

DEBATE

The Debate, Dramatics, and Quiz club of the Army Institute of Technology conducted an all FE debate this Republic Day, i.e. 26th January 2020, to commemorate our nation's 71st Republic Day. The event was an amazing opportunity for the first years to come up and express their views and opinions on various different issues from student involvement in politics, capital punishment to upgrading the education system of the country. The event saw mass participation from FEs of all branches. The event also inculcated a sense of good communication skills in them that would prove really vital for them in the years to come!
