

AICTE Invites Applications from Engineering Students for 6-month Free Online Internship, Participants to Receive Certificates

AICTE and Pupilfirst are offering a 6-month free online internship called “CoronaSafe Engineering Fellowship” to engineering students. AICTE and Pupilfirst have signed a Memorandum of Understanding (MoU) to offer a 6-month free online internship called “CoronaSafe Engineering Fellowship” to engineering students.

AICTE and Pupilfirst, through the national fellowship programme, aim at identifying top 30 Indian students in the software engineering for an industry-led training to become full-stack developers and volunteer as the national engineering leadership cadre for public service.

Engineering students who are above 18 years of age and have written at least some amount of code on either personal projects or college projects by themselves may apply for the internship. The internship consists of 120 hours of study and programming that will be conducted for 10 weekends. Students will also be introduced to ask me anything sessions with industry leaders and will receive a certificate upon successful completion of the programme.

Benefits of Taking the AICTE and Pupilfirst Online Internship Programme

- ♣ Participants will be able to build real-world and modern web apps as well as create open-source software.
