Testimonials

Really enjoyed the Vibrant
A I T. Great Staff and Students!!

MS Unnikrishnan
MD., Thermax

It is really heartening to experience the knowledge and values that your esteemed institute has inculcated in your students. ZS feels proud of the impact that your students have created and we would like to Thank You for the association.

ZS Associates

Thank you very much for your support and involvement in the successful completion of our campus to corporate programs.

Wabco India Ltd, Chennai

We acknowledge the assistance and enthusiasm provided by placement cell of AIT while executing Barclays Connect Work Program with NASSCOM Foundation and appreciate the sincerity and dedication exhibited during this association.

Global Talent Track Pvt Ltd

Amid unparalleled disruption, something remains unchanged and this is comforting. One of the constants is Your support in executing our programs to help students discover their strengths. I am grateful for your continued commitment. You play a significant role in shaping the future by mapping talent to potential.

Mr Vikas Gupta
MD-Talent, Deloitte Consulting

AIT registers wonderful performance in each activity such as FDP, Campus Recruitment and Training. Very bright future.

Mr Viren Joshi
MD, Sigma Electric

Office of the Command Recruitment Officer bestows highest regards to your college, illustrious faculty and the students. It has been noted with great satisfaction that your college students take immense pride in joining defense forces and exhibit top level performance in SSB selection process.

Jai Hind and BhartiyaNausena Ki Jai!

Message from Director

Brig Abhay A Bhat (Retd)
M Tech, MPM, B Tech, FIETE

On completing 25 glorious years; AIT is entering the Academic year 2019-20, with great sense of pride for what we have achieved in the last 25 years, with a sense of excitement about scaling new heights and charting new territories.

In the silver jubilee year AIT had embarked on various ventures. The students conducted a Cycle expedition to Goa. Massive plantation drive resulted in plantation of over 2500 trees in the campus. The alumni meet was celebrated with special enthusiasm. Convocation, AIT Day and other such functions were celebrated with great fanfare.

AIT students scaled new peaks and created new records. Team of two students of Second year won the National ChhatraVishwakarma Award for their amazing innovation "Mosquito Detector, Counter and Alerter" amazing innovation. Another team of BE students of MechEnggDept won the KPIT Sparkle award for Rs. 10 lakh for their "Vertical Axis Turbine" design. Students proved their mettle in many hackathons and innovation competitions, giving teams from the famed IITs run for their money. It is no surprise that the average salary of campus placed students jumped by over 1 lakh (ie. from Rs. 5.9 lakh to over 7 lakh) in AY 18-19. AIT now stands in first two positions in Pune based on its placement records.

Industry partners continued their support, encouragement and guidance. AIT found new industry partners such as M/s Sigma Electronics, Forbes Marshall and Thermax Ltd to promote innovation and provide internships. AIT has also been selected by MHRD as one of the Institute Innovation Centers, and AIT will use this opportunity to further enhance the culture of innovation and entrepreneurship. Many AIT alumni, who are budding entrepreneurs have also come forward and joined this movement.

The momentum gained in the silver jubilee year needs to be sustained and further accelerated. Towards this, the role of our Industry Partners and enthusiasm of our students, will be essential. We are looking forward to a very exciting future, where more and more students work on innovations and breach new technological horizons.

Brig Abhay A Bhat (Retd)
Director, AIT

Message from Principal

Dr B P Patil
B.E., M.E., PhD
(Electronics Technology)

AIT has been national ranked 91 by NIRF amongst the engineering college categories in year 2019. AIT is one of the best private professional college meant for wards of Army personnel under the umbrella of University of Pune. Institution done very well at various front due to the insignificant contribution and efforts of staff, management and students.

Students of AIT are one of the preferred candidate by industry because of the nature of adaptability, strong communication skills and agile in nature. Institute take various steps to imbibe best personality and leadership skill in students by conducting various required sessions.

For all round development of students' number of event related to co and extracurricular activities are conducted in AIT. As result of this students are bringing laurels in number of Hackathons, technical competitions and in sports at national level. Students are encouraged to do internship, which help them to be ready for day one commitment industry.

AIT is always willing to interact with industry and outside world. This helps institution to bridge the required gaps. Institution has done number of MoU with industries and institution of repute.

Onward to Glory!

Sincerely,
Dr B P Patil
Principal, AIT

Message from Training & Placement Officer

Prof M S Khaladkar
M.E. Electronics

Dear Corporates,

We are thankful to all of you for extending the warm support in last 25 years of our journey. Though this occasion is to share our new placement dossier, I take the opportunity to appeal few new points.

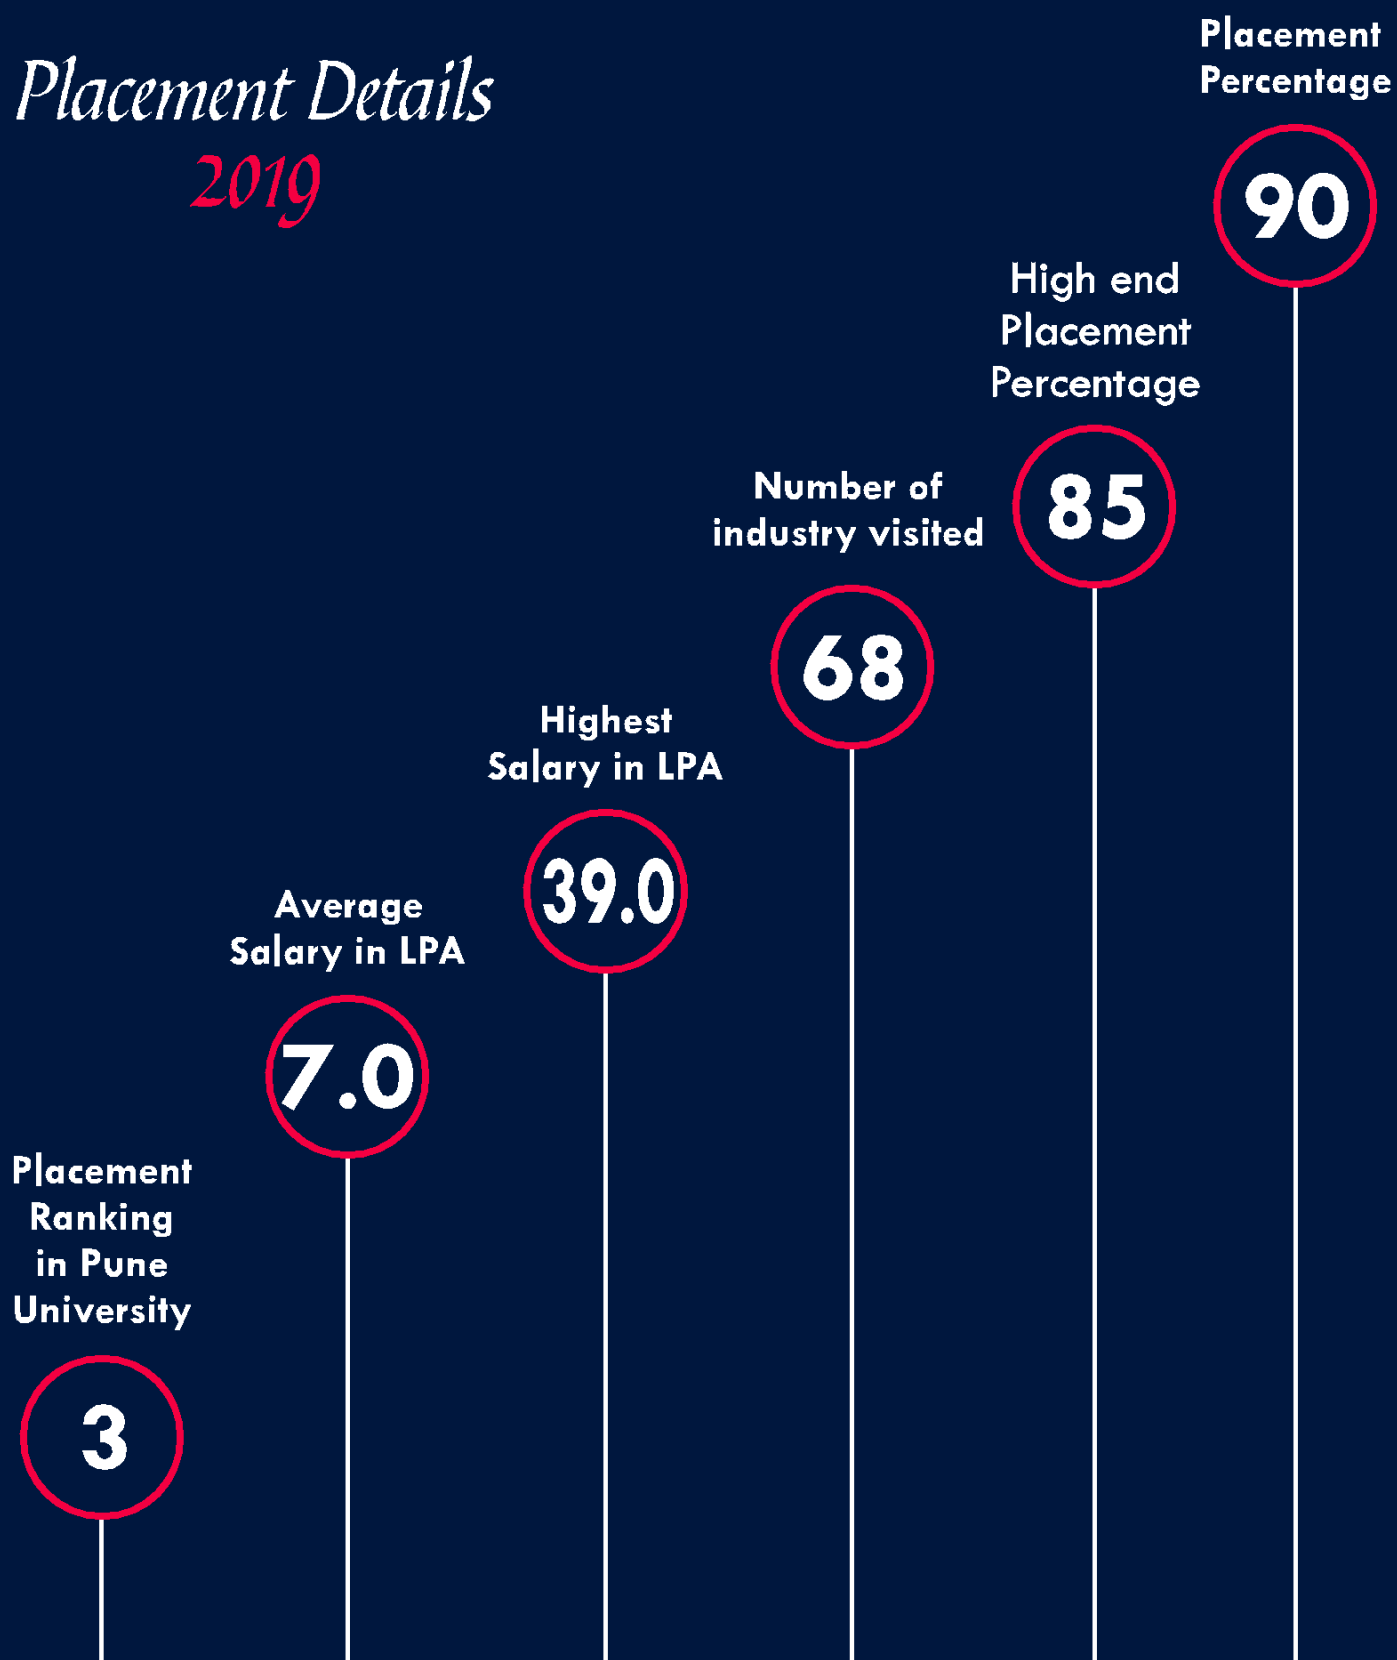

The combined market cap of 3 largest US firms—Apple, Microsoft and Amazon is equal to India's GDP. It means Indian industries need to transform themselves from services and consumption based economy to an innovation led economy. We, academicians, also need to stand with you with equal rigour. When we did a survey at AIT last year, to check the long term interaction of all industries visiting the campus, it was found that only 20% industries explore useful avenues like conducting value add workshops, technology training, coding & innovation challenges and model making competitions. 20% is a very less percentage. Our sincere urge for 80% of our valued recruiters is to establish strong connect from initial stages like orientation of first year candidates, till last year placement training.

Industry4.0 has brought sea changes in the environment and that has been reflected on freshers' hiring. Now, job descriptions, profiles and skill set expectations are changing from JAVA developer to Full stack developer. Thorough understanding of Big Data, Artificial Intelligence and Machine Learning is must. This gen Z of engineering community also needs to educate about emerging careers in Fintech, Capital Markets, Investment Banking, Virtual Reality, 3D Design etc.

For such awareness programs, eminent personalities from your organizations are warmly welcome. AIT candidates are your future employees. Let us join hands to prepare them well. With a request to consider AIT for 2020 batch placements, we finally expect some niche guidance on Entrepreneurship for Future Job Creators!!

Thanks and Regards,
Prof Manoj S Khaladkar
