- knew very less about technical things, coding. When was the last time you cried:- I cry very often. When can you cope up if you dont see parents for long?- hostel since 9th ...say that proactively. Why should we hiring you?- adapt, work with people, hard working. Gave examples on hostel life, new cultures, new people. Do you know how to deal with people or just adapt?- I can be upset but I know how to get through it. Toxic- I try to communicate that it is not the right way. If I cant deal , then I will get out. If boss is toxic, I will try hard. Where do you see yourself a few years from now?- cant think long term. I am focussing on present. I want to make my parents proud. Technical skills/- I dont have anything that stands out and all my classmates have that. My way of dealing is what stands out. Time ?- 2nd attempt of JEE</p>

Comments , if any	<p>Why engineer?- machines to sports , excited to do all the things, programming.</p> <p>Why IT engineering?- honest, brother - good at coding, placements are good.</p> <p>What are you expecting from your future employer?- payscale, not the only thing that matters, good environment, how he treats me, makes you work better. IF not good environment, then will work well there but eventually switch because I need to be happy. Learning?- repetition, we try to skip it and then forget it. Team?- Examples were ready. Football .</p> <p>Rejections- Internships, applied late. Internship answer explained well. Thats life. Failures are stepping stones.</p> <p>Internship pro points. Our job accepted or higher pay job?- Stay for a lower pay - experience will help me get a good job at the end. However everything else being the same, I will go for the higher pay. I would like to be honest. Good body language. Anything to change in your college?- the college- dont ans that.</p> <p>Parents?- none. Night shift?- will try.</p> <p>Hobbies?- sports- most. Try mentioning soft skills. What frustrate you ?- when things dont go my way. Try to avoid it.</p> <p>What do you do after 107- mention that.</p> <p>Good energy, body language and indepth</p>	<p>Why should we hire you?- hard working, ability to improve our company. Then stopped talking. Hard working or smart workng?- both. Sachin was not prepared.</p> <p>Confidence needs to increase. He has to think about ideas in deep and not just prepare for the interview. Smart workers are lazy. I am also lazy. What are your weakpoints?- get angry, overthink and lazy. Sometimes I sleep for 15 to 16 hours.</p> <p>Why engineering?- reputed career. Better than BSC and BA. High job opportunity.</p> <p>Mostly mono syllable answers. Should learn to answer in details. Internships - none. 98% in 8th class- and you are proud of that. Then my downfall started. I was nervous. Are you happy in AIT?- good placement and army background. But no internship?- it is recession time. What if you dont get a job?- then I will go for teaching profession. In lockdown, I was teaching 4 to 5 students. 11th Physics.</p> <p>What do you think should be the qualities of a good engineer?- strict, health?? not lazy. Qualities of a good teacher?- hard working, treat student like his son, not focus only on salary and started speaking in hindi. In hindi, the body language and voice tone improved.</p>

Comments , if any	<p>Why did you choose to be an engineer?- no interest in any other subject. Phase of my life what I could become further. It was my take.</p> <p>Why engineering-good at maths. Appealed to me. Don't look up while thinking. Nervous?- Some situations where I have been shattered. Cant share as it is confidential.</p> <p>Any normal stuff?- Good voice tone, good body language- wanted to be officer but was not prepared. Weakpoints- procrastination my greatest weakness, maintaining consistency of discipline- falling into pieces. Lot of energy in the voice. Ratan Tata and Ambani- great deeds like Tata. Good animation. Any grave mistake?- There is not something that I cant talk about it. Do you think campus placements makes a student lazy?- yes. What is great about student life?- excellent answer. Internship?- once i require skills. No....dont give monosyllable answer</p>	<p>payscale is good, no physical fitness required, many resources available on internet for being an engineer so I am an engineer. No physical activity since childhood. But playing sports is my hobby but not taken it seriously. These points are contradictory. How has it changed your personality?- team sports, hard working and accepting failure well and not being hyped on win. Why should we hire you?- hard working, salary acceptable and completing on time. Any delays?- not completing syllabus on time but managing it last. I dont go to play then. Team struggles?- Answers are not well thought of. They need to be deep. Rishabh needs to know himself. Current affairs he was very good at and he dressed for the interview. Beside that, he needs to prepare from scratch.</p>

Comments , if any	<p>Bihar- No private employment- don't get paid and want respect and security in Bihar- So all Biharis study competitive exams. Are you applying for private jobs? I am qualified for BSC Stats. Your father has suggested to come here. I want to become RBI manager. Do you want to be an engineer?- Its not torture as seniors , problem solving skills, technical skills, not would have developed if BSC Stats, here students are from different mind sets. I will get campus placements then I will go for it. I need a back up. If you get through RBI what will you do?- I will resign. How will you make a difference to the society if you become engineer?- negotiating, confidence and motivation. Question was about engineering and not about AIT, When were you nervous?- Tech Akriti. You can speak slower. RBI- no financial pressure even if I dont get through RBI or corp interviews. RBI age limit- till 30 years. For caste, it depends on economic condition. They belong to SCST. No internship not increasing my technical skill. Dont rock and talk. How do you learn and memorise?- Notes on the wall paper- key highlights. Not preparing so seriously for RBI - then why ment the start?- Its a detour.</p>	<p>Hard working, dedicated to work, disciplined, don't waste food and don't waste time- why should we hire you. How should we disciplined?- wake up early at 5 am, running every morning. How does running help you- physical and mental health. Boxer - practice in college. Physical director is National Boxer. Players vs Non player of sports- team spirit, will power to win and complete the task, ability to handle pressure. - Should add these things in why should we hire you. Pressure situations?- none. Internships?- None. Will do at the end of semester. Experience and strength of resume. What is lacking in India for engineers?- employment. Go with the performer vs friend for the job- go with the performer. Education system - lack of employment. GK -Mostly all. Respect comes from wealth in society. You can mention about your notion about respect which is personal to you. Example - IAS officer. Idea about your future ?- Army officer, tried for NDA twice and try again in CDS and if you dont get through the army then corp. If you get through the job and the army, - would like to serve my nation and I am from that background</p>

Comments , if any	<p>Intro -Kanpur UP, AIT, football, webseries, spiritual things excite me, watch videos like spiritual stuff. Technical and soft skills?- Football how has it developed personality-leadership quality, team spirit and handling the situation. Pressure handling- listen first, dont react immediately. How to be calm?- Points- 1. take some time 2. try to put yourself in his situation 3. Not respond that would hurt you 4. I believer in myself mostly 5. I dont make friends easily but I can take it as a funny situation when my friends irritate u. 6. When my friend doesnt pick the phone and explained the situation - if you just talk to the person, it will sort out. What are the other things about you that we should know to hire you?- I complete a task that I take, even if I dont complete 100% I will be satisfied with hard work. Example:- Kota...good at giving examples. SMiling and answering in interviews. I dont compare. I focus on the process and the rewards will come, Learning- be aware, what time it would take, consider your own abilities also, dont compare with others, the time I will require and I will get it in my time, take help from seniors. Pune is calmer and Kanpur has leather. Pune is ecofriendly and Kanpur is extreme weather. All GK answered. I love politics. Always smiling.</p>	<p>Why did you choose engineering?- No such reason. In 11th std, I liked maths. Dropped for JEE not so story as such. Are you happy now?- Yes very happy. There is not such thing. Don't have any placements or future plans. Banking sector I want to go only- Because there is stability and job drive and security. Make money. Scared of people losing jobs. Afraid of recession. Will you avoid giving corporate interviews?- i will go for it but you dont know about security. If I get a package of 14 lacs, then why will I leave. And also if you get banking sector what will you do?- banking sector. Whats the problem in India- Engineering jobs. Alternative career- BSC MSC and then do something Delhi University. What is good about this college?- College not too much crowded. Boss?- supportive, not too much dominating, time to time feedback, not too much load. Any challenge in any group activity?- not so social and not interested in such activities from 1st year. GK- Not in politics. Internships- content writing. YOU proactively searched?- Explain your answers more. It is unpaid internship</p>

Comments , if any	<p>Weakpoints ?- weak self esteem. In Indian terms, achievementwise I am good. I scored 94% and topper of 3rd sem but still have low self esteem. What is an imposter syndrome?- we know less than others. I don't know enough. I focus on perfection. How would you react if someone criticises in public?- I would first assess myself why others are saying and if they are valid. Hobbies?- music, games, travelling and programming. Recent travel- Jaipur, I travelled Jaipur. Why engineer?- Learning a lot and exploring. Dont like being free. Likes technology. Learning-time, easy to learn, focus on basics, then harder stuff. What kind of people dont you like?- hypocritically and sometimes you have done it yourself. Give examples proactively. Elon Musk and Mark- Fellow Tech Enthusiast. Teacher. Internship- Back end engineer- explain the role proactively and the work profile. Abroad or National job?- situational. If pay is equal, you will stay in India or go overseas if financial is bad</p>	<p>Vishakhapatnam and Pune- miss my home. Spices are difference. Any weakness that could harm your career?- emotional and could bring trouble. Any event where emotions bought trouble?- family points that I cant share. Give me a few strenght that I would be excited to hire you- good at people. Listen before I talk. What to talk and what not to talk. Say more about relevant strength that would help you career. Technically I have good knowledge. Team - I could manipulate people to get the work done. Dont use the word manipulate. So use the word convincing skills. Find the catch of their work. Owing to each other. Any event in your life which has provoked you to transform for the better?- Kuchipudi trainer. What kind of a boss- cool and agrees with the employees and gives good feedback . Friendly nature with employees. Helps me grow. If you get an opposite boss?- father always said learn from things you never get and manipulate things for myself. Why do you have to give mock interviews if you believe in fate?- Middle class family. I landed up in AIT after paying 7 lacs. Smiled a lot while answering. I am nervous - dont say it. No internship and thats my fate. What if you dont get a job?</p>

Comments , if any	<p>How do people see you?- friendly guy, bike rides, enjoys parties. Offroading-from Maharashtra. Qualities have developed inside you due to bike riding?- exploring, creative in selecting the place, feel the place where I can get peace. Outlook on woman riders- they can but little bit not interested in riding bikes. Aim in getting the job- survival but at the centre but get me interest. Weakness- laziness, prior to deadline and little bit of recklessness. Proud of yourself?- getting into AIT. Do you think ML is blessing?- at some point it is but it will hamper jobs. Mechanical engineers no scope?- need of skilled engineers but now engineers fields have developed and robots and automation have developed. Cartoon character-always joyous. What will provoke you to leave the company- commitment is not kept</p>	<p>Tell me something that will make you get the job- Hardwork, sincere. Relevant points are missing. Hobbies?- Reading books. Bhagwad Gita. My earlier aspects of life are changing. In school times I used to read romance novels. Also into self help books- Atomic Habits. Tips from Atomic Habits- when we are trying to build a habit, there is a 4 step pattern- it should be obvious, appealing, reward attached to it. We should make the bad habit invisible. How has reading changed your personality?- Need to proactively ans about hobbies and skills developed. Team member - rude- learn along the way- maybe can talk to the person and understand- gave example- give proactively. Lot of sports- volleyball, cricket, basketball and football. Do you do anything special to keep yourself fit?- play racket games. Didnt mention about fitness. Play squash. In Pune, they dont give milk with dinner in Pune. But in Haryana we have milk with jaggery with dinner. Time sensitivity- missed the deadlines for internship. No internships. Quality, time and cost?- What would your priority be?- Quality, Cost and Time. Regret?- Not believe in having regrets. If</p>

Comments , if any	<p>Earthquake?- Turkey. Kanchan is Gold. Meerut - developments in recent years- metro, crime city but not now. Eye contact can be better. What kind of extra curriculum activities- 900 kms helped me consistency and disciplined. Theory of will power but will power is a limited resource and it will deplete till evening. So you have to build discipline and routine and will power to have routine. Thats routine as an alternative to will power. Mistakes?- JEE results not good. Could have been better college than this and that was a regret. The will power to build that routine came from that. Nicola Tesla -140 hours of working- 2 hours of sleep. and running too. Follow preachers of grind mindset. New Book - Never finish and Cant hurt me. Dont want to do internships and want to develop the skills first and then do meaningful internship later. Whats your career path?- plan a - back end, plan b - type script and get good grades and cds, ssb- getting into defence and plan c- listen to rap. Why are you giving corp interview if u want defense?- we need plan B in these financial times. I need to broaden my mind and body both. I overthink. What frustrates me?- I can say 75 at threatens me and I cant go to my past and explained the running. I fight it and moving on. Suggestion for AIT explained well.</p>	<p>Within your best friend and me- last place last job- I will be happy. Why IT ?- 12th class JEE attempt and in April and got Miranda House which is a good college - chemistry honours and parents forced me and scored and got into AIT. Did you ask them why chemistry would be a loss?- honours with maths. Her hair was combed well and casual dress. Before taking admission I didnt know much IT developments?- app , curiosity, make ease. English can be better. I get nervous during taking leadership so I am not good at all. I dont talk to men. I can talk professionally but not for fun. Why should we hire you?- self motivated, like to learn new things and positive mindset and stay calm under pressure. Example of pressure and calm?- in personal life, friends betrayed and I got out of the condition and go crazy</p>

Comments , if any	<p>Any other college?- Why not. Reason is - He is smiling casually and body language is casual. Biting nails. I got this college as per performance in JEE. What is AIT that gives the satisfaction?- support of the seniors and the batchmate and roommate are supportive. How will you sustain in the corporate world?-I will do whatever it takes and not focus on that. For a point of time, they will take my credit but there will be some time. Hire you?- provide my time and adaptable. Beside my tech skills, nothing else. What are the things in your - friendly, cooperative and quite humourous. Challenge in team building?- None. Regrets - None. Achievements- None really. Normal. Dipankar?- friendly supportive and he acknowledges you. Pressure situation?- Not really cant remember</p>	<p>Why IT engineering?- Choose IT - involved with computer and wanted to take a career related to IT. Could be more exciting and detailed. Developments like Google and software and like that? What difference will you make being an engineer?- coding and website some experience in it. 5 good qualities of a good engineer- consistency, hard working, exploring different things, acknowledge others work done in the same field, humble. Which of these skills do you have - consistent and hard working. How to remain consistent?- Planning a day before, doing things the same time, gratitude and dreams are the purpose like adventure sports. Learning strategies- you tube. Nervous about weakpoints?- Interviews. S Jaishankar and Meta - answered</p>

Comments , if any	Intro- good designer, good artist, UI .Good eye contact. Smile and talk. Good attitude. Won national art olympiads. FIGMA designs. Learnt drawing by myself. Subconsciously understanding patterns Code also readable to others. Why are you in IT?- There are 2 brains- designer bynature and computer programming in college. Mentioned achievements. That is good. Developments in IT?- Communication channel and GPS stuff. Winning strategy? - mindset developed by teacher. Just throw us in the competition without knowing whether we will perform or not. 1st- Analyse the requirement. Some are critical like 80..20 rule. 2.d figure out how much time is required in this. 10000 hour rule - to be a master. How do you handle pressure during performance?- I dont want to be a mediocre. Team group role - my goals and their goals. IF people dont want to work like me, I respect their work life balance and monitor regularly and not give feedback later. INdore vs Pune- Vada pav and Language barrier	Eye contact is missing totally. Good in tech skills. Started from tech. Self motivated hardworking and disciplined. Balanced life style. Listening to music and playing TT and Pool. Go to gym for fitness and healthy mind resides in healthy body. MNC where I can contribute. We are not MNC do you want to work?- yes as long as I can contribute. Disciplined?- Every day I wake up at the same time and sleep at the same time. Between internship and good prep of campus placements what would you choose?- Internship for hands on. Good at problem solving and decision making. Business owners - Elon Musk- far sighted and Bill Gates. How do people see you?- consistent and friendly. Hard work or smart work?- hard work which we should use but if there is scope for smart work, then smart work. Can be more energetic

Comments , if any	<p>earning money-enjoy life, dreams- mention responsibilities. Negative points of earning money- greedy and lose real life like parents and friends. This will happen. How will you cope up?- Work for 1 to 2 years and then I will do my start up and work easily and flexible hours. People dont get time even when start up- Mukesh Ambani. Inspiration ?- Dont say many. Always give specific answers. Mention more people and more qualities than Ambani. Indian History?- Internships are paid?- depends on conditions- family issues if then yes. Patriot - yes. Internship done?- No - flat answer. Team spirit ans was good but after details. GK?- No. Not interested in politics</p>	<p>Enjoy participating in competition- won award- Rohit Kumar Sharma- my friend. What are the plus points of competition ?- learning and negative - casteism. 1 year no job - work on myself. Why should we hire you- tech skills, no soft skills? Frustrated?- sometimes my friend- he little bit-His english is very poor. He has to pick up the language. Financial responsibility at home?- No. Its ok if you dont get a job?- Yes. Cricket and Volley ball- How to enjoy your life and fit body. Regret - speaking language and nervousness from english. Fear?- No What should I do when I am scared?- meditation. Confidence?- he answered better when I asked questions in hindi. Unless you do it, then how will you know. Any weakpoint ?- No other than english</p>

Comments , if any	<p>Employer?- give environment to fresher that fresher is able to apply. Boss - a smile like you and anything that creates happy environment and freedom in thinking. Why should we hire you?- as a fresher, I need that avenue to grow and need that experience from you, i will be honest and open minded...he is honest . College challenges- groupsim, ethics dont match but later on after participation, I am ok. What are your hobbies?- react framework, dancing, singing, current affairs- all answers given. Pros and cons of dependency- Russian - dependency on military</p>	<p>Why IT engineering?- I used to use smartphones since childhood, how to make games. Maharashtrians are not helpful. I am from Rajasthan. What do you feel at that time when people don't help you?- Nothing. You might be in the wrong city. If you are in a job and someone makes you feel helpless, I will try to see whats happening In the whole office, everybody cant be against me. .How can you be friend with them and why they are making me helpless. He takes time to answer. He needs to know himself better. Dont look up and think. Sugar and chemical - brainstorm. Have you been disturbed?- no. I follow spirituality. In AIT seniors are helpful. Amit needs to think in depth and answer quick. Every answer is not about spirituality, Good example of Manoj Bajpai. Bad decision and regretted it?- Engineer qualities- to build, imagine, good decision making,</p>

Comments , if any	<p>What difference will you make as an engineer?- Myself creative thinking with disciplined mind set, tech skills and lots of business skills, Vivek Bindra- Idea generation, marketing generation, how to negotiate, strategic planning and execution, Entrepreneur mindset person- want to be an entrepreneur. Negotiation - know about your customer and his wants, person's persona, dont convince them you have to prove that what you are building that is beneficial in their life, make it part of their life. Why do people give up?- Whats wrong with planning?- Business is a mindset. He is a business mindset person - Uncle. Some people failed in execution and they didnt have money. In 1st year, I joined my seniors in their start ups as a teaching intern took me to collaborate to different schools to connect with different parents teachers. Why are you giving this mock interview?- we have to do something for name and certification and thats why. Our fathers are satisfied. ONe of my friend and me were doing a project for DRDO. Good answers but check on time limit for each answer. Smiles and responded to all answers. AIT is focussed only on jobs which is bad as he said. Why will he hire you if you want to be an entrepreneur?- good</p>	<p>Why engineer?- interest in technology, coding. I had computer at very eary age. Movies and typing and games. I have full knowledge. body language- hand on cheek and answering. Why corp world- born to be curious. No one is stopping me. Corp is also about politics- it will sustain interest. I have learnt to handle people and situations. Can handle pressure easily - can empathise with them, everyone has something to say and everyone is unique. From angry to empathetic person, - hormones and family said people get calmer when they grow. I fyou see a sitaution daily, you will get used to it. It calms the anger. Books?- Webseries. Do you think 5 years from now?- it is funny question for who does not know meaning of it. It is a tricky quesiton. I see myself as a working professional. What do I have to do to irritate you?- that is a very interesting question. Stupidity of people - But that too I am trying to conquer. Internship paid?- free internship to upgrade skills. But if you want to earn, then I will apply for paid internship. GK?- No but I will be starting</p>

Comments , if any	<p>Unwell would you give another day- no. Why are engineers important - digitally India is behind. Indian are more engineers there because they cant get role in India. Nowadays Infrastructure. No defence exam given before. Brother was in NIT Rourkella- role model. But batchmates - familiar with defense. Defense minister?- Situation where you were nervous and then got successful - bit nervous during first presentation. Think more about examples. Articulation is an issue with him. If you dont get through campus placements?- I am confident I will get placed but in case I dont get placed, I will work for offcampus placements. Why should we hire you?- adaptive, learn fast, good team member. You were not looking at me at all. Ans in details. Team member - more details. Take on women reservation employmet- merit only. No internships. Applying. Dont know the reason. Loss if no internships?- get experience but people also who didnt get and if they are quick learners they can</p>	<p>Smiling. Intro and why we should hire you- tech skills mentioned, location mentioned. Secretary of finance clubs- organising events of fine arts, manage juniors. Like running- 5kms in 19 min. Didn't ans the question initially on why we should hire you - fast learner, 2 years on prog and logic building and problem solving, experience of working in a team, taking guidance from seniors, consistent, believe in hard work. --- good ans- different mind - dancing and running- hard work, taking off challenges. Develop the mindset- find the reason why you should. HOw did you manage juniors, what guidance did seniors give you and what were you as a junior?- Good answers, art work was really good. Seniors forced me to participate and organise events with others. explained different parts of the event management. That was good.He loves explaining and sharing. Further edu?- Start working but mother wants me to go for higher studies, There is option of joining company and they have facilities. I want to give exam. Night shift?- will be difficult but I can adapt and explained how he will adapt. Any regrets?- good ans. Internship- knowledge is good but experience matters. UK PM?- Time check on all answers</p>

Comments , if any	<p>tell me something about you that I should know- playing, travelling, sports, anime. Not much in my CV and then you said points. Don't start with that. Anime are powerful - psychological war. Smiling always. Bhaumik is bengali name but I am from Haryana and I dont know why. Elon Musk and Bill Gates- explained why- he is not afraid to show it. Do you think you are a confident person- myself and from where I surround myself and teachings of childhood. Whats your advice to scared people- you get a chance once, regret is bigger, cut off toxic people, you are alone . Any thing where you really found yourself alone- No. Any role of responsibility in college that you could have been better ?- Talk with people better especially seniors. I am not diplomatic. If there was a 2nd chance, then how would you change it?- I would take the hard pill and will not be so stubborn. Civilian kids- self centred and not respectful. Learning - planning- goals, then working phase, then test and show it to someone, then feedback. Trekking and travelling has helped me live more. Lovely answer. What is so distracting and attractive about college?- freedom here but in family it was not the AND college says u live only once. Why should we hire you? Focused, sincere, tasks given on or</p>	<p>IT engineering why?- loved maths, logical and reasoning , statistical skills. Been 3 years since introduced to programming I love the work. Background is blurred or white but light should be better. Developments - Chatgpt, AI controlling humans but I was not sure. After seeing chatgpt, but now I am convinced. Wont we lose jobs?- Ans is launch of computers- there were riots but nothing such happened. Maintaining AI- good. Anythign transformed you- my mistakes - improving daily. Any mistakes that you would like to share?- Unknowingly I have been rude. Do you have a supportive family and if you would not have had, what would you do- I would just tell them. What makes you nervous- no one is there who cant be nervous- stage fright. He uses fillers in between. Now i dont get scared but mention how. Why should we hire you- hard work and workaholic 10 to 15 hours. Time management is poor?- no for someone who knows me. Small internships but I dont want to do that. I rather prepare for my placements- mentioned the time allocation hours of CP for logic and ...for something else.</p>

Comments , if any	<p>Harsh- that's your name. What gives you happiness. Car driving- good explanation- vibration, confidence. DO you still feel the same connection with your IT engineering?- He smiled and answered all the time. Syllabus was getting piled up. I took a drop. 95 percentile and got into this college. I have to calculate 5% of 10 lacs- Can I safely assume that you were not feeling good when you entered college- initially yes but then I realised you have good scope. 3 tier or 2 tier college is also good. Difference between tier 1 college- IIT - world class teaching, facilities. Tier 2- limitations education and infra but they are getting good placement. Tier 3 college- no surety of campus placement. Education depends on teachers. But lacks in facilities. Currently AIT is 3 tier- So are you pressured about the unsurity of campus placements or excited about you doing on your own. Good sensible answers but dont say AIT is which type college. Taking decisions confuses me but now I realise....Is there any responsibility that you have taken in college where you had to take decision?- And you mentioned designations of events and described the events. Instead of disqualifying, i</p>	<p>Something not in cv- trekking and travelling and all that. Mention more. Also mention plus points of travelling and trekking- peace and diversity. Once you started, it was good. So you have problem with racist and casteism?- But I respect their opinion as well. Why should we hire you- learn new steps quick, good with people, people dont have to watch stand up, good team member. People dont listen to good people. Have you been in leadership position?- Screaming back doesn not work. Motivating well works. Explained the strucure of cricketing. So can I assume that you have faced no challenge at all since you are so matured?- replace football members if they are not performing but thats the last thing to do. I do get frustrated but I have to handle myself as I am the leader. Leadership in the business world- Jeff Bejoz, Dhoni, Elon Musk- Disheartened with twitter. How to remain calm?- Experience and time does it to you. Understanding the patter well. Nothing to change in parents. Lot of emotions in answers. 3 weakness that might ruin your career- I am impulsive but I am passionate so I become good at whatever I do. Explained the NDA and tech. Little bit of time managment- and spend hours and indulge in it. Mention how you</p>

Comments , if any	<p>Popinder- name given by my grandfather. Smiling and answering. What sweet things that give you satisfaction- I help others even if they deceive me. Only 1 chance. Because of my nature, everyone loves me. Do you never get angry?- I wont remain the same but there is no burst of anger. Lot of mention on the word help- you have to come out with more experiences. Why should we hire you- If you give me work I will always try my best in the time span allotted to you in the most efficient way. -I cant say much about others- good attitude. When did you miss the deadline- SSB. SSB event explanation was regular explanation of routine. You can just mention the highlights and dont even mention the bath and all. How can we manage time better. Give me some suggestions- It depends on their mindset. Even if you are expert you have to start early. Main thing is thinking. If you dont get through the job what would your next steps- study hard. 7 pm to 8 pm is gym time ?? GK - I am not into politics. Cant say that. Learning strategy- not a solid ans. Time table. Internship- applied only.</p>	<p>Your name is Sambhav- were you ever in self doubt?- Multiple times. I have stage fear- stammering problem - nervous. Are you nervous right now?- smile and nervous at the same time. Any situation in life when you thought you were an achiever- LKG till 10th - topper. NOT ranked so much in JEE but now I score again. Education system changes- syllabus should be updated. Poor english. Can answer in mixed hindi after permission. Education system- attendance should be low not as 75%. Because it is not practical. Faculty should be supportive. Team work college opportunity- project based learning. 3 to 4 people. Finish the work. Were you angry with people who were not doing work- but thats what team is- we need to cope up. But that behaviour cant be entertained. Aam bhi churaye hai. Fighting with my friends. In the corporate world, honesty always doesnt work. It works 75% of the time. Do you have any advice for upcoming engineers?- go for practical knowledge. Internships are important but it helps- but if they dont get it, they can use the time efficiently. Internship in Microsoft in future. Dream company- Microsoft</p>

Comments , if any	<p>Fascinating about engineer- creating solutions and building things for our help and ease our work and we progress. and in AIT if your father has not served the country even if you are good, you cant get into AIT. Any recent development in engineering field Google AI, Chatgpt. When I was in 12th, I thought of creating my own chatbot. I created but it only remands to set commands. Why IT?- This is a good question. Good story telling. I was eligible for all but I chose IT. I was not aware how CS is different from IT. IT is software and CS is hardware and software. Smiles and talks. Honest. Dont want to study a lot. My students get paid a lot but sometimes work is boring- I started freelancing when I was in 10th. I will never get bored. Father once asked me- Even if you get a low pay job and you like doing it, then its better. Freelancing at 17- financial need but focussed not on teaching. If it was not a financial need, I would be busy wiht my studies and wont be knowing ways to earn. Pay college fees by yourself and financed by yourself and utility bills and I am proud of you. I have yet to pay my 4th year fee and I have contacted my clients and mentioned in an accident. Should I assume that nothing scares you? - After 2nd year I am degrading of pride and</p>	<p>Are you excited about the interview?- Absolutely. Already given SSB interview. Failed 4 to 5 times. First corporate interview with you. Good confidence and body language. Why you must have failed?- Must have got nervous and must have played down as Army officer must be bold enough. Mention of interviews makes me nervous. Anything else?- Time before the results. What gives you confidence?- He started in hindi and continued in english and prepared enough and people are with me. Do you have any inspiration?- Admire the Shah Kashmir Grover because if he speaks the truth everytime. Ashnir Grover civil engineer from IIT delhi...etc- Grofers. Bharat Pay. Can you resonate with him?- I will speak what someone wants to say but if I care for the person, I will speak the truth. Have you landed up in trouble ?- People who care wont mind and others I dont tell. So no trouble. Any other trouble- only failures were trouble Mention the lessons learnt. Searching for internship still - uncertainty of campus placements and recession and slightly below required level. 1.5 times more hardworking. I am the top 30 coders of the college. Honesty</p>

Comments , if any	<p>Computer developer, fast learner, challenging tasks. Do you remember any challenging tasks-explained that well...but challenge is to procure internships but getting rejected. Don't have to mention the client name. Paytm interview- how many tea cups will be sold in pune railway station for one day. Were you able to ask reason for rejection- He figured out reasons-literally no idea. But he used maths and approximation. How many floors are there on 1st floor to 4th floor...How many compartments are there. He said the realisation and observe more ...thats good but dont extend the negative too much. Look at the interviewer- Eye contact. Does effort. Sincere. Higher studies if no placement. If you are team leader and have 3 tasks, then which task will you do- which one will you do. You will request to extend dates. Asked..dddd...wrong pronunciation. HR round is my weakness. Answered all internship interview questions in details. Which company will you choose- task that you dont know-learning language i dont know- salary more...know the language and learning the language is different. He has clarity but has to limit the time of the answer. He</p>	<p>Why should we hire you?-Because I finish things on time and I admire engineering. Why not others?- many are here because parents forced. What is so attractive about engineering-example - millions of picture but server is resource hungry and how to show photos to millions? To avoid hanging of website going down. Mention that we can help out. Rejected?- Rectify what may have gone wrong and work on it. I am from MP and from Rewa. Dont know much about MP and I will feel bad if you talk something bad about Rewa. What is comfortable about Pune-nothing really. I like travelling. Travel through bus which are well connected. Weakpoints- procrastination but only on what I dont like to do. I do corner it. In the corporate world you will get what you dont like to do....then what will you do- But in the IT field I have never procrastinated so will be compensated. Reading books and working out is procrastinating. I like to see things visually and it is appealing. How do you manage to get marks?-You tube videos. Do you fall off to sleep in class- but htye are teaching IT. Shift and location - any is ok unless and untill</p>

Comments , if any	<p>Why IT engineering?- Safest engineering field and an army brat...this is our college. If all were safe which would you choose?- Earlier Biotech. You should mention that the 2nd choice is IT. Achievements of IT - chatgpt-come out with more examples. What achievements of woman is celebrated but not really true?- When you take your time, say you need time. What makes everyone in Bihar so intelligent?- Bihar is not developed. Children see struggles. What is 1 regret ?- Got through NDA - first chance when women were allowed. I didnt utilise it much. If your work culture is not good and boss is not good even though pay is good- I work better under pressure and take it sportively. Challenging situation- 2 years of college has been tough. Not as such but put where you dont want to be. Smiles and talks. If you dont get through the job -Internship- applies but not</p>	<p>What is so excited about being an engineer and why are you looking forward for having a job? Eye contact can be better. He looks down. He wants to be in ISRO. Searched PCM. Mentioned about astronomical physics. When he called them they wanted a donation and could not afford it. AIT would be the best option.Were you disappointed with ISRO rejection in SS Ramaia college? - Yes. IN my heart I knew I had to pay fees.20 lacs management seat. Always smiling while answering. He still wants to get into it. Whether I can do it or not? Thats alternative career. Why would you interview and waste other company time if you get through ISRO- didnt think through. talk to them and it will happen in th enext year. Wont leave immediately. Weakpoint- procrastination- mediocre level. I</p>

Comments , if any	<p>Did not include in intro was mentioned again. Teaching winning cannot be taught. 100% involvement. Level of understanding of the subject. Presenting ideas well. Major goal is to understand others better. Goal is not just winning. Chose AIT- cantonment - so-better ans. Engineering qualities that I lack- only tech skills - good ans..patience Main motive to attend mock interview- 18 interviews- selected in 12.. HR round rejected-scale of 5000 employees-optimize the teams management structure. Internship 2nd year. Why IT-Tried for CS. IT is easier ! ? To learn extra curriculum things and faculty is very supportive. Did not know the engineers day. Education system- focus on practicals. Nervous around groups. But if you care about it, you would generally be a little nervous still. He is reliable</p>	<p>Why AIT and why engineer- because I got in AIT only and don't want to take another drop. Wasn't serious about studies till 12th. Prepared for JEE . College is not that much strict and can develop other skills. College curriculum is out of date. Most of teachers in Govt college are not well qualified. In AIT attendance is not a criteria. Faculties?- dont attend class. They give attendance. But they are supportive. Didn't give the answer to why engineer in 2 minutes. Animation can be controlled. Fascinated by logical and machine learning. Companies are a source of income. But I will give my whole and soul. Too much frankness. IT engineer- its not proper engineering as it is code, copy paste. But engineering is creating something new. That's a good answer. Basic first jobs-ok to start fresh. Friends- likes transparent and not self obsessed people. Generation gap so friends are good. Task completion with people you dont like- I will complete the project. Mistake I do daily- called my father. Failed in 11th. Regret?- Percentage was low. Dont keep rubbing your eyes. But no regret in any mistake. Always smiling. Good confidence. Why should we hire you-whats special- I mingle with people easily, I am a fast learner, flexible.. I consider jobs as secondary. Friends will help me get the job even if I dont get and they will help me. Interned with Deutsche Bank from 15 May. Change the background while interviewing and control your friends disturbance. Left a coding internship and I got bored. If you sustain in the company and till I find a new job, I will work in that company with full fledged. What is it about you that can lead you into failure- because I get bored easily. If you didnt have friends and coding, then life would be boring- Anime story has good story line. Describe- mutations, scientists, ghosts, out of the box. Contributes to the GDP of Japan. Naruto Anime. A carefree person like you - why are you giving interview- gain more experience. Is there any scope of</p>

Comments , if any	<p>Intro- Data science, volleyball- leadership, confidence, management skills. Trekking - fearlessness, pressure, experience Weakness- cant wake up early, communication skills. Achievement- mentioned, Presidential award but I left scout. What is the eligibility for Governor's award?- situations and give a test on that. Are you doing data science and mech happily?- I love machines. After seeing syllabus, it is tough and placements too so data science. Anuj seems to be a very honest guy. Pay in mech is less. Option between mech and IT? Family wants a high pay job. Rajasthan business- Udaipur is into business. Haryana- every family there is a soldier. No army for me. Medically unfit. Managing people answer was good, substitute, soft spoken, convince. Convincing substantial points in your pitch, soft spoken (can I speak in hindi), difference between the right and wrong. No failure, no disappointments. Salary expectation?- if parents are happy...what is your family's expectation?- 60000 to 70000 per month. Night shift?- yes. Where do you see yourself a few years now?- no idea. Not settled in which field. If mech diff level and</p>	<p>Intro- location, BE, hobbies- tech books, personal - cycling, art. Basketball and cricket. Intro is incomplete. Why mech? - I was able to visualise it clearly. In coding , you give command but you cant see. In mech, we can manipulate and we can see clearly. Easy to understand. Nervous about mech jobs?- alternative in IT?- yes, trying in IT sector. Lot of fillers in communication. IT is my backup. But I want to get a job in mech. Prateek can smile a little if he wants during the interview. Tech advancements?- I dont know much (dont say that) I have heard- automobiles, automation , earlier heavy and hard gears, optimising vehicles. In Shark Tank , you heard them speak on some dev. Does Shark Tank help?- businessmen and helps youth - start ups. Internship - not particularly but I dont have proper skills I will lack. Not getting through. Why should we hire you?- Punctuality, problem solving skills, presence of mind, behaviour, attitude. Do you have all of them?- I dont think I have it all . I am working on it. I dont have punctuality and team management is like a daily challenge. As we plan things, it doesnt go like that</p>

Comments , if any	Intro-parents, hobbies- anime and travelling, learning about geopolitics, tech skills- IT. Ukraine - affects the world- price of fuel is increasing- sanctions on Russia- others are facing problems. Historical places. Why hire you?- honest person, straightforward person, flexible, when we see results it motivates me to do more. Example of flexible- studying mechanical and doing coding. Why not mech?- chance of employment. No harm to learn new things. Any inspiration?- Like to play football- Ronaldo- works hard and his fitness- comes from deprived background. Disciplined- Come to college to study- focus our mind, not overdo things, better to be practical, smaller goals bit by bit (dont say limited goals). Weakpoints?- Procrastinate more. Internship- waiting for the reply.	Intro- location, scores, family - not so relevant. Then hobbies were mentioned. Tech and soft skills? Events? Responsibilities. Why mech?- low scores. Any field is ok with me as final aim is Indian Army. If you don't get through is fine, any corp job is fine. Mech goodpoints and coding good points?- all people do it so I am doing coding. Mech - machines. Why should we hire you?- can handle upto 100 or 1000 people, humility, can manage people. What challenges have you faced- Secretary of sports club, explained the situation well, make a team of sponsors and designing. Explaining why it is beneficial. Kind of people who dont stick to their promise. How will you deal?- If we can talk sweetly (find better answers. Actually find out how to deal with them). Find out the common connect and influence. Weakpoints?- get angry. (asked to speak in hindi once is ok) but your english is good so try hindi. I meditate. Any disturbing event?-nothing as such. Tech advancements?- no. Raju doesnt know why he is doing engineering. He is just going with the flow. He has to sit back and reflect. Raju needs to be trained. His answers are superflous. Discipline?- I am. But I dont wake up on fixed time. He studies till 3 for

Comments , if any	<p>Intro- Chose mech and reason- machines- more versatile field. Tech skills well versed mentioned. Interning at CME. Gave details. (details can be given later.) Eye contact needs to be better. College band. Secretary of culture. Pianist . More versatile field- have doubts- got into details- complete masters, do MBA later, go overseas, PSU- public sector has - railways. Versatility answer can be better. Qualities were forgotten in the intro. Tech advancements- in touch with automotive sector. We also have hybrid electric vehicles. Not really environmental friendly- making of battery. Learning tactics?- Piano- started at a young age. Had a good teacher. Basics are strong. Later grades - managed on my own. Answers need to be timed, interest and heart must be into it, regular practice and be goal oriented. This answer can be better. team struggle- importance and consequences has to be laid. Last person coming late will be responsible for clearing the room. Weakpoints- when a task is appointed to me, I tend to procrastinate. After the deadline starts approaching, I will start it. I also finish it on time. When was the last time you were worried?- end semester exam. 129</p> <p>91</p>	<p>Intro- Project , BAHA, tech skills - IT skills, management skills- joint secretary, manage the events, learning the communication skills. If you are mech, why are you learning IT- as mech jobs are less, I wanted to be flexible. I will be enjoying mech field better - learning because it is the demand of the situation. Why mech? - IES officer initially. But now I realise, placement is important and these govt jobs can be applied. If I get through govt, in the present scenario, recession is coming, security issue. Silicon Valley Bankrupt. Internship- 2- not much- marketing just time pass internship- AIML- 2 projects. My learning style and others learning style?- What difference you see- good answer- I am planning the things according to my time. 60% working. Internship- if you try you will get it. Team struggle- finally it comes to one person - it is happening frequently- either I push them harder and I work with their pace- there are 2 options- benefit of the other person is also happening- it would be loss for him too. Mention what are you doing about it especially when you said it is happening frequently</p>

Comments , if any	<p>Intro- hailing from Agra, school, hobbies- psychological books and football. Books?- Mind fucked- Abhay Agarwal- people who overthink a lot. The rudest book ever - Shweta Gandhar, you can win by Shiv Khera. Give me tips on how to win- Ronaldo Quote- In my mind I am always the best. In any situation - either complain about it or we can learn what is it trying to show it. 2 years of bed rest in covid area- gym achievement. Consistency tips- Others gym quit. SSB - rejectin - hit me a lot- I will work hard and change my personality. I was not able to speak in front of people. I looked up courses on public speaking. I was a quiz master. When there is a lot of people in front of you, choose your target 3 to 4 people and speak to them, large mass converted into small group. How to deal with people with different opinions- at that moment- how do you resolve them- arguing wont work- Narendra Modi- Britishers said they wont give the blue print. Case of Turkey - has never supported India in Kashmir conflicts. Recent earthquake- India still sending first aid and health care. How are you as person ? You seem happy helping friends during exams. It is pressure handling- do things for</p>	<p>Intro-secretary at EV club, parents, hobbies- used to play some video games. Search about stuff regarding electric vehicles. Tatas are working on EV - aluminium - and currently began the project. Why mech?- to be honest, lack of marks- I actually wanted IT. Now I found it interesting- especially automotative sector. Mech engineering chose me. Mech engineer good qualities- knowledge, software skill, design components. Mention the soft skills - communication- work with your team, patience- mech takes time or start from scratch. Vivek thinks on the spot and he knows his game. His answers had substance. How many of these do you have?- I dont say my comm is good but I am able to explain my ideas to people. Tech skills known and also python. Are you nervous you might not get a job?- backlog in mechatronics. Why did you get the backlog?- heavy fever. Video games- help you or distract you- takes focus but takes time- but I play for one hour only. Time waste?- club- people are not able to attend. I understand but we have to run the club. We have to take some actions regarding them- some leave the club after joining especially girls- lot of physical mech work-we organise meetings and explain benefits that they will</p>

Comments , if any	<p>Intro- AIT, parents, small town, school, hobbies-reading books and football. The boy who loved once-friendzoned.. Intro needs to be more relevant. As a reader- vocabulary, keen listener, how to be in other people's shoes, sitting capacity, focus. Team struggle?- motivate them, how it will benefit them. When people see their selfishness they do their work. Vimal rocks while talking . He can stop that. Practical vs Idealistic- (Good Vimal asked questions that he did not understand) Practical will know the ground realities. They know what works or what does not. Weakpoints ?- multitasking...this thing and that thing (can avoid repetition of these words). I try to reduce from 4 to 2...Salary expectation - as a fresher, none. Vimal has good confidence and good body language. Good conversational skills. But his intro was limited and incomplete. Why mech?- because I got it. I like designing, I try to learn. dont try to go into the flow. Nervous- job placements-yes. Alternative plan- certain exam like CDS RBI Grade B. If you get through a well paid job and then get through CDS, then what will happen- I will ask my parents and wherever I get security.</p> <p>Achievement and mistake?- Secured grace marks in maths in school but in 12th</p>	<p>Intro- parents, location, school, college, scored, Karate - gold level and national level, 3D modelling and video editing, basketball. I left Karate due to 10th exam. Do you miss it?-That's why I switched to basketball due to height. What problems do you face because of height?- other qualities- good learner, great visualisation, experience in electric vehicles, secretary of EV club, internships related to my core. 3D modelling thats why mech jobs. Not nervous for mech jobs- require experience before knowledge, I am prepared for that. After graduation, I can join start up to gain experience. How are you going to find a start up?- EV start ups, design a rickshaw. Weakness?- pretty much straight forward. It is my strength and weakness. Learning? - Induce interest. But only interest isn ot enough?- Consistency. Give only 1 hour daily</p>

Comments , if any	Intro-location, hobbies- basketball. Internship- good experience but no knowledge but not learnt any new skills from there. Work given was not upto the mark. Applied to 5 to 6 internships. How did you overcome challenges in a team?- special role assigned to every member of the team. Some members are taking it so lightly and the others were very stressed about it. Which side were you in?- Initially I was serious and then even my work start getting delayed. I lost interest as I was not learning anything new. What have you liked about basketball?- to increase my height. Sports players vs non sports players- less stressful about results, can be more focussed and patient, will get tired soon- non sports. Those who play sports can take stress in a different way- good answer . Vikas is honest and has potential but needs to understand the questions from business point of view and give indepth answer. Why should we hire you?- Many I have and many I dont. I dont know but I am trying to improve from it	Intro-location, trading , watch movies, badminton. Tech skills? Qualities? Voice should be louder and clearer. Ironman is my fav movie- lot of technologies. Latest dev tech?- didn't know. 2 achievements ?- Skating (can use this in intro) Theja has to prepare from scratch. Didn't focus on internships because at that time I was focussing on internship. Taken a course on hybrid and electrical vehicles. Just for learning- can use that in intro. Why did you leave skating ?- focus on JEE. Why did you become an engineer?- I liked maths so I chosen it. AIT?- paused and thought about it. Theja has to prepare a lot. He needs to get trained

Comments , if any	<p>Good intro- tech skills, reason for joining engineering. Sports - Squash, read about space science and technology and F1 and video games. Any issues with video games?- no issues as such. Rather it has improved me to reduce stress. Squash since class 6 or 7. Learning?- Industry requires a lot of skills from you. But to master a single one of them so that you are best at it. I chose solid works. I used to watch youtube videos and search on more topics. Uttkarsh means peak. Do you remember your low?- any regret?- No regret or low. So I assume you have managed things better?- mental state. You have to finish it anyways. I dont get agitated at all. I see whats happening. If you are not selected for promotion and someone lesser gets it, I have my own friends and I see what I need to improve. When work was not done after responsibility given?- Baha- explained the situation. Good communication, body language, fluent and flow. Are you nervous about job market for mech?- A little nervous. The experience needed is much high. (Real and Practical). Internship role explained well.</p>	<p>Intro- Parents name and profession is not required. Secretary of cycling, 3 internships, Army is my ultimate aim. Giving corporate interview- need a back up. Tech skills and qualities you are good at ?- coding. Internship in Indian railways and mechanical. Can give me a brief on what happens in mech. Gave details of mech internship. Why should we hire you?- I have all qualities. leadership, guide, manage workforce. (this ans is not exactly specific to hiring you for engineering) What challenges do you face while managing people?- people lack in their work. They give only 40 to 50% investment of time and energy only. Basically I give treats. You do this and I wil give you this. Backlog?- didnt study well. Lot of CDS prep. Busy with sports. Qualities of army officer?- Patience, analyse the situation well, good leadership qualities. Weakpoints?- surf on the net the whole day. If I overcome this, I would get great results in every aspect. Frustrated - that I have to be in Indian Railway/ Army/ Corporate job.</p>

Comments , if any	Intro needs to be more detailed. Hobbies- cooking. Strength- don't rely on motivation and works on discipline, adaptable and explained well. What makes you a good engineer?-something that I will do in future will make me a good engineer. Lacking- engineering is a race these days. Why did you attend?- I am good with english but not a good communicator. You need to convey . Why did you become a coordinator- TPO said you can see other people's mistakes. Pleasant personality. 3 main learnings in life- in my 21 years of life, nothing can outshine your hard work. You are not dependent on fortune, power of God, at times we might feel that we know everything but there is always some part of the story not known to you. Have you ever made a regrettable mistake?- explained the event. Internship details need to be given proactively- front end intern	Intro- love coding, no 9 to 5, prep for army, location, prog, basketball, drawing. Internship - not paid. Mention details proactively. Learnt how to work in a team, how things work in a company. How single and team work. Why mech?- coding for placements. Current trouble with this industry?- in most languages, faculties are not so concerned with how they work, more contests should happen, this ans is good, more practical applications. Why should we hire you?- consistent, get involved with any work, assemble. Consistency- regular in basketball and books. What skills have you learnt because of basketball?- physically active, when you feel low I played basketball, always a learner, how to teach someone. How should we remain consistent?- When I feel low, I watch Tedex and motivation shows. What are your weak points?- I dont have . If I have , I will always improve. Satyam needs to prepare. Answers need to be more deep and detailed.

Comments , if any	<p>Location, AIT...no more intro ? Badminton player.How has badminton changed your personality?- once you start playing, you cant stop playing. ...Discipline. Tell your entire schedule- Speak slow and loud. Why should we hire you?- don't have an answer. Do you know your strength- Supposed I want to study I will give my 99%. I am involved. Audio was little messy in the interview. Strong at python also, previously done html and css, back end also in python. Novels?-10 20 books. Which 3?- what do you remember from that book?- Cant say now. How to influence people?-completed 3 topics- dont criticise anyone, appreciate others. He needs to prepare. Sweet guy but needs to prepare . As an engineer are you happy?-no as an engineer. But in general I am happy. When I come to AIT I am unhappy- first year online. Mech jobs are less. I studied for 4 years but mech jobs are less. I am exploring myself. Dont worry Aakash. If Aakash prepares himself and times his answers, he has th epotential</p>	<p>Speak slow and loud. Intro- mechatronics and football.Only 1 line intro? Argentina- 3 you think. FIFA full form didn't know. Mech engineer?- mech and electronics. Multiple disciplinary branches. Time management, also secretary of electric vehicle- he is not mentioning the soft skills. Sometimes we have to step out of the comfort zone. You have to look after everyone and not always be focussed on yourself. Judge what capabilities. Weakness and mention how you are working on it. Scope of mechatronics?- explained well. If there is no job I can switch to purely mechanical and IT too. Happily no option?- I wanted to do chemical engineer. But if college syllabus is as per the university but the issue is what kind of environment we are getting- so didnt get into below average colleges for chemical engineers. Kumar when pushed answers well but proactively does not answer in details. Mention the internship info in details. Eye contact needs to be better. Answers need to be timed to 2 to 2.5 min</p>

Comments , if any	<p>Intro- speak slow and louder. Into data learning and machine learning, additional courses to get experience , hobbies - cook and reading, data scientist aspiration. Why aspire ?- sister is in maths. So I got inspired. Then why mech- Father was a machinist...it is a must have and explained it well. If there was more jobs in mech and less in IT, what would you do?- Would you switch? I will switch to the career that will make me grow. But my interest is with data scientist. It is a relatively easy career. This generation - cant stick around for long, discipline issue, inspired by media. Have you ever failed yourself?- Aim was to get into physics, research into machines, mech engineering is more into automobiles, there are very few colleges for research in physics in India. Depends on what kind of life you want to live and not about what kind of job you want to have. Dont want 9 to 5 no learning job. grow new things. In most companies, it is clerical and small segments, Are you going to get bored and quit?- There are going to be times but for a couple of days I will be bored..I can take a break...It depends on the financial condition. Why should we hire you?- Learning as long as poss, dont like to sit and study continuously, short span learn and short term</p>	<p>Intro was abrupt. Web dev, into boxing. More complete ans. Mech?- because of poor marks. AIT- good culture of learning from peers. Qualities of a good web developer?- learning new things, he should read about different terminologies in the market, he should recall how things are being done. Smiling. Manage tips?- prioritising. No one is perfect but things are going good. Initial internship was not making me learn then I left it and trying again in 4th year. Internships are important for industry working and real life. Why should we hire you?- keen and enthusiastic learner, team worker, happy person (good). What is a guarantee that he will be a good web developer- it will come from the projects, style, knowledge, experience. When was the last time you were disappointed?- home. Rajasthanis- business- work- but we need to know how businesses work and so we need to be employed. Weakness- lose sense of time. Boxing?- introspect, time management, other areas depth. Are you planning to pursue this forever?- no this is for physical fitness....can do the set up at home</p>

Comments , if any	Intro- Time management, team leader, internship, event, Table tennis, dance, poetry- it teaches me that competition should be healthy- need more emotions and energy while speaking. - Things can get easy while doing hard work. Anuj definitely prepared. Poetry keeps me happy and connects me to the universe. Keep the answers timed. TT increases my concentration. Time management- schedule making, focus on our aim. (Say this proactively I had to ask again), scheduling different activities- use the word prioritising. Why mech?- AIT and no other branch. Data analyst pursuing it. Good qualities of an engineer?- good in his core knowledge, time management, sharp decision maker. Anuj' intro was fab but no emotions and no expressions. Anuj was prepared but some answers need to be more detailed and deep. Regret answer or failure answer could be more detailed. Anything to change in this country?- caste system. Reservation is incorrect as the bright students suffer. If you dont get it, you have to improve yourself. What would your advice be for mech and AIT?- AIT Is good	Intro- location, hobbies- anime and basketball. Other details in intro? Is anime good?-Is it good or bad that we get influenced by Japan or USA- It is good that we learn other cultures but we should not forget ours. India?- Diversity and still democracy. Whatever happens it is chosen by people. It is not forced dictatorship. It delays decisions yes but it works for India. What do you like about BJP govt?- not into politics but external affairs, not bending in other countries pressure, RUssia and maintaining peaceful relations with others. Lazy people - leave them out of the group, can motivate but after a point what will you do. Night shift?- kind of environment it depends on that. If company treats me like a family member (dont say that). Salary expectation?- Above 9 lacs. Expectation is about 10 lacs and there is no upper limit. Why should we hire you?- great comm skills, work well with other team members, good reasoning ability, problem solving ability. Have you every solved a real life problem in your life?- paused and thinking. Edu system?- test system should be changed and frequency of tests should be increased. Internship- in CME- explained.. India and

Comments , if any	<p>Intro was traditional- location, school, family background does not matter as such. Positive, confident, determined, not that good at expressing myself...tech skills and internship and contests missing. How does one remain positive?- I don't think about the negative . We can only think about things we can control. We have to focus on our work. Personal challenge that has disturbed you?- Volleyball- havent performed well- I play good volleyball but I havent given my whole. What are you lazy about ?- I am not lazy person but let things pass. I procrastinate. People who procrastinate are also confident people?- yes I dont use time well. Dont have friends who encourage me to do things?- Persons with simiilar interest. Initially takes time to bond. IN the corp world, if you dont bond, do you think it will hamper work?- I will try to get better at it as I know it will affect. I will make the first move and talk to them. I like sketching and music. English is an issue. He pauses and work. Shark tank is good to watch - more ideas, who are establishing. Judges of shark tank ?- didnt know the names but was explaining their businesses</p>	<p>Intro- college, location, covid area, not very exposed to college, joined college post sem, hobbies-writing, volleyball, squash. Squash?- new to me, small city Meerut. Enjoy volleyball better- team work, juniors ask queries, squash has limited interaction. Pune vs Meerut- climate, food, sweet people . Ans needs to be timed. Smiling and answering. Why mech? - mentioned coding and IT did not interest first. In school, thermodyamics and maths and physics. Less jobs in mech?- Its not that. There are less qualified people in mech. CEO of UD Chalo- mech engineer- secretary of innovation. Academics?- If i am getting 8, i am getting what i am studying. When was the last time you were confused?- shopping clothes. What frustrates you?- I dont expect anything from anyone and self and then it doesnt happen, it frustrates me. I stay quiet 4 to 5 hours and keep myself calm and start thinking of positive things I have. Example- Squash and I was not performing good. I am not at 0. I am at 1 or 2. Others are at 10 but I am improving. Learning?- am I really interested in it? Coding- I imagined myself writing code sitting position and I did not feel good at all. I am interested in content writing and researching. I started</p>

Comments , if any	<p>Rewa, MP. Field of analysis and keen interest in designing and maths. Fluent in tech skills mentioned. Tech contests and awards mentioned. Aditya is prepared. Anime. Out of box ideas. Strength - attitude, like to take challenges, take success and failure in balanced manner. Weakness- overthink and overexhaust, sometimes impatient while achieving goals. Series- create your own story in the place of the author. Diff social media platforms- write about different theories, take a reference from a book and generate about my ideas. Currently not thinking about IT and obtaining my skill in designing. Passion goal is to become a designer. Nervous about mech jobs?- true but also depends on the person who is applying. create connections during contests. Higher studies- was- not now...just BE with extra topic. Alternative plan- Amangkaka-comic book artist. How did Japan and Korea enter our culture?- Internet and during corona. Relaxed candidate. Japanese are punctual and will live their life alone. Not very social. Impatient- first 24 hours I will do it continuously and then motivation dies out. How do you revive your energy back- suppose I am learning to design then I will watch other designers and see how they do it. Competition arises. Education - change.</p>	<p>School is not important in intro. Debates, painting- done it all. Hone my skills- Strongly believe that school environment is one of the biggest reason for my reading. Voracious reading- writing. Also play basketball. Captain of school basketball. State representation. College- getting encouragement from my seniors secretary of magazine. Mention the tech skills and contests and awards as a sequence first. Adaptable , open to suggestion and willing to learn. Challenges- gave example. Persuasive, enlisted our merits. Smiling and answering - writing cant be pursued as a career as it comes from inspiration and sudden. Physics was an important -mechanical is a versatile branch- explore all aspects. motion dynamics everything. are you not scared of job issue?- there is a chance but its all about good you are. I am competitve. Delhi vs Pune - Woman safety. What makes your nervous?- fear of being nothing in life. I am the only child, Parents have given everything. I want to make an impact. Are you social?- army background- formed connections. Team challenge?- biggest weakness- not on same page with others on my team. I dont take out on them. Internships explained well- 2 of them. Learning -</p>

Comments , if any	<p>Geopolitics, enjoy with friends, squash, - intro can be more detailed. Squash- in lockdown lost all stamina, we need less stamina I though- and realised it needs more stamina. Any physical fitness to develop more stamina?- roam all over the college. Secretary - sign from different HODs. Are there given to you or voluntary?- 1st year you have to be member, 2nd year...there is a method to this. Why did you choose to be the secretary?- did I have the leadership quality and need to know myself. Do you believe you know yourself and do you know how to be a good leader?- Organised many events, different mindsets, maintain decency while clashes are on. When clashes happen how do you resolve them?- this is not personal its for a whole team . If I want to be easy and friendly how should I behave?- helpful approach, give suggestions, no grudges. Learning?- know the game, try it - give more detailed ans, if you have interest it will help, if you dont have interest you should try somethign else. For textbooks- different funda for education- write it and try to learn it. Are you studying for army?- yes. Right now studying medieval history and S Jaishanskar, who did he succeed</p>	<p>Hobbies- hindi poetry and then tech skills. Intro was abrupt and incomplete. Poetry impact-social issues- elephant was killed . Which one is passion?- Literature or engineering. I am still confused. Poetry is inspirational. Web development- good web developer skills?- basic knowledge of logic knowledge of javascript and ladies library like reactjs and angular, mongo db, database management. Made projects on reactjs. External sources like seniors from IT and Comp. Qualities of a web developer -/- problem solver - like bug solving- easy to find but takes whole day to find it and reevaluate the code line by line and can find the incorrect code one by one. Communication with the client- understand the requirement of the client and make them understand in turn. Planning is most important. Abhay knows when he thinks. He needs to be prepared in advance. Planning missed out?- JEE - 2 drops. Learning?- memory is short term. Weak point mentioned. I dont understand from books. Practical implementation . What kind of employer are you wishing for?- getting some companies on campus . Very less product based company. But I am planning more product based sector.</p>

Comments , if any	Intro- ML, AI, in automotive industry- worth ethic, dedicated, to learn independently individually and together, positive attitude towards situations, ability to learn quickly and strong organisational skills. What is organisational skills?- give a task to a member of the group, you know what task to be given to whom based on SWOT. In project, I do that.....learn quickly- dedicated and generates interest. This answer could be better and detailed. INternship explained well. Are you enjoying mech?- I love that. Why mech?- its evergreen, it makes you learn lot, material science, carbon fibre- explained well and with passion. Doesnt it make you nervous that there are very few mech jobs in India?- It does so I am learning ML, AI. I fyou get through Mech and IT , which will you choose? - preference on data analytics. Weakness?- organising people. I am energetic and I expect the others to be energetic too. How do you keep yourself disciplined?- My hobbies keep me disciplined (very interesting ans). Chess and running- Chess is a time game.	Started with hobbies- volleyball, read physics- quantum mechanics. Intro was short and not detailed. Volleyball- impact your personality- team work and scores- answer needs to be relevant. General team challenges- we all have different mindsets and collaborative mindself to win. Have you ever faced a challenge?- no. Internship- No- and smiling- 1 year left and enjoy your 1 year life. Why mech?- more related to physics, you can see physical phenomena...all others are software and you cannot see it. Job situation in mech?- planning to do tech jobs- like software jobs. Are you getting bored in mech?- no - core is not strong. Mech and IT and if mech jobs ?- If you dont get through jobs?- upgrade your skills. 3 good points of you for hiring you- hard working, collaborate with anyone, adaptable. Anurag Singh, Abhishek Shekhawat and Harikesh

Comments , if any	Intro- DRDO internship, weakness- gullible. Positive points - committed to work, positive attitude...too short intro. When did you keep a positive attitude in tough events?- Event explained well. Motivated people around you- How di you do that?- If I am motivated then only others can be motivated, asked help from seniors...explain how did you motivate?- how can we profit, what can we write in resume, how could they add a value. Juniors would listen but classmates wont- batchmates have own mentality. AIT - culture, if you stuck in a problem then remember the positive side. When does the deep talk take place?- video chat or go to their hostel. Why mech ?- Father wanted me to select IT or Comp. But I could not imagine. But in mech, I could imagine the prospect and drawback. So what are the prospects and drawback and what gave you the courage?- Demerits are package is less in India and respect are less. Prospects- its not a 9 to 5 and its core job (it is not a 9 to 5). Core is working on a circuit but working on embedded and ENTC. Are you secure that you will get a mechanical job?- not mech but ENTC.Explain the internship role more when asked about it. But answered well. Salary expectation - figure given but try not to in fresher	Intro- tech , internship, smiles and talks, soft skills?- benefit of people. India or overseas?- Right now India is more worthy of me, I spent my complete life over here. And if it benefits in the overseas world, then I could. Good about India- we are still a developing nation, but the pace at which our GDP is growing and our PMS and we are proud. GDP - 5th - overtaken Englad, 3 trillion dollars. First is USA and then China. Covid and vaccine situation?- Overpowering and overperforming in stress- Punawala group, Indians are hardworking. When u understand positive benefits then you do overperform. Internship - financial analyst- explained well. Team work - almost daily in college- we dont have the liberty- people who are lazy are not actually lazy but the education does not excite them. What problem you are facing and talk in the room- what is the thing you like in the project and what inputs you want to give. Weakpoints?- lot of people watching you then lot of pressure on your back, people are expecting you to fail. I invest in people a lot, I talk to them, Sometimes it backfires me. You cant think of people betraying me ..you cant think of that while trying to make a relation.

Comments , if any	<p>Introduce yourself- speaks like scripted version. Explained why he doesn't want core mech job in intro. Its not necessary. Finish the ans in 2 min. Currently doing data. Chess and gym and running. Qualities?- gambit, trap explained well. Try to be greedy and it is short term thing. Weakpoint?- Cant interact with many people. Panic with many. Exams. Also in panic now of interviews. Reason ?- After lockdown, I was in my own house and not able to meet friends and society. Tech dev ?- Chatgpt, self driven cars. Where do you see yourself a few years?- good position and be of worth of every penny for the company. What is your salary expectation- min salary for survival and want to good for the company 7 to 8 lacs. Do you have any dream company?- Data analytics, IT sector- Google and Microsoft and ZS for consultancy, core company- Mercedes. Team - teachers give last minute. Explain how you completed it finally proactively PPressure- ?- Myself happy and calm</p>	<p>Introduce yourself-secure a position- immediate goal in reputed firm, school, well in academics, sports and extra curriculum, tech skills well explained---scripted sounded like. Soft skills - Decision making. creative,problem solving, EQ, organisational skills, team and time management, process planning. Projects and names. Currently working on ...project. Achievements- Been given great responsibilities. Hobbies- novel reader - Dan Brown, All round athlete- TT, cross country running, NGO. Decison making - analyse the situation before controllng the situation, control yourself, first cool yourself, look at it from perspectives, review. Have you made some wrong decision?- yes and thats why overtime I have become good. Explained the event very well- achievable targets. Weakness- I am good at things and get nervous when I go unprepared. Are you nervous and unprepared now/- I have prepared a little and developed confidence along the way. EQ & EI - When we are perfroming some thing w e should know our state of emotions , are we under influence of anything or is it our normal self. IQ Is knowledge on the topic. Dan Brown - elements of truth, architecture - facts are</p>

Comments , if any	Intro- Karad, School, Marks. Dhiraj means patience. Do you have patience?- No excitement towards things. What do you like?- competitive nature,games all India rank 32 in PUBG, can include achievements in intro. Achievements?- Studying in 12th, AMECTE- all India ranked 98 but never got admitted to college- Indira Gandhi Ahmedabad.But I didnt want to go in the profession but wanted to give it before JEE. Spors Captain in Khokho. Research and Dev cell - a new cell established this year to promote research activities. Why mechanical engineer?- There is a story- PCMB chosen. Interested in maths only. Dhiraj rate of speech is fast. If you dont get a job, what will you do?- higher studies and even if I do get a job. CAT exam yes and later added company benefits of studies. No internship-Will upgrade my skills and then apply. Dhiraj smiles and answers. Cultural difference between others and Maharashtra - culture does not matter but behaviour does. Team spirit answer could have been better. Say how to convince them. Dont just express disappointment	anime, running, astronomy,. Tech skills mentioned. Role model mentioned. Aim is to be a good leader and help people achieve their goals.Why do you find them inspiring?- courageous, impartial and good and strict when necessary, motivating others, helpful person, supportive and empathetic, calm person in difficult situations- whatever has happened has already happened, focus on the future. Every situation is like a closed room. If there is a closed door, find the open window to get out. When were you in a closed room and what was your window?- game event and prepared for NDA. No job situation?- I have been preparing and help other students, teach in coaching. Internship explained well but do it proactively. Why mech?- Interested in astronomy. I look at stars. I can get a job into spaceX or ISRO and be closer to my hobby. Have you been in a situation where you were made to feel small and insignificant? - Explained exam situation well and went for SSB. Playing for my city-seniors said he wont be able to make it to NCA but I did it. Weakness?- overconfident at times-but in some situations I failed in some situations, quite short tempered but over the period of time, I am not

Comments , if any	<p>Introduce yourself. Thankyou for the opportunity. I do art - carbon art , sketching, painting. No tech skills or internship or any college responsibility mentioned. Impacted your personality?- creative. Not doing in this semester currently. What can we do ?</p> <p>INternship - content creation internship. Just making university. So not happy. Did it for 1 month and then left it. Time was being wasted. Have you wasted time yourself?- not in college because of covid. Weakness- lazy person and to overcome play basketball, pay too much attention to details- lost time. In Bihar, why are people running after competitive exams?- different life, struggle in life. Father is already an engineer. So I got into it. Do you have a vision for yourself?- WHere do you see yourself a few years from now?- be in a position that I can give my parents goodlife, lavish life. Learning?- build some interest in that Data analyst. Indian Businessmen- Shark Tank , Piyush Bansal, Amitabh Mittal. COmmunication got better when he spoke about shark tank</p>	<p>Why mech engineering?- because JEE rank was allowing only for mech engineering. So rank was not good?- yes. How is mech?- it is tough. How are you going to cope up?- Don't want to do the core mech. Recently alternative path like database managementa and consultancy companies. Are you finding database management interesting- comparatively easier. Why should we hire you?- hard working, punctual, regular, i keep a time on task and do it. Weakness?- communication skills but improved it after coming to college and participated in all lot of events. I get angry when people around me are not hardworking and punctual like me. What do you do?- I will try to convince. Have you faced ?- I have given them the negative marking. English and communication skills is poor but attitude and trying to answer was amazing. Only communication training is required. Hobbies - kabaddi, music, work on new things. Intternships- practical knowledge. Learning?- seniors and great attitude at learning. Learning new skills because he knows his weakness. Parents are supporting. Virat Kohli- was out of form and continously worked hard and improved his skills.</p>

Comments , if any	<p>Name mean?- when the sun rises, red rays. Tamil Naidu- Jayalalitha. I like her boldness. She is one of the strong and Iron Lady of TN. Women Men challenges?- Secretary of college. Cant find girls as people say it is mainly for boys. Financial budgets are mostly maintained by boys. Internship- Mechanical core side. Mostly girls dont go there. Arunima is reliable, genuine, sincere and focussed. She looks naive but she is not. She is firm and she will go far eventually. INternship role explained well. Applied through Internshala and 2nd one through reference. Internships are helpful- practical help . Team challenge faced- You explained the challenge but not what you did about it. explain how did you finally do it- culture in AIT that seniors treat juniors. Positive impact and negative impact in your life?- I dont believe in luck. I participated in competitions. Negative impact YOu have to find a proper way, should not leave till the end. Weak points?- introvert but nowadays I am trying my best to overcome being with friends and they are helping to mingle a lot and internship helped a lot. Why should we hire you?- could always believe me that I work hard, I will give my 100%, I will learn waht I dont know and do it with perfection. I will work consistently and not lose my interest. Offer letter accepted and</p>	<p>What about your personality is so impressive that we should hire you?- make friends easily, team player, tech skills. Good team player? - member of football team and there I am a team player. Society of engineers- key person in that. Any hiccups in group activities?- Football injuries. Why engineering?- Hated biology. Subjects of engineering I liked. Opted for ENTC and didnt get it. Got mechanical . Are you happy with mechanical?- not looking for core field. I do like electronic stuff. I am not the best in studies and not looking for core job. So whats your plan?- I love to play in numbers so looking for data analysis. Data Camp courses for machine learning. How do you manage your schedule?- college studies not really required. Then 10 to 1 am- 4 hours in night to do these courses. 5 to 7.30 - I play. Duration depends on us. 1.5 months - full day . If you study 2 hours a day is enough. Bridges, roads, buildings and everythig. There is no debate. Engineers are the backbone of society. What frustrates you- not able to get internship and disciplinary cases against me. Delhi vs Pune- people dont talk in english and pune people sense of humour not that good. Delhi people are not that culturally inclined. Have you paid a price for your honesty?- i have but i cant remember. Weakness?- stage fear. Explained reason for stage fear with many people well. Explains wellwith confidence. Regret?- Maths teacher - wrote a note. Learning well- see and read and you forget it. You do it. Study 1st part and do it immediately. He is streetmart and practical and result oriented. He will survive. Just needs to answer strategically in interviews</p>

Comments , if any	Intro - tech skills, internship, video games and sketching. Video games skills - can be a waste of time but I use them to be consistent. Have to play the games and clear it. Its always in the story- the main player is doing some thing int he story (mention the skills developed). Learning 3 D modelling- super ! . Is it good to be an engineer in India?- from parents perspective it is a good thing as everyone wants you to be an engineer, problem solvingstable job. Begineers luck or effort?- Maybe both. Businessmen?- Founder of Reliance. Internship- take away should be mentioned proactively. How the corporate works , freedom	Intro - tech skills, novels- Agatha Christi. Why hire you- hard working,dedicated to the work, time management, sincere. Time management- before beginning the task, schedule. Achievement?- don't know ! Not anything great. Patience to finish the work - result orientation. Vijay - not completed on time, But i thought you are good at time managment. Lessons from failures- concentration issue. Inspiration - parents

Comments , if any	<p>Tech skills only in intro. (incomplete), then mentioned football , chess. Why engineering?- parents chose. Right now I liked it. What is attractive about it- coding and making products that affect billions of people- (always give examples)- software examples. Weakness - cant say ano , cant start a conversation. So corporate life would be difficult right?- I am flexible and trying to make myself better. (mention how are you working on it)- focus on little things that will make a difference.</p> <p>Toughest thing- IIT. Apart from that, nothing is tough- do it regularly and you can do it regularly. Learning?- best way - motivate yourself - inspires you- then you have motivation - then discipline and patience. Only 1 offer in internship- (mention the start date). (need more energy and more substantial and detailed answers)</p>	<p>Intro- Internship trainee like projects ..., tech skills, internship explained in details in the intro. Strength are :- self motivated, hard working. Weakness - little bit emotional. So whats the problem with being emotional?- it can make you off balance. Are you working on it?- yes. (explain how in all answers). I have to make myself understand that we cant get success in everything. Failure- questions could not be solved, then the ones I did not know I prepared a lot. Why hire you?- working in a start up, how to do team work, ins and outs of industry, have to deal with clients, time management, discipline. How do we manage time better?- proper planning for it, its impact, practicality of it, talk to our team members. Team challenges?- basic problems like understanding, discussed with team, be transparent</p>

Comments , if any	Intro- (Speak loudly and clearly. Needs more expressions and energy while speaking)Tech skills mentioned, hobbies- kabaddi, several sports. Team challenges- how to execute the plan, how do you resolve- patient, How do you achieve the patience- 2 short breaks, how you can achieve the goal. When did you achieve the goal- sports. When things dont go your way- take a break and think about it, everything happens for a good cause. What negative thing has happened that happned for a good cause?- cant recall. Internship - details and take aways have to be mentioned, how to divide the work,	Intro-tech skills, internship, problem statement, projects, ranks in contests, travelling, reading, writing blogs. Wrting on javascript and coding problems. New tech?- web 3 series, cryptocurrency- decentralised. Whats your career path- applying for coding, I wasnt able to get the branch of CS, trying to perform for both of them. Regret?- NIT, IIT. What would have happened more in IIT than AIT?- just the brand name, tons of opportunity, in AIT, have to apply to colleges outside campus. How would people describe you?- truthful and helpful. WHy hire you?- discipline, punctual, likes to follow rules, good team worker and coding skills. Why good team worker- participated in many hackatons, like working in teams, like minded people and working towards the same goals. Team challenge?- try to motivate them, as much as work that can be done by them. Learning- motivation, discipline, little work daily. Internship details mentioned well

Comments , if any	Intro- speed of speech should be slower. Intro is good. (eye contact has to be better). Chess and swimming. Skills ?- analytical thinking and critical thinking. When have you felt unhealthy?- when I had jaundice. Unhealthy-phase of depression- coping up with that. Kept reminding myself that this too shall pass. No more risks anymore. Achievement - this one has to be the biggest- recovering. Team challenge answer could be better. Discipline answer- could be more detailed. Bharat Pay - internship	Intro- tech skills, running, singing, mimicry. Why hire you?- programming languages, done a project- paused and then mentioned. Curious to learn more, perfect to be a fresher in any company, devotee of Hanumanji. Achievement - that you are really proud of. Scholarship is on 12th basis. J & K - scholarship. What are you really proud about- no one in my village is going to another city. I am the one. How are you finding Pune-didnt understand the question. Why did you choose engineering?- wanted to go in Army background. But, I had not cleared my NDA exam. Engineering is good for me if you are not in Army. CDS exam after engineering. Time management - just make a schedule . Amandeep's answers has to have substance. Currently that is missing. He needs to be trained.

Comments , if any	Intro-(don't read the intro), Nicely mentioned intro but make it sound natural, internship, projects, new places, trekking. Internship details- Miami Pvt Ltd, machine learning intern, project mentioned by me was made by me individually, others was email recognising model (speed of speech should be quicker). What do you like about field of engineering? Whats attractive- ENTC is a unique field, core electronics, telecommunication and software skills together, new ideas, more opportunities here. Do you see hope for engineers in India?- Hope for quality engineers is there since we have to add value to our society. Tech advancement?- not able to recall...I gave time (He needs to think quick and mention beyond his internship details) (energy and active answers and speed of speech has to be faster). Regrets- none. Life is fine. Weakpoints - If I am working in a group, if i have to delegate tasks, I get hesitant while delegating my work, will he able to complete it or not. If I am equally enthusiast or will he do itwaht do you do ?- then I ensure which part I am delegating to and do majority of the work myself. Are you ok with India helping Turkey in its disaster?- Foreign polices- beauracrats are not interested in our foreign policy. SOciety living there they got affected.	Intro- tech skills, hobbies- songs, badminton, kabaddi, projects, internship (speak louder and clearer), NSS Member, Scholarship. It means you are a good student. How do you study better- follow the schedule, easily manage the time (better answer). How do you manage your time - 2 or 3 days in advance for all the exams. (better answer needed). Failure- unpaid intern. Good at web development which is paid. Then why are you interning at Bharat - college requirement. No internship - responsibility of the student and college. (voice has to be louder and clearer. He is speaking within himself). WHY engineering ?- placements and jobs. In govt jobs, tehre is lot of struggle. Why hire you?- easily convince people, leadership quality, doing work on time. 3 important skills - good at communication. (Sunil has to work on his answers from scratch, on his energy, and his communication)

Comments , if any	Intro- tech skills, gym secretary, currently handling 100 plus students - guiding on work out, behaviour issue,. What challenges do you face while handling these students- challenges have never come up yet, sometimes they behave aggressive. I try to teach them good things, how to behave with seniors, now open for all. Why are some people troubled-delay in work out, they get rude. HOw do you keep yourself patience and maintain your dignity-understand the problem, listen to both sides and sort out. Gym issue explained well, but the issue is going on- Sir has decided it should be open for all- work out should be done only for 45 min. Why did you not think about it?- That day JD sir came for round, they saw Sir and complained about it. I was asked and I explained everything. JD Sir agreed. Weakness- talking to unknown people, time management. Does your work get delayed?- I schedule for the next day. sometimes meetings get delayed- gym paper making things. Why engineering?- Coding was interesting, 1st year pandemic- not doing much. 2nd year- took time to exploring things in college. Alternative career?- for a start up,	Intro- solving problems in DSA, projects mentioned, running, swimming, spending time in gym, cricket, helped me in developing in discipline and being active through out the day. That's all- Daily schedule explained. Major distractions that you face as a college student?- 1st day I bunked and spent night on Dighi Hills. On that day, I took drugs then. How did you decide that you should not consume anymore?- the realisation that it will decrease my health, I am physically fit anyways. Are you angry with the person who gave you?- No, Its my choice. I wanted to do one thing once. Have you been failure for someone else's failure like a group task?- None. What is missing in your life?- Placement, Currently I am giving less time in my studies than physical activities. ANY suggestions for education system?- I am satisfied. If you do somethingm it will pay off someday or the other. Teachers create pressure and this will help us in corporate as the boss will create pressure. Not watched shark tank. Weakpoints?- now I have lack of experience in software and hardware skills. SSB - kick out- so I think my communication skills must be poor. (dont say kick out). Why english is needed for army?- why cant we develop it later?- Jo badme karna hai voh abhi karna hai. Will you be attempting SSB again ? Army vs corporate?- army gives life.

Comments , if any	<p>Intro- Tech skills, projects, currently working on food recipe website, one of the board of members of Rotaract, Kabbaddi event head, sketches, watches anime and read manga. Books too - Mythological - Immortals of Meluha. Challenges?- kabaddi not too many participants- managing this is not so difficult. Rotaract- making everyone participate is tough. Those who are free we allow them and those who are not free we let them go. Team - 1 member has to manage 5 to 10 juniors. Had to explain what challenges are faced in a team- no challenges faced. Weakpoints?-time management- could not complete any task I scheduled in my calendar -s omething comes up and it never happens.</p>	<p>Intro - (slow down the rate of speech), AIT, Football event heads, Akriti, (don't read the ans), DSA problems, C++, every sports, listening music, movies, Football videos, learn new things- comm skills working. How are you working on your communication skills?- lack of confidence in english , learn english and improve vocabulary, (insisted on giving more details) read books , speak in english with friends. How do I play all sports?- pick one sport which you can do, then do anything just go to the ground, dont feel ashamed, just playing, by playing only you can learn, only rules wont help, dont have to visit any site. How do we analyse where we are going wrong- make friends on the field and they can coach them, when I am on ground I focus on ground, stamina problems -proper diet schedule. How do you discipline your life- make a schedule for my day. (More details needed) (Gajender is street smart, quick learner, he can interpret questions well, he has clarity, he wants to be better which is good. English is slightly weak but not so bad either). Studies is boring right?- initially lot of issues, now I started it is easy, earlier I thought it would be hard. Self learnt or asked help?- Took help and watched tutorials. Anything which is not good?- Academics- backlogs. Engineering qualities- patience, time management, leadership quality, organising .</p>

Comments , if any	<p>Intro- Tech skills, Internship, cricket, dance, goal is to join defence forces. Why in defence?- Engineering is just a back up (don't say that in the corporate interview). What is the attraction?- the attraction is the uniform. IT sector does not have a field job. Army- future is the secure. 2nd priority is govt jobs. I got rejected in SSB. Why did you get rejected - comm skills and physical strength. What exactly in comm skills- gyms, waking exercises and all. When were you really scared?- MOther was ill. bedrest of 2 years. Father is in army. Managed the home - learnt social skills with relatives, grocery, mopping, cleaning, patience.</p> <p>Weakpoints?- communication skills. Advice to upcoming engineers?- multitasker. Are you a multitasker- yes- doing a lot of things. (Ayush needs to give specific and detailed and relevant answers). Internship answer was too short. I had to push him a lot in every sentence to know more</p>	<p>Intro- AIT, extra curriculum, Projects - water level, home security, organised the events, love travelling, cycling, hiking. Other projects mentioned. Why engineer?- how the interaction of things happen. Seeing clock-why is there a 12 digit allotted to it. Was good at a few subjects. Authors. Choice was PCM. Electronics because- tangible things. Made alot of projects and very happy (good). Are you nervous about not getting a job- I am actually nervous about not doing anything in my spare time. I am confident about my alumni and honed my skills. They have confirmed that they will give internship or make a partner. AIT - networking and how to organise. Bad point - change takes time in AIT (Ayush has good conversational skills, confidence, body language and has clarity.)</p> <p>Why should we hire you?- taken lead in important discussions, event based on stock market, worked on technical department, avid learning skills-lead the team. What challenges have you faced while leading a group of people?- Bonding was tough. How did you bond?- created whatsapp group, conveyed the message, concept of mentor, story, permissions required. Qualities of a good engineer?- Jugadu person, basic resources should be able to do everything. (Answer needs to be detailed).</p> <p>Inspiring - Author - Dan Brown- History and</p>

Comments , if any	Intro- AIT, captain of TT, leadership skills, tech skills, learning for placement purpose- data structures. Is being an ENTC engineer not enough for placement- but companies that come to our college- above 10 to 12 lacs- specific companies. leadership - TT is a calm game, have to manage 10 to 15 people for practice (need more details). ANY more avenues where you had to display the leadership skills?- Akriti- Diwali- example- managed people, practice. Is it AIT culture that is supportive or your skill - both (smart). (Vaibhav smiles and talks) Weakness - cant say a no, communication is poor. How is it poss if communication is poor and leadership is good- because it is in hindi. Internship?- Bharat Intern- web dev- gaining experience so that I can go for front end. Judges of Shark Tank - Ashneer Grover- Bharat Pay, Aman Gupta-Boat, Piyush Bansal- Lenskart, Mama Earth and Pharmaceutical. Mentioned the ladies names	Intro-AIT, learnt many skills- tech skills, (can speak slow), (eye contact can be steady), don't have leadership quality but can work with team, omnivert (good one), care for others, also mentioned weakness proactively. Why? - got distracted in college, inconsistency, joined the gym for 2 months- took a break for exams and schedule got disturbed. Khiladi name?- do you love the name- I used to feel awkward- I love the name now. Achievement- sports - play kabaddi (can say that in intro- can work in a team) (can work in team was used to repeat multiple times). Why should we hire you- can work in a team (incomplete ans), blending myself with others, time management skills - ? onlymake a schedule (incomplete ans), pushed to mention this ans in details- 2 hour I will work and 2 hours I will have fun. Current affairs?- not interested in football. (dont say that). Internship answer has to be explained in details proactively. (Khiladi needs training for interviews)

Comments , if any	Intro- myself (wrong grammar), tech skills, projects based on algorithm (don't look up while thinking). (The intro was incomplete.)Strength- honest with my work, football so team spirit - under 14 national level football player, I am a responsibility and if mistakes are done I take responsibility. (didnt have to mention mistakes). If no one willing to take a project, I start working on it myself and inspire my team. I divide the team work in different parts. Can I give eg- IOT- (the example was explained very well.) (you can mention proactiveness and work delegation and know my team members) (In strength you must mention these points that I have noted down instead of just honesty and regular points first) Weakpoints- trust people easily and cant say no to people. Working on it- how?- I am analysing myself, where all I should have said a no. (Rohit is genuine, sincere, sensible and understands his role. Team leadership answer was very good). Regret?- JEE score could have been better- IIT- how would your life change if you would have gotten through IIT?- What can IIT give that AIT cant?- campus placements and more technologies as comparison to IIT and packages are high (Rohit has to work on fillers in communication and try to speak more fluently. He should speak more often). Hobbies?- Football-Read books when I feel low- Atomic Habits by James Clear- 1% everyday can better you at 37% as per your previous self. Virtual	Intro- AIT, secretary - innovation and entrepreneurship, managing a team- leadership, tech activities- android dev, (speak slow , breathe and take a pause), reason to choose engineering- childhood wanted to solve problems using coding skills, coding skills. Do you need to be engineer to do coding?- if you have resources online, then its ok. But if not, then we need engineering. (Good confidence, good communication and good body language, explains answers well)(engineering answer can be better) Why attend mock interviews - respect TPO sir, it is open for all students, what all skills I am lacking and good. What does Samik mean. Sub skills of leadership skills?- communication, time management, team management, people skills. How can we manage our time better?- Pareto principle - 80 /20. (Samik has common sense). Internship- done in various domains- explained well. What kind of a leader are you- calm and doesnt scream, why do people listen to you- they respect me and I dont misbehave with anyone. What qualities of a good engineer and do you have them?- engineer - intermediate level but coding in a good level . (Mention the human qualities). Failure?-explained well

Comments , if any	<p>Intro- volleyball and cybergame, good in web dev, DSA. (Intro is traditional and incomplete) Strength- he is thinking about it, pure API creation helpful in back end, patience, calm, responsible person, play volleyball- can manage team and leadership. Patience is a born skill. It is my weakness too. Why should we hire you?- projects and internship, all strength mentioned above (you can repeat it). Projects explained. Good confidence and body language. (Smiling and talking.) I used to play volleyball - galli ka volleyball. UP culture and Maharashtra- only vada pav here. (He has good energy). In 50 Rs , you can have full stomach food. ENTC chose you. I didnt choose. I didnt have a choice. I dont like ENTC. But I can tell advantages - can make new devices, research in ENTC , MTech- you will reduce the time - by 1 microsecond and 1 nanosecond- all processors can speed up- excellent. (Dont say I dont like it). Also the answer I dont like football but I can tell you who won. (I am loving the attitude of knowing the current affairs and also the answer on scope of ENTC was fabulous)(He has common sense but some answers need to be controlled honesty) Team struggle - I am in 3rd year. I cant threaten people but I come to practice on time. I like volleyball . He is a setter and has to be very calm in situations,</p>	<p>Intro- Location, school, high school, decent marks, Current score is not that good in AIT but it is decent, (what is decent, dont use such words) core skill- basically the front end part, did some projects and some internships as well, hobbies - reading books and drawing. Books?- Autobiographies and fiction. Name of the books and authors- Ria Kazan Film director in 50s. Why did you choose this book?- interest in classic movies. Front end work learning?- not teaching in college. Friend was doing a hobby and I got interested and I used to monitor. He taught me and send some resources to learn that. Learning - 2 years. It doesnt take much time 6 to 7 months. Relaxed during the interview. Rajan can have more energy. He has substantial info but needs to be coaxed for it. Confidence has to be built. Weakpoints?- body language, weak communication, low confidence. - body language- eye contact- in real life cant look in the eye- awkward- not that extreme (when provoked, he blurts out good answers but it has to be proactive). Nervous about trying out new things- new places, new people but not scared with academics. (you must mention full answer or the interviewer will get confused). Businessmen- Ashneer Grover. Didnt know the other judges names. Why hire you?- hard working, lack to trying out new things in</p>

Comments , if any	Intro- Schooling, location, AIT, hobbies- travelling, squash, gymming, spiritual - 3 hours. That's all. What exactly do you do in spirituality- 5.30 to 6.30- Hanuman Chalisa, Bajrang Bang and Hanuman Ashtang. Eve- go to temple on tue at 7.30, 1 hour - bhajans. How has it grown your personality- initially not an extrovert person, was not used to taking initiative, but now there was a power pushing me to wards the work, calmness, miracles happened, results that came right now I had not studied well for it - got good marks (dont say the last point), also 2 to 3 incidents that happened- got the leave. If you get the job, who would you credit- Hanumanji helps people who helps people who help themselves, I believe in luck factor a lot, people get jobs who didnt prepare well too, luck depends on Karma. Any weakpoint?- lack in group discussions, not able to represent myself in a noticeable way- working upon that- projects - taking initiative. What people challenges have you faced while working in projects?- lack of communication, not taken seriously by students, convincing people is tough, mindset difference. Explain how you sort the situation well. - gather all people together and find out key points and common solution. What upsets you- not being given attention that I deserve, or credit. What kind of employers are you expecting?- I dont generally categorise employers. Basically the employer who	Intro-location, parents, school and college, JEE rank, AIT merit number 82 ONLY? Why only. Music and playing games, aim is to get a good job, badminton- team work and hard working. Team work example- proactively mention specific example. Finally mentioned delegation. Strength - team leader, not afraid of trying new things, manage work very well, group leader or manager- experience. New things?- android development-need to learn another language. If you dont get through the job?- focus on what can I do more. Try some exams. Why ENTC?- Firstly I got mechanical and then I upgraded (dont say upgrade. It means mech is inferior). ENTC - software and hardware and opportunity can increase due to vast field. Being an engineer, curiosity to learn more devices and different projects. (Say this before you talk about placements). So are you happy now>- He took some time to say yes and infact did not say a yes. YOu have to study all equipments. Mostly mixed feelings. Weakpoints?- work under pressure. (keep your mobile silent). Akhil has to develop the sensibility towards expected answers, he has a very traditional approach to answers, intro was irrelevant. Akhil needs guidance. Working under pressure - working on it-like doing multiple tasks in a day, pushing my

Comments , if any	<p>Intro- a passionate undergraduate, deep interest in tech skills mentioned, internship mentioned - highlights too, Akriti club, hobbies- singing, consistency, hard work and correct direction can lead you to goal. Goal is to be a successful engineer and contribute to society to make a difference. How do engineers make a difference?- all in society including the engineers work, data structures, data in the new oil, economic growth , software engineering, cars, era from humans (mic needs to be adjusted.) Sung well. (Tejaswini has good body language, good communication skills, her choice of words are apt, but her answers need to be timed, she has the presence of mind and she is disciplined and result oriented, she is spontaneous and sincere). Team struggle- mindset of people, lack of interest, irregularity of the work has been a problem to me. (She mentioned about tackling proactively- set the expectation clearly at the start, regular check up and check points). Have you tried to understand their side- both cases- excuses and some are problems- explain a situation specifically like you said later - 3 days hectic schedule. Weakness?- during conflicts, I analyse the situation and speak later. How do you keep yourself on track?- I write on paper today and these include goals - love to do and required 121. Learning ?- time does not matter, some people take 4 hours and others can do it in 2 hours 159 not even about</p>

Comments , if any	<p>Intro-location, school, tech skills. Strength-finish work in given time, hard working. Time management- time table, give buffer. Hobbies- used to play chess, touch typing. Why used to?- After specific time, a threshold is reached. I play chess still. In 2nd year I used to type. Where do you see yourself a few years from now?- working in MNC learning something new and something that I am interested in. I am interested in knowing about new tech, problem solving . Tech advancement- chatpgp. (better answer). Dhiraj has to improve his confidence and his voice and expressions can have more energy. . Why engineer?- maths and physics. What is great about ENTC?- Hardware and software-how is it interesting to you- he needs to proactively answer. First year I was in mechanical. Hard work vs Smart work - I prefer hard work because I am not smart enough. Why do you think you are not smart?- I think it everyday. You need to grow more (say that . use it correctly). Internship details need to be given proactively. It is not paid (why mention that). Internship are helpful only if it is in your domain or not helpful. Regrets?- no regrets or lot of regrets-I cant do anything about it. I could have studied more. I could go to IIT. AIT miss-</p>	<p>Intro- creative inspired student, aims to get more cognition on upcoming technologies, work on myself, uplift women in the technological sector, Bihar, JEE percentile, school, Bihar repeated. Competitive exams in Bihar why?- assumed we are illiterate and so they go for govt jobs, they have fire within themselves, they want to hold a position. She smiles and talks but looks up and thinks (should avoid). Tech advancement - quantum computing- has not changed the world yet- but it will- internship I will try to apply-in MCT. Quantum computing in layman's language. Divyanga has good communication and good body language. Uplift woman - gender ratio- 1:10- I believe that peers are not supportive to women. I do believe that. They treat you as you dont know that much. (Eye contact has to be better. Generally looking up and dazed while talking). (She loves to explain but the answer needs to be timed). Internship explained well. 2nd internship - start up, small company, paid - did it just for the money. So I asked that the small company paid?- that was a catch on what should not have been said. Team challenge- no enthusiasm for new stuff, opt for something easier, there is nothing else you can tell them, no ppt, it gets difficult, I did the entire work, frustrating, Mention how are you going to</p>

Comments , if any	Intro- school and high school, (not required), fortunately or unfortunately in ENTC, wanted CS or IT, after spending some time I liked it. (marks not necessary to be mentioned), what do you like about ENTC - teachers are sweet, time for extra curriculum activities can be developed in ENTC. Job?- in developers job. How are you grooming yourself for that- I solve questions. Internship?- Microsoft engage mentee- mention the experience proactively- you get to know what all you dont know (Mayank has the potential but needs direction and handholding for training) Mention specifically what all did you not know- back end dev, problem solving ability was not upto the mark. How does a good performer learn differently from an average performer?- different IQs, keeping it aside, next is discipline and hard work, they believe they will manage when the time comes (the interview got better as he was provoked to speak and there were more questions. However he needs to speak proactively and more deeply. He has to know what he shouldnt be speaking. Answers need to have more substance). AIT - Alumni is good, growth environment. Strength?- Weakness- procrastinate, inferiority complex but working on it (mention how). I share my feelings with the person. Grudge- dont work. Why do you have to have to achieve?- does	Intro- location, hobbies- chess, discovered gym- addictive, free time- watch movies, series, reading a book - don't actually enjoy reading books, skills- coding, competitive programming, c++. Chess fascination?- just 16 pieces each side and millions of moves, watching chess streamers, predict the opponent's moves and play accordingly. Series- Thrill drama and Skifi. Watching U. Weakpoints?- not that social, shy at first but open up when I am comfortable, procrastination- working on it. It doesnt really matter because I give stuff before deadlines. Procrastination working on it- gym - discipline 1.5 hour and good sleep schedule plus study for 4 hours. Internship- basically unpaid , just have to give a ppt and project (dont say it like it doesnt have any value), start up. What kind of people irritate you?- kind of smart enough. I dont make team with people I dont like, people who know nothing but show off. Corporate world has people like that. How will you deal?- talking about the job, I will adapt. Why are you not doing it right now?- I dont attract such people and its all about vibes. Proud about?- disciplined life, gym has impacted me, see progress in your body, bagging scholarships (mention that in your intro). Jatin has good communication skills and good body language,

Comments , if any	<p>Intro- location, techno enthusiast and adventure lover, tech skills, secretary of R&D, Squash game. Girls have tried but they are not able to grasp. Is it challenging or boring?- girls have more options to play. Squash has only 2 courts- Squash is very expensive game. What has squash taught you?- Smiled and answer- I can play it alone, progress it alone, energy consumption game, Good energy, good enthusiasm. Its an observation - why are girls not entering army?- especially from AIT, ration of women to men is less- sex ratio was used as answer, upbringing culture, indulge in safe measures, health issues (smart and sensible answer and tangent answer too). I can contribute intellectually is what girls think. As for me, I love the aura. What adventures have you done?- trekking and roaming places alone. (smiling a lot with this answer.) SOlo trip - no compromise with anyone. I dont want to listen to anyone and no one has to tell me. Let them go wrong and I will learn. Not taking any predefined inputs. I know ancestor have great deal of knowledge but at some time , you have to be blank and fill it. Team compromise?- Even if I promote a solo trip, organising a team activity is actually my strenght, used to mood swings of people, I dont have a problem if you have a problem and I am eager to solve it for</p>	<p>Intro-location, school, music, trading, Sports- health point of view. Eye contact has to be better. Tech and soft skills?- Sports- football but did not know who won the FIFA. Strength - positive attitude, people connect, learn from seniors. What have you learnt from seniors- they have experience and they teach me a lot. INternship details can be proactiely. How did you manage internship when others didnt- I created a network, fans, seniors, network, message seniors in linkedin. Chess - strategic planning, helps in life too, in class 12 I was disturbed medical problems - had 2.5 months to manage JEE and 12th std exams, prof guided me how to study efficiently. How do we study efficiently- study new things in morning, take a 1 hour break, revise previous things during the day, study 8 hours and I used to go to park and enjoy too. (can use this as an example for die hard spirit and your achievement answer. Also the body language was superb in this answer. Smiling, confident and relaxed). Are you still disciplined?- not happening in college.Working on it. If you had 1 wish- what would you wish for- I would wish to learn consistently. Is that your weak point?- yes. Inspiration?- inspiring stories of sports person.</p>

Comments , if any	Intro - tech skills mentioned, various projects , 3rd position in a contest and won cash prize of 500, cricket team won matches, won against MIT, semi finalists. (can speak with pride and energy). Cash prize of 2500. How do you keep winning-many ups and down, team members are motivated, forming a team with busy people is a challenging task, if you have done rightly you are a good leader. My initial question was how do you keep winning not about the initial challenge of forming a team. I give my personal example of my life- cricket and academics, they can relate to it, tips like time management, for winning - show more interest in it, tell them their weakness and work on it (eye contact can be better) (dont give up on the ans. Think and ask for time and respond). Weakness - I overthink. Example - one is doing balling, how to place the players, what kind of balling he has to do (I am confused what to do). Internship role and responsibilities and take away should be mentioned. How can you manage time better?- make a schedule and work on it, if I dont complete, then I put that work for another time when I am not doing anything. Most of the people do the same. So whats different?- Most of the people make use of time but they lack 1 quality- they do not see the time they	Intro - tech aspirant, solve prob using tech, web dev, IOT, embedded part, taste of various tech and how they solve common people prob, music, badminton, not a very good at it but love it. Which problems are we solving?- utmost problems- handicapped people have become independent, Google assistant, online teams meeting, any out of the way advancement?- earlier prosthetic hands were mechanical. Nowadays it is bioelectric- muscular and automation. Microsoft engage mentee - explained well- research based approach and product based approach- research based go more into tech. Product based -c customer satisfaction, time efficiency, if something ready made is available then go ahead, create something, manage it in a way that customers feel comfortable using it. Where do you see yourself few years from now?- I am far away - why (she seems to be analytical and self introspective). Process of selecting web dev and participating into multi activities was a good ans- blue tooth controlled car- small projects, workshops on IOT. Answers need to be timed to 2.5 min. However the question was where do you see yourself a few years from now?- I progressed a lot. What would disappoint you?- to lose a thing which was in my hands and now it is not. But it was in my control. Any example?-

Comments , if any	Intro- want to join as a web dev as worked with languages..., Internship at the post of (don't say post), cleared exam, liked to read spiritual books and TT . Spirituality learning - be patient, consistent hard work, don't give up. What is the method?-Whatever happens today - Karma. We might not get what we want but we can create our own destiny. Mar 6- Results- qualified for it-when did you forge ahead against all odds. How did you do that?- created a schedule . 8 to 4 college, 1 hour sports, 9 pm to 2 am - studying. Weekends- study hours - 10 hours per day 2 hours each. Ashamed of self?- never but little disappointed but put hard work. Still not achieved- smiles and says JEE. What is the fascination about IIT?- What happens in IIT which does not happen in AIT?- bright minds, compete with their level, here very few are like that. Internship details given. Why engineer and why ENTC?- father is an engineer and how new technologies are developing, I wanted to join CS. But because of low percentile, so ENTC, but now thats fascinating too. Weakpoing- bad at saying no to anyone, but sometimes it helps me, I get opportunity to learn new things.	Intro-location , school, tech skills- various activities, projects- music website. College kabaddi team, branch head of ENTC, sketching, cycling and kabaddi. Abhishek can have more energy and can smile sometimes. What challenges have you faced as a captain and how have you resolved them?- Many times the player was not present. Archit- dont mention his name. We managed to win without him. MOtivation. My question was how are you grooming the rest without the best person. (mention the skills apart from motivation) . Why have you taken so many responsibilities- I am an introver and not confident to choose in front of people. NOt fully but little confidence has developed. Taken a meet of 120 juniors and given them descriptionof things. How did you get so brave?- friends. 120 cant be friends. So what do friends tell you to push your limits?- this is your opportunity. Anything to change in yourself?- english. How are you improving?- English movies, write down the words and find out the meaning. Parents- nothing to improve. Internship details- given. No friends or family in corp, how would you manage stress?- work can be enjoyable, Make new friends. Currently enjoying- music website because everyone listen to music. Why did you choose to be an engineer?- truly not really. Actually motivated

Comments , if any	<p>Intro- web dev, creative writing, squash, why ENTC- tv curiosity, how does it work. Web dev is easy. Don't say it like that. Don't look up and talk. Web dev is also creative and interesting. Squash- active game, only 30 min of 100% active. Cricket is passive especially fielders. Every second matters. It is good if you have less time and burn more. Wasted my time?- drop out student. I got AIT in my first attempt. Went to Kota and lagged in prep. When I analysed that, wasted that year. Team members also lagged in a few things, other team members managed that. All projects were submitted on time. Project based learning- did others who didnt work get marks too?- Those students were not that much keen and they got marks but not as much as we got. If teacher would have given same marks to all, I would take positively. I dont want negative effect on me. I am happy that 3 out of 5 were able to complete the project. I did more work because someone did less work. Sad about all getting marks. I learnt more things. Sandeep is street smart and the grit to learn. Learning?- Most successful Olympian- hard work and consistency- not the number 1 but will be good. Your strength- positive perspective about things, dont want to see negative things, I dont want to be dull and gloomy, dont want to be things, I will finish it no matter what. Human qualities</p>	<p>Intro- Greetings and thanking. Location, High school, Internship mentioned, describe myself as competitive, patient, honest. Interests are outdoor games, new tech. Short term goal- well known organisation and apply my skills, long term - lead position and give back to society. Tips to have patience?- when things are not going my way- I focus on what I can control, I try to convince myself that they are not in my hands, I practice it everyday. In daily life we have many situations- working in a project, group member has not completed. If people take advantage, you have to set the boundaries. How did you finally get the work done- case to case basis-explain the particular situation. Internship - 10 March- learning, time priority, classes and exams and internship, work hard. Explain the role in android dev. A competitive person always has to be ahead of others, always has to know more than others. I compete with myself for satisfaction. If we compete with others, we would be dissatisfied. Weakness- procrastination, life was controlling me, decision making has gotten better. Any critical decision making ?- College was good but not the right branch. Wait for 1 year and now I have taken ENTC. Latest technologies that are impressive- chatgpt, how AI models can help</p>

Comments , if any	<p>Intro - AIT, Hobbies- voluntaries and organising events, bicycling, technical skills, essay writing- research projects, burglar alarm, web dev project, NCC cadet, voluntary org, joint sec of 2 clubs- fine arts and NSS, tech skills ? Sequence of skills has to be correct. Human qualities for a research person- good knowledge, take seniors , ready with all the facts and figures, will and patience. Do you have the will and patience?- yes. Essay?- too much a smart phone addict- weakness (can use that in weakness answer)- make a new hobby- take a small diary and write anything- life-who gave you this idea- prime reason is I am a defence aspirant- SSB- write different stories- what and why we are doing. Then why corp?- main aim is defence only. I have tried. I need a back up plan. When have you failed yourself?- I was waiting for this question- whole book written on failures. Vikas is always genuinely smiling and answering. Failures- recent coding rounds, competitive exams. Reasons for failures?- lot of reasons- not doing when the time calls, you have to give 100% and not give 90%, learn from your mistakes, have to see all the possibilities and make amendment to your plans and do hard work. How do you have a big book of failures?- is it because you didnt do the above. I have and now I have revisited and now I do repeat</p>	<p>Intro- voice can be louder and clearer, tech skills, govt soft or software dev - not sure. Avid learner. Learning? Learning web dev. Due to exam, I had to stop that. I am following courses, youtube channels. Could have mentioned the method in details to be a good learner. ENTC - no choice- software and hardware. Internship- 1 month, unpaid (dont say that), develop a website, company name. Explain your role more and be proud and excited- 10 March- How has the experience been so far?- scheduling time, do other things also. Give more specific answer. Generally how do you manage time?- Have a diary. Give more detailed and methodological answer. Achievement proud about?- keep this answer ready. You shouldnt be thinking. IN 10th, science olympiad winner. - first time winner for me. What does it take to keep winning?- consistency. More detailed answer. Consistency?- reward himself, cheat day., keep him motivated. Weakpoints- Self confidence is low and social skills are low because of competitive exams and all. Ayush is smiling and answering. Thats good. Qualities of a very good social skilled person?- bring optimism, motivation, communication, what others are feeling.</p>

Comments , if any	<p>Intro- AIT, hobbies- searching on new technologies, want to be a software dev- then why did you take ENTC- I didn't get it-are you enjoying ENTC- theory I enjoy but not practical. I love coding . Imagine a world without coding, what is boring about ENTC. How do you manage to get a decent score if you are not interested in the subject?- I learn to concepts even if you are not interested. What do you like about AIT?- Culture and AIT has good placement records. Why engineering?- I used to love computers. What stresses you?-When I cant achieve what I set up for. When was the last time this happened?- Internship for Microsoft- rejected. I have done internship in small scale company - It is Australian company. Blue Bricks - IT service company - AIT is the founder- I am happy but. paid internship. Vikram Sareen. It was a mixed experience. I worked on AI based identity verification system. It was sold to Malaysia. That will be used in the real world. What are you sad about?- work culture, they were expecting more. Less interaction. ONLY MD and direct interns and no senior management to contact our queries. Sir will only instruct. If you dont get any job would you go for the job there?- No. I will be the educator in youtube or freelancing. Have you ever been confused?- I dont remember. Weakness?- focus on only one thing and time just flies. New dev?- Not, AI will be</p>	<p>Intro-AIT, interest is in web dev and full stack, back end - react, node-node js site, mozilla web, javatpoint, Internship - technical writer. Why ENTC?- low score- Comp science- more marks- you can change your branch in 2nd year. But I could not. But I am enjoying this now. When are you studying back end when college life is so hectic?- I already knew it before college. ENTC- first experience- hardware experience- coding was my first priority. What is your source of happiness?- family and friends. In corpo world, its so hectic, you wont see family and friends?- I will get happiness from coding. Money is not that important and looking for satisfaction. I will be learning from colleagues and they will be giving good idea about how to go on with life. How do people see you- good person. Intelligent person sub parts- communication skills, body language, behaviour, if you ask more you would know. ABhay- when were you scared and when were you fearless-Going late - teacher will scold- but I still go. Between 2 offers- I will stay in the company where I am ok with colleagues. If not, then I will go with the higher pay. If the 2nd company is not that high pay, I will stay back here- I have committed , I will negotiate. (dont say 10,000 dont quote a figure) and providing environment there. What are the qualities of a good engineer?- he should</p>

Comments , if any	Intro- focussed on dev my skills- coursera- tech skills mentioned- internship- team work and leadership skills. Walk- work life balance and badminton. Abrupt ending. Leadership- sub skills- listening, organised, what are the specific skills each team member is good about, daily updates, set up an example. Any leader who has inspired you?- Sudha Murthy- She is now the chairperson of Infosys. Hackathon- team of 4 members- no one was able to take that lead- I took the lead. I came up with few ideas. Held online meetings with them- how to work- we achieved- it was definitely great start. Any downfall ?- 3rd year exam- individually- I believe in myself- I didnt score well. Is ENTC your first choice?- I am a migrated student from Bhartiya Vidyapeeth-comp. Applied in AIT - 2nd year- Tough decision-wanted to do software dev- AIT has good placement records and good culture. Sanika has common sense, sensible answers. Latest dev?- computer tech, phone network and anything- need a better answer. Online banking system, online education system. GDP?- does not know. Weak points- not consistent maintaining physical fitness and only studying. Sanika has common sense, her answers are deep and sensible. Good body language, spontaneity and good confidence. She is able to interpret questions correctly. She is aware what leadership	Intro- front end dev, intermediate proficiency, tech skills mentioned, worked on couple of projects over 1 year, active part in club events or interbranch events, 3rd year- innovation and entrepreneurship cell, sports- racket games, movies, songs, podcast. Which podcasting?- Dark net diaries-cyber security. Front end - free on youtube- next years. Learning?- documentation, videos, youtube channels, freecodecamp website. How do you get this confidence from by learning from youtube and no certificate?- if you have something to back, then you dont require this certificate. I am working on portfolio website where I have worked on some projects. Portfolio website is an elaborative resume-URL- individual would know the technologies that I have worked on. Applicant tracking system- key words in your resume. If you are unemployed - I would be disheartened, and then get hold of myself, upskilling myself, can go into freelancing, resume value addition. ENTC was my first choice- reason being- really early age- dismantling electronic stuff, what components are responsible for - currently not actively studying electronics. Then why front end and not ENTC career?- companies are looking for specialised individual and avoiding competition. Actually competition is high in IT- avoiding competition is not the solution, I will face it head on. Learning?- I use observation skills- my

Comments , if any	<p>Intro was traditional- school, location, grades are not important. Why engineering?- good in maths- then engineering, daughter is good in science then doctor. Traditional answer. Are you settled right now?-Yes. Parents had pressurised but it was a good pressure. So right now what is interesting in ENTC?- in assignments and attendance it is not as good as CS. But what do you find interesting in it?- small story- before speaking in hindi, ask permission and then continue. One good thing that developed in me that I used to dismantle (use this toy) and then see. What are the inside things of programming. Tech dev?-asked to repeat that question was good. Development of myself? It has developed consistency. Didn't understand that ans. How did the world change because of engineering?- it changed the world in a slightly good way and bad way. I can explain it through the example. At the age of 3, I used Nokia 2626 but no technologies but I use smart phone. It reduces our strength and sight power (matlab- this word in hindi is used). people connect has reduced. Strength- consistent, hard work, saying no politely, I will work under any condition. How are you so consistent?- I wasn't consistent before. I now follow a timetable. Make a timetable daily not for a month. Story. Roushan is good at giving examples and story telling. Overthinking irritates me. Some sort of overthinking- placement hoga ki nahi, even if you do smart work</p>	<p>Intro- family and sibling, location, hobbies- music. Feeling relaxed - music. ENTC - preferred comp and IT. Do you see a scope in ENTC?- here equipments are not nice and there is no dev. All people are studying for comp and IT. What are you studying?- Web dev. If mech had more jobs and no jobs in ENTC, Comp and IT- Then I would do further study. Dev?- Data science. What does it mean?- I don't know. Data science is AI. Data of analytics. Suggestions of friends in facebook. Strength- if interested then you can work hard, passionate, dedicated. Faced some situations of poor dedication?- project- all the people were not interested. Only we both completed the project. Angry?- not angry but it's part of life. If similar people come, - assign small tasks to them. 2 offer letters?- will check growth of company, will speak to some employees, linkedin. Any weakpoint?- little shy, can't say no. Tough situation- covid time- exams used to be postponed repeatedly and I used to be frustrated again. I left the study. How do you organise yourself?- fix the time for particular work, break my slots and break my time.</p>

Comments , if any	<p>Intro was good and complete. Data science. Singing. Why engineering?- initially I wanted to be a model. Brief idea about career to earn some good amount of money. From engineering you can enter into any field. Later on I realised it is my cup of tea. I am now interested. I found out diff tech- engineering is about solving problems. You have to come up with innovative and new ideas. How people are designing new tech. I read papers that are into new fields and I can be a part of this domain. Good communication skills and good body language. Hobbies changed personality?- Initially I needed some help. If I sit back and take a notebook and write it, if I cant come up with solution then I play basketball or read a short story or singing loudly and helps to calm down temper. Problem statement is not that bigger as I look into it again. What makes you lose temper ?- cloud of overthinking and expectations. Gave example of an assignment. Teacher didnt give full marks. I have learnt to be independent and you cant control others. You can control yourself. Buddha story- student 132 speaks a lot and says he is right. Buddha asked to take a resolution. Just be silent. 170</p>	<p>Intro- web developer, problem solving, 2 projects - gym website, car racing game. Working on becoming full stack dev, books on Indian spirituality, helps me to develop perseverance, optimism, calmness, focus. Karmyog- present is result of past karma. Efforts of present will materialise in future- coding, lab practicals. Scores?- 8.5 and this time it was 7.5 need to work on it. Why ENTC?- Good in maths. PCM in 12th. JEE- as per score I got ENTC. Till 10th, I was interested in biology. I wanted computer science. Eye contact has to be better. Om Swamy is my inspiration- Rishikesh- disciplined man, multimillionaire person now a saint. At age 30, he became a monk. He is always state in bliss. What makes you calm?- everything is illusion or maya. Someone is rude to us. It is only sound vibration. I should not become angry because of sound vibration. Dont take mental stress for what is not real. Swamy - Mind Mysteries and control. - Swami SHivanand. How will you deal with people around you who will spoil it for you?- explain the benefits and then we can have party. I will complete it myself (dont say that. Not good for team work). Weakness- struggling to wake up early at 3.15-you can do Kumbhak Pranayam- then you can wake up early. After waking at 3, study for 2 hours. What is your salary expectation?- 2 lacs per month. Anything less than</p>

Comments , if any	<p>Like said a lot. Computer prog. Coding quite active. Tendency to apply what I learn. Eye contact is not on interviewer. Recent coding mentioned. Family details not required. Question was prof and pers goals. Want to go abroad. Personal goals was missing. Want to be in MNC. In India, research is not good in India. Would you like to take this job since we cant send you overseas? - you need capital. He wants to clear CDS. Which career path is what you wish should happen?- Defence- my father. Discipline example- abhi to kafi kharab ho gaya hai. And mentioned the entire ans in hindi. Hostel life has messed it up. What is so attractive about hostel life that discipline does not look attractive? - all hostel activities. Time management- u think twice before reacting. U can use the word prioritising. Inspired person - one who can be leaders. Leadership quality you have- all leadership events from childhood. SHould mention qualities. Weakness- easily available. Difference between Lucknow and Pune- not able to connect with people outside due to language barrier but can connect outside. 3 reasons why to hire you- always prioritise my task, mission and vision of company then 100% I will give to the company, All answers are well within time and he is smiling and responding to all answers. Dont look up and think - feedback</p>	<p>Intro- technical intro. Skills and qualities missing. What qualities do you have- sports, team, handle pressure well. Example of pressure?- Kota. Why comp science? - I got it so I am doing it. I didn't know before. Now I know it is futuristic and develop many things in a few seconds. Stable body language. NOT too hyped. Machine learning attracted me. Achievement and mistake?- Can I get a minute. Dont look up and think. Mistake - pandemic time waste. Challenging situation- most people would give up. Fahad seems like an honest guy. No job for 1 year what would you do?- Explain in details. Look for seniors who will guide. Explain the role in your internship and give all details. He is smiling and speaking. GK- he knew one and didnt know one. I used to know when I was in 10th std. Politics is bad for mental health- AIT experience. Altrenative career?- Snger. Sang sportively</p>

Subject: Closure report - "Cracking job Interview Program Adv" for TE students of AIT by Centerpoint4skills

Hello Prof Manoj Sir,

Please find given below the Closure report on conduct of "Cracking job Interview Program (CIP)" by Centerpoint4skills (refining careers)

Cracking job Interview Program (CIP) @ Centerpoint4skills (refining careers)

Date and Time - 08 Mar (4-6 PM) and 10 Mar 22 (4-6 PM)

Average Participants per day - 20

A - Conduct

1. The four lecture Program was conducted in lucid manner with numerous examples under four major modules ie
 - (a) CV Writing – The lecture covered finer points of aligning the CV to the Job Description (JD), recruiters mindset, steps to write a powerful CV, power of networking and LinkedIn
 - (b) Non Verbal Communication during Recruitment process - The lecture comprised aspects of non verbal communication in view of F2F or VC based interview as well as during Group Discussion
 - (c) Facing an Interview (02 lectures) – The two lectures covered reasons for poor performance, types of interviews, types of Questions – behavioural and situational, steps to prepare for interview, STAR methodology to answer questions, Introduce yourself, frequently asked Questions and activities during Interview day
2. WhatsApp Group – A WhatsApp group was created and articles were posted on a regular basis
3. Engaging activities – Brain teasers, small videos were also conducted during the lecture

B - Feedback - Feedback was taken after every day's lecture (on a scale of 1 – 5, 5 being the highest). 35 responses were received and average feedback score received is **4.51** on scale of 5 implies that they found the language, speed and content highly satisfactory

Comments – Some of comments received in the feedback are as given below :

- The lecture was quite helpful to understand the selection process of companies

- The lecture was very amazing and knowledgeable

- A knowledge gaining lecture

151

- It was very impressive

400

- Very knowledgeable and good session

EVENTS & ACHIEVEMENTS

International Yoga Day 2019

Since its global recognition as an international observance in 2015, the summer solstice of June 21st has been synonymous with the celebration of Yoga Day. This ancient Indian discipline, revered for its holistic approach to well-being, continues to captivate the world with its promise of unifying body, mind, and spirit.

In a vibrant celebration of unity and well-being, the Sports Club of Army Institute of Technology embraced the spirit of International Yoga Day on June 21, 2019.

AIT/1548/Notices/Spiritual

Army Institute of Technology

Dighi Hills, Pune-15

NOTICE

Spiritual Club of AIT is celebrating "INTERNATIONAL YOGA DAY" on 21st June 2019(Friday). All Students, Faculty and Nonteaching staff members are requested to attend and grace the event at RAMAN THEATER, 7.15 am to 8.15 am. Please wear appropriate attire and bring yoga mats to perform asana.

Thank you

Prof. Anup Kadam
Spiritual club In-charge
