To: IT Faculty <itfaculty@aitpune.edu.in>

Dear Sir/Madam,

We are pleased to inform that Army Institute of Technology is organizing a State Level Faculty Development Programme on “Advances in Machine Learning and Image Processing” under quality improvement program of Savitribai Phule Pune University for the teachers and faculty members of universities, science and engineering colleges. This faculty development programme is devoted to recent developments and research outcomes related theoretical and practical aspects of machine learning and image processing techniques.

The programme will be conducted by faculty members from IITs and industry. Live demo and practical session will be the part of the course.

We look forward to receive entries from faculty of your esteemed College/ Institution.

FDP Date: 08th to 10th Feb, 2016

Registration Fee: Rs 750/-

Visit aitpune.com for registration and further details.

THE PROGRAMME

Department of Information Technology of AIT is organizing one week Faculty Development program on "Probability and Statistics for Machine Learning and Deep Learning" from 5th December 2017 to 9th December 2017. In this FDR, the most effective machine learning techniques will be discussed. The participants will gain the "know-how" needed to apply these well-known techniques to new problems. The various sessions will provide a broad introduction to machine learning and deep learning. Application of various learning algorithms will be discussed through case studies and problem solving methods.

ABOUT AWES

Army Welfare Education Society is an Indian Army governed organisation which manages and ensures good quality and affordable education facilities to Indian Army wards. Established in 1983, AWES has grown and now running over 128 Army Public Schools and 239 Army Pre-primary schools and 11 institutions of higher education across India.

ABOUT AIT

AIT was founded in 1994, as a result of the vision, and untiring efforts of Late Gen B.C. Joshi PVSM, AVSM, ADC for the children of all ranks of the Indian Army. The beautiful campus, serene ambience and architectural splendour, state of the art infrastructure, all provide vital ingredient for a delectable academic environment for development of total quality engineers. AIT is ranked at No. 77 by NIRF across India. AIT has won best college award in technical category for year 2016-17 by SPPU. AIT runs BE courses in Comp. Engg., IT, Mech., E&TC and PG course in Machine Design. All courses are affiliated to SPPU.

Army Institute of Technology
Dighi Hills, Pune - 411015
(NAAC 'A' Grade & NBA Accredited)

THE PROGRAMME

Department of Information Technology of AIT is organizing three days Faculty Development program on "Practical Approaches of Artificial Neural Network and Deep Learning" from 17th December 2018 to 19th December 2018. In this FDP, the most effective deep learning techniques will be discussed. The participants will gain the 'know-how' needed to apply these well-known techniques to new problems. The various sessions will provide a broad introduction to artificial neural network and deep learning. Application of various learning algorithms will be discussed through case studies and problem solving methods.

ABOUT AWES

Army Welfare Education Society is an Indian Army governed organisation which manages and ensures good quality and affordable education facilities to Indian Army wards. Established in 1953, AWES has grown and now running over 128 Army Public Schools and 239 Army Pre-primary schools and 11 institutions of higher education across India.

ABOUT AIT

AIT was founded in 1994, as a result of the vision and untiring efforts of Late Gen B.C. Joshi PVSM, AVSM, ADC for the children of all ranks of the Indian Army. AIT has completed 25 years of excellence and is celebrating this year as it's Silver Jubilee year. The beautiful campus, serene ambience and architectural splendor, state of the art infrastructure, all provide vital ingredient for a detectable academic environment for development of total quality engineers. AIT is ranked at No. 88 by NIRF in 2018 survey. AIT has won the best college award in technical category for year 2016-17 by SPPU. AIT runs UG courses in Comp. Engg., IT, Mech., E&TC and PG course in Machine Design. All courses are affiliated to SPPU.

ABOUT DEPARTMENT

The Department of Information Technology was established in the year 2001 with an intake of 60 students. The vision of department is to become a center of excellence and to produce high quality, creative and ethical engineers and technologists, contributing effectively to modern information society. The department is pioneer in establishing CSI and NPTEL students chapter as well as IEEE student branch.

WHO CAN ATTEND

Research scholars, industry personnel and faculty members from various Engineering Colleges from all departments are eligible to attend the programme.

SESSIONS

- 1) Quick Introduction to Python, Git and Github, Linux tools like tmux, Cloud setup (if required) NVIDIA Platform - Drivers, CUDA etc.
- 2) Introduction to Neural Network, Backpropagation
- 3) Hands-on Session - Neural Network using Python
- 4) Introduction to Deep Learning Ecosystem with Frameworks
- 5) Convolutional Neural Network, Pretrained models, Transfer Learning etc.
- 6) Hands-on Session - Image Classification of MNIST using DIGITS platform (CNN and optimization) and Transfer Learning
- 7) Introduction to Recurrent Neural Network
- 8) Demo video of simple RNN example
- 9) Deep Learning - Live Project Discussion

To,

Mr. S A Jadhav & S S Sakhlikar,
RTTC BSNL Chinchwad Pune

Dear Sir,

We sincerely wish to thank you for readily accepting our invitation and delivering an expert Lecture on "Recent Trends & opportunities in Telecommunication Industry for E &TC students" for TE (E&TC) students of this institute.

Your expert lecture was well received by students and they were highly benefited with your experienced and knowledge based inputs. The fundamental concepts presented by you will definitely help our students to achieve their highest watermark in the domain.

We are indeed, deeply indebted to you for sparing your valuable time for this event and look forward to the same favourable support in future.

Thank You Once Again.

Warm Regards

Ambarish S Natu

Dear Sir,

We sincerely wish to thank you for readily accepting our invitation and delivering an Guest Lecture on "JPEG Emerging Standards" for TE (E&TC) students of this institute.

Your Guest lecture was well received by students and they were highly benefited with your experienced and knowledge based inputs. The fundamental concepts presented by you will definitely help our students to achieve their highest watermark in the domain.

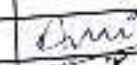

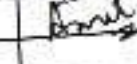

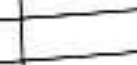

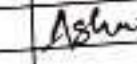

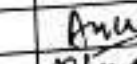

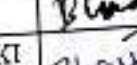

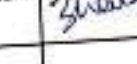

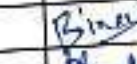

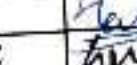

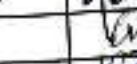

We are indeed, deeply indebted to you for sparing your valuable time for this event and look forward to the same favourable support in future.

Thank You Once Again.

Warm Regards

Dr. G R Patil

Report on Industrial visit

Industrial visit was carried out at Pune Techtrol, Bhosari, MIDC on 04th August, 2017 especially for Second Year E&Tc students. The main objective behind the visit was to make student aware about how various activities related to Level sensor based instruments and its application in Industry and human resource are carried out in company.

We along with 60 students left for visit at 1000Hrs and took about half an Hour to cover the distance. The company is located in Bhosari MIDC in Pimpri city.

As soon as we reached company we were guided by Mr Mohite to Seminar Hall for PPT presentation. Mr. C N Shukla gives us a very nice presentation on sensor and its application in industry and house hold purposes. After PPT C N Shukla took us to shop floor to see the manufacturing process of different level sensors. Then we were guided by Mr Mohite to canteen for a cup of Tea.

After introduction all students were divided in two groups of 30 students and were headed by one manager of company who helped them to understand how production is carried out in company and how company reach their customer. Maximum production in company is carried out by means of machinery subdivide in various activities like inception of raw material, mixing process, making jackets, covering the product and then converting it into finished goods. Finally finished goods are packed and are sealed where production batch no is embossed for its future verification required.

Company defective ratio is less than 1 percent which show the how effective company works.

We took almost an hour to see complete set of production which was followed by questions of students. I appreciate staff member who guided students with each and every question with detailed answers.

It is rightly said that "See & know" is better than "read & learn". Students have got real feel of company's working after this visit.

They got a chance to transfer their theoretical knowledge to practical implication. This will even help students to understand subject matter clearly in future also.

I along with student would like to extend our gratitude to company for Permission and support they gave to make our visit a success with accomplishment of objective.

Thanks

Army Institute of Technology, Pune

Department of Electronics & Telecommunication Engineering

Report on Microwave Semiconductor Solid State Devices

Name of Activity : Expert Lecture

Date (s) : 11th September 2017

Venue : Seminar Hall

Resource Person(s) : Prof. Dr. S.S. Chorage

Organisers : Snehal Marathe & Harjeet Kaur

Attended by : BE(E&TC A&B)

Number of Participants: 110

Brief description of the activity:

- i) Explained regarding General Tubes.
- ii) Microwave Devices (Klystrons & Magnetrons) & their applications
- iii) Microwave Solid State Devices (Transistors & Diodes) & their applications.

Outcomes :

- i) Understand the working principles of all the solid state devices
- ii) Choose a suitable microwave tube and solid state device for a particular application

Photographs (Max 4) :

Encl.:

- i) Invitation & appreciation letter
- ii) Attendance
- iii) Feedback
- iv) Soft/hard Copies of material provided
- v) Soft copy of photographs

Report on Industrial Visit

Name of Activity :Industrial Visit

Date (s) :13th September 2017

Venue :M/S Madhav Capacitors, Bhosari, Pune

Resource Person):Mr. N. V. Tagare

Organizers :Dr P B Karandikar, Mr Sangamesh and Mr. Deshmukh

Attended by :SE (E&TC) Div A

Number of Participants: 25

Brief description of the activity and outcome:

- i)An Industrial Visit was arranged as part of the subject Electronic Circuits and Machines and Mini project for the Second Year Students.
- ii)Live demonstration of various capacitor manufacturing facilities was given.
- iv) Students gained knowledge about capacitor manufacturing. Later on students were shown some 50 MSI and SSI industries from outside so that they can approach them for internship, job in near future

Report on Industrial Visit

Name of Activity : Industrial Visit
Date (s) : 13th September 2017
Venue : RD Electrocircuits Pvt.Ltd. Gat No.69, Jyotiba Nagar,
Talwade, Pune-411062
Resource Person(s) : Mr. Girish Chavan
Organizers : Prof. Preeti Warriar, Prof. Sharada Patil
Attended by : SE (E&TC) Div A and B
Number of Participants: 61

Brief description of the activity and outcome:

- i) An Industrial Visit was arranged as part of the subject Electronic Devices & Circuits and Mini project for the Second Year Students.
- ii) Live demonstration of various electronic components and PCB assembling was given.
- iii) Following steps were shown in PCB assembling process:-
 - (a) Short Information related to electronic components store room.
 - (b) Multilayered PCBs and information regarding layered PCBs.
 - (c) Components Lid cutting
 - (d) Component mounting on PCB
 - (e) Wave Soldering of component using machine
 - (f) Soldering of components manually.
 - (g) Various special purpose machines.
 - (h) Testing (functional/blackbox methods)
- iv) Students gained knowledge about different electronic components and got an insight into how PCBs are manufactured according to customer's requirements.
- v) Students got the knowledge of developing PCB for projects.

Report on VLSI Design and Technology and its industrial approach

Name of Activity : Guest Lecture

Date (s) : 23.09.17

Venue : B. C. Joshi Hall

Resource Person(s) : **Mr. Kumarraj Gundalwar**

Organisers : Mr. Avinash Patil and Mr. Sandeep Kumar Mishra

Attended by : BE E&TC A & B Divisions

Number of Participants: 74

Brief description of the activity and outcome:

- i) Discussed on Pre and Post silicon validation of ICs
- ii) Explained all the steps and techniques necessary to design an idea into the final VLSI Chip.
- iii) Focused on importance of Synthesis, Placement and routing in the Chip design
- iv) Explained with example about important checks like DRC LVS, timing constraints and testing method.

Outcomes:

- i) Students are able to differentiate between procedures of VLSI IC design.
- ii) Students are able to explain about DRC, LVS, Timing Constraints and Meta-stability in IC designing.
- iii) Students can explain about the importance of Post silicon validation process.

Report on Departmental Day Of Electronics and Telecommunication

Name of Activity : Departmental Day Of Electronics and Telecommunication

Date (s) : 23rd September 2017

Venue : Army Institute of Technology

Resource Person(s) : -

Organizers : Prof. Sushma Raju Wadar

Attended by : Director, Principal, HsOD, Faculty from Computers, Information Technology, Mechanical Staff and Students of E&TC

Number of Participants: Director, Principal, HsOD, Staff and Students of E&TC, IT, Comp and Mech faculty.

Brief description of the activity and outcome:

The first-ever Departmental Day of Electronics and Telecommunication department was organized on 23rd September 2017.

The event started with the inauguration ceremony which included the lightening of lamp by Director sir, Principal sir and all HODs, Saraswativandana by Ananya of SE E&TC. The day commenced with our HOD, Dr G.R. Patil, welcoming all the dignitaries, faculties, staff and students following which was an overview of our department, detailing the various achievements of our faculty and students. Then a departmental movie was shown. It covered many things including the accomplishments of the students and staff, our victories in past Aakritis and our outstanding alumni. The achievement of student and staff was reflected through presentation. Then a prize distribution ceremony was held where the students were given awards for an assortment of achievements. This was followed by impressive musical performances both by the students and staff. A project exhibition was organized to showcase the ingenuity and technical know-how of our department. Fun games and events were organized for both faculty and staff. Finally, the day ended with refreshment to students and staff.

Name of Activity : Guest Lecture
Date (s) : 28th September 2017
Venue : BCJ Hall
Resource Person(s) : Dr. Y Ravinder
Organizer's : Ms. Dhanashri Patil, Ms. Pragati Rana
Attended by : TE (E&TC A&B)
Number of Participants : 110

Brief description of the activity :

- i) Transmission line parameters, equation.
- ii) Distortion less line condition, SWR, reflection coefficient.
- iii) Implementation of parameters on smith chart.

Outcomes :

- i) Understand the working principles of transmission lines
- ii) Understand to calculate parameters of line with and without graph.

Report on Expert Lecture

Name of Activity : Expert lecture on Electronics Devices
Date (s) : 26 Jun 2018
Venue : Lecture Hall No. 9, E&TC Department
Resource Person(s) : Mr. Rajendra Kumar, Made Easy, Gate classes, Pune
Organizers : Dr. G.R.Patil
Attended by : SE (E&TC)

Number of Participants: 55

Brief description of the activity and outcome:

- i) An Expert lecture was arranged as part of the subject Electronic Devices & Circuits for the Second Year Students.
- ii) Speaker had covered following points:
 - a) Importance of MOSFET in today's Digital Industry World
 - b) Deep explanation of basics of PN junction and diode
 - c) Explanation of MOSFET and MOS capacitor working
 - d) Importance of Analog subjects and Devices in preparation of GATE
 - e) Introduced about made easy GATE Classes
- iii) Students get the knowledge and importance of Analog subjects for higher studies in core E&TC

Attended by : TE (E&TCA&B)
Number of Participants : 108

Brief description of the activity :

1. Tips for making a great university application
2. Insights into the GRE
3. Finance options available
4. Best countries to pursue MS/PhD
5. Job opportunities in US

Outcomes :

- i) To understand correct time to start preparation for competitive exams.
- ii) To make aware about opportunities to get job after higher study and stipend during the course.

Report on Industrial Visit

Name of Activity : Industrial Visit

Date (s) : 30th July 2018

Venue : RDElectrocircuits Pvt. Ltd. Gat No.69, Jyotiba Nagar, Talwade, Pune-411062

Resource Person(s) : Mr. Girish Chavan

Organizers : Dr. Harjeet Kaur, Prof. Sharada Patil

Attended by : SE (E&TC)

Number of Participants: 46

Brief description of the activity and outcome:

- i) An Industrial Visit was arranged as part of the subject Electronic Devices & Circuits and Mini project for the Second Year Students.
- ii) Live demonstration of various electronic components and PCB assembling was given.
- iii) Following steps were shown in PCB assembling process:-
 - (a) Short Information related to electronic components store room.
 - (b) Multilayered PCBs and information regarding layered PCBs.
 - (c) Components Lid cutting
 - (d) Component mounting on PCB
 - (e) Wave Soldering of component using machine
 - (f) Soldering of components manually.
 - (g) Various special purpose machines.
 - (h) Testing (functional/black box methods)
- iv) Students gained knowledge about different electronic components and got an insight into how PCBs are manufactured according to customer's requirements.
- v) Students got the knowledge of developing PCB for projects.

REPORT ON "DESIGN THINKING WORKSHOP"

Name of Activity : Design thinking Workshop
Date (s) : 16th and 17th August 2018
Venue : AIT Robotics Club
Resource Person(s) : Mr Hemant Karandikar , Head of Strategy and Branding, Design Directions
Organisers : Prof. Avinash Patil (AIT Robotics Club Incharge)
Attended by : SE & TE E&TC Students
Number of Participants : 27

Brief description of the activity and outcome:

- i) The said workshop is on design thinking for development of any project from scrap.
- ii) To give opportunity to the students to view a problem from different perspective and allow the students to delve into the problems to determine its root cause.
- iii) To encourage students for innovative thinking and creative problem solving.
- iv) To make students ensure that the final outcomes meets objectives and all requirements.
- v) Student will be able to solve problems and develop new projects with better understanding.
- vi) Knowledge about designing and development of a product for industrial and commercial uses.

LETTER OF APPRECIATION

We sincerely thank to **Mr. Awdhesh Kumar Singh, Sr. Engg. of Bharat Electronics Ltd, Bangalore**, for conducting guest lecture on **DSP & Radar System using VHDL** for students of TE E&TC on 01 Oct 2018 at Department of E&TC.

The guest lecture conducted by you was very much interactive and provided in-depth knowledge to our students.

Our sincere thanks to you for accepting, our invitation as a resource person & delivering a lecture for our students.

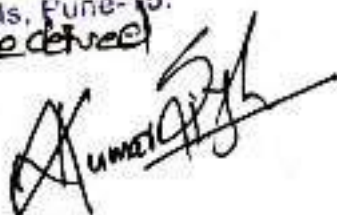

Thank you once again.

Duration : 10.30 am to 12 noon
Venue : B. C. Joshi hall
Class : TE E&Tc Div A and B

Dr. Gowdara Pandu, Founder & Chief Talent Mentor, TALENT Mentoring LLP conducted a motivational talk titled "Career Opportunities In Product Based MNCs", for TE E&Tc students (Div A and B) from 10.30 am to 12 noon. The speaker started the session with a very interesting activity where in students were asked to split in groups and were asked to communicate with team members in "silence". The students were asked to make a unique sound in unison. The activity highlighted the significance of communication, team building.

The speaker emphasized significance of career building in product based companies and motivated the students to make appropriate career choice and work towards the same with proper time management.

He told the students to identify their two strengths and three weaknesses and asked them to write the same and submit the paper to him. He welcomed students to approach him for any career guidance.

The session closed with highly motivational video of a father and son.

Students thoroughly enjoyed the session.

Dear Sir,

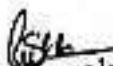

We sincerely wish to thank you for readily accepting our invitation and delivering a seminar on '**Automation Opportunities in Industrial Automation**' for SE & TE (E&TC) students of this institute.

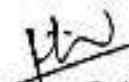

Your seminar was well received by students and they were highly benefited with your experienced and knowledge based inputs. The fundamental concepts presented by you will definitely help our students to achieve their highest watermark in the domain.

We are indeed, deeply indebted to you for sparing your valuable time for this event and look forward to the same favourable support in future.

Thank You Once Again.

Subject: Subj. : Your session on "Overview of IOT" at AIT, Pune

Dear Madam,

We truly appreciate your efforts to come all the way to AIT and to share your expertise with the students of E&Tc Department, AIT. The session on "Overview of IOT" was very well received and there were many takeaways - from awareness about "Gartner Services" to "Careers in IOT".

Once again I extend my sincere thanks for the session and we look forward to a long association with Ascent Intellimation.

Attaching herewith some photos from the session.

warm regards

shraddha oza

We started our activity in the field of magnetic engineering in 1993. We are manufacturing impulse Magnetizers, Demagnetizers and Computerized B-H curve measuring system called as Hysteresis Loop Tracer. Our all instruments / systems are custom built and meet to order, as we have limited customer base mainly in plastic bonded permanent magnet, using comparison instruments.

We have developed many types of custom built instruments some are as Follows. Q. A. instruments only.

- 1) Computerized Hysteresis loop tracer system.
- 2) Computerized X - Y Axis heavy machining system.
- 3) Magnetic Sensor as per user demand.
- 4) Electromechanical fixture and automated system for production unit line solution.
- 5) Automobile electrical as well electronics component test system.
- 6) Fully automated magnetic strip winding machine including magnetization, counting and contact less winding mechanism.
- 7) Universal controller for operation and programming.

Some of our clients And system supplied by us are as follows.

- 1) Ajay Poly India Pvt. Ltd. (Delhi) Pioneer in magnetic strip manufacturing from last 40 years +.
- 2) Bentelor Automotive India Pvt Ltd automation and heavy machine.
- 3) R&D Egg Dighi. (DRDO Pune), VRDE Ahamadnagar.
- 4) Continental Automotive India Ltd. Pune leak testing system. Fuel system calibration system.
- 5) South-co India Pvt. Ltd Ranjangoan. Assembly line machine.
- 6) Tata Consultancy Services Software simulation system. (single vendor for electronics dev)
- 7) Spaco Technology India PVT ltd ,Fuel measurement system, electronics controller.
- 8) Trident Info sol Pvt Ltd (Bangalore) Gun Tracking and target hunting system for India Army.
- 9) MNEPL (M&M Chakan) DC Power Distribution System, engine temperature control system.
- 10) Bekaert India LTD. Ranjangoan . welding fixture and welding machine for thread.
- 11) Cikautox India PVT ltd. Talegoan.
- 12) Bonfiglioli India PVT Ltd Chakan.

Activities other than manufacturing.

- 1) Development of electro-Mechanical system as per customers requirement
- 2) Providing solution for production increasing, test and measurement requirement in electronics field.

Dear Abhijeet,

Good Morning!!

Thanks a lot for the session yesterday on "IOT Tools and technology". The session was extremely interesting and there were quite a few takeaways. The demonstration of the IOT system has created a lot of enthusiasm among us.

We did discuss a plan to take things ahead. I am putting it down as follows. Please confirm and suggest changes if any.

"Association of CopperCloud technology Pvt. Ltd. with E&Tc Dept., AIT "
Long term objective : IOT Lab development

1. Students will submit "Use Cases" by Friday 2nd of August 2019
2. Mr Abhijeet will attend and discuss the same
3. The selected "use cases" will be put to execution for which Mr Abhijeet will provide mentoring.
4. Mr Abhijeet will visit the department for mentoring session once a week or two weeks.
5. The faculty will facilitate the students - CopperCloud connect and ensure smooth working .

Put up for your suggestions

India is fast emerging as a world power in Information, Communications Technology and Electronics (ICTE) sectors. To complement its growth and further development, there is an ever-increasing need for trained professionals with specialization in this space. This includes training of professionals not only in existing and changing technologies but also in the fields of R&D and electronics manufacturing. This will specifically be aimed at the ICTE sector to create a substantial resource pool of talent and generate ample opportunities for entrepreneurs. Ministry of Electronics & Information Technology (MeitY) has approved a scheme and setup Electronics and ICT Academies at 07 (seven) institutions viz. IIT Guwahati, IIT Kanpur, NIT Warangal, NIT Patna and IIITDM Jabalpur (all five under Category-A); and IIT Roorkee, MNIT Jaipur (both under Category B). The Ministry had earlier setup two ICT Academies at Tamil Nadu and Kerala respectively. Estimated cost and targets for the Electronics and ICT Academy in the two Categories for a period of four years are as under:

श्रेणी	विश्वविद्यालय	विश्वविद्यालय/संस्थान	विश्वविद्यालय/संस्थान	विश्वविद्यालय/संस्थान
श्रेणी-A	सि. प्रविश्वविद्यालय	सि. प्रविश्वविद्यालय	सि. प्रविश्वविद्यालय	(सि. प्रविश्वविद्यालय)
श्रेणी-B	सि. प्रविश्वविद्यालय	सि. प्रविश्वविद्यालय	सि. प्रविश्वविद्यालय	(सि. प्रविश्वविद्यालय)

These Academies are aimed at faculty/mentor development and upgradation to improve the employability of the graduates, diploma holders in various streams, through collaboration of States/Union Territories. Each Academy is being provided funding support for four years and is expected to generate revenue by charging fee and taking up other activities to meet the recurring cost in a gradual manner and become self-sustainable by the end of fourth year onwards. All these Academies will cater to the requirements of identified neighbouring States and UTs also. Brief information about all the Academies is available at : <https://meit.gov.in/esdm/scheme-financial-assistance-setting-electronics-and-ict-academies>

Activities of the Academies

- Faculty development for
 - Specialized training with hands-on on basic and advanced level topics for Engineering streams and
 - Domain based training on use of ICT tools and techniques for non-engineering streams
- Training and consultancy services for industry
- Curriculum development for industry
- Continuing Education programme for students / working professionals
- Design, Develop and Deliver specialized modules for specific research areas
- Providing advice and support for technical incubation and entrepreneurial activities

About Winter Courses

Faculty Development Programmes in core areas of Electronics and Information & Communication Technology (ICT) streams have been planned by academies for delivery during Winters (i.e., Dec'19 – Jan'20). All these Winter courses will be offered through National Knowledge Network (NKN) based Video Conferencing, with lectures delivered by invited experts from IITs, NITs, IIITs and other premier institutes/industries. In addition, local course coordinators at respective academies / identified remote centres will take care of sessions on design orientation/activity linked problems/ assignments/ case studies and quiz test(s). All ECT Academies will host the participants simultaneously along with some select remote centres all over our country, through NKN-VC Infrastructure. Candidates could attend the training programme at Academy locations or at identified remote centres as per the convenience. For registration participants need to apply to one of the Academies, however, they can attend the training programme at that Academy or any remote centre attached to that respective Academy, please refer to respective academy websites.

How to apply:

- A duly filled in application form in the prescribed form signed by the Head of the Institute to which the candidate belongs (along with demand draft/CBS-Cheque) should reach by post to the local coordinator of the participating academy.
- Government of India norms will be followed for SC/ST category participants.
- The application form along with the DD/CBS-Cheque can also be submitted in the online mode to Local Coordinator of the respective academy.

Note: Refer offering Academies websites for complete postal address and other details of Winter courses.

Report on Internship program at AIT, Pune

Name of Activity : Internship program in domain of IOT
Date (s) : 23rd Dec to 25th Dec. 2019
Venue : Programming Lab, E&Tc Deptt.
Resource Person(s) : **Mr. Abhijeet Deogirikar**
Organisers : Dr. G R Patil, Dr. Shraddha Oza,
Attended by : 12 (SE, TE & BE students) of AIT, Pune
Number of Participants : 12

Brief description of the visit and outcome:

Day 1

This session started at 9 am on 23rd Dec with very basic concepts on IOT and its various application areas which lasted till lunch break. Post lunch there was a hands on practice on integration of push button and driving a relay by using a transistor. This was all done by programming on Arduino IDE and implementing on node MCU. This session ended by 6 pm in evening.

Day 2

Session started by 9 am. We had a recap of what we had done in last session and moved forward on cloud and its connectivity theory till afternoon break. Director sir also interacted with us and gave valuable feedbacks. Post lunch we integrated a led with push button first and later upgraded the system by replacing led with relay and motor, then push button with an ultrasonic sensor. This session ended by around 7pm

Day 3

Session started by 9am. We had a brief recap and then integrated the motor thing again but this time we used MQTT to send message and run the motor remotely. Post lunch we integrated this motor on one board and sensor on other board and connected both to cloud using nodered. Then sensor data from one board was used to run motor on other board. All these data was further connected with grafana for data visualisation. And sql was used for generating a database to store all these data.

Dear sir

We are please to inform you that Mr Prateek Nagras, Robotics Consultant has shown his willingness to take a 2 hour introductory session on current paradigm in Robotics and Introduction to ROS.

Mr Prateek Nagras is young Robotics enthusiast and have done MS in Robotics and Embedded systems from FA university Germany and has 4 years of working experience in ROS. After coming to India he has started teaching ROS and Robotics to College students along with his work.

He has agreed to take a 2 hour session on 16 Feb 2020. I kindly request you to allow & Process permission for all the 1st, 2nd and interested students from 3rd year to attend the session at BCJ/Manekshaw Hall.

We at ROBU IDC lab would arrange the others accordingly.

Thanks & Regards

Deepak
